Home cooks are once again looking to prepare well-balanced meals that include everyone's favorite food—pasta. Few of us, though, have the leisure to create a classic Bolognese meat sauce from scratch. For those who are as pressed for time as they are starved for a toothsome bowl of beautifully sauced pasta, Giuliano Hazan has created 100 scrumptious pasta dishes that can be put together in half an hour or less. Hazan's repertoire—hearty pasta soups, fresh-from-the-greenmarket vegetarian dishes, and meat and seafood sauces that take their cue from the classics of Italian cuisine—will let you bring healthful, hunger-satisfying pasta back to your family's weeknight supper table. Included are recipes for last-minute dishes, as well as useful advice on stocking your pasta pantry, choosing cooking equipment, and figuring out which pasta shape goes with which kind of sauce. It shows that depoliticization sustains IO everyday activities while allowing them to remain engaged in politics, even when they pretend not to. Delving into the inner dynamics of global governance, this book develops an analytical framework on why IOs "hate" politics by bringing together practices and logics of depoliticization in a wide variety of historical, geographic and organizational contexts. With multiple case studies in the fields of labor rights and economic regulation, environmental protection, development and humanitarian aid, peacekeeping, among others this book shows that depoliticization is enacted in a series of overlapping, sometimes mundane, practices resulting from the complex interaction between professional habits, organizational cultures and individual tactics. By approaching the consequences of these practices in terms of logics, the book addresses the

instrumental dimension of depoliticization without assuming that IO actors necessarily intend to depoliticize their action or global problems. For IO scholars and students, this book sheds new light on IO politics by clarifying one often taken-for-granted dimension of their everyday activities, precisely that of depoliticization. It will also be of interest to other researchers working in the fields of political science, international relations, international political sociology, international political economy, international public administration, history, law, sociology, anthropology and geography as well as IO practitioners. *Gone A Novel* *Simon and Schuster* Celebrating the achievement of a successful career only to be abandoned by her failed sculptor husband, Eve Adams struggles to raise her children alone while balancing conflicting demands, the realities of midlife and her evolving views on forgiveness and letting go. Golden Leaves from the American Poets Women And Health Feminist Perspectives *Routledge* this comprehensive volume provides a broad sample of contemporary British feminist work on women and health. It spans the disciplines of psychology, sociology, social policy, social anthropology and economics, and demonstrates the development of feminist theorizing and activism in these areas over the past decade. Topics include: global and national politics of women's health; the 'psychologization' of health; sexuality and AIDS; body image and pregnancy; reproductive technology; substance abuse; breast cancer; and the long-term health problems of women. Calling for a greater understanding of women and health, the contributors acknowledge the gender-based inequities of women's experiences and address the need for social and political change in order to improve the health and health care of women across the lifespan. **Goode Oliver Dooley and The Palace of Keepers Book 1** *Vanguard Press* Among the Clovercomb Mountains of Northern England, a mysterious kingdom of migrating forests, carnivorous plants, and curious green bees lies hidden, protecting the world from dark forces and guarding a treasure more precious than gold. Goode Oliver Dooley, a frail and neglected young boy, finds solace in gardening. Unbeknownst to him, he has been given a death sentence: placed in the care of the diabolical Mr. and Mrs. Lumpen as an infant, destined to live out a slow and premature death...until one day he meets three very peculiar green bees. A sting from one of these curious bees changes the course of Goode Oliver Dooley's life forever. He is mysteriously invited to enter a Royal Garden Competition, with a chance to win a place as a Royal Gardener at the mystical Hobcomney Palace. But this is no ordinary garden competition and Hobcomney Palace is full of strange charm... Goode Oliver Dooley and nine other winners quickly discover that gardening in this kingdom means something entirely

different. As things take a turn for the unexpected, they must overcome life-threatening obstacles in search of answers to the strange and peculiar events suddenly occurring at Hobcomney Palace... *The Moss Troopers* Ayton Publishing Limited A tale of smuggling set in the Napoleonic era and first published in 1912, the Galloway countryside is juxtaposed against London life in a story of pressganging and kidnapping as Free Trading is explored from a number of angles through a fast paced adventure romance. Gillray Observed The Earliest Account of his Caricatures in London und Paris Cambridge University Press James Gillray, one of England's best loved caricaturists, was an immensely successful and popular artist, yet there were no accounts of his work published in England during his lifetime. The single contemporary source on Gillray is a series of commentaries published in the German journal London und Paris between 1798 and 1806. Christiane Banerji and Diana Donald have now translated and edited selected commentaries, with accompanying illustrations. The edition offers a unique insight into the role of satire in British politics during the Napoleonic era. Glimpses of the Monastery Scenes from the History of the Ursulines of Quebec During Two Hundred Years, 1639-1839 s.n.], 1897 (Quebec : L.J. Demers) General Principles of EU Law and the EU Digital Order Kluwer Law International General Principles of EU Law and the EU Digital Order' addresses the role of general principles in the era of digitalization and the (potential) impact of digitalization on the theory of general principles of union law. Digitalization of societies has important ramifications for citizens and businesses. The digital landscape is rapidly changing, whereas at the same time there are growing concerns about how market access in the European Union's (EU's) digital market as well as fundamental rights can be sufficiently safeguarded in the shadow of 'big data' and algorithms. This book presents expert analyses of how digitalization raises questions of the future role for general principles of EU law, including the foundational principles of the EU's fundamental economic freedoms and EU competition rules. Games: Purpose and Potential in Education Springer Science & Business Media The field of Games is rapidly expanding, prompting institutions throughout the world to create game development programs and courses focusing on educational games. As a result, games have also become a hot topic in the area of educational technology research. This increased interest is due to the technological advancement of digital games and the fact that a new, digital generation is emerging with a strong gaming background. Games: Purpose and Potential in Education focuses on the issues of incorporating games into education and instructional design. Ideas of identity development, gender diversity, motivation, and integrating instructional design within game development are addressed since each of these areas is important in the field of instructional design and can have a significant impact on learning. This volume brings together leading experts, researchers, and instructors in the field of gaming and explores current topics in gaming and simulations, available resources, and the future of the field. Gender Inequalities in the

**21st Century New Barriers and Continuing Constraints** *Edward Elgar Publishing* Both women and men strive to achieve a work and family balance, but does this imply more or less equality? Does the persistence of gender and class inequalities refute the notion that lives are becoming more individualised? This book documents how gender inequalities are changing and how many inequalities of earlier eras are being eradicated.

**Global History And Migrations** *Routledge* Humans have been on the move for millennia. They have done so slowly as well as quickly, sometimes involuntarily, sometimes transported by force, often relocated at great cost in lives, but they have always moved. Over the centuries, improved transportation has eased the movement, even in the face of man-made or natural obstacles. But in modern times, migration has accelerated and its reach has become truly global. Whether it is Turkish gastarbeiter in Germany, Japanese Nisei in Seattle, Filipinos in Kuwait, or Haitians in Brooklyn, the costs and benefits of human mobility on such a wide and rapid scale are hotly debated. **Global History and Migrations**, the second volume of the **Global History Series**, explores the historical background of this issue by focusing on recent history, a time when human movements have been at their most dynamic. This book provides a rich, cross-cultural foundation for a more enlightened understanding of migration and its role in the unfolding shape of global history.

**Gene Transfers and Environment Proceedings of the Third European Meeting on Bacterial Genetics and Ecology (BAGECO-3), 20-22 November 1991, Villefranche-sur-Mer, France** *Springer* Provided here is an up-to-date survey of gene transfers in the main natural habitats, with a special reference to genetically engineered microorganisms. In the first of five sections technical approaches of gene transfer in the natural environment are developed. These emphasize the use of modern methodologies for the detection of recombinant bacteria in natural waters and soil, using DNA or rRNA probes and PCR technology. The three following sections deal with various aspects of gene transfer in aquatic environments, terrestrial habitats and human and animal gut. These include transfer of plasmidic or chromosomal markers through either conjugation, mobilization, transformation or transduction processes. Also covered are factors influencing survival of cells harbouring the transferred genes in these environments. The last section is devoted to an examination of scientific and ethical problems related to the release of genetically engineered microorganisms.
