Women Writers of the American West, 1833-1927

University of Illinois Press Women Writers of the American West, 1833-1927 recovers the names and works of hundreds of women who wrote about the American West during the nineteenth and early twentieth centuries, some of them long forgotten and others better known novelists, poets, memoirists, and historians such as Willa Cather and Mary Austin Holley. Nina Baym mined literary and cultural histories, anthologies, scholarly essays, catalogs, advertisements, and online resources to debunk critical assumptions that women did not publish about the West as much as they did about other regions. Elucidating a substantial body of nearly 650 books of all kinds by more than 300 writers, Baym reveals how the authors showed women making lives for themselves in the West, how they represented the diverse region, and how they represented themselves. Baym accounts for a wide range of genres and geographies, affirming that the literature of the West was always more than cowboy tales and dime novels. Nor did the West consist of a single landscape, as women living in the expanses of Texas saw a different world from that seen by women in gold rush California. Although many women writers of the American West accepted domestic agendas crucial to the development of families, farms, and businesses, they also found ways to be forceful agents of change, whether by taking on political positions, deriding male arrogance, or, as their voluminous published works show, speaking out when they were expected to be silent.

Dislocating Race and Nation

Episodes in Nineteenth-Century American Literary Nationalism

Univ of North Carolina Press American literary nationalism is traditionally understood as a cohesive literary tradition developed in the newly independent United States that emphasized the unique features of America and consciously differentiated American literature from British literature. Robert S. Levine challenges this assessment by exploring the conflicted, multiracial, and contingent dimensions present in the works of late eighteenth- and nineteenth-century American and African American writers. Conflict and uncertainty, not consensus, Levine argues, helped define American literary nationalism during this period. Levine emphasizes the centrality of both inter- and intra-American conflict in his analysis of four illuminating "episodes" of literary responses to questions of U.S. racial nationalism and imperialism. He examines Charles Brockden Brown and the Louisiana Purchase; David Walker and the debates on the Missouri Compromise; Nathaniel Hawthorne, Herman Melville, and Hannah Crafts and the blood-based literary nationalism and expansionism of the mid-nineteenth century; and Frederick Douglass and his approximately forty-year interest in Haiti. Levine offers critiques of recent developments in whiteness and imperialism studies, arguing that a renewed attention to the place of contingency in American literary history helps us to better understand and learn from writers trying to make sense of their own historical moments.

Feminism and American Literary History

Essays

Rutgers University Press For more than a decade Nina Baym has pioneered in the reexamination of American literature. She has led the way in questioning assumptions about American literary history, in critiquing the standard canon of works we read and teach, and in rediscovering lost texts by American women writers. *Feminism and American Literary History* collects fourteen of her most important essays published since 1980, which, combining feminist perspectives with original archival research, significantly revise standard American literary history. In Part I, "Rewriting Old American Literary History," the focus is on male writers. Essays range from close readings of individual works to ambitious critiques of the main paradigms by which scholars have conventionally linked disparate texts and authors in a narrative of nationalist literary history: the self-in-the-wilderness myth, the romance-novel distinction, the myth of New England origins. Part II, "Writing New American Literary History," studies examples of women's writing from the Revolution through the Civil War. Stressing much overtly public and political writing that has been overlooked even by feminist scholars, noting public and political themes in supposedly domestic works, the essays substantially modify and historicize the paradigm by which premodern American women's writing is currently understood. The contentious and influential essays in Part III, "Two Feminist Polemics," address feminist literary theory and pedagogy, advocating a pluralist practice as the basis for scholarship, criticism, and humane feminism. No one interested in American literature or in women's writing can afford to ignore Baym's revisionist work. Humorous and gracefully written, this book is enjoyable and indispensable.

Novels, Readers, and Reviewers

Responses to Fiction in Antebellum America

Cornell University Press This book describes and characterizes responses of American readers to fiction in the generation before the Civil War. It is based on close examination of the reviews of all novels—both American and European—that appeared in major American periodicals during the years 1840-1860, a period in which magazines, novels, and novel reviews all proliferated. Nina Baym makes use of the reviews to gain information about the formal, aesthetic, and moral expectations of reviewers. Her major conclusion is that the accepted view about the American novel before the Civil War—the view that the atmosphere in America was hostile to fiction—is a myth. There is compelling evidence, she shows,

for the existence of a veritable novel industry and, concomitantly, a vast audience for fiction in the 1840s and 1850s.

James Fenimore Cooper

The Early Years

Yale University Press James Fenimore Cooper (1789-1851) invented the key forms of American fiction—the Western, the sea tale, the Revolutionary War romance. Furthermore, Cooper turned novel writing from a polite diversion into a paying career. He influenced Herman Melville, Richard Henry Dana, Jr., Francis Parkman, and even Mark Twain—who felt the need to flagellate Cooper for his “literary offenses.” His novels mark the starting point for any history of our environmental conscience. Far from complicit in the cleansings of Native Americans that characterized the era, Cooper’s fictions traced native losses to their economic sources. Perhaps no other American writer stands in greater need of a major reevaluation than Cooper. This is the first treatment of Cooper’s life to be based on full access to his family papers. Cooper’s life, as Franklin relates it, is the story of how, in literature and countless other endeavors, Americans in his period sought to solidify their political and cultural economic independence from Britain and, as the Revolutionary generation died, stipulate what the maturing republic was to become. The first of two volumes, James Fenimore Cooper: The Early Years covers Cooper’s life from his boyhood up to

1826, when, at the age of thirty-six, he left with his wife and five children for Europe.

Hemispheric American Studies

Rutgers University Press This landmark collection brings together a range of exciting new comparative work in the burgeoning field of hemispheric studies. Scholars working in the fields of Latin American studies, Asian American studies, American studies, American literature, African Diaspora studies, and comparative literature address the urgent question of how scholars might reframe disciplinary boundaries within the broad area of what is generally called American studies. The essays take as their starting points such questions as: What happens to American literary, political, historical, and cultural studies if we recognize the interdependency of nation-state developments throughout all the Americas? What happens if we recognize the nation as historically evolving and contingent rather than already formed? Finally, what happens if the "fixed" borders of a nation are recognized not only as historically produced political constructs but also as component parts of a deeper, more multilayered series of national and indigenous histories? With essays that examine stamps, cartoons, novels, film, art, music, travel documents, and governmental publications, Hemispheric American Studies seeks to excavate the complex cultural history of texts and discourses across the ever-changing and stratified geopolitical and cultural fields that collectively comprise the American hemisphere. This collection promises to chart new directions in American literary and cultural studies.

Wasting Time on the Internet

HarperCollins Using clear, readable prose, conceptual artist and poet Kenneth Goldsmith's manifesto shows how our time on the internet is not really wasted but is quite productive and creative as he puts the experience in its proper theoretical and philosophical context. Kenneth Goldsmith wants you to rethink the internet. Many people feel guilty after spending hours watching cat videos or clicking link after link after link. But Goldsmith sees that "wasted" time differently. Unlike old media, the internet demands active engagement—and it's actually making us more social, more creative, even more productive. When Goldsmith, a renowned conceptual artist and poet, introduced a class at the University of Pennsylvania called "Wasting Time on the Internet", he nearly broke the internet. The New Yorker, the Atlantic, the Washington Post, Slate, Vice, Time, CNN, the Telegraph, and many more, ran articles expressing their shock, dismay, and, ultimately, their curiosity. Goldsmith's ideas struck a nerve, because they are brilliantly subversive—and endlessly shareable. In Wasting Time on the Internet, Goldsmith expands upon his provocative insights, contending that our digital lives are remaking human experience. When we're "wasting time," we're actually creating a culture of collaboration. We're reading and writing more—and quite differently. And we're turning concepts of authority and authenticity upside-down. The internet puts us in a state between deep focus and subconscious flow, a state that Goldsmith argues is ideal for creativity. Where that creativity takes us will be one of the stories of the twenty-first century. Wide-ranging, counterintuitive, engrossing, unpredictable—like the internet itself—Wasting Time on the Internet is the manifesto you didn't know you needed.

Kurt Vonnegut's America

Univ of South Carolina Press Kurt Vonnegut's death in 2007 marked the passing of a major force in American life and letters. Jerome Klinkowitz, one of the earliest and most prolific authorities on Vonnegut, examines the long dialogue between the author and American culture—a conversation that produced fourteen novels and hundreds of short stories and essays. *Kurt Vonnegut's America* integrates discussion of the fiction, essays, and lectures with personal exchanges and biographical sketches to map the complex symbiotic relationship between Vonnegut's work and the cultural context from which it emerged—and which it in turn helped shape. Following an introduction characterizing Vonnegut as Klinkowitz came to know him over the course of their friendship, this study charts the impact of Vonnegut on American society and of that society on Vonnegut for more than a half-century to illustrate how each informed the other. Among his artistic peers, Vonnegut was uniquely gifted at anticipating and articulating the changing course of American culture. *Kurt Vonnegut's America* shows us that Vonnegut achieved greatness by passing his own test—opening the eyes of his audience to help them better understand their roles and possibilities in the common culture they both shared and crafted.
