CRITICAL CARE TRANSPORT

Jones & Bartlett Learning Welcome to the new gold standard in critical care transport training. Published in conjunction with the American Academy of Orthopaedic Surgeons (AAOS) and the American College of Emergency Physicians (ACEP), Critical Care Transport offers cutting edge content relevant to any healthcare provider training in critical care transport. Like no other textbook in this market, Critical Care Transport thoroughly prepares medical professionals to function as competent members of a critical care team by covering the material that everyone—paramedics, nurses, physicians, and specialty crew—needs to know to operate effectively in the prehospital critical care environment. This book meets the curricula of major critical care training programs, including University of Maryland, Baltimore County (UMBC). It covers both ground and flight transport, and meets the objectives of critical care transport certification exams such as the Certified Flight Paramedic (FP-C) exam administered by the Board for Critical Care Transport Paramedic Certification. Content includes information specific to prehospital critical care transport, such as flight physiology, lab analysis, hemodynamic monitoring, and specialized devices such as the intra-aortic balloon pump. Standard topics such as airway management, trauma, and pharmacology are covered in the context of critical care. Chapters have been authored by leading critical care professionals across the country and represent the most current, state-of-the-art information on management of critical care patients.

PRACTICAL PSYCHOLOGY IN MEDICAL REHABILITATION

Springer This easy-access guide summarizes the dynamic specialty of rehabilitation psychology, focusing on real-world practice in the medical setting. It begins by placing readers at the frontlines of practice with a solid foundation for gathering information and communicating effectively with patients, families, and staff. The book's topics run a wide gamut of patient conditions (neurological, musculoskeletal, cardiovascular), related problems (sleep and fatigue issues, depression) and practitioner responses (encouraging coping and compliance, pediatric and geriatric considerations). Models of disability and adaptation, review of competency concerns, and guidelines for group and individual therapy offer evidence-based insights for helping patients manage their health conditions, benefit from rehabilitation interventions, and prepare for their post-rehabilitation lives and activities. Coverage spotlights these core areas: ·Basics and biopsychosocial practicalities, from behavioral medicine and psychopharmacology to ethical and forensic issues. ·Populations, problems, and procedures, including stroke, TBI, substance abuse, transplants, and severe mental illness. ·Assessment and practical interventions such as pain, anxiety, cognitive functioning, and more. ·Consultation, advocacy, and interdisciplinary teams. ·Practice management, administration, and professional self-care. ·Research, technology, and program evaluation. Practical Psychology in Medical Rehabilitation is an essential professional development tool for novice (and a refresher for veteran) psychologists and neuropsychologists, as well as rehabilitation physicians, nurses, therapists, psychiatrists, and social workers. It presents in depth both the hallmarks of the specialty and the nuts and bolts of being a valuable team player in a medical setting.

THINGS MIGHT GO TERRIBLY, HORRIBLY WRONG

A GUIDE TO LIFE LIBERATED FROM ANXIETY

New Harbinger Publications Whether it manifests itself as worry, fear, rumination, obsession, compulsion, or shyness, anxiety is everywhere, and it causes no end of trouble for just about all of us. But at its core, anxiety serves an important purpose: to neutralize uncomfortable ambiguities. This book begins with a whirlwind tour of anxiety: what causes it, what we think about it, and what it might look like. Then the book looks at some of the approaches to treating anxiety and poses an intriguing question: What if you don't need to get rid of anxiety in order to live a terrific life? *Things Might Go Terribly, Horribly Wrong* approaches this breakaway hypothesis through the mechanisms of acceptance and commitment therapy (ACT) and presents a series of thinking points and short games readers can do to easily and effectively begin to incorporate ACT techniques into their lives. This book is not a full-scale self-help approach for someone with serious anxiety problems, but an easy way for readers who have wrestled with worry, fear, and shyness to put those feelings into perspective and focus instead on what they want to do in life. This book will help readers foster the flexibility they need to keep from succumbing to the avoidant forces of anxiety and open themselves to the often uncomfortable complexities and possibilities of life.

THE PRIVATIZATION OF SPACE EXPLORATION

BUSINESS, TECHNOLOGY, LAW AND POLICY

Transaction Publishers Space was at the center of America's imagination in the 1960s. President John F. Kennedy's visionary statement captured the mood of the day: "We choose to go to the moon in this decade and do the other things, not because they are easy, but because they are hard." The Apollo mission's success in July 1969 made almost anything seem possible, but the Cold War made space flight the province of governmental agencies in the United States. When the Apollo program ended in 1972, space lost its hold on the public interest, as the great achievements wound down. Entrepreneurs are beginning to pick up the slack—looking for safer, more reliable, and more cost effective ways of exploring space. Entrepreneurial activity may make create a renaissance in human spaceflight. The private sector can energize the quest for space exploration and shape the race for the final frontier. Space entrepreneurs and private sector firms are making significant innovations in space travel. They have plans for future tourism in space and safer shuttles. Solomon details current US and international laws dealing with space use, settlement, and exploration, and offers policy recommendations to facilitate privatization. As private enterprise takes hold, it threatens to change the space landscape forever. Individuals are designing spacecraft, start-up companies are testing prototypes, and reservations are being taken for suborbital space flights. With for-profit enterprises carving out a new realm, it is entirely possible that space will one day be a sea of hotels and/or a repository of resources for big business. It is important that regulations are in place for this eventuality. These new developments have great importance, huge implications, and urgency for everyone.

THE "HITCHHIKER'S GUIDE TO THE GALAXY" REVISITED: MOTIFS OF SCIENCE FICTION AND SOCIAL CRITICISM

Diplomica Verlag GmbH This book is a survey of typical Science Fiction elements in Douglas Adams's *Hitchhiker's Guide to the Galaxy*. Christian Erkenbrecher first goes through a short history of Science Fiction and identifies certain motifs of the genre in order to correctly place the novel within a useful context. Classical elements of the Science Fiction canon are identified in the novel and scrutinized. It becomes clear that Douglas Adams was fully aware of the SF "burden" and we can see how its elements are used in order to create both humour and criticism. The question of whether social criticism can be applied purposefully in SF will be asked. Other big questions which are posed (and answered?) in *Hitchhikers* are also taken into consideration: Is there a god? Will the breakdown of communication barriers between races put an end to all wars? Can the advancement of technology prevent us from destroying ourselves? Follow the author on his way through Douglas Adams's "wholly remarkable book" and see how this exceptional hitchhiking playwright and atheist writer enriched the world with his unique prose.

THE MYTH AND RITUAL SCHOOL

J.G. FRAZER AND THE CAMBRIDGE RITUALISTS

Routledge First Published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

THE BASICS OF GEOMORPHOLOGY

KEY CONCEPTS

SAGE "I can think of no better guides than Professors Ken Gregory and John Lewin to lead the reader through the conceptual basis of this exciting science." - Victor R. Baker, University of Arizona "A very readable and informative introduction to the discipline for senior undergraduates, postgraduates and researchers." - Angela Gurnell, Queen Mary University of London "Time will tell, but this book may well mark a turning point in the way students and scientists alike perceive Earth surface processes and landforms." - Jonathan Phillips, University of Kentucky This student focused book provides a detailed description and analysis of the key concepts, ideas, and hypotheses that inform geomorphology. Kenneth Gregory and John Lewin explain the basics of landform science in 20 concepts, each the subject of a substantive, cross-referenced entry. They use the idea of the 'geomorphic system' to organise entries in four sections, with extensive web resources provided for each: **System Contexts: The Systems Approach / Uniformitarianism / Landform / Form, Process and Materials / Equilibrium / Complexity and Non Linear Dynamical Systems System Functioning: Cycles and cascades / Force-Resistance / Geomorphic work / Process Form Models System Adjustments: Timescales / Forcings / Change Trajectories / Inheritance and Sensitivity / Anthropocene Drivers for the Future: Geomorphic Hazards / Geomorphic Engineering / Design and Prediction** Aligned with the teaching literature, this innovative text provides a fully-functioning learning environment for study, revision, and even self-directed research for both undergraduate and postgraduate students of geomorphology.

THE PHYSICIAN'S GUIDE TO INVESTING

A PRACTICAL APPROACH TO BUILDING WEALTH

Springer Science & Business Media I met Bob Doroghazi when he dropped the first draft of his manuscript of *The Physician's Guide to Investing: A Practical Approach to Building Wealth* at my office. I will

have to admit I was a bit skeptical: a physician writing a book on investments? During that first meeting with Bob, it became evident that he had been a successful physician and a successful investor, so I agreed to take a look at the book. I was in for a pleasant surprise. Bob's manuscript was easy to read and had specific advice useful to physicians, interspersed with lots of practical tidbits for any investor. Having written three college-level finance and investment texts, I was excited to be in on a project aimed at offering practical investment advice to a more general, yet specialized, audience. I had high expectations for the book and am pleased to say that I believe Bob has delivered a book that every physician interested in building wealth and protecting assets should read. Bob is a straight shooter; he tells it like he sees it in his book. Some doctors might be indignant on reading his statements, such as "Physicians sometimes have no idea of their limitations. This type of arrogance and ego can result in investing disaster." However, if you do have these limitations (and most professionals, even college professors, do), then reading Bob's book will help you recognize situations in which they can lead to poor investment decisions.

TERRY PRATCHETT'S DISCWORLD 2016 DIARY

A PRACTICAL MANUAL FOR THE MODERN WITCH

Gollancz One part diary, one part guide to the arcane practices of the funniest creation in modern fantasy, 100% Discworld goodness. With their trademark mix of cultural ephemera, background detail and hilarious one-liners, the Discworld diaries are back. And 2016's diary gives a long-awaited insight into the wit and wisdom of some of the Discworld's most-loved characters, the Witches. Or, as Granny Weatherwax puts it: "I don't hold with diaries. If a witch don't know where she's been or where she should be, no amount of writing it down in long and diverse letters will make any difference. There are some who say that making a note of birthdays and the like will mean you get a lot of presents but I think Gytha is wrong. But suit yourself. Personally I can't be doing with it." ~ Esme Weatherwax

THE BLUFFER'S GUIDE TO THE QUANTUM UNIVERSE

THE ENCHANTMENT OF SOCIOLOGY

A STUDY OF THEOLOGY AND CULTURE

Palgrave Macmillan A unique study of the link between theology and culture from a sociological perspective which addresses the issue of the pursuit of enchantment in the context of postmodernity. Sociology is applied to sociology itself to discern its own domestic response to theological readings of culture. A novel reading of Simmel, Bourdieu and Weber in relation to the Swiss Catholic theologian, Hans Urs von Balthasar, produces a controversial critique of assumptions regarding religious belief in the context of debates on secularisation and postmodernity.

CREST-JEWEL OF WISDOM (VIVEKACHUDAMANI)

"Sankara's works, the manuals and catechisms for learners, are complete and perfect. They really teach, quite plainly and lucidly, the first steps on the path of wisdom; they point out, with clear insistence, the qualities that are necessary to make these first steps fruitful; qualities without which the learner may remain, hesitating and halting, on the threshold, through lack of the force and sterling moral worth which alone make any further progress possible. "The Crest-Jewel of Wisdom begins with these first steps on the path and ends with the complete teaching of Sankara's philosophy so far as that teaching can be put into words. His teaching is, briefly stated, this: The cause of the sorrow and suffering of mankind is a belief in the reality and isolated existence of the personal life. But the personality, with the fate of which each one of us identifies himself, has no real existence; it is nothing but an image of the body in the mind, and its sufferings are imaginary. Its original cause is the "beginningless, ineffable un wisdom" of separation; and this illusion of isolated being is dispelled by an insight, which we may well call illumination, or inspiration. When the false self is dispelled, Sankara tells us, the real Self rises in the heart, as the sun shines out when the clouds are dispersed."-Charles Johnston
