Barbed Wire

A Political History

New York : New Press *Traces the late-nineteenth-century invention of barbed wire and explores the historical role of this cheap, mass-produced technology that allowed control and confinement of large amounts of open space, explaining the significance of barbed wire in terms of the mass warfare, political conquest, and genocide of the modern era. 12,500 first printing.*

Common Sense

Harvard University Press *Common Sense reveals a political ideal so fundamental to American politics that we are unaware of its power and its myriad uses. Sophia Rosenfeld shows how common sense—the wisdom of ordinary people, self-evident truths—has been used to justify all political extremes, with a history that is anything but commonsensical.*

The Origins of Political Order

From Prehuman Times to the French Revolution

Profile Books *Nations are not trapped by their pasts, but events that happened hundreds or even thousands of years ago continue to exert huge influence on present-day politics. If we are to understand the politics that we now take for granted, we need to understand its origins. Francis Fukuyama examines the paths that different societies have taken to reach their current forms of political order. This book starts with the very beginning of mankind and comes right up to the eve of the French and American revolutions, spanning such diverse disciplines as economics, anthropology and geography. The Origins of Political Order is a magisterial study on the emergence of mankind as a political animal, by one of the most eminent political thinkers writing today.*

Political History of Journalism

Polity *In this new important book, Galdine Muhlmann provides a comparative history of the rise of modern journalism, from the revolution of the late nineteenth century, with its new concern for facts, through to the present day. Her account is structured around the tension between what she calls the unifying and decentring tendencies in modern journalism that is, the concern to give readers a truth that is acceptable to all, on the one hand, and the concern to resist dominant representations and give voice to alternative views, on the other. She illustrates her account with a wide range of case studies, from Sverine, who covered the trial of Dreyfus in late nineteenth-century France, to the great Vietnam War reporters, Seymour M. Hersh and Michael Herr. In between are fascinating new readings of famous figures like George Orwell and Norman Mailer as well as some less well-known writers, such as the great American muckraker, Lincoln Steffens, and the French crusading journalist, Albert Londres. This historical and comparative account of the rise of modern journalism will be an ideal text for courses in journalism, political communication and media history. Written by an author who believes that journalism is crucial to our modern democracies and that it deserves to be studied with knowledge and care, the book raises serious questions about the role of the reporter and about the sorts of journalism that are possible in the twenty-first century.*

The Political History of Eastern Europe in the 20th Century

The Struggle Between Democracy and Dictatorship

Edward Elgar Pub *This text presents an introduction to the struggle between democracy and dictatorship in Eastern Europe since 1900. It is broken down into three different parts focusing on those time periods when experiments with democracy threatened to change the established order - the inter-war period, the democratic or semi democratic interlude in the wake of World War II until 1949 and the current experience with the new democracies. In discussing the struggle between democracy and dictatorship, the authors argue that the experience of Eastern Europe reveals the challenges which*

Critical Times for America

The Politics of Cultural Amnesia

Wipf and Stock Publishers [Human societies live and breathe through their myths. A myth is not a simple story; it is the complex social reasoning of a people, a way of making sense of the world. Burton Mack calls this reasoning "social logic," and as a master of ancient Rome and the rise of Christianity, he knows that the Western experience has been embedded in the Christian myth as its "big picture" narrative. But what happens when the big picture becomes fragmented and when an old myth loses its ability to function in a new world order? Mack is convinced that at the heart of contemporary political crises lies the need to create a new myth beyond the grand narratives and lingering fragments history has given us. Mack invites his reader to think historically about the present, and imaginatively about the future, in this important book about ourselves.](#)

The Color of Law: A Forgotten History of How Our Government Segregated America

Liveright Publishing [New York Times Bestseller • Notable Book of the Year • Editors' Choice Selection One of Bill Gates' "Amazing Books" of the Year One of Publishers Weekly's 10 Best Books of the Year Longlisted for the National Book Award for Nonfiction An NPR Best Book of the Year Winner of the Hillman Prize for Nonfiction Gold Winner • California Book Award \(Nonfiction\) Finalist • Los Angeles Times Book Prize \(History\) Finalist • Brooklyn Public Library Literary Prize This "powerful and disturbing history" exposes how American governments deliberately imposed racial segregation on metropolitan areas nationwide \(New York Times Book Review\). Widely heralded as a "masterful" \(Washington Post\) and "essential" \(Slate\) history of the modern American metropolis, Richard Rothstein's The Color of Law offers "the most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighborhood segregation" \(William Julius Wilson\). Exploding the myth of de facto segregation arising from private prejudice or the unintended consequences of economic forces, Rothstein describes how the American government systematically imposed residential segregation: with undisguised racial zoning; public housing that purposefully segregated previously mixed communities; subsidies for builders to create whites-only suburbs; tax exemptions for institutions that enforced segregation; and support for violent resistance to African Americans in white neighborhoods. A groundbreaking, "virtually indispensable" study that has already transformed our understanding of twentieth-century urban history \(Chicago Daily Observer\), The Color of Law forces us to face the obligation to remedy our unconstitutional past.](#)

Namibia Political History, and Constitutional Layout

Lulu Press, Inc [Namibia Political History, and Constitutional Layout. Political Parties and Namibia Environment. A History Book on Namibia. In 1990, after a century of colonial rule, foreign domination and white racial supremacy, Namibia finally gained its long-sought political independence. With independence came a neo-liberal constitutional dispensation, which received world-wide acclaim. The essence of engaging in the constitution- writing process was stressed by Okoth-Ogendo, who pointed to the increasing complexities of modern contemporary societies, especially when it comes to the organisation and regulation of the interrelationships between not only the various organs of state, but also those acting in the name of the state and the citizenry. In his view, these interrelationships can no longer be steered by age-old conventions and practices; today they require purposefully engraved systems of rules, norms and values.](#)

Model Rules of Professional Conduct

American Bar Association [The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.](#)

Justices and Presidents

A Political History of Appointments to the Supreme Court

Oxford University Press, USA [This new edition of this classic history of the Supreme Court discusses the selection, nomination, and appointment of each of the Justices who have sat on the U.S. Supreme Court since 1789. Abraham provides a fascinating account of the presidential motivations behind each nomination, examining how each appointee's performance on the bench fulfilled, or disappointed, presidential expectations.](#)

The New World History

A Field Guide for Teachers and Researchers

Univ of California Press [The New World History is a comprehensive volume of essays selected to enrich world history teaching and scholarship in this rapidly expanding field. The forty-four articles in this book take stock of the history, evolving literature, and current trajectories of new world history. These essays, together with the editors' introductions to thematic chapters, encourage educators and students to reflect critically on the development of the field and to explore concepts, approaches, and insights valuable to their own work. The selections are organized in ten chapters that survey the](#)

The Federalist Papers

Yale University Press This authoritative edition of the complete texts of the Federalist Papers, the Articles of Confederation, the U.S. Constitution, and the Amendments to the U.S. Constitution features supporting essays in which leading scholars provide historical context and analysis. An introduction by Ian Shapiro offers an overview of the publication of the Federalist Papers and their importance. In three additional essays, John Dunn explores the composition of the Federalist Papers and the conflicting agendas of its authors; Eileen Hunt Botting explains how early advocates of women's rights, most prominently Mercy Otis Warren, Judith Sargent Murray, and Charles Brockden Brown, responded to the Federalist-Antifederalist debates; and Donald Horowitz discusses the Federalist Papers from the perspective of recent experiments with democracy and constitution-making around the world. These essays both illuminate the original texts and encourage active engagement with them.

Randomistas

How Radical Researchers Are Changing Our World

Yale University Press A fascinating account of how radical researchers have used experiments to overturn conventional wisdom and shaped life as we know it. Experiments have consistently been used in the hard sciences, but in recent decades social scientists have adopted the practice. Randomized trials have been used to design policies to increase educational attainment, lower crime rates, elevate employment rates, and improve living standards among the poor. This book tells the stories of radical researchers who have used experiments to overturn conventional wisdom. From finding the cure for scurvy to discovering what policies really improve literacy rates, Leigh shows how randomistas have shaped life as we know it. Written in a "Gladwell-esque" style, this book provides a fascinating account of key randomized control trial studies from across the globe and the challenges that randomistas have faced in getting their studies accepted and their findings implemented. In telling these stories, Leigh draws out key lessons learned and shows the most effective way to conduct these trials.

The Nation and Athenæum

America's Three Regimes

A New Political History

Oxford University Press Hailed in *The New York Times Book Review* as "the single best book written in recent years on the sweep of American political history," this groundbreaking work divides our nation's history into three "regimes," each of which lasts many, many decades, allowing us to appreciate as never before the slow steady evolution of American politics, government, and law. The three regimes, which mark longer periods of continuity than traditional eras reflect, are Deferential and Republican, from the colonial period to the 1820s; Party and Democratic, from the 1830s to the 1930s; and Populist and Bureaucratic, from the 1930s to the present. Praised by *The Economist* as "a feast to enjoy" and by *Foreign Affairs* as "a masterful and fresh account of U.S. politics," here is a major contribution to the history of the United States--an entirely new way to look at our past, our present, and our future--packed with provocative and original observations about American public life.

The Nation

The Disenchantment of the World

A Political History of Religion

In this controversial work, Marcel Gauchet reinterprets the development of the modern West, with all its political and psychological complexities, in terms of humankind's changing relation to religion.

Caste (Oprah's Book Club)

The Origins of Our Discontents

Random House #1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • NATIONAL BOOK AWARD LONGLIST • “An instant American classic and almost certainly the keynote nonfiction book of the American century thus far.”—Dwight Garner, *The New York Times* The Pulitzer Prize-winning, bestselling author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. NAMED THE #1 NONFICTION BOOK OF THE YEAR BY TIME, ONE OF THE TEN BEST BOOKS OF THE YEAR BY *People* • *The Washington Post* • *Publishers Weekly* AND ONE OF THE BEST BOOKS OF THE YEAR BY *The New York Times Book Review* • *O: The Oprah Magazine* • NPR • Bloomberg • *Christian Science Monitor* • *New York Post* • *The New York Public Library* • *Fortune* • *Smithsonian Magazine* • *Marie Claire* • *Town & Country* • *Slate* • *Library Journal* • *Kirkus Reviews* • *LibraryReads* • *PopMatters* Winner of the Los Angeles Times Book Prize • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist “As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not.” In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.
