Law of Persons

Juta and Company Ltd "The law of persons is a dynamic area of the law, and it is this dynamic nature that generates interest in this subject and makes it stimulating to teach and learn. Law of Persons seeks to make this subject area accessible to students, including first-year students. In the law of persons, the common law and legislation have been harmonised with the spirit, purport and objects of the Bill of Rights, while the values entrenched in the Constitution are permeating every area of the law. The greatest change in our law of persons to date has been the Children's Act 38 of 2005: it had redefined basic concepts, it has revolutionised the parent-child relationship, it has ended the labelling of children in terms of their parents' marital status and it has radically altered the legal status of unmarried fathers. Law of Persons is also available in Afrikaans, and should ideally be used in conjunction with Personeregbronnebundel / Law of Persons Sourcebook"--Provided by publisher.

Africa In-The-World

Peter Lang GmbH, Internationaler Verlag Der Wissenschaften This book is above all an example of philosophical reflection in Africa, refuting traditional commonplaces concerning the continent. The texts comprising this volume disprove the misconceptions that Africa has never understood itself and has never contributed to the enrichment of knowledge, the development of rational thought, philosophy, the arts, science and technology as well as civilization. For the members of the recently established network Africa In-The-World, the contributions dealing with musical rhythms, dances and the continental humanist philosophy confirm that Africanisation is a process that continues unabated to this day. The multiple and significant African contributions are often difficult to see because they have long since been adopted and integrated into the heritage of humanity. Africa In-The-World is working toward the construction of a universal humanity - one conceived in terms of a "give and take mentality."
