Moody's Industrial Manual

Covering New York, American & regional stock exchanges & international companies.

My Sweet Degradation

Chimera Books My Sweet Degradation is a collection of darkly erotic stories exploring the taboo yet enticing theme of control and surrender. Naughty schoolgirls are punished and shown the error of their ways, innocent young ladies are obliged to submit to secret desires, and the shy and inexperienced are encouraged to push the boundaries of what they believe to be acceptable. Each tale proudly adheres to the Chimera tradition of offering the most evocative of 'damsel in distress' scenarios - exploring the exhilarating theme of domination and submission - yet in everyday, familiar settings: a headmaster's study, a stable, a hotel room, a hospital... If you have a passion for erotic fiction with imaginative style; for stories that are told in a colourfully expressive manner without succumbing to overly poetic prose, then you are sure to find yourself transported as you turn the pages of My Sweet Degradation.

Craig McDean: Manual

Rizzoli Publications **The worlds of high-fashion models and car racing collide in this high-octane collection of images from one of the fashion world's most celebrated photographers. Before he was one of the fashion world's most revered and sought-after photographers, Craig McDean trained and worked as a car mechanic in his hometown of Middlewich, England. In this new volume (the highly anticipated follow-up to McDean's lauded first monograph, Amber, Guinevere, and Kate), the photographer celebrates his two main passions: cars and fashion. With McDean's trademark energy and glamour, the images in this book capture the beauty, mystery, and sex appeal inherent in both the worlds of luxury fashion and luxury automobiles. Featuring some of fashion's most well-known models juxtaposed against images of flame-covered race cars and chromium steel car parts, Craig McDean: Manual is a stylish exploration of the ways that fashion and car racing collide.**

Sally Phipps

Silent Film Star

Createspace Independent Publishing Platform **Sally Phipps was only three years old and the veteran winner of several beautiful baby contests when she appeared as the Baby in the film "Broncho Billy And The Baby." It was made at the Niles California Essanay Studio in late 1914. This book follows her amazing life and a career that culminated in her receiving the Rosemary (for remembrance) Award shortly before her death in 1978. Her memories of the early years at Essanay include sitting on Charlie Chaplin's lap and enduring a frightening stage coach accident. In her teens, she was a Fox Studio star appearing in 20 films, including a cameo in the classic "Sunrise." There were bad times also. She was on the set of her Fox two-reel comedy "Gentlemen Prefer Scotch" in 1927 when word reached her of the scandalous death of her father, a state senator. But in that same year, she was selected as one of the 13 Wampas Baby Stars, starlets that were considered destined for future success. Despite her popularity in Hollywood, she left for New York where she became the darling of gossip columnists, particularly Walter Winchell. She appeared in two Broadway shows, made a Vitaphone comedy short, and married and divorced one of the Gimbel department store moguls before she darted off for India and around the world travel. Back in New York, there was another marriage, two children, and later a stay in Hawaii. Earl Wilson wrote about her in 1938 when she was working for the Federal Theatre Project during the**

WPA period -- headlining his column "Wampas Ex-Baby Lives On WPA \$23 - And Likes It." Her images - especially her pinup photographs - have become highly collectible. The book features 150 pictures from Sally's personal and professional life, including glamorous portraits and pinups.

""You're in luck, Alfred,"" he declared. ""That's the most interesting man in New York-one of the most interesting in the world. That's Sanford Quest."" ""Who's he?"" ""You haven't heard of Sanford Quest?"" ""Never in my life."" The young man whose privilege it was to have been born and lived all his days in New York, drank half a glassful of wine and leaned back in his chair. Words, for a few moments, were an impossibility. ""Sanford Quest,"" he pronounced at last, ""is the greatest master in criminology the world has ever known. He is a magician, a scientist, the Pierpont Morgan of his profession."" ""Say, do you mean that he is a detective?"" The New Yorker steadied himself with an effort. Such ignorance was hard to realise-harder still to deal with. ""Yes,"" he said simply, ""you could call him that-just in the same way you could call Napoleon a soldier or Lincoln a statesman...""

Short Story

Harper Collins Farrington is an alcoholic scrivener who has been scolded by his boss for not finishing a task on time. But instead of completing the task, Farrington goes out for a beer and receives yet another scolding from his boss. Farrington's day continues to unravel when he is humiliated at a local pub, and arrives home to find his wife out at chapel and his dinner uncooked. Critically acclaimed author James Joyce's *Dubliners* is a collection of short stories depicting middle-class life in Dublin in the early twentieth century. First published in 1914, the stories draw on themes relevant to the time such as nationalism and Ireland's national identity, and cement Joyce's reputation for brutally honest and revealing depictions of everyday Irish life. HarperPerennial Classics brings great works of literature to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. Speculative Everything

Design, Fiction, and Social Dreaming

MIT Press How to use design as a tool to create not only things but ideas, to speculate about possible futures. Today designers often focus on making technology easy to use, sexy, and consumable. In *Speculative Everything*, Anthony Dunne and Fiona Raby propose a kind of design that is used as a tool to create not only things but ideas. For them, design is a means of speculating about how things could be—to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong, again and again. Instead, Dunne and Raby pose “what if” questions that are intended to open debate and discussion about the kind of future people want (and do not want). *Speculative Everything* offers a tour through an emerging cultural landscape of design ideas, ideals, and approaches. Dunne and Raby cite examples from their own design and teaching and from other projects from fine art, design, architecture, cinema, and photography. They also draw on futurology, political theory, the philosophy of technology, and literary fiction. They show us, for example, ideas for a solar kitchen restaurant; a flypaper robotic clock; a menstruation machine; a cloud-seeding truck; a phantom-limb sensation recorder; and devices for

food foraging that use the tools of synthetic biology. Dunne and Raby contend that if we speculate more—about everything—reality will become more malleable. The ideas freed by speculative design increase the odds of achieving desirable futures.

Missing Out

In Praise of the Unlived Life

Farrar, Straus and Giroux **A transformative book about the lives we wish we had and what they can teach us about who we are All of us lead two parallel lives: the one we are actively living, and the one we feel we should have had or might yet have. As hard as we try to exist in the moment, the unlived life is an inescapable presence, a shadow at our heels. And this itself can become the story of our lives: an elegy to unmet needs and sacrificed desires. We become haunted by the myth of our own potential, of what we have in ourselves to be or to do. And this can make of our lives a perpetual falling-short. But what happens if we remove the idea of failure from the equation? With his flair for graceful paradox, the acclaimed psychoanalyst Adam Phillips suggests that if we accept frustration as a way of outlining what we really want, satisfaction suddenly becomes possible. To crave a life without frustration is to crave a life without the potential to identify and accomplish our desires. In this elegant, compassionate, and absorbing book, Phillips draws deeply on his own clinical experience as well as on the works of Shakespeare and Freud, of D. W. Winnicott and William James, to suggest that frustration, not getting it, and and getting away with it are all chapters in our unlived lives—and may be essential to the one fully lived.**

WHO Guidelines for Indoor Air Quality

Selected Pollutants

World Health Organization **This book presents WHO guidelines for the protection of public health from risks due to a number of chemicals commonly present in indoor air. The substances considered in this review, i.e. benzene, carbon monoxide, formaldehyde, naphthalene, nitrogen dioxide, polycyclic aromatic hydrocarbons (especially benzo[a]pyrene), radon, trichloroethylene and tetrachloroethylene, have indoor sources, are known in respect of their hazardousness to health and are often found indoors in concentrations of health concern. The guidelines are targeted at public health professionals involved in preventing health risks of**

environmental exposures, as well as specialists and authorities involved in the design and use of buildings, indoor materials and products. They provide a scientific basis for legally enforceable standards.

Handbook of Hydrocolloids

Elsevier **Hydrocolloids are among the most widely used ingredients in the food industry. They function as thickening and gelling agents, texturizers, stabilisers and emulsifiers and in addition have application in areas such as edible coatings and flavour release. Products reformulated for fat reduction are particularly dependent on hydrocolloids for satisfactory**

sensory quality. They now also find increasing applications in the health area as dietary fibre of low calorific value. The first edition of Handbook of Hydrocolloids provided professionals in the food industry with relevant practical information about the range of hydrocolloid ingredients readily and at the same time authoritatively. It was exceptionally well received and has subsequently been used as the substantive reference on these food ingredients. Extensively revised and expanded and containing eight new chapters, this major new edition strengthens that reputation. Edited by two leading international authorities in the field, the second edition reviews over twenty-five hydrocolloids, covering structure and properties, processing, functionality, applications and regulatory status. Since there is now greater emphasis on the protein hydrocolloids, new chapters on vegetable proteins and egg protein have been added. Coverage of microbial polysaccharides has also been increased and the developing role of the exudate gums recognised, with a new chapter on Gum Ghatti. Protein-polysaccharide complexes are finding increased application in food products and a new chapter on this topic as been added. Two additional chapters reviewing the role of hydrocolloids in emulsification and their role as dietary fibre and subsequent health benefits are also included. The second edition of Handbook of hydrocolloids is an essential reference for post-graduate students, research scientists and food manufacturers. Extensively revised and expanded second edition edited by two leading international authorities Provides an introduction to food hydrocolloids considering regulatory aspects and thickening characteristics Comprehensively examines the manufacture, structure, function and applications of over twenty five hydrocolloids

Principles of Management

Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters. The Educators' Handbook to Interactive Videodisc

Assn for Educational **This overview of interactive videodisc technology is designed to assist educators in finding the appropriate equipment and software for any specific application. The handbook may also serve as a starting point for many educators who know nothing of the technology and assist them in deciding whether this technology is worth pursuing as an educational tool in specific situations. Although not comprehensive, the listings reflect a good portion of the videodisc-related products available today and the prices provide a good indication of the general price range of specific items. The handbook contains 10 chapters: (1) Introduction to Videodiscs; (2) Overview of Laser Disc Systems; (3) Selecting a Laser Videodisc Player; (4) Video Playback Units; (5) Videodisc Interface Units; (6) Disc Player Peripherals; (7) Videodisc System Packages; (8) Educational Videodisc Software; (9) Interactive Videodisc Authoring Languages; and (10) Videodisc Care and Maintenance. Appendices include directories of laser disc players; television monitors and projects; laser disc interfaces; laser disc peripherals; laser disc system packages; videodisc software (listed by subject area); videodisc mastering options; interactive authoring languages; service information; and videodisc resources, which includes a manufacturer's index.
