THE WIZARD OF LONDON

Penguin **The fourth novel in Mercedes Lackey's magical Elemental Masters series reimagines the fairy tale The Snow Queen in a richly-detailed alternate Victorian England The letter**

that introduced twelve-year-old Sarah Jane Lyon-White to Isabelle Harton, who ran the Harton School in central London, seemed quite simple and straightforward. But it was what was not written in the letter that resonated to Isabelle's own finely tuned "extra" senses: "Sarah has gifts we cannot train," the letter whispered to her, "nor can anyone we know. Those we trust tell us that you can...." And it was true, for the Harton School was far from ordinary. It was Isabelle's job to train children who possessed the odd types of magic that could not be trained by London's powerful Elemental Masters: clairvoyants, telepaths, those with the ability to sense hidden danger, the vision to see into the past, and even that rarest of all talents: the ability to see and communicate with the dead. But Isabelle was uneasy, for though she knew that Sarah Jane had a touch of telepathy, there seemed to be something else about the girl—something that had not yet manifested. And Isabelle was right to be worried, for as soon as Sarah's full talents became evident, there was an attempt made on her life. For Sarah was that rarest of magicians: a true medium, and for some reason, a powerful Elemental Master wanted her dead. Isabelle knew that to protect her ward she would have to seek help from the Elemental Masters of the city. That meant she would also see Lord David Alderscroft, the man she had once loved, but who had inexplicably chilled toward her and broken her heart long ago—for he was the leader of the city's Elemental Masters, the man who was now called the Wizard of London.

DUNKIRK

FIGHT TO THE LAST MAN

[Penguin UK](#) * * * Special 75th Anniversary Edition * * * Hugh Sebag-Montefiore's *Dunkirk: Fight to the Last Man* tells the story of the rescue in May 1940 of British soldiers fleeing capture and defeat by the Nazis at Dunkirk. Dunkirk was not just about what happened at sea and on the beaches. The evacuation would never have succeeded had it not been for the tenacity of the British soldiers who stayed behind to ensure they got away. Men like Sergeant Major Gus Jennings who died smothering a German stick bomb in the church at Esquelbecq in an effort to save his comrades, and Captain Marcus Ervine-Andrews VC who single-handedly held back a German attack on the Dunkirk perimeter thereby allowing the British line to form up behind him. Told to stand and fight to the last man, these brave few battalions fought in whatever manner they could to buy precious time for the evacuation. Outnumbered and outgunned, they launched spectacular and heroic attacks time and again, despite ferocious fighting and the knowledge that for many only capture or death would end their struggle. 'A searing story . . . both meticulous military history and a deeply moving testimony to the extraordinary personal bravery of individual soldiers' Tim Gardam, *The Times* 'Sebag-Montefiore tells [the story] with gusto, a remarkable attention to detail and an inexhaustible appetite for tracking down the evidence' Richard Ovary, *Telegraph* Hugh Sebag-Montefiore was a barrister before becoming a journalist and then an author. He wrote the best-selling *Enigma: The Battle for the Code*. One of his ancestors was evacuated from Dunkirk.

AFTERTIME

Having no idea how many days—or weeks—have passed, she slowly realizes the horrifying truth: her daughter, Ruthie, has vanished. And with her, nearly all of civilization. Instead of winding through the once-lush hills, the roads today see only cannibalistic Beaters—people turned hungry for human flesh by a government experiment gone wrong. In a broken, barren California, Cass will undergo a harrowing quest to get Ruthie back. Few people trust an outsider—much less one who bears the telltale scars of a Beater attack—but she finds safety with an enigmatic outlaw, Smoke. And she'll need him more than ever when his ragged band of survivors learn that she and Ruthie have become the most feared, and desired, weapons in a brave new world....

SEEKING SANCTUARY

STORIES OF SEXUALITY, FAITH AND MIGRATION

NYU Press A glimpse into the lives of LGBTQ migrants in Johannesburg, in their own words Seeking Sanctuary brings together poignant life stories from fourteen lesbian, gay, bisexual and transgender (LGBT) migrants, refugees and asylum seekers living in Johannesburg, South Africa. The stories, diverse in scope, chronicle each narrator's arduous journey to South Africa, and their corresponding movement towards self-love and self-acceptance. The narrators reveal their personal battles to reconcile their faith with their sexuality and gender identity, often in the face of violent persecution, and how they have carved out spaces of hope and belonging in their new home country. In these intimate testimonies, the narrators' resilience in the midst of uncertain futures reveal the myriad ways in which LGBT Africans push back against unjust and unequal systems. Seeking Sanctuary makes a critical intervention by showing the complex interplay between homophobia and xenophobia in South Africa, and of the state of sexual orientation and gender identity (SOGI) rights in Africa. By shedding light on the fraught connections between sexuality, faith and migration, this ground-breaking project also provides a model for religious communities who are working towards justice, diversity and inclusion.

CHICANA MOVIDAS

NEW NARRATIVES OF ACTIVISM AND FEMINISM IN THE MOVEMENT ERA

[University of Texas Press](#) With contributions from a wide array of scholars and activists, including leading Chicana feminists from the period, this groundbreaking anthology is the first collection of scholarly essays and testimonios that focuses on Chicana organizing, activism, and leadership in the movement years. The essays in *Chicana Movidas: New Narratives of Activism and Feminism in the Movement Era* demonstrate how Chicanas enacted a new kind of politica at the intersection of race, class, gender, and sexuality, and developed innovative concepts, tactics, and methodologies that in turn generated new theories, art forms, organizational spaces, and strategies of alliance. These are the technologies of resistance documented in *Chicana Movidas*, a volume that brings together critical biographies of Chicana activists and their bodies of work; essays that focus on understudied organizations, mobilizations, regions, and subjects; examinations of emergent Chicana archives and the politics of collection; and scholarly approaches that challenge the temporal, political, heteronormative, and spatial limits of established Chicano movement narratives. Charting the rise of a field of knowledge that crosses the boundaries of Chicano studies, feminist theory, and queer theory, *Chicana Movidas: New Narratives of Activism and Feminism in the Movement Era* offers a transgenerational perspective on the intellectual and political legacies of early Chicana feminism.

WAKE UP, WOODS

Rubber Ducky Press Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. Wake Up, Woods showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of Wake Up, Woods will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

MAJOR INCIDENT MEDICAL MANAGEMENT AND SUPPORT

THE PRACTICAL APPROACH IN THE HOSPITAL

John Wiley & Sons The new edition of Major Incident Medical Management and Support is a vital component in the blended learning course from Advanced Life Support Group (ALSG), which aims to provide hospital staff at all levels with essential information on the preparation, management and support elements of dealing with casualties in a major incident. Split into five sections, each focuses on the elements requisite in preparing for, and responding, to a major incident. The first section discusses the epidemiology and incidences of major incidents and the structured approach to the hospital response. The second section contains the preparation required in planning for major incidents, including equipment and training. The third section covers the management of a major incident, concentrating on the clinical, nursing and management hierarchies. The fourth includes the various stages of support in a major incident, including declaring an incident and activating the plan, the reception, triage, definitive care and recovery phases of an incident. The final section focuses on special incidents which require additional consideration, including those involving hazardous chemicals, burns and children. Written in collaboration with the National Emergency Planning, Major Incident Medical Management and Support is an invaluable reference in the emergency department and beyond for staff needing to prepare for the rare, but inevitable, hospital major incidence response.

BLUE LEGALITIES

THE LIFE AND LAWS OF THE SEA

Duke University Press Books The ocean and its inhabitants sketch and stretch our understandings of law in unexpected ways. Inspired by the blue turn in the social sciences and humanities, Blue Legalities explores how regulatory frameworks and governmental infrastructures are made, reworked, and contested in the oceans. Its interdisciplinary contributors analyze topics that range from militarization and Maori cosmologies to island building in the South China Sea and underwater robotics. Throughout, Blue Legalities illuminates the vast and unusual challenges associated with regulating the turbulent materialities and lives of the sea. Offering much more than an analysis of legal frameworks, the chapters in this volume show how the more-than-human ocean is central to the construction of terrestrial institutions and modes of governance. By thinking with the more-than-human ocean, Blue Legalities questions what we think we know—and what we don't know—about oceans, our earthly planet, and ourselves. Contributors.
