H.264 and MPEG-4 Video Compression

Video Coding for Next-generation Multimedia

John Wiley & Sons Following on from the successful MPEG-2 standard, MPEG-4 Visual is enabling a new wave of multimedia applications from Internet video streaming to mobile video conferencing. The new H.264 'Advanced Video Coding' standard promises impressive compression performance and is gaining support from developers and manufacturers. The first book to cover H.264 in technical detail, this unique resource takes an application-based approach to the two standards and the coding concepts that underpin them. Presents a practical, step-by-step, guide to the MPEG-4 Visual and H.264 standards for video compression. Introduces the basic concepts of digital video and covers essential background material required for an understanding of both standards. Provides side-by-side performance comparisons of MPEG-4 Visual and H.264 and advice on how to approach and interpret them to ensure conformance. Examines the way that the standards have been shaped and developed, discussing the composition and procedures of the VCEG and MPEG standardisation groups. Focussing on compression tools and profiles for practical multimedia applications, this book 'decodes' the standards, enabling developers, researchers, engineers and students to rapidly get to grips with both H.264 and MPEG-4 Visual. Dr Iain Richardson leads the Image Communication Technology research group at the Robert Gordon University in Scotland and is the author of over 40 research papers and two previous books on video compression technology.

Sports Data Mining

Springer Science & Business Media Data mining is the process of extracting hidden patterns from data, and it's commonly used in business, bioinformatics, counter-terrorism, and, increasingly, in professional sports. First popularized in Michael Lewis' best-selling **Moneyball: The Art of Winning An Unfair Game**, it is has become an intrinsic part of all professional sports the world over, from baseball to cricket to soccer. While an industry has developed based on statistical analysis services for any given sport, or even for betting behavior analysis on these sports, no research-level book has considered the subject in any detail until now. **Sports Data Mining** brings together in one place the state of the art as it concerns an international array of sports: baseball, football, basketball, soccer, greyhound racing are all covered, and the authors (including Hsinchun Chen, one of the most esteemed and well-known experts in data mining in the world) present the latest research, developments, software available, and applications for each sport. They even examine the hidden patterns in gaming and wagering, along with the most common systems for wager analysis.

Functional Training Handbook

Lippincott Williams & Wilkins "Training has many different connotations depending on one's perspective. Traditionally, for healthy individuals or athletes it focused on strength, flexibility, or cardiovascular training. Such training would normally be supervised by a personal fitness trainer or strength and conditioning (S&C) coach. This book promotes a different approach in that the aim of training is to promote athletic development (1,2). From the perspective of sustainable athletic development, training is not limited to strength, flexibility or cardiovascular domains, but also focuses on the fundamental A,B,Cs of agility, balance, and coordination as a foundation for enhanced movement literacy (3)"--

Syntax of the Sentence

Walter de Gruyter This is the first of a multi-volume set dealing with the long-term evolution of Latin syntax, roughly from the 4th century BCE up to the 6th century CE. There are six pivotal chapters in this volume, each dealing with a subject which is critical to the understanding of the syntactic system. Topics covered include contact phenomena (from Greek and Semitic), the development of word order, particles, coordination, and the syntax of questions and answers. The volume is introduced by the editors in an explanatory "Prolegomena", and the textual parameters are set in a chapter on literary genres and sociolinguistics. Crafted in a functional-typological framework, chapters are user-sensitive, with a minimum of technical jargon and formalism, making them accessible to the widest range of readers.

The Statue Within

An Autobiography

CSHL Press In a new preface to this special edition of his critically acclaimed memoir, Francois Jacob recalls the events that brought him to Cold Spring Harbor Laboratory in the early 1960's and taught him much about phage biology and the informal ways of American science. Throughout his book, Jacob demonstrates a scientist's eye for detail and a poet's instinct for the inner life, as he tells of a privileged Parisian boyhood, young love, heroism in war, and the fascination of life at the edge of scientific discovery.

The Mouse Machine

Disney and Technology

University of Illinois Press Throughout Disney's phenomenally successful run in the entertainment industry, the company has negotiated the use of cutting-edge film and media technologies that, J. P. Telotte argues, have proven fundamental to the company's identity. Disney's technological developments include the use of stereophonic surround sound for Fantasia, experimentation with wide-screen technology, inaugural adoption of three-strip Technicolor film, and early efforts at fostering depth in the animated image. Telotte also chronicles Disney's partnership with television, development of the theme park, and depiction of technology in science fiction narratives. An in-depth discussion of Disney's shift into digital filmmaking with its Pixar partnership and an emphasis on digital special effects in live-action films, such as the Pirates of the Caribbean series, also highlight the studio's historical investment in technology. By exploring the technological context for Disney creations throughout its history, The Mouse Machine illuminates Disney's extraordinary growth into one of the largest and most influential media and entertainment companies in the world. Hardback is unjacketed.

The Wrong Shade of Yellow

CreateSpace I was cycling across Europe in search of Utopia, a place I believed was located somewhere in Greece. When I found it, I would start a new life there. It was my big, fat, Greek midlife crisis. But now I was having a crisis within a crisis. What on earth had I been thinking? I was middle aged and homeless, soon to be penniless, and really and truly no different from that bag lady sitting on the bench over there. I couldn't jack it in and go home, because I didn't have a home to go to anymore. The bicycle and the tent were now home. Wherever I found myself on any given night was now home. And that meant, for tonight, Genoa Piazza Principe Railway Station was home.
