The Purple Violet of Oshaantu

Waveland Press Through the voice of Mee Ali, readers experience the rhythms and rituals of life in rural Namibia in interconnected stories. In Oshaantu, a place where women are the backbone of the home but are expected to submit to patriarchal dominance, Mee Ali is happily married. Her friend, Kauna, however, suffers at the hands of an abusive husband. When he is found dead at home, many of the villagers suspect her of poisoning him. Backtracking from that time, the novel, with its universal appeal, reveals the value of friendships, some of which are based on tradition while

others grow out of strength of character, respect, and love.

Student Solutions Manual for Genetic Essentials

Concepts and Connections

Macmillan Higher Education Derived from his popular and acclaimed **Genetics: A Conceptual Approach**, Ben Pierce's streamlined text covers basic transmission, molecular, and population genetics in just 18 chapters, helping students uncover major concepts of genetics and make connections among those concepts as a way of gaining a richer understanding of the essentials of genetics. With the new edition, Ben Pierce again focuses on the most pervasive problems for students taking genetics—understanding how genetics concepts connect to each other and developing solid problem solving skills. There is updated coverage of important research developments in genetics (CRISPR) and a new Active Learning feature, Think, Pair, Share. And with this edition, **Genetics Essentials** is available as a fully integrated text/media resource with SaplingPlus, an online solution that combines an e-book of the text, Pierce's powerful multimedia resources, and Sapling's robust genetics problem library.

Technologies Supporting the E-business Initiative

This book is a comprehensive primer to both traditional and emerging E-Commerce technologies. Students with no prior technical knowledge will be able to grasp complex topics such as networking, Internet security, Web languages and other important subjects in a way that illustrates their use through case studies and practice by completing Web projects.

Advanced Dynamics

Cambridge University Press **Advanced Dynamics** is a broad and detailed description of the analytical tools of dynamics as used in mechanical and aerospace engineering. The strengths and weaknesses of various approaches are discussed, and particular emphasis is placed on learning through problem solving. The book begins with a thorough review of vectorial dynamics and goes on to cover Lagrange's and Hamilton's equations as well as less familiar topics such as impulse response, and differential forms and integrability. Techniques are described that provide a considerable improvement in computational efficiency over the standard classical methods, especially when applied to complex dynamical systems. The treatment of numerical analysis includes discussions of numerical stability and constraint stabilization. Many worked examples and homework problems are provided. The book is intended for use on graduate courses on dynamics, and will also appeal to researchers in mechanical and aerospace engineering.

Fundamentals of Physics 11e Student Solutions Manual

Wiley Global Education This is the Student Solutions Manual to accompany **Fundamentals of Physics**, 11th Edition. **Fundamentals of Physics** is renowned for its superior problem-solving skills development, reasoning skills development, and emphasis on conceptual understanding. In this course, interactive pathways of online learning alternate between short content presentations such as video or readings and carefully guided student engagements to simulate a discourse style of teaching 24/7.

Paradoxical Undressing

Atlantic Books Ltd Kristin Hersh was a preternaturally bright teenager, starting university at fifteen and with her band, **Throwing Muses**, playing rock clubs she was too young to frequent. By the age of seventeen she was living in her car, unable to sleep for the torment of strange songs swimming around her head - the songs for which she is now known. But just as her band was taking off, Hersh was misdiagnosed with schizophrenia. **Paradoxical Undressing** chronicles the unraveling of a young woman's personality, culminating in a suicide attempt; and then her arduous yet inspiring recovery, her unplanned pregnancy at the age of 19, and the birth of her first son. Playful, vivid, and wonderfully warm, this is a visceral and brave memoir by a truly original performer, told in a truly original voice.

Jack McAfghan

Reflections on Life with My Master

An expert communicator, Jack McAfghan writes the memoirs of his four-legged life as a mixed-breed Afghan Hound. From obedience and agility training to hospice work, Jack and his master learn their lessons side by side, inevitably applying what they have learned as their own lives unfold. It is a love story that can be used as an informal study guide for those who are in the process of training a dog, learning to love, or grieving over the loss of a friend. Jack presents with a wise, open and informed mind. He speaks firsthand about the psychological aspects of canine behavior as he opens the reader's mind to the possibilities that exist in life and after death. He reminds us that the way we think can change the course of our lives. This story will touch everyone who has ever loved. It matters not if they have four legs or two. Jack leads us to a higher love as he expands our tolerance and compassion for all of humanity. He extends himself to every creature of the earth, every human on the planet, every spirit in the universe and most of all, to the bona fide Master over all.

Underwater Dogs

Little, Brown **The exuberant, exhilarating photographs of dogs underwater that have become a sensation From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus and determination of a shark. In more than eighty portraits, award-winning pet photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In Underwater Dogs, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.**

It Must Be Fiction: It Can't Be Real... and It Never Ends

Lulu Press, Inc **This book is completely fictitious and any similarities to living individuals is purely circumstantial. That's my story and I'm sticking to it. As life would have it, I need to start by saying that I have stage four kidney cancer. I've had three surgeries. One to robotically remove part of my kidney, another to try and remove a tumor on my pelvis the size of two coke cans, and the last to put three 7 inch screws in my pelvis to keep the bones from shattering. So, here I am in my sixties fighting to stay alive and writing this book because everyone always said I should write a book about my life. They say that because the stories I tell are so outlandish that nobody would believe that they could possibly be true, but you can decide for yourself... We all have stories to tell, but how we tell them makes the difference. Mine will probably make you smile, laugh, cry, curse, and wonder who is this guy? Order your copy NOW and send me a note**

The Rice Diet Solution

The World-Famous Low-Sodium, Good-Carb, Detox Diet for Quick and Lasting Weight Loss

Simon and Schuster Can you really lose twenty pounds in a month? Will you really keep it off this time? With **The Rice Diet Solution**, you will! The Rice Diet Program has been helping dieters successfully lose weight since 1939. Now in book form, this world-renowned weight-loss method can help you change the way you eat forever. The Rice Diet Program in Durham, North Carolina, was one of the first medical facilities in America to use diet as the primary way to treat disease. On this high-complex-carb, low-fat, and low-sodium whole-foods diet, "Ricers" lose weight faster, more safely, and more effectively than people on any other diet. Men lose on average twenty-eight to thirty pounds and women on average nineteen to twenty pounds per month! The Rice Diet also detoxes your body, ridding it of excess water weight and toxins from processed foods and the environment. The program's results have been documented by extensive studies and confirmed by thousands of people who report amazing weight loss, as well as immediate improvement in such conditions as heart disease, diabetes, and hypertension. Here's how it works: The Rice Diet strictly limits salt and sodium-rich ingredients. Salt, like refined sugar, is an appetite stimulant, so when you reduce salt intake, you lose water weight and are less inclined to overeat. The Rice Diet also limits saturated fats and instead relies on carbohydrates (fruits, vegetables, grains, and beans) as the main source of nutrition. The fiber cleanses your system and satisfies you so you feel full quickly. The Rice Diet makes it easy to limit calories; when you're eating foods that truly satisfy your hunger, it's a challenge to eat 1,500 calories per day! To make it easy to follow the program, **The Rice Diet Solution** includes hundreds of tasty, filling, easy-to-prepare recipes—some from the Rice House kitchen, others inspired by major chefs and adapted to Rice Diet standards.

Her Second Chance Dream Groom

Eighty Days Amber

Hachette UK The brand new racy romance novel in Vina Jackson's bestselling **EIGHTY DAYS** series, for fans of **Fifty Shades** and **Sylvia Day**. I'd always liked bad boys. And as I grew up, they became bad men . . . In her youth, Russian dancer Luba fell for a bad man; a handsome but dangerous rare amber dealer who would disappear for months on end but expect Luba to drop everything when he called. Despite everything Luba could not deny her attraction to the seductive Chey, but their passionate, turbulent relationship came to an end when Luba fled Russia having discovered a shocking secret about her lover. From elite private clubs in New Orleans to the London mansion of an enigmatic rockstar, Viggo Franck, Luba embarks on a journey of self discovery and embraces the exciting, enticing experiences her new life as a dancer brings. Her adventures introduce her to a fiery, flame-haired violinist, Summer, and Lauralynn, a woman with decidedly dark desires. But can this new life ever truly satisfy Luba, or will she forever crave the one man she knows isn't good for her.

Basement Priest: Reflections 1970-2020

Tellwell Talent The last few years in my basement flat, apart from leaving it to help out in the parishes of Scarborough in Toronto and those of Durham of Ontario Province, have helped me to reflect on many issues, most of them concerning Faith, its acceptance or rejection by today's secular culture, and how its very common misrepresentations could be corrected and clarified. I had to begin by understanding myself. Born in Trinidad, West Indies, in 1937, to a working-class family, I have lived through what may have been perhaps the most fantastic and important 80 years of all human history. World War I (1914-1918) saw my family involved, and the Spanish Civil War (1936-1939) welcomed me into the world. This was followed by World War II (1939-1945), the Cold War (1945-1989), the Korean War (1950-1953), the Vietnamese War (1956-1975), the Second Vatican Council (1962-1965), the moon landings (1969 et seq), the Encyclical Humanae Vitae (1968), the Sexual Revolution (1965-1977), years during which hundreds of millions were killed and/or displaced, new nations were born, border lines were re-drawn, political philosophies directed how nations were to live- and I am still alive, even in these ongoing nuclear and electronic ages! The past 80 years have seen the rise and fall of big and small dictators-Stalin, Hitler, Mussolini, Mao, Pol Pot, Ho Chi Minh, Castro, Idi Amin, Mugabe, and the super-important papacies of Pius XII, John XXIII, Paul VI, John-Paul II, and Benedict XVI. Everything being considered, a most interesting time. But . . . This 21st century didn't happen by itself; it has been formed by the preceding centuries, their histories, philosophies, wars, and their immense cultural changes. How will it affect the succeeding ones? My primary and secondary educations were followed by legal studies, resulting in my admission to the Bar in 1975, which was upgraded in 1987. I left the profession of law for various reasons, joined the Society of Missionaries of Africa in 1963, and was ordained to the Catholic priesthood in 1970. There followed 50 most interesting years as a missionary in Africa and other countries, and at the present moment my superiors have allowed me to remain in semi-retirement to aid the Archdiocese of Toronto. The issues of these reflections concern mainly Faith and religion as understood by my Church, and thus this book is both catechetical and apologetic, no holds barred. The use of the Bible is necessary and recommended. Due to the proximity of some of the themes, there's a bit of necessary repetition here and there, but all are my way of trying to find the "big picture," to "smell the roses," as it were. I trust the reader will enjoy them as much as I did in putting them together. Fr John Boos MAfr

Tera-Ops Processing for Atr

Createspace Independent Publishing Platform A three-dimensional microelectronic device (3DANN-R) capable of performing general image convolution at the speed of 1012 operations/second (ops) in a volume of less than 1.5 cubic centimeter has been successfully built under the BMDO/JPL VIGILANTE program. 3DANN-R was developed in partnership with Irvine Sensors Corp., Costa Mesa, California. 3DANN-R is a sugar-cube-sized, low power image convolution engine that in its core computation circuitry is capable of performing 64 image convolutions with large (64x64) windows at video frame rates. This paper explores potential applications of 3DANN-R such as target recognition, SAR and hyperspectral data processing, and general machine vision using real data and discuss technical challenges for providing deployable systems for BMDO surveillance and interceptor programs.
