Shaft Alignment Handbook, Third Edition

CRC Press Rotating machinery is the heart of many industrial operations, but many engineers and technicians perform shaft alignment by guesswork or with limited knowledge of the tools and methods available to accurately and effectively align their machinery. Two decades ago, John Piotrowski conferred upon the field an unprecedented tool: the first edition of the Shaft Alignment Handbook. Two editions later, this bestselling handbook is still the most trusted and widely embraced guide in the field. The third edition was reorganized, updated, and expanded to be more convenient, intuitive, and to reflect the latest developments in the area. Dedicated chapters now discuss the basics of alignment modeling, each of the five basic alignment methods, and electro-optic methods. Significant new material reflects recent findings on detecting misalignment, machinery movement from offline to running conditions, multiple element drive trains, and specific information on virtually every type of rotating machinery in existence. Entirely new chapters explore bore and parallel alignment. Providing detailed guidance based on years of hands-on experience, the Shaft Alignment Handbook, Third Edition is a practical tool to help avoid costly shutdowns, dangerous failures, and early replacements.

Communicating Chemistry

A Framework for Sharing Science: A Practical Evidence-Based Guide

National Academies Press A growing body of evidence indicates that, increasingly, the public is engaging with science in a wide range of informal environments, which can be any setting outside of school such as community-based programs, festivals, libraries, or home. Yet undergraduate and graduate schools often don't prepare scientists for public communication. This practical guide is intended for any chemist - that is, any professional who works in chemistry-related activities, whether research, manufacturing or policy - who wishes to improve their informal communications with the public. At the heart of this guide is a framework, which was presented in the report Effective Chemistry Communication in Informal Environments and is based on the best available empirical evidence from the research literature on informal learning, science communication, and chemistry education. The framework consists of five elements which can be applied broadly to any science communication event in an informal setting.

Harvests of Joy

How the Good Life Became Great Business

HMH A true story of midlife transformation by the Napa Valley entrepreneur who put California's wine industry on the map. In 1965, after a notorious family feud, Robert Mondavi—then fifty-two years old—was thrown out of his family's winery. Far from defeated, Mondavi was dedicated to a vision of creating a superior wine. What has happened since that fateful day is one of the greatest success stories of American business. Today, the Robert Mondavi Winery is one of the most respected in the world, and Mondavi is the man who is most responsible for the worldwide recognition of American wine making, as well as changing America's palate for fine wine and food. In Harvests of Joy, Mondavi shares how his passion for excellence helped him to achieve this extraordinary position, one he reached not without pain and sacrifice. With invaluable insider tips on his approach to both wine making and running a business, Mondavi's inspirational story is "a grand example of the fact that in America you can pretty much be, do, or accomplish, whatever you set out to" (Ventura County Star).

The Crescent of Gamma Phi Beta

On Paul Ricoeur

The Owl of Minerva

Routledge Paul Ricoeur is one of the giants of contemporary continental philosophy and one of the most enduring and wide-ranging thinkers in the twentieth century, publishing major works ranging from existentialism and phenomenology to psychoanalysis, politics, religion and the theory of language. Richard Kearney offers a critical engagement with the work of Ricoeur, beginning with a general introduction to his hermeneutic philosophy. Part one explores some of the main themes in Ricoeur's thought under six headings: phenomenology and hermeneutics; language and imagination; myth and tradition; ideology and utopia; evil and alterity; poetics and ethics. The second part comprises five dialogical exchanges which Kearney has conducted with Ricoeur over the last three decades (1977-2003), charting and explaining his intellectual itinerary. This book is aimed at a broad student readership as well as the general intelligent reader interested in knowing more about one of the most enduring major figures in contemporary continental philosophy.

Gabriel's Angels

The Story of the Dog who Inspired a Revolution

Gabriel's Angels: The Story of the Dog Who Inspired a Revolution is the inspirational true story that began with one woman, one dog, and a "Just Call Me Rudolph" t-shirt. Pam Gaber never set out to change the world. She just thought the children at the Phoenix Crisis Nursery where she volunteered would get a kick out of seeing her dog, Gabriel, wearing a pair of fake antlers to a Christmas party. "What happened that day was nothing short of incredible," Pam says. "And I knew it was either nothing, or it was really something." This book tells Pam's story of leaving Corporate America and serendipitously creating a program that works to end the cycle of violence for abused, neglected, and abandoned children through healing pet therapy. Part memoir, part Gabriel's biography, and part how-to, the story is woven together through Pam's funny, charming, self-deprecating style. Readers will be riveted by details of the founding, growth, and results that Gabriel's Angels has achieved in its first 10 years, moved to tears by the heartbreaking story of Gabriel's illness and passing, and inspired by the power and vision of this amazing organization. From Gabriel's untimely meeting with a woman who recognized him at the dogpark to the hilarious depiction of Pam and Gabe riding a rickshaw through downtown Phoenix on a blistering summer day, the book will amuse, enchant, engross, and move its readers to take action, whether that simply be to improve their relationships with their own pets or inquire about forming similar organizations in their communities. This book is a must-read for: -Pet lovers -Child welfare advocates -Those involved in any aspect of pet therapy -Nonprofit CEOs and board members -Volunteers of all stripes -Philanthropists -People leaving Corporate America and wondering "What's next?" Essentially Marley & Me meets Tuesdays with Morrie, this book will engage the reader from page one. Readers who would love to learn the inspirational true story about a dog that personally interacted with 10,000 children and touched countless other lives will be sure to get their copies of Gabriel's Angels: The Story of the Dog Who Inspired a Revolution.

Dr. Max Gerson

Healing the Hopeless

Gerson Health Media The biography of Dr. Max Gerson, MD, originator of the famous Gerson Therapy for cancer and other chronic diseases, follows Dr. Gerson from his native Germany to the United States, his flight from the Holocaust, how he developed his therapy, and offers a lesson about what happens to the physician who would cure cancer. Called by Nobel Laureate Prof. Albert Schweitzer "one of the most eminent medical geniuses ever." Author Howard Straus, President of Gerson Media and the grandson of Dr. Max Gerson, chronicles the life, and achievements of Dr. Max Gerson. The book discusses the development of Gerson's world-famous dietary therapy and the struggles this medical pioneer faced as he challenged orthodox medicine with his nutritional protocol. This inspiring and uplifting biography follows Dr. Gerson through Nazi persecution, then persecution in the United States from the medical establishment, the continuation of his work despite the opposition and his death under questionable circumstances.

Shakespeare and the Victorian Stage

Cambridge University Press The contributions to this book constitute a concerted account of the place of Shakespeare in the Victorian theatre and the cultural life of the country in the nineteenth century. They explore the changing styles of acting and staging used for Shakespeare's plays by Macready, Charles Kean, the Irvings, Ellen Terry and Beerbohm Tree, and examine Shakespeare's influence on Victorian dramatists (Sheridan Knowles, Albery and W.S. Gilbert) and the relationship between the stage and the allied arts of painting (David Scott, the Pre-Raphaelites and Alma-Tadema) and music (Sullivan). During Queen Victoria's reign Shakespeare's plays attracted new audiences from the court at Windsor to such rapidly expanding conurbations as Leicester and Sheffield. In France, Germany, Italy and the New World, Shakespeare effectively became an ambassador of Britain's growing power and influence. The book develops a fascinating and well-illustrated account of these changes.
