HWM Singapore's leading tech magazine gives its readers the power to decide with its informative articles and in-depth reviews. Security Owner's Stock Guide The Comprehensive Guide to Economic Damages [BVResources](#) The 4rd Edition of The Comprehensive Guide to Economic Damages, edited by Nancy J. Fannon and Jonathan Dunitz, Esq., provides a deep and rich resource for financial experts and attorneys seeking guidance on damage calculations. The Guide focuses on financial evidence: how to gather it, interpret it, and tell its story in a lawsuit or litigation setting. Blending the financial expert's knowledge of accepted methods and procedures with the attorney's knowledge of legal issues and insights, it provides in-depth analysis and interpretation of the continually expanding body of case law. Key highlights of the new edition include: -Updated and expanded chapters covering all aspects of calculating lost profits / loss of business value -An insightful and comprehensive look at the unjust enrichment remedy -Substantive new materials on forensic accounting -A new chapter covering business interruption -Expanded coverage of benefit of the bargain damages -Expanded insights into intellectual property damages, including patents, trademarks and copyright -New and enhanced abstracts of many of the lost profit and damage cases found throughout the book Ensure that you have the most up-to-date thinking on damages by adding The Comprehensive Guide to Lost Profits and Other Commercial Damages to your business library today! Maximum PC Maximum PC is the magazine that every computer fanatic, PC gamer or content creator must read. The Value Line Investment Survey Macworld The Macintosh Magazine Radar Instruction Manual Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardized up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.
