JUST KISS ME

HarperCollins New York Times bestselling author Rachel Gibson returns with this dazzling love story filled with sizzle, sass, and just a bit of southern charm . . . "Hello, Ms. Vivian . . . it's been a long time." And with those words, Vivian Leigh Rochet nearly melted. It's been years since she last saw Harrison Whitley-Shuler. She was a teenager scrubbing houses for a living. He was the gorgeous son of rich parents, not fit for the likes of her. Vivian had vowed to get out of Charleston, become a big Hollywood star, and stick it to the snooty girls who made her cry. She got what she wanted—and more—but why does her glamorous life seem so trivial? Harrison got out too . . . making it all the way to Wall Street, until a heart attack forced him to trade in his cufflinks for a good set of hand tools. Making furniture soothes his soul, but escaping the Whitley-Shuler heritage is nearly impossible. And now he's come face-to-face with the one who got away. He's not looking for love. He's not even looking for sex . . . so why is resisting her the hardest thing he's ever done?

THE BULK SALES ACT

This report describes the Act and states the reasons for our conclusion that the Act should be repealed. It also contains the text of the Act, describes the survey conducted of members of the legal profession regarding their views on the Act, and summarizes the most frequently expressed reasons for retaining the Act, and states why it was concluded that those reasons were overborne by those in favour of repeal. Finally, it describes some approaches that could be taken to reforming rather than repealing the Act.

POWER AND CARE

TOWARD BALANCE FOR OUR COMMON FUTURE-SCIENCE, SOCIETY, AND SPIRITUALITY

MIT Press Leading thinkers from a range of disciplines discuss the compatibility of power and care, in conversation with the Dalai Lama. For more than thirty years, the Dalai Lama has been in dialogue with thinkers from a range of disciplines, helping to support pathways for knowledge to increase human wellbeing and compassion. These conversations, which began as private meetings, are now part of the Mind & Life Institute and Mind & Life Europe. This book documents a recent Mind & Life Institute dialogue with the Dalai Lama and others on two fundamental forces: power and care—power over and care for others in human societies. The notion of power is essentially neutral; power can be used to benefit others or to harm them, to build or to destroy. Care, on the other hand, is not a neutral force; it aims at increasing the wellbeing of others. Power and care are not incompatible: power, imbued with care, can achieve more than a powerless motivation to care; power, without the intention to benefit others, can be ruthless. The contributors—who include such celebrated figures as Frans B. M. de Waal, Olafur Eliasson, Sarah Blaffer Hrdy, and Jody Williams—discuss topics including the interaction of power and care among our closest relatives, the chimpanzees; the effect of meditation and mental training practices on the brain; the role of religion in promoting peace and compassion; and the new field of Caring Economics. Contributors Paul Collier, Brother Thierry-Marie Courau, Frans B. M. de Waal, Olafur Eliasson, Scilla Elworthy, Alexandra M. Freund, Tenzin Gyatso (His Holiness the Dalai

Lama), Markus Heinrichs, Sarah Blaffer Hrdy, Frédéric Laloux, Alaa Murabit, Matthieu Ricard, Johan Rockström, Richard Schwartz, Tania Singer, Dennis J. Snower, Rabbi Awraham Soetendorp, Theo Sowa, Pauline Tangiora, Jody Williams

ACOUSTIC MUSIC SOURCE BOOK

Mel Bay Publications Bill Bay asked me to write a follow up book to my last book, "The Bluegrass Pickers Tune Book (20233). If you like Bluegrass music (232 songs) I'd recommend getting that book to add to your collection. the focus of this book, the Acoustic Source Book is on roots and old-time music. the book is focused on the time period from late 1800's until 1940's. There are a few songs from the Bluegrass Book that were too important to be left out. I decided not to use any patriotic and Christmas songs and came up with a list of about 400 songs which eventually was cut down to over 200. During the late 1800's and early 1900's there was an important evolution in American music; the birth of jazz, ragtime,

and blues. This was also the period of the phonograph and early commercial recordings. Music from the Minstrel period as well as traditional songs were used as staple for the roots musicians. In the early 1900's there were rags, blues, gospel, Tin-Pan Alley, jug band, spiritual, old-time country and popular songs. I've tried to include some of the well-known songs from every genre to give you a big slice of Americana. There are some great songs that are popular roots, bluegrass and old-time songs today that have never been published. There are also great songs that are not well known that should be played and enjoyed. THE RED FOG OVER AMERICA

Dauphin Publications At the age of twelve the author was thoroughly indoctrinated into the Bolshevik ideology by two revolutionary missionaries who traveled on the same ship with him out to the Orient in 1907. Unlike many others he didn't swallow the bait they offered him "Hook, Line, and Sinker". He decided to keep an open mind, and to investigate matters thoroughly, before reaching any conclusions. His investigations and studies of all angles of the International Conspiracy have taken him to nearly every country in the world. Commander Carr has had a distinguished naval career. During WWI he served as Navigating Officer of H.M. Submarines. In WWII he was Naval Control Officer for the St. Lawrence; then Staff Officer Operations at Shelbourne, N.S.; then Senior Naval Officer at Goose Bay, Labrador. As an Officer on the staff of Commodore Reginald Brock he organized the 7th Victory Loan for the twenty-two Royal Canadian Naval Training Divisions. As an author he has previously published seven books. Some were specially bound for inclusion in the Royal Library; The Library of The Imperial War Museum; and the Sir Millington Drake Library (which is bequeathed to Eton College), and the Braille Library for the Blind. Commander Carr is known to many Canadians who have attended his public lectures. He warned people of the existence of an International Conspiracy. He foretold that the conspirators would, unless checked, drag the World into another Global War. Commander Carr is determined to inform as many people as possible regarding the Evil Forces which adversely affect all our lives, and the lives of our children. His book will be an eye-opener to parents, clergymen, teachers, students, statesmen, politicians, and labor leaders.

SINGULAR HOMOLOGY THEORY

Springer Science & Business Media This textbook on homology and cohomology theory is geared towards the beginning graduate student. Singular homology theory is developed systematically, avoiding all unnecessary definitions, terminology, and technical machinery. Wherever possible, the geometric motivation behind various algebraic concepts is emphasized. The only formal prerequisites are knowledge of the basic facts of abelian groups and point set topology. Singular Homology Theory is a continuation of the author's earlier book, Algebraic Topology: An Introduction, which presents such important supplementary material as the theory of the fundamental group and a thorough discussion of 2-dimensional manifolds. However, this earlier book is not a prerequisite for understanding Singular Homology Theory.

SOLAR ENERGY AT URBAN SCALE

John Wiley & Sons Increasing urbanization throughout the world, the depletion of fossil fuels and concerns about global warming have transformed the city into a physical problem of prime importance. This book proposes a multi-disciplinary and systematic approach concerning specialities as different as meteorology, geography, architecture and urban engineering systems, all surrounding the essential problem of solar radiation. It collects the points of view of 18 specialists from around the world on the interaction between solar energy and constructions, combining territorial, urban and architectural scales to better regulate energetic efficiency and light comfort for the sustainable city. The main subjects covered are: measures and models of solar irradiance (satellite observations, territorial and urban ground measurements, sky models, satellite data and urban mock-up), radiative contribution to the urban climate (local heat balance, radiative-aerodynamics coupling, evapotranspiration, Urban Heat Island), light and heat modeling (climate-based daylight modeling, geometrical models of the city, solar radiation modeling for urban environments, thermal simulation methods and algorithms) and urban planning, with special considerations for solar potential, solar impact and daylight rights in the temperate, northern and tropical climates, and the requirement of urban solar regulation. Contents 1. The Odyssey of Remote Sensing from Space: Half a Century of Satellites for Earth Observations, Théo Pirard. 2. Territorial and Urban Measurements, Marius Paulescu and Viorel Badescu. 3. Sky Luminance Models, Matej Kobav and Grega Bizjak. 4. Satellite Images Applied to Surface Solar Radiation Estimation, Bella Espinar and Philippe Blanc. 5. Worldwide Aspects of Solar Radiation Impact, Benoit Beckers. 6. Local Energy Balance, Pierre Kastendeuch. 7. Evapotranspiration, Marjorie Musy. 8. With it, Chase underscores the idea that an image can come from any camera, even a mobile phone. As Chase writes, "Inherently, we all know that an image isn't measured by its resolution, dynamic range, or anything technical. It's measured by the simple—sometimes profound, other times absurd or humorous or whimsical—effect that it can have upon us. If you can see it, it can move you." This book is geared to inspire everyone, regardless of their level of photography knowledge, that you can capture moments and share them with our friends, families, loved ones, or the world at the press of a button. PATANJALI YOGA SUTRAS

TRANSLATION AND COMMENTARY IN THE LIGHT OF VEDANTA SCRIPTURE

Composed over two millenniums ago, the Yoga Sutras of Patanjali remains the philosophical thread that unites the ancient and current world of yoga. Yet, its many translations are underwhelming, lacking connection to reality and practicality. Innumerable forms and sects of yoga have come and gone in between. Obsessed with gaining special powers over mind and body, yoga's re-tellers have clouded its history in a mystical mist of fantastic claims. It is human nature to crave powers to radically change our lot in life. These layers of dazzle and glitter have over the centuries led us further away from yoga's spiritual core. The sutras' clear, logical, and practical path has been blurred and lost. Radically breaking with this mystical tradition, A. K. Aruna seeks to reclaim for us this fountainhead of yoga by retying the understanding of these sutras to the even more ancient source of spiritual knowledge and yoga—the Upanishads. The Upanishads eschewed limited pursuits in order to seek an ultimate goal that was not time-bound. In this still pure form of the yoga of seeking ultimate, timeless truth, the words of Patanjali become crystal clear and practical. Yoga shines in timeless relevance. A. K. Aruna's Patanjali Yoga Sutras: A Translation in the Light of Vedanta Scripture has brilliantly refocused the light on the Yoga Sutras. This is a companion, translation only, booklet to the Translation and Commentary version of the text by A. K. Aruna.
