But while people are often well trained in the skill set of their particular profession, few people are ever taught how to lead. As such, those first steps into leadership can seem daunting - what do you actually do? How do you really lead? How do you build an effective team? And how do you lead colleagues who used to be your peers? How to Lead Others aims to convey the basics of leadership in a way that is concise, relevant and practical by breaking down leadership into eight simple lessons: • Defining the task; • Effective planning; • Briefing; • Controlling; • Motivating; • Organizing; • Evaluating; and • Leading by example. Aimed at those who, regardless of industry or business sector, are about take their first steps on the leadership path, or who are at an early stage in their career and realise that leadership responsibilities lie ahead of them, How to Lead Others is the essential handbook to one of the most important and challenging aspects of professional life. School Consultation Conceptual and Empirical Bases of Practice *Springer Science & Business Media* Since its emergence during the 1960s, school consultation has become an important vehicle for delivering psychological and educational services. Cooperative efforts between skilled consultants and teachers, rooted in the principles of problem solving, social influence, and professional development, enhance student learning and adjustment while encouraging consultees to be more effective and proactive in their practice. The Third Edition of School Consultation: Conceptual and Empirical Bases of Practice shows in expert detail how this relationship works by synthesizing mental health and behavioral models of consultation with the most effective evidence-based practices (e.g., implementation support, response to intervention) informing the field today. The authors provide real-world contexts for all participants in the equation—consultants, teachers, students, staff, and the school itself—and thoroughly review consultation processes and outcomes for a contemporary practice-oriented approach suited to the new consultant, trainee, or researcher. Key features of the Third Edition include: An integrated mental health/behavioral model for school consultation. An organizational study of the school as a setting for consultation. Assessment issues and strategies particularly relevant to school consultation. Approaches to providing teachers with implementation support. Conceptual models for selecting academic and behavioral interventions. Administrative perspectives on school consultation. A real, transcribed case study analyzed by the authors. In the tradition of its predecessors, School Consultation, Third Edition, is a confidence-building tool for practitioners in school psychology, clinical child psychology, educational specialties, school counseling, special education, and school social work as well as a trusted reference for researchers in these fields.
