Collapse (Sneak Peek First Seven Chapters) Richard Stephenson America is falling, ready to join the Roman Empire as a distant memory in the annals of history. The year is 2027. Tired and desperate, the American people are deep in the middle of The Second Great Depression. The Florida coastline is in ruins from the most powerful hurricane on record; a second just like it is bearing down on the state of Texas. For the first time in history, the Middle East has united as one and amassed the most formidable army the world has seen since the Third Reich. A hidden army of terrorists are on American soil. This is the story of three men - Howard Beck, the world's richest man, also diagnosed with Asperger's Syndrome, Richard Dupree, ex-Navy SEAL turned escaped convict, and Maxwell Harris, a crippled, burned out Chief of Police of a small Texas town. At first they must fight for their own survival against impossible odds. Finally, the three men must band together to save their beloved country from collapse. Selected Reference Material, United States Atomic Energy Program: Information sources Nuclear Science A Bibliography of Selected Unclassified Literature A total of 1517 references are listed in this compilation. These include selected non-published United States Atomic Energy Commission reports and published articles in technical books and journals. An author and a report number index with availability information are also included. Manic Man Tales of a Middle Aged, Irish, Bipolar Warrior *Independently Published* Dedicated to my very patient and loyal fans. Four years and I thought for sure no one cared. Well, they do. And to everyone inside the darkest depths and horrors of their own minds. Mental health awareness is in short supply. Let's talk about the cover. Semicolon. The sentence is up in the air. End it? Keep going? Live? Die? The semicolon means the author made their own choice to keep the sentence going. Thoughts continue and grow. Life goes on. Love. Inclusion. Acceptance. This book is dedicated to the victims of suicide, the living and the dead. There is hope. Just grab on to the hand that breaks the fall. Get up, dust yourself off and live one more day above ground. I've walked the earth a decade longer than my own father ever did. This book is about him. It is about me. It is about my family. It is about making my family cry on and off for 44 years. This book is going to help me not make people cry anymore. It's about shame and ugliness. It's about neglect, abandonment, drugs, alcohol. Move forward BIPOLAR WARRIOR. Don't slow down. You're just getting started. TID Nuclear Science and Technology, a Selective Bibliography Spinning Mambo Into Salsa Caribbean Dance in Global Commerce *Oxford University Press, USA* "This book traces history of salsa dance over three locations (New York, Los Angeles, and South Florida). It provides a fully integrated approach to dance and music history and addresses the way salsa functions as a commodity Spinning Mambo into Salsa Caribbean Dance in Global Commerce *Oxford University Press* Arguably the world's most popular partnered social dance form, salsa's significance extends well beyond the Latino communities which gave birth to it. The growing international and cross-cultural appeal of this Latin dance form, which celebrates its mixed origins in the Caribbean and in Spanish Harlem, offers a rich site for examining issues of cultural hybridity and commodification in the context of global migration. Salsa consists of countless dance dialects enjoyed by varied communities in different locales. In short, there is not one dance called salsa, but many. Spinning Mambo into Salsa, a history of salsa dance, focuses on its evolution in three major hubs for international commercial export-New York, Los Angeles, and Miami. The book examines how commercialized salsa dance in the 1990s departed from earlier practices of Latin dance, especially 1950s mambo. Topics covered include generational differences between Palladium Era mambo and modern salsa; mid-century antecedents to modern salsa in Cuba and Puerto Rico; tension between salsa as commercial vs. cultural practice; regional differences in New York, Los Angeles, and Miami; the role of the Web in salsa commerce; and adaptations of social Latin dance for stage performance. Throughout the book, salsa dance history is linked to histories of salsa music, exposing how increased separation of the dance from its musical inspiration has precipitated major shifts in Latin dance practice. As a whole, the book dispels the belief that one version is more authentic than another by showing how competing styles came into existence and contention. Based on over 100 oral history interviews, archival research, ethnographic participant observation, and analysis of Web content and commerce, the book is rich with quotes from practitioners and detailed movement description. Transactions of the American Institute of Electrical Engineers List of members in v. 7-15, 17, 19-20. Humour in Society Resistance and Control *Springer* Transactions of the American Institute of Mining, Metallurgical and Petroleum Engineers Some vols., 1920-1949, contain collections of papers according to subject. The Michigan Technic *UM Libraries* American Military History Volume 1 The United States Army and the Forging of a Nation, 1775-1917 American Military History provides the United States Army-in particular, its young officers, NCOs, and cadets-with a comprehensive but brief account of its past. The Center of Military History first published this work in 1956 as a textbook for senior ROTC courses. Since then it has gone through a number of updates and revisions, but the primary intent has remained the same. Support for military history education has always been a principal mission of the Center, and this new edition of an invaluable history furthers that purpose. The history of an active organization tends to expand rapidly as the organization grows larger and more complex. The period since the Vietnam War, at which point the most recent edition ended, has been a significant one for the Army, a busy period of expanding roles and missions and of fundamental organizational changes. In particular, the explosion of missions and deployments since 11 September 2001 has necessitated the creation of additional, open-ended chapters in the story of the U.S. Army in action. This first volume covers the Army's history from its birth in 1775 to the eve of World War I. By 1917, the United States was already a world power. The Army had sent large expeditionary forces beyond the American hemisphere, and at the beginning of the new century Secretary of War Elihu Root had proposed changes and reforms that within a generation would shape the Army of the future. But world war-global war-was still to come. The second volume of this new edition will take up that story and extend it into the twenty-first century and the early years of the war on terrorism and includes an analysis of the wars in Afghanistan and Iraq up to January 2009. Just Methods An Interdisciplinary Feminist Reader *Routledge* The supplemented edition of this important reader includes a substantive new introduction by the author on the changing nature of feminist methodology. It takes into account the implications of a major new study included for the first time in this book on poverty and gender (in)equality, and it includes an article discussing the ways in which this study was conducted using the research methods put forward by the first edition. This article begins by explaining why a new and better poverty metric is needed and why developing such a metric requires an alternative methodological approach inspired by feminism. Feminist research is a growing tradition of inquiry that aims to produce knowledge not biased by inequitable assumptions about gender and related categories such as class, race, religion, sexuality, and nationality. "Just Methods" is designed for upper-level undergraduate and graduate students in a range of disciplines. Rather than being concerned with particular techniques of inquiry, the interdisciplinary readings in this book address broad questions of research methodology. They are designed to help researchers think critically and constructively about the epistemological and ethical implications of various approaches to research selection and research design, evidence-gathering techniques, and publication of results. A key theme running through the readings is the complex interrelationship between social power and inequality on the one hand and the production of knowledge on the other. A second and related theme is the inseparability of research projects and methodologies from ethical and political values." America (the Book) A Citizen's Guide to Democracy Inaction *Grand Central Pub* The host of the award-winning humorous news program offers tongue-in-cheek insight into American democracy with coverage of such topics as the republican qualities of ancient Rome, the antics of our nation's founders, and the ludicrous nature of today's media. Transactions of the American Institute of Mining, Metallurgical, and Petroleum Engineers, Incorporated Each vol. publishes separately the transactions of the Society of Mining Engineers of AIME, the Society of Petroleum Engineers of AIME, or the Society of Metallurgical Engineers of AIME. Colossians Remixed Subverting the Empire *InterVarsity Press* Have we really heard the message of Colossians? Is this New Testament book just another religious text whose pretext is an ideological grab for dominating power? Reading Colossians in context, ancient and contemporary, can perhaps give us new ears to hear. In this innovative and refreshing book Brian J. Walsh and Sylvia C. Keesmaat explain our own sociocultural context to then help us get into the world of the New Testament and get a sense of the power of the gospel as it addressed those who lived in Colossae two thousand years ago. Their reading presents us with a radical challenge from the apostle Paul for today. Drawing together biblical scholarship with a passion for authentic lives that embody the gospel, this groundbreaking interpretation of Colossians provides us with tools to subvert the empire of our own context in a way that acknowledges the transforming power of Jesus Christ. Communication and Electronics 28 Days: A Novel of Resistance in the Warsaw Ghetto *Feiwel & Friends* Inspired by true events, David Safier's 28 Days: A Novel of Resistance in the Warsaw Ghetto is a harrowing historical YA that chronicles the brutality of the Holocaust. Warsaw, 1942. Sixteen-year old Mira smuggles food into the Ghetto to keep herself and her family alive. When she discovers that the entire Ghetto is to be "liquidated"—killed or "resettled" to concentration camps—she desperately tries to find a way to save her family. She meets a group of young people who are planning the unthinkable: an uprising against the occupying forces. Mira joins the resistance fighters who, with minimal supplies and weapons, end up holding out for twenty-eight days, longer than anyone had thought possible. The Map Collector States of Inquiry Social Investigations and Print Culture in Nineteenth-Century Britain and the United States *JHU Press* Oz Frankel explores the nineteenth-century roots of the modern "information state," especially the roles of investigative projects and official reports in embedding the state in print culture and refashioning the politics of representation. American Book Publishing Record Black Lives and Bathrooms Racial and Gendered Reactions to Minority Rights Movements *Lexington Books* Black Lives and Bathrooms: Racial and Gendered Reactions to Minority Rights Movements examines how people respond to minority movements in ways that maintain existing patterns of racial and gender inequality. By studying the Black Lives Matter and Transgender Bathroom Access movement efforts, J.E. Sumerau and Eric Anthony Grollman analyze how cisgender white people define minority movements in relation to their existing notions of United States social norms; react to minority movements utilizing racial, classed, gendered, and sexual stereotypes that reinforce racism, sexism, and cissexism in society; and propose ways that racial and gender minorities could gain conditional acceptance by behaving in ways cisgender white people find more comfortable and normal. Throughout this work, Sumerau and Grollman note how assumptions about whiteness and cisnormativity are spread as cisgender white people respond to racial and gender movements seeking social change. The Library of Congress Illustrated Timeline of the Civil War *Little, Brown* With striking visuals from the Library of Congress' unparalleled archive, THE LIBRARY OF CONGRESS ILLUSTRATED TIMELINE OF THE CIVIL WAR is an authoritative and engaging narrative of the domestic conflict that determined the

course of American history. A detailed chronological timeline of the war captures the harrowing intensity of 19th-century warfare in first-hand accounts from soldiers, nurses, and front-line journalists. Readers will be enthralled by speech drafts in Lincoln's own hand, quotes from the likes of Frederick Douglass and Robert E. Lee, and portraits of key soldiers and politicians who are not covered in standard textbooks. The Illustrated Timeline's exciting new source material and lucid organization will give Civil War enthusiasts a fresh look at this defining period in our nation's history.!--EndFragment-- Official Gazette of the United States Patent Office Minesweeper (Special Forces, Book 2) [Scholastic Inc.](#) "All the sizzle, chaos, noise and scariness of war is clay in the hands of ace storyteller Lynch." -- Kirkus Reviews for the World War II series Discover the secret missions behind America's greatest conflicts.Fergus Frew thought he knew what to expect when he signed up with the Navy's demolitions team. But as the Korean War rages on, Fergus and his fellow divers -- AKA "frogmen" -- are tasked with more than just scouting mudflats. Soon they're planting mines. And sabotaging tunnels, bridges... and even fishing nets. Strangest of all, it falls to Fergus to transport a spy into the country -- and that means traveling far from Navy-controlled waters. But frogmen are amphibious. And Fergus may not realize it, but he's in a position to change the way the whole world thinks about combat. National Book Award finalist Chris Lynch continues his explosive fiction series based on the real-life, top-secret history of US black ops and today's heroic Navy SEALs. Nucleonics Just Mercy A Story of Justice and Redemption "From one of the most brilliant and influential lawyers of our time comes an unforgettable true story about the redeeming potential of mercy. Bryan Stevenson was a gifted young attorney when he founded the Equal Justice Initiative, a legal practice dedicated to defending the poor, the wrongly condemned, and those trapped in the furthest reaches of our criminal justice system. One of his first cases was that of Walter McMillian, a young man sentenced to die for a notorious murder he didn't commit. The case drew Stevenson into a tangle of conspiracy, political machination, and legal brinkmanship - and transformed his understanding of mercy and justice forever."--Back cover. Chinnagounder's Challenge The Question of Ecological Citizenship [Indiana University Press](#) "... an important contribution to environmental philosophy.... includes provocative discussions of institutional and systemic violence, indigenous resistance to 'development,' the land ethic, deep ecology, ecofeminism, women's ecological knowledge, Jeffersonian agrarian republicanism, Berry's ideas about 'principled engagement in community,' wilderness advocacy, and the need for an attachment to place." -- Choice "[T]his is a very important book, raising serious questions for development theorists and environmentalists alike." -- Boston Book Review When Indian centenarian Chinnagounder asked Deane Curtin about his interest in traditional medicine, especially since he wasn't working for a drug company looking to patent a new discovery, Curtin wondered whether it was possible for the industrialized world to interact with native cultures for reasons other than to exploit them, develop them, and eradicate their traditional practices. The answer, according to Curtin, defines the ethical character of what we typically call 'progress.' Despite the familiar assertion that we live in a global village, cross-cultural environmental and social conflicts are often marked by failures of communication due to deeply divergent assumptions. Curtin articulates a response to Chinnagounder's challenge in terms of a new, distinctly postcolonial, environmental ethic. The Life of George Stephenson, Railway Engineer Dead Precedents How Hip-Hop Defines the Future [Watkins Media Limited](#) The story of how hip-hop created, and came to dominate, the twenty-first century. In Dead Precedents, Roy Christopher traces the story of how hip-hop invented the twenty-first century. Emerging alongside cyberpunk in the 1980s, the hallmarks of hip-hop - allusion, self-reference, the use of new technologies, sampling, the cutting and splicing of language and sound - would come to define the culture of the new millennium. Taking in the groundbreaking work of DJs and MCs, alongside writers like Dick and Gibson, as well as graffiti and DIY culture, Dead Precedents is a counter-culture history of the twentieth century, showcasing hip-hop's role in the creation of the world we now live in. Catalogue of Books in the Public Library of Western Australia (Queen Victoria Jubilee Memorial) English as a Global Language [Cambridge University Press](#) David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language. Catalogue of Books Beyond Education Radical Studying for Another World [U of Minnesota Press](#) A bold call to deromanticize education and reframe universities as terrains of struggle between alternative modes of studying and world-making Higher education is at an impasse. Black Lives Matter and #MeToo show that racism and sexism remain pervasive on campus, while student and faculty movements fight to reverse increased tuition, student debt, corporatization, and adjunctification. Commentators typically frame these issues as crises for an otherwise optimal mode of intellectual and professional development. In Beyond Education, Eli Meyerhoff instead sees this impasse as inherent to universities, as sites of intersecting political struggles over resources for studying. Meyerhoff argues that the predominant mode of study, education, is only one among many alternatives and that it must be deromanticized in order to recognize it as a colonial-capitalist institution. He traces how key elements of education—the vertical trajectory of individualized development, its role in preparing people to participate in governance through a pedagogical mode of accounting, and dichotomous figures of educational waste (the “dropout”) and value (the “graduate”)—emerged from histories of struggles in opposition to alternative modes of study bound up with different modes of world-making. Through interviews with participants in contemporary university struggles and embedded research with an anarchist free university, Beyond Education paves new avenues for achieving the aims of an “alter-university” movement to put novel modes of study into practice. Taking inspiration from Black Lives Matter, Occupy Wall Street, and Indigenous resurgence projects, it charts a new course for movements within, against, and beyond the university as we know it. Under Occupation A Novel [Random House Trade Paperbacks](#) From “America’s preeminent spy novelist” (The New York Times) comes a fast-paced, mesmerizing thriller of the French resistance fighters working secretly and bravely to defeat Hitler. Occupied Paris, 1942. Just before he dies, a man being chased by the Gestapo hands off a strange-looking document to the unsuspecting novelist Paul Ricard. It looks like a blueprint of a part for a military weapon, one that might have important information for the Allied forces. Ricard realizes he must try to get the diagram into the hands of members of the resistance network. As Ricard finds himself drawn deeper and deeper into anti-Nazi efforts and increasingly dangerous espionage assignments, he travels to Germany and along the escape routes of underground resistance safe houses to spy on Nazi maneuverers. When he meets the mysterious and beautiful Leila, a professional spy, they begin to work together to get crucial information out of France and into the hands of the Allied forces in London. Year Book ... Sociology of Deviant Behavior [Cengage Learning](#) SOCIOLOGY OF DEVIANT BEHAVIOR has been the market-leading deviance/criminology textbook for more than 40 years by combining timely research findings and updated data with solid sociological analysis. Designed to appeal to today's students, the fifteenth edition examines such relevant and timely topics as justified deviance (e.g., terrorism); corporate crime and mistakes, such as the General Motors ignition problem; the changing moral landscape regarding gay marriage and marijuana use; the importance of social media in facilitating deviant acts; political crime, including electoral crime; and cultural and social reactions to deviance. Learning aids—such as chapter outlines, bolded key terms, discussion questions, and a glossary—support students' study and review. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Handbook on Sustainability Transition and Sustainable Peace [Springer](#) In this book 60 authors from many disciplines and from 18 countries on five continents examine in ten parts: Moving towards Sustainability Transition; Aiming at Sustainable Peace; Meeting Challenges of the 21st Century: Demographic Imbalances, Temperature Rise and the Climate-Conflict Nexus; Initiating Research on Global Environmental Change, Limits to Growth, Decoupling of Growth and Resource Needs; Developing Theoretical Approaches on Sustainability and Transitions; Analysing National Debates on Sustainability in North America; Preparing Transitions towards a Sustainable Economy and Society, Production and Consumption and Urbanization; Examining Sustainability Transitions in the Water, Food and Health Sectors from Latin American and European Perspectives; Preparing Sustainability Transitions in the Energy Sector; and Relying on Transnational, International, Regional and National Governance for Strategies and Policies Towards Sustainability Transition. This book is based on workshops held in Mexico (2012) and in the US (2013), on a winter school at Chulalongkorn University, Thailand (2013), and on commissioned chapters. The workshop in Mexico and the publication were supported by two grants by the German Foundation for Peace Research (DSF). All texts in this book were peer-reviewed by scholars from all parts of the world. The Post-War Anglo-American Far Right A Special Relationship of Hate [Springer](#) Since 1945 neo-Nazi and far right extremists on both sides of the Atlantic have developed rich cultures which regularly exchange ideas. Leading activists such as Colin Jordan and George Lincoln Rockwell have helped to establish what has become a complex web of marginalised extremism. This book examines the history of this milieu to the present day.
