### The Use of History in Putin's Russia

*Vernon Press* **History is not just a study of past events, but a product and an idea for the modernisation and consolidation of the nation. 'The Use of History in Putin's Russia' examines how the past is perceived in contemporary Russia and analyses the ways in which the Russian state uses history to create a broad coalition of consensus and forge a new national identity. Central to issues of governance and national identity, the Russian state utilises history for the purpose of state-building and reviving Russia's national consciousness in the twenty-first century. Assessing how history mediates the complex relationship between state and population, this book analyses the selection process of constructing and recycling a preferred historical narrative to create loyal, patriotic citizens, ultimately aiding its modernisation. Different historical spheres of Russian life are analysed in-depth including areas of culture, politics, education, and anniversaries. The past is not just a state matter, a socio-political issue linked to the modernisation process, containing many paradoxes. This book has wide-ranging appeal, not only for professors and students specialising in Russia and the former Soviet Space in the fields of History and Memory, International Relations, Educational Studies, and Intercultural Communication but also for policymakers and think-tanks.**

## Russian Nuclear Weapons

### Past, Present, and Future - Review of Strategy, Doctrine, Relationship to Conventional Forces, Tactical Nukes, New START and Nonproliferation, Putin, and Lavrov

This important report from the U.S. Army's Strategic Studies Institute provides unique insights into the Russian nuclear arsenal, arms control, and American-Russian relationships. **Russian Nuclear Weapons: Past, Present, and Future** \* 1. Russian Nuclear and Conventional Weapons: The Broken Relationship \* 2. Russia's Conventional Armed Forces: Reform and Nuclear Posture to 2020 \* 3. Nuclear Weapons in Russian Strategy and Doctrine \* 4. Russia's Security Relations with the United States: Futures Planned and Unplanned \* 5. Nuclear Weapons in Russian National Security Strategy \* 6. Caught between Scylla and Charybdis: The Relationship between Conventional and Nuclear Capabilities in Russian Military Thought \* 7. Russia and Nuclear Weapons \* 8. Russian Tactical Nuclear Weapons: Current Policies and Future Trends \* 9. New START and Nonproliferation: Suitors or Separate Tables? \* 10. Russia's Nuclear Posture and the Threat that Dare Not Speak its Name \* Hillary Clinton, Vladimir Putin, Sergey Lavrov Russian Minister of Foreign Affairs. While the Cold War is long past, the importance of arms control in Russo-American relations and the related issue of nuclear weapons for Russia remain vital concerns. Indeed, without an appreciation of the multiple dimensions of the latter, progress in the former domain is inconceivable. With this in mind, the Strategic Studies Institute (SSI) is very pleased to present the following essays, which explore many, if not all, of the issues connected with Russia's relatively greater reliance on nuclear weapons for its security. As such, they constitute an important contribution to the analysis of the Obama administration's reset policy, Russo-American relations, Russian foreign and defense policy, and international security in both Europe and Asia. Additionally, questions concerning the approach taken by other nuclear power nations in reference to the arms control agenda provide a crucial backdrop for the progress toward curbing the proliferation of nuclear weapons, a long-standing central goal of U.S. security policy. We offer these essays to our readers in the belief that the information and analyses contained herein will strengthen our understanding of Russia's extensive nuclear agenda and provide a deeper understanding of the many issues in international security connected with Russia and its nuclear posture. Dale Herspring and Roger McDermott present a systematic exposition and analysis of the reforms of the conventional forces and the impact this might have on nuclear issues. Andrei Shoumikhin, Pavel Baev, and Nikolai Sokov closely examine the ways in which Russia has previously thought about nuclear weapons, how it does so at present, and as well as how it might think about them in the future. Daniel Goure and Stephen Blank analyze some of the larger strategic issues driving Russian security and defense policy and their connection to nuclear weapons. Stephen Cimbala relates both the U.S. and Russian structures to issues tied to

nonproliferation and to what future reductions to a 1,000 warhead level might look like, while Jacob Kipp analyzes the deep-seated strategic challenges that Russia faces in its Asian-Pacific Far East. Richard Weitz provides an in-depth analysis of the vexing issue of tactical nuclear weapons (TNW) that are already a source of friction between the two sides and one that will figure prominently in any future arms control negotiation. In many cases, it will become clear that in the attempt to answer the questions asked of them, the authors of this book have produced a considerable amount of overlap, i.e., more than one author addressing the same point. However, what is equally as clear is that there is no agreement among them. There was a deliberate attempt to avoid a "pre-cooked" consensus. Rather, each author's individual view is asserted in their chapters, underscoring the inherent opacity of Russian programs and the different analytical approaches of each writer.

## Curriculum Handbook with General Information Concerning ... for the United States Air Force Academy

### Who Gets the Past?

### Competition for Ancestors Among Non-Russian Intellectuals in Russia

*Woodrow Wilson Center Press* The diversion of scholarship on ethnicity by political forces has been studied in Nazi Germany, where folklore became central to national self-perception and consequently suffered from uncritical enthusiasms. *Who Gets the Past?* is one of the first studies of this phenomenon in another arena. In the Middle Volga region of Russia, the intellectuals of two ethnic groups are engaged in a protracted competition for the right to claim descent from various ancestries, most dating back to the first millennium A.D. Archeologists from both the Chuvash and the Tatar ethnic groups are attempting to present evidence connecting the groups with Turkic-speakers, Finnish-Ugric groups, Bulgars, or Sarmatians. At stake, according to Victor Shnirelman, are both territorial and political advantages. *Who Gets the Past?* tells how and why, from the Stalinist period to the present, these intellectuals have made different, sometimes self-contradictory, claims on the past. The Soviet legacy of reinforcing and politicizing ethnic identities is largely responsible for the original extent of the competition, according to Shnirelman. But the importance of ethnic claims since the Soviet breakup has only contributed to its persistence.
