RESOURCES IN EDUCATION

COPYRIGHT, FAIR USE, AND THE CHALLENGE FOR UNIVERSITIES

PROMOTING THE PROGRESS OF HIGHER EDUCATION

University of Chicago Press **The recent lawsuit against Kinko's Copies for copyright infringement has exposed the confusion and heightened the fear of liability surrounding copyright issues in colleges and universities. This volume offers an enlightening explanation of copyright and the ambiguous concept of fair use as they affect and are affected by higher education. In the first large-scale study of its kind, Kenneth D. Crews surveys the copyright policies of ninety-eight American research universities. His analysis reveals a variety of ways in which universities have responded to—and how they could better manage—the conflicting goals of copyright policies: avoiding infringements while promoting lawful uses that serve teaching and research. He explains in detail the background of copyright law and congressional guidelines affecting familiar uses of photocopies, videotapes, software, and reserve rooms. Crews concludes that most universities are overly conservative in their interpretation of copyright and often neglect their own interests, adding unnecessary costs and obstacles to the lawful dissemination of information. Copyright, Fair Use, and the Challenge for Universities provides administrators, instructors, lawyers, librarians, and educational leaders a much-needed exegesis of copyright and how it can better serve higher education.**

EVIDENCE-BASED PRACTICE IN ACTION: COMPREHENSIVE STRATEGIES, TOOLS, AND TIPS FROM UNIVERSITY OF IOWA HOSPITALS & CLINICS, SECOND EDITION

Sigma Theta Tau **“Building on extensive real-life experience with EBP, this expert team from University of Iowa Hospitals & Clinics provides vital guidance to clinicians at the cutting edge of care improvement.” -Kathleen R. Stevens, EdD, MS, RN, ANEF, FAAN Castella Endowed Distinguished Professor School of Nursing and Institute for Integration of Medicine & Science (CTSA) University of Texas Health Science Center San Antonio “This new edition is essential for all**

who want to deliver evidence-based care. Beautifully organized, it is readable, practical, and user-friendly.” -Kathleen C. Buckwalter, PhD, RN, FAAN Professor Emerita, University of Iowa College of Nursing Distinguished Nurse Scientist in Aging, Reynolds Center Oklahoma University Health Sciences Center, College of Nursing “Evidence-Based Practice in Action, Second Edition, will continue to ensure high-quality, evidence-based care is implemented in healthcare systems across the country – and the world. It should also be a well-worn tool in every implementation scientist’s toolkit.

-Heather Schacht Reisinger, PhD Professor, Department of Internal Medicine Associate Director for Engagement, Integration and Implementation Institute for Clinical and Translational Science, University of Iowa Translate knowledge, research, and clinical expertise into action. The biggest barrier to effective evidence-based practice (EBP) is the failure to effectively translate available knowledge, research, and clinical expertise into action. This failure is rarely due to lack of information, understanding, or experience. In fact, it usually comes down to a simple lack of tools and absence of a clear plan to integrate EBP into care. Problem solved: Evidence-Based Practice in Action, Second Edition, is a time-tested, application-oriented EBP resource for any EBP process model and is organized based on The Iowa Model Revised: Evidence-Based Practice to Promote Excellence in Health Care. This book offers a proven, detailed plan to help nurses and healthcare professionals promote and achieve EBP implementation, adoption, sustained use.

ACADEMIC TENURE IN AMERICAN HIGHER EDUCATION

FEMINISTS WHO CHANGED AMERICA, 1963-1975

[University of Illinois Press](#) **Documenting key feminists who ignited the second wave women's movement Barbara J. Love's *Feminists Who Changed America, 1963-1975* will be the first comprehensive directory to document many of the founders and leaders (including both well-known and grassroots organizers) of the second wave women's movement. It tells the stories of more than two thousand individual women and a few notable men who together reignited the women's movement and made permanent changes to entrenched customs and laws. The biographical entries on these pioneering feminists represent their many factions, all parts of the country, all races and ethnic groups, and all political ideologies. Nancy Cott's foreword discusses the movement in relation to the earlier first wave and presents a brief overview of the second wave in the context of other contemporaneous social movements.**

MANUAL OF LABORATORY MIX DESIGN PROCEDURE FOR COLD IN-PLACE RECYCLING USING FOAMED ASPHALT (CIR-FOAM)

The objective is to determine the optimum percentage of water needed to produce the best foam properties for a given asphalt binder. The optimum water content is determined by achieving the maximum expansion ratio and half-life of the foamed asphalt. Expansion ratio is defined as the maximum volume over its original volume and half-life is defined as the time in seconds for foam to become a half of its maximum volume.

SCHOOL LIBRARIES 3.0

PRINCIPLES AND PRACTICES FOR THE DIGITAL AGE

Rowman & Littlefield This textbook, for school library administration courses, is written by a professor who has taught this course at least once a year for the past twenty years. Technology is interwoven throughout the book and not listed as a separate chapter or book section. This is because the school librarian of today—and certainly the school librarian of tomorrow—is working in an environment of web resources, multimedia, mixed methods, and varying programs and services. Major chapters cover the various roles of the school librarian, curricular standards and guidelines, policies and procedures, budgeting, facilities, personnel, services, programming, ethics, advocacy, and evaluation. Sample policies, procedures, and plans make this book valuable to both new and experienced school librarians.
