cultural and natural landmarks from the perspective of Goddess feminist activism. By taking such categories as time, seasons, nature and the female divine as a point of departure, this book brings modern minds out of patriarchal holiday conventions and invites the reader to join the sobering chorus, led by our 35 authors-writers, researchers, poets, artists, ritualists, photographers and activists from around the world. At an individual level, this book presents a wide range of theological expressions in 88 chapters that are self-transcending and metamorphic. Its Goddess Spirituality, which may be called Engaged Goddess Spirituality, is characterized by the impetus to derail the cultural and spiritual paradigm of patriarchal religions. In other words, this book, fueled by the commitment to feminist social change, undertakes the task of undercutting the main nerve of patriarchal advancements that peril the terrestrial community at an ever-magnifying scale. However, Celebrating Seasons of the Goddess does not stop there. Summoning the time/space of the Primordial Mother, HERE/NOW, it re-channels seemingly isolated spiritual practices of the world to the consciousness of WE in S/HE. In short, it is a multi-faceted practical book that accompanies one's process of awakening and commitment to Engaged Goddess Spirituality. This book aims at the following: Discovering and owning Nature's female rhythms Personalizing cosmic time Riding Earth's seasons Countering foreground patriarchal propagandas Politicizing female experiences as salvific Commemorating Goddesses and gynocentric cultures Befriending non-human members of the terrestrial community Supporting Indigenous struggles Exploring nature-based lifestyles Engaging spirituality with feminist activism Awakening the deep memory of WE Cultivating the primordial consciousness of the Creatrix Section titles are: Section One: Time, Nature and the Goddess Section Two: The Chorus in Poetry, Art and Ritual Section Three: The Wheel of Seasons Section Four: A New Beginning, Winter Solstice Sections One, Three, and Four follow thematic categories, while Section Two is a collection of such genres as poetry, prose, art, and photography, which therefore stands as an autonomous booklet that contains the themes of the other three sections. Readers may opt to read this book perennially (Section One, Two, and Three) and seasonally (Section Four for Winter Solstice).

Islam A Superior System of Life Createspace Independent Pub One of the largest and fastest-growing religions, Islam is currently practiced by approximately one-fifth of the world's population. Unlike most religions that only consist of acts of worship, rituals, and a set of beliefs, it also offers a just socio-politico-economic system, which is especially important today as we continue to make significant material and scientific progress. However, although it presents real solutions to problems faced by the whole of mankind, factors such as worldwide media propaganda and the current condition of the Muslim community have seriously distorted the public image of Islam. Adeel Zeerak hopes that his book Islam: A Superior System of Life will help change all that. He says that after careful study, even those with non-Muslim unprejudiced minds will appreciate the beauty of his religion's teachings. To prove the superiority of Islamic system over other systems, he provides concrete data obtained from authentic sources and refrains from using boastful or exaggerative language. Chapters in Islam: A Superior System of Life include: • This is Islam • Characteristics of the Islamic System • Spiritual System • Social System • Economic System • Political System • The Prophet, peace be upon him, the Message, and the Ummah "Despite commendable progress in the field of science and technology, this world is full of evil, exploitation, and injustice," says Zeerak, who believes any effort to find a solution to our problems continually fails because we choose to ignore the light of Divine Guidance. We all know what happened to prophet Noah's people when they rejected this guidance, but we, thankfully, still exist in this world to follow our Lord and accept Islam. Written for the Muslim and non-Muslim, Islam: A Superior System of Life is for readers interested in Islam, the prophet Muhammad (PBUH), the Islamic view of women, the concept of Khilafat, Islamic finance, Islamic spirituality, and Islamic history. The author promises that our obedience to Allah, subhanahu wa-ta'ala, will result in endless favors and blessings both in this world and the hereafter.
