A Feast of Learning International Perspectives on Adult Learning and Change IAP *This book provides perspectives from authors in six countries (Canada, Colombia, Germany, France, UK, USA) pertaining to adult learning in the 21st Century. This book grew out of an exciting International Conference on Adult Learning (ICAL) held in Paris, May 27-29, 2012. Imagine "listening in" as these international scholars, representing expertise in various areas related to adult education, focus their collective attention to the topic of adult learning. Their task is to concentrate their research and intellectual acumen on where adult learning is heading in the 21st Century and to bring together their varied areas of expertise to expand the field of adult education's knowledge base. This book provides more than a record of their papers and meetings. Instead, each author has revised their paper with symposium feedback to help capture the discussion, synergy and growing knowledge base we envision together. Now you can read how these leading scholars understand adult learning in light on their collective work. Areas of focus include • Heuristics of Adult Learning • Facilitating Self Directed Learning • Individuals and the Learning Process • Executives' Self-Development • Distance Learning • Science Self Directed Learning for All • Entertainment-Education Communication Strategy • Positive Deviance to Transform Education • Learning Through the Life Course This book will benefit teachers, researchers, administrators, and students in the field of adult education, learning, and practice. What would happen, they wondered, if they mixed white players from an elite Seattle private school - famous for alums such as Microsoft's Bill Gates - and black kids from the inner city on a basketball team? Wouldn't exposure to privilege give the black kids a chance at better opportunities? Wouldn't it open the eyes of the white kids to a different side of life? The 1986 season would be the laboratory. Out in the real world, hip-hop was going mainstream, Larry Bird and Magic Johnson ruled the NBA, and Ronald Reagan was president. In Seattle, the team's season unfolded like a perfectly scripted sports movie: the ragtag group of boys became friends and gelled together to win the league championship. The experiment was deemed a success. But was it? How did crossing lines of class, race, and wealth affect the lives of these ten boys? Two decades later, Doug Merlino, who played on the team, returned to find his teammates. His search ranges from a prison cell to a hedge fund office, street corners to a shack in rural Oregon, a Pentecostal church to the records of a brutal murder. The result is a complex, gripping, and, at times, unsettling story. An instant classic in the vein of Michael Apted's Up series, The Hustle tells the stories of ten teammates set before a background of sweeping social and economic change, capturing the ways race, money, and opportunity shape our lives. A tale both personal and public, The Hustle is the story a disparate group of men finding - or not finding - a place in America*
