MEMOIRS OF A MALTESE MARINER

Xlibris Corporation Ing. Joseph Amato was born on the island of Malta during the years of WWII and started his sailing days while the island was a major British naval base in the Mediterranean. Having received his education at St. Augustine's College and later his engineering apprenticeship at the then Royal Naval Dockyard in Malta, he went on to follow a thirty-year sea-going career in the British Mercantile Marine, starting from coastal British and European ports, Baltic and Irish seas as far as Spitzbergen, Greenland and Icelandic ports. At twenty-nine years he obtained his class I, followed with a tanker endorsement on steam and motor propulsion and moved on to deep sea shipping, engaging himself on long distance voyaging, and as requested by various shipping companies. Now Joseph has retired from "pushing" tankers (VLCC) around the globe and prefers to enjoy his days afloat, propelled by the wind on his ketch-rigged sailing boat.

BOATBUILDING IN THE BACK YARD (FULL COLOR EDITION)

Lulu.com The Journal of the Molly B is my personal diary of the building of my dream. The building of a boat is a simple idea but in practice is more like a labor of love, which exceeds all expectations. The task is at times an overwhelming undertaking, which is reminiscent of the insignificance one feels in the middle of that vast and seemingly endless expanse of water, called an ocean, you feel so small and so alone. You at times feel as though it's an impossible task. Without the knowledge or experience, to solve the many problems that arise as you proceed along your course toward the completion of your vessel, you are constantly reminded of your shortcomings. I can assure you, it is not an impossible task! It took me 12 years but the Molly B is finally in the water and fulfilling our dream of living on the water. It's well worth the time and effort but you'll never finish it if you don't get started, you just have to take that first step and go for it.

THE BUILDING OF A DREAM -- JOURNAL OF THE MOLLY B

ACCIDENTAL SAILOR GIRL

Accidental Sailor Girl is a story about a young girl named Kourtney and her journey from starting out with only her car and a surfboard to sailing across the Atlantic on a Gaff Rigged Cutter with a Square Sail named Norna. The story moves from her hardships of living on the beach to buying her first sailboat, a 27 foot Hunter she named "Happy." Her attitude toward learning how to sail and how to fix up her boat led her to meet Pete Grundvig, a local carpenter and shipwright, the owner of Norna. Their relationship with surfing, sailing, and music, moved them to the tune of a two year Atlantic Circumnavigation. Kourtney soon realizes she is not the same person she was when she left home two years before.
