Since his parents' divorce, John's mother hasn't touched him, her new fiancé wants them to move away, and his father would rather be anywhere than at Friday night dinner with his son. Hanging around the Boston Tower Records for the new issue of Escape Velocity, John meets Marisol and a hard love is born. While at first their friendship is based on zines, dysfunctional families, and dreams of escape, soon both John and Marisol begin to shed their protective shells. Unfortunately, John mistakes this growing intimacy for love, and a disastrous date to his junior prom leaves that friendship in ruins. Desperately hoping to fix things, John convinces Marisol to come with him to a zine conference on Cape Cod. On the sandy beaches by the Bluefish Wharf Inn, John realizes just how hard love can be.*

## Jews and Humor

*Purdue University Press Jews and humor is for most people a natural and felicitous collocation. In spite of or perhaps because of a history of crises and living on the edge Jews have often created or resorted to humor. But what is "humor"? and what makes certain types instances or performances of humor "Jewish"? These are among the myriad queries addressed by the fourteen authors whose essays are collected in this volume. and thankfully their observations always apt and often witty are expressed with a lightness of style and a depth of analysis that are appropriate to the many topics they cover. The chronological range of these essays is vast: from the Hebrew Bible to the 2000s with many stops in between for Talmudic texts medieval parodies eighteenth century joke books and twentieth century popular entertainment. The subject matter is equally impressive. In addition to rounding up*

many of the "usual suspects " such as Woody Allen the Marx Brothers and Gilda Radner these authors also scout out some unlikely comic resources like the author of the biblical book of Exodus the rabbinic writer of Genesis Rabbah and the party records star Belle Barth. Without forcing any of these characters into a pre-constructed mold the scholars who contributed to this collection allow readers both to discern the common features that make up "Jewish humor" and to delight in the individualism and eccentricities of the many figures whose lives and accomplishments are narrated here. Because these essays are written in a clear jargon-free style they will appeal to everyone-even those who don't usually crack a smile!

## Management across Cultures Challenges and Strategies

*Cambridge University Press* *Management practices and processes frequently differ across national and regional boundaries. What may be acceptable managerial behaviour in one culture may be counterproductive or even unacceptable in another. As managers increasingly find themselves working across cultures, the need to understand these differences has become increasingly important. This book examines why these differences exist and how global managers can develop strategies and tactics to deal with them. The text draws on recent research in anthropology, psychology, and management, to explain the cultural and psychological underpinnings that shape managerial attitudes and behaviours, whilst introducing a learning model to guide in the intellectual and practical development of managers seeking enhanced global expertise. It offers user-friendly conceptual models to guide understanding and exploration of topics and summarizes and integrates the lessons learned in each chapter in applications-oriented 'Manager's Notebooks'. ## Full Disclosure

## The Perils and Promise of Transparency

*Cambridge University Press Governments in recent decades have employed public disclosure strategies to reduce risks, improve public and private goods and services, and reduce injustice. In the United States, these targeted transparency policies include financial securities disclosures, nutritional labels, school report cards, automobile rollover rankings, and sexual offender registries. They constitute a light-handed approach to governance that empowers citizens. However, as Full Disclosure shows these policies are frequently ineffective or counterproductive. Based on a comparative analysis of eighteen major policies, the authors suggest that transparency policies often produce information that is incomplete, incomprehensible, or irrelevant to the consumers, investors, workers, and community residents who could benefit from them. Sometimes transparency fails because those who are threatened by it form political coalitions to limit or distort*

information. To be successful, transparency policies must place the needs of ordinary citizens at centre stage and produce information that informs their everyday choices.
