Identity in Organizations

Building Theory Through Conversations

SAGE This investigation of the fundamental character of organizational identity and identification with an organization is arranged in the form of a provocative discussion between key scholars. The book focuses on three different paradigmatic views of identity: functionalist, interpretive and postmodern. Similarities and distinctions among these ways of understanding are explored, and numerous theoretical and practical insights are gained. The book concludes with a discussion of the relevance of identity as a construct in organizational study, and observations on conversation and theory building.

Organizations and Communication Technology

SAGE Publications How do technology and organization interact to shape organizational structures and processes? What organizational, political and social processes constrain technological development? What forces shape the articulation of organizational and technological systems? Answering these and other pivotal questions, this volume centres on the role of theory for advancing our knowledge of communication technology in organizations at several levels - micro, group and macro. The distinguished contributors examine richly diverse topics, including telecommunications, communication networks and new media, the use of group decision support systems and discretionary databases.

Public Health Communication Interventions

Values and Ethical Dilemmas

SAGE Publications The ethical dimensions of health communicators' interventions and campaigns are brought into question in this thought-provoking book. Examining the efforts to effect behavior change, the author questions how far health communication can and should go in changing people's values. The author broadens the current analysis of interventions and presents conceptual frameworks that help identify values and justifications that are embedded in health communication goals, strategies, and evaluation criteria. This critical approach helps explain how and why choices are made in design and implementation, and provides constructs and frameworks to examine them. It also widens the criteria for program evaluation and policymaking, and provides practitioners, planners, policy-makers, researchers, and students with practice-oriented questions.

Personality Disorders

Toward the DSM-V

SAGE This work offers an evaluation of competing theoretical perspectives and nosological systems for personality disorders. The editors have brought together recognized authorities in the field to offer a synthesis of competing perspectives that provide readers with an assessment for each disorder. The result is a comprehensive, current, and critical summary of research and practice guidelines related to the personality disorders. Key Features focuses on controversies and alternative conceptualizations; separate chapters are dedicated to each personality disorder and considered from various points of view. It presents authoritative perspectives; leading scholars and researchers in the field provide a critical evaluation of alternative perspectives on each personality disorder. And it frames the current state of personality disorder research and practice issues; cutting edge and streamlined research is presented to be used in courses on diagnosis, assessment, psychopathology and abnormal psychology, especially those that include the DSM IV. It also offers an integrative understanding of elusive personality categorizations; wherever possible, case examples are offered as illustrations of each disorders clinical presentation. The use of technical terms are minimized; each contributor takes the approach of a user friendly summary and integration of major trends, findings, and future directions.

Communication as …

Perspectives on Theory

SAGE In Communication as…: Perspectives on Theory, editors Gregory J. Shepherd, Jeffrey St. John, and Ted Striphas bring together a collection of 27 essays that explores the wide range of theorizing about communication, cutting across all lines of traditional division in the field. The essays in this text are written by leading scholars in the field of communication theory, with each scholar employing a particular stance or perspective on what communication theory is and how it functions. In essays that are brief, argumentative, and forceful, the scholars propose their perspective as a primary or essential way of viewing communication with decided benefits over other views.
