## Mrs. Perkins's Electric Quilt And Other Intriguing Stories of Mathematical Physics

**Princeton University Press** What does quilting have to do with electric circuit theory? The answer is just one of the fascinating ways that best-selling popular math writer Paul Nahin illustrates the deep interplay of math and physics in the world around us in his latest book of challenging mathematical puzzles, *Mrs. Perkins's Electric Quilt*. With his trademark combination of intriguing mathematical problems and the historical anecdotes surrounding them, Nahin invites readers on an exciting and informative exploration of some of the many ways math and physics combine to create something vastly more powerful, useful, and interesting than either is by itself. In a series of brief and largely self-contained chapters, Nahin discusses a wide range of topics in which math and physics are mutually dependent and mutually illuminating, from Newtonian gravity and Newton's laws of mechanics to ballistics, air drag, and electricity. The mathematical subjects range from algebra, trigonometry, geometry, and calculus to differential equations, Fourier series, and theoretical and Monte Carlo probability. Each chapter includes problems--some three dozen in all--that challenge readers to try their hand at applying what they have learned. Just as in his other books of mathematical puzzles, Nahin discusses the historical background of each problem, gives many examples, includes MATLAB codes, and provides complete and detailed solutions at the end. *Mrs. Perkins's Electric Quilt* will appeal to students interested in new math and physics applications, teachers looking for unusual examples to use in class--and anyone who enjoys popular math books.

Manual de tratamientos psicológicos

Infancia y adolescencia

**Ediciones Pirámide** El campo de la psicoterapia ha avanzado considerablemente en los últimos años. Por ello era necesario disponer de un nuevo manual en español que tuviera como finalidad conocer cuáles son, en el momento actual, los tratamientos psicológicos que cuentan con apoyo empírico para el abordaje de los problemas psicológicos y las dificultades en el ajuste socioemocional que acontecen en la infancia y la adolescencia. El estudiantado y los profesionales de la psicología, tanto en el ámbito clínico como de investigación, así como todas aquellas personas que quieran acercarse a este tópico, encontrarán una obra actual, basada en la evidencia empírica y eminentemente práctica que trata de integrar los cuantiosos conocimientos aglutinados en los últimos años en el campo de los tratamientos psicológicos. Ello queda patente en la colaboración de más de ochenta excelentes profesionales de la psicología y áreas afines, procedentes del mundo académico y del campo aplicado. A lo largo de veinticinco capítulos se abordan de forma amena, sencilla, didáctica y rigurosa los diferentes tratamientos apoyados de forma empírica para el abordaje de problemas psicológicos infanto-juveniles. Todos los capítulos se acompañan de relatos en primera persona, casos clínicos, enlaces web y bibliografía debidamente comentada que aportan, sin lugar a duda, un excelente valor añadido. A partir de estos conocimientos, los profesionales de la psicología y de la salud mental, así como los agentes encargados de las políticas sociosanitarias y educativas, podrán tomar decisiones informadas a la hora de utilizar aquellos tratamientos empíricamente apoyados en función de las características de las personas, en este caso menores de edad, que demandan ayuda. Es importante recordar que no hay salud sin salud mental.

## A Defense of the Free Market in a Time of Crisis (Large Print 16pt)

ReadHowYouWant.com In 2005, *The Woman at the Washington Zoo* was published to major critical acclaim. The late Marjorie Williams possessed "a special voice, one capable not just of canny political observations but of tenderness and bracing intimacy," observed the *New York Times Book Review*. Now, in a collection of profiles with the richness of short fiction, Williams limns the personalities that dominated politics and the media during the final years of the twentieth century. In these pages, Clark Clifford grieves "in his laborious baritone" a bank scandal's blow to his re-pu-taaaaaay-shun. Lee Atwater likens himself to Ulysses and pleads, "tah me to the mast!" Patricia Duff sheds "precipitous tears" over her divorce from Ronald Perelman, resembling afterwards "a garden refreshed by spring rain." *Reputation* illuminates our recent past through expertly drawn portraits of powerful - and messily human - figures.
