The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

THE ROCKFORD FILES: THE GREEN BOTTLE

ONE COP'S WAR AGAINST THE MOB

Macmillan Rockford is looking forward to a quiet day of lazing around the beach and evading the debt collectors. Last month's bills were covered by a generous fee from a wealthy client for finding an antique green bottle, and an eccentric old lady with a sob story about a lost cat is handing him a big check to cover his expenses for next month. But Rockford's luck may run out when he is visited by the Pulp Fiction look-alikes who want to rearrange his anatomy. And then he's going to find out that the case of the green bottle wasn't quite as simple as it looked.
