**RECENT ECONOMIC DEVELOPMENTS**

---

**International Monetary Fund** This paper reviews economic developments in Suriname during 1994-96. In 1995, there was a major turnaround in Suriname's economic and financial situation following the expansionary fiscal and monetary policies pursued in the first half of the 1990s and the political and economic disruptions of the 1980s. The marked improvement was owing to the restoration of financial discipline, a strengthening of international bauxite prices, and the unification and subsequent stabilization of the exchange rate. The inflation fell further to less than 1 percent in 1996.

## **PROCESS MANAGEMENT IN SPINNING**

---

**CRC Press** A Straightforward Text Summarizing All Aspects of Process Control Textile manufacturing is one of the largest industries in the world, second only to agriculture. Spinning covers a prominent segment in textile manufacturing, and this budding industry continues to thrive and grow. Process Management in Spinning considers aspect of process management, and offers insight into the process control procedures and methods of spinning. Focusing on the technology as well as the management of the process, it examines both the economic and technological advancements currently taking place in the spinning industry. This text takes a close look at the advancing technology in manufacturing and process, and product quality control. It provides a basic overview of the subject, and also presents applications of this technology for practicing engineers. Incorporates Industry-Based, Real-World Examples The book contains 15 chapters that specifically address the stages of process control, energy management methods, humidification and ventilation systems basics, pollution management, process management tools, productivity, waste control, material handling, and other aspects of spinning mills. It also includes real-time case studies involving typical problems that arise in spinning processes and strategies used to contain them. The author provides a broad outlook on various topics including mixing, winding, raw material and optimizing raw material properties, bale management, yarn engineering systems, processing, and process management systems. He also details the defects associated with each and every process with causes, effects, and control measures. The book addresses process management as it relates to productivity, quality, and costs, as well as process control as it relates to man, machine, and material. Provides the scientific method for optimization/optimizing the properties of the fibers Familiarizes the reader with remedial measures to enhance the quality of the product Addresses productivity measurement and its role in controlling the cost of the manufacturing process Contains detailed examples, as well as linear programming and optimization techniques, and statistical applications Covers the areas of process control methods in spinning, defect analysis and rectification, improving productivity and quality, and using statistical tools Process Management in Spinning establishes the various process management measures required to help improve the process efficiency in spinning mills and the textile industry overall. Aimed at professionals in the textile industry, this text is a perfect resource for textile engineers/technologists/manufacturers, spin quality control engineers, spin quality assurance personnel, and other industry professionals.

## **POETIC THOUGHTS & MEDITATIONS FOR THE SOUL**

---

Life is full of challenges- no matter age, gender, religion, ethnicity, or occupation. Some days can be wonderful and rich with blue skies with rays of yellow, and in a single moment, dark clouds and stormy winds push you to the brink of despair! In those moments, we often find ourselves discouraged and in need of words that speak to the heart of the matter; and it is there that we get a glimpse of the smallest rays of hope, waiting to be put together like pieces of a fragmented puzzle. The question for us then becomes, wherein does this source of enlightenment stem? In this big little book, these simply penned words, steeped in hidden pathways, can have the ability to meet you where you are and change life's trajectory. No matter how deep the pit appears or how hot the fire burns, take comfort in knowing that this collection: Poetry Thoughts & Meditations for the Soul, are writings inspired just for you. One of the most powerful gifts we have is that of self-expression. So understanding how to build a practical and healthy sense of self does not end when we face adversity; it merely begins when we overcome it. Here a little, there a little, step by step! The creativity He inspires can become an integral part of our lives when we learn how to saturate ourselves in the Son-light. Your journey in the wilderness has been a tedious one. Won't you allow a force higher than yourself to sustain and refresh your soul? Come, eat, and drink from the fountain. I hope that within these pages, you find a breadth of depth in the infinite source you have never known before. On that foundation, that source will unleash within your inner self unconditional Love, Joy, Peace, and the Hope of a Lasting Legacy!

**ONE MAN'S SEARCH FOR THE WORLD'S TASTIEST PIECE OF BEEF**

---

**Penguin** The definitive book on steak has never been written-until now "Of all the meats, only one merits its own structure. There is no such place as a lamb house or a pork house, but even a small town can have a steak house." So begins Mark Schatzker's ultimate carnivorous quest. Fed up with one too many mediocre steaks, the intrepid journalist set out to track down, define, and eat the perfect specimen. His journey takes him to all the legendary sites of steak excellence-Texas, France, Scotland, Italy, Japan, Argentina, and Idaho's Pahsimeroi Valley-where he discovers the lunatic lengths steak lovers will go to consume the perfect cut. After contemplating the merits of Black Angus, Kobe, Chianina, and the prehistoric aurochs-a breed revived by the Nazis after four hundred years of extinction-Schatzker adopts his own heifer, fattens her on fruit, acorns, and Persian walnuts, and then grapples with ambivalence when this near-pet appears on his plate. Reminiscent of both Bill Bryson's and Bill Buford's writing, Steak is a warm, humorous, and wide-ranging read that introduces a wonderful new travel and food writer to the common table.

**THE NORDIC FEED EVALUATION SYSTEM**

---

**Springer Science & Business Media** NorFor is a semi-mechanistic feed evaluation system for cattle, which is used by advisors in Denmark, Iceland, Norway and Sweden. This book describes in detail the system and it covers five main sections. The first is concerned with information on feed characteristics, feed analysis and feed digestion methods. The second section describes the digestion and metabolism in the gastrointestinal tract and the supply and requirement of energy and metabolizable amino acids. The third section considers the prediction of feed intake and physical structure of the diet. The fourth section focuses on model evaluation and the final section provides information on the IT solutions and feed ration formulation by a non-linear economical optimization procedure. This book will be of significant interest to researchers, students and advisors of cattle nutrition and feed evaluation.

### SCRITCH SCRATCH

---

**Sourcebooks, Inc.** "This is a teeth-chattering, eyes bulging, shuddering-and-shaking, chills-at-the-back-of-your-neck ghost story. I loved it!"—R.L. Stine, author of the Goosebumps series For fans of Small Spaces and the Goosebumps series by R.L Stine comes a chilling ghost story based on real Chicago history about a malevolent spirit, an unlucky girl, and a haunting mystery that will tie the two together. Claire has absolutely no interest in the paranormal. She's a scientist, which is why she can't think of anything worse than having to help out her dad on one of his ghost-themed Chicago bus tours. She thinks she's made it through when she sees a boy with a sad face and dark eyes at the back of the bus. There's something off about his presence, especially because when she checks at the end of the tour...he's gone. Claire tries to brush it off, she must be imagining things, letting her dad's ghost stories get the best of her. But then the scratching starts. Voices whisper to her in the dark. The number 396 appears everywhere she turns. And the boy with the dark eyes starts following her. Claire is being haunted. The boy from the bus wants something...and Claire needs to find out what before it's too late. Pick up Scritch Scratch if you are looking for: A book for middle school students, 5th grade to 9th grade A story with a strong female protagonist that explores bravery, friendship, and family Mystery books for kids 9-12 Chilling ghost stories and ghost books for kids (perfect for Halloween!)
