#### DISPATCHES FROM TALIBAN COUNTRY

---

**Penguin** "Raw, direct, and powerful...This work is vitally important."—Ken Stern, former CEO of National Public Radio As a captain in the Army National Guard, Benjamin Tupper spent a year in Afghanistan. Separated from most of his unit, Ben, along with his partner Corporal Radoslaw "Ski" Polanski, served in an Embedded Training Team, teaching, training, and leading into combat the green Afghan troops. But what they experienced went well beyond the assigned mission, and the war proved to be a mix of drudgery, absurdity, and ever-present dangers. Writing and recording from a remote outpost, Tupper began to share his stories with Americans back home. His boots-on-the-ground dispatches were broadcast on NPR's Morning Edition and published on Slate.com's military blog, The Sandbox. In *Greetings from Afghanistan: Send More Ammo*, Benjamin Tupper's chronicling of life under fire pulls the reader into the realities of war with poignancy, humor, and vivid reality, offering a unique and compelling firsthand view of the Afghan people, their culture, and a battle for survival that began long before the Americans arrived.

#### ROLE IN HUMAN DISEASES AND DRUG DISCOVERY

---

**Nova Biomedical** MicroRNAs are small non-coding RNAs involved in post-transcriptional regulation of gene expression. Thousands of miRNAs have been identified in different organisms including viruses, insects, plants and animals. MiRNAs has emerged as key regulators of important biological processes. The differential expression of miRNAs in various human diseases has made them potential candidates for developing novel therapies and personalized medicines. This book is focused on microRNA let-7, the second miRNA discovered in the year 2000 and one of the most studied miRNA. This book discusses various aspects of miRNA let-7 starting from its discovery, biogenesis, transcriptional and posttranscriptional regulation to its crucial role in various fundamental cellular processes such as development, stem cell maintenance and differentiation, regulation of signalling pathways in cancer, drug resistance and therapeutic potential in different human diseases.

#### HOW TO DESTROY SURVEILLANCE CAPITALISM

---

OneZero, Medium's official technology publication, is thrilled to announce a print-on-demand edition of *How to Destroy Surveillance Capitalism* by Cory Doctorow, with an exclusive new chapter. *How to Destroy Surveillance Capitalism* was first published online in August, where it was an instant hit with readers, scholars, and critics alike. For years now, we've been hearing about the ills of surveillance capitalism - the business of extracting, collecting, and selling vast reams of user data that has exploded with the rise of tech giants like Google, Facebook, and Amazon. But what if everything we've been hearing is wrong? What if surveillance capitalism is not some rogue capitalism or a wrong turn taken by some misguided corporations? What if the system is working exactly as intended - and the only hope of restoring an open web is to take the fight directly to the system itself? In Doctorow's timely and crucial new nonfiction work, the internationally bestselling author of *Walkaway*, *Down and Out in the Magic Kingdom*, and *Little Brother*, argues that if we're to have any hope of destroying surveillance capitalism, we're going to have to destroy the monopolies that currently comprise the commercial web as we know it. Only by breaking apart the tech giants that totally control our online experiences can we hope to return to a more open and free web - one where predatory data-harvesting is not a founding principle. Doctorow shows how, despite popular misconception, Facebook and Google do not possess any "mind-control rays" capable of brainwashing users into, say, voting for a presidential candidate or joining an extremist group - they have simply used their monopoly power to profit mightily off of people interested in doing those things and made it easy for them to find each other. Doctorow takes us on a whirlwind tour of the last 30 years of digital rights battles and the history of American monopoly - and where the two intersect. Through a deeply compelling and highly readable narrative, he makes the case for breaking up Google, Facebook, Amazon, and Apple as a means of ending

surveillance capitalism.

## PHYSICAL SCIENCES FOR NGSS

---

---

### STUDENT EDITION

---

*Physical Sciences for NGSS has been specifically written to meet the requirements of the Next Generation Science Standards (NGSS) for High School Physical Sciences (HS-PS). It encompasses all three dimensions of the standards (science and engineering practices, crosscutting concepts, and disciplinary core ideas), addressing the program content through a wide range of engaging student-focused activities and investigations. Through completion of these activities, students build a sound understanding of science and engineering practices, recognize and understand the concepts that link all domains of science, and build the knowledge base required to integrate the three dimensions of the standards to meet the program's performance expectations.*

## THE CRAZY COUNTRY CLUB

---

**iUniverse** *The line began forming after eight o'clock. Sal, short and heavy-set, kept everyone busy. Neat, in a white shirt and sports jacket, with his grey fedora cocked to the side, his crooked grin made you smile. Without warning the heavy door would swing open and the waiters would come outside to join him. They were dressed in pajamas or prison garb, with hats and horns, and were there to warm up the crowd. Some in line expected this, others were shocked. The pink polka dot building should have been a warning. Complete strangers in line became chummy, exchanging stories they had heard; toilet seat covers to serve drinks on, microphones in the ladies room, toilet paper for napkins. Most had brought their friends there to be roasted. The line of people varied in age. They all dressed casually because they'd heard you could get a pie in the face or a squirt in the eye. The club's routines were blue in color, but harmless. If you were lucky you might see a "Balls for the Queen" or a "Singing beer." The price was always right for a good time and Warm Beer and Lousy Food was the place to be.*

## SILENCE WITHIN AND BEYOND PEDAGOGICAL SETTINGS

---

**Springer Nature** *This book explores the significance of silence within and beyond pedagogical contexts. Silence is a complex and multidimensional phenomenon for everyday life: since schools mirror society, it is also significant in education. While silence can be experienced in a multitude of different ways, the author reflects on whether silence itself can bear a message: is there an aspect of dialogue in silence, or is it a language all of its own? This book examines a variety of silences essential for education, examining such topics as silence and aspects of power, silent students, and the relationship between listening and silence. Drawing on a range of empirical data, the author elucidates the significance of silence in pedagogical contexts.*

## SAVING SRI LANKA'S STREET DOGS

---

**Michael O'Mara Books** *'Janey is like a whirlwind of selflessness. A beautiful spirit in a beautiful country doing a beautiful thing. I encourage my children to be more 'Janey'. With more positive spirits like Janey, the world would be a better place.'* - Ben Fogle In 2014

and in her mid-twenties, Janey Lowes had been a vet for just two years when she left her home in County Durham and went travelling. Visiting Sri Lanka, she was horrified to see the state of so many of the island's dogs, in particular the three million strays. Over 5,000 miles from home, Janey decided there and then that she was going to move to the island indefinitely and do everything within her power to help them. She raised £10,000 to get started, setting up a charity called WECare Worldwide, and began work. Frightened, determined and excited all at the same time, she found a local who was willing to work with her and began scouring the streets for dogs in need. Some she patched up as best she could at the roadside, others she brought back and treated in a make-shift surgery she had cobbled together in her new home. With very little equipment, she and her small team came up with new and ingenious ways to treat the animals. In this highly inspiring and heartfelt book full of challenges and adventure, Janey introduces us to her world and the tireless work she carries out. As she says, 'I feel as though all these dogs are my dogs and I have a responsibility to them.' In it, we meet many of the colourful characters who have come to offer help, along with innumerable street dogs who have suffered all sorts of trauma and injury, only to be scooped up by Janey and her team and saved.
