## Essentials of Sociology

W W Norton & Company Incorporated The textbook that teaches students how issues in our global society connect to their own lives.

## Essentials of Sociology

W. W. Norton With a combination of up-to-the minute examples, cutting-edge research, and the latest available data, **Essentials of Sociology** gets students thinking sociologically about what they're seeing in the news and on their screens. Highlighting the macro social forces at work in our everyday lives, the authors move students beyond their individual experiences and cultivate their sociological imaginations. Innovative pedagogy promotes active reading and helps students master core sociological concepts. This strong in-text pedagogical program is now supported by InQuizitive, Norton's new formative, adaptive learning tool.

## Sociology

Blackwell Publishers **Sociology** provides an introduction to its field. The fourth edition preserves the lucid, lively and comprehensive qualities which marked the book in its earlier versions. Numerous student learning aids are provided.

## Sociology

The chapters specifically devoted to theory discuss classical figures but include treatment of recent authors such as Ulrich Beck, Manuel Castells as well as Anthony Giddens' own contribution to sociological theory. The book will be accompanied by a companion website, which will provide online support for users of "Sociology", both lecturers and students. From the site, lecturers will be able to download an instructor's manual and a variety of invaluable teaching aids, including powerpoint slides featuring maps, graphs and figures from the text and sets of sample essay questions and multiple choice questions for lecturer customization. Students will find chapter by chapter web links to important internet resources, on-line quizzes and competitions and a whole range of other learning facilities.

## Sociology

## Introductory Readings

**Polity A strong emphasis has been placed on creating a productive mixture of classic and contemporary readings which is highly readable and lively, yet remains challenging. Whilst particularly useful as a companion to the sixth edition of Giddens's *Sociology*, the reader is designed for use independently or alongside other textbooks. The reader maintains the distinctive approach which *Sociology* pioneered: strongly comparative and historically informed, it stresses the influence of globalizing trends in social life. The carefully selected readings range from studies of face-to-face interaction through to the analysis of large-scale global systems, and cover sociological theories of society as well as research methods. Amongst the new selections in this volume are readings on the Internet and virtual communities, the impact of ecological thinking and climate change on social science, offshoring and the future of work, global cities, patriarchy and shifting gender relations, intersecting social inequalities, the idea and practice of restorative justice, new forms of cybercrime, war, terrorism and the prospects for a global cosmopolitan democracy. The readings are arranged in ten thematic sections and each section is preceded by a summary in order to facilitate students' comprehension and critical reflection. The result is an exciting new text that encompasses the major themes and debates in both classical and contemporary sociology. *Sociology: Introductory Readings* will be an essential resource for anyone who wishes to engage with the scope of sociological thought today. -- Back cover.**

## An Introduction to Sociology

## An Introduction to Sociology

**Polity Thoroughly revised and fully updated, *An Introduction to Sociology* gives concise yet comprehensive coverage of all the topics specified by the GCSE examining boards. The second edition was described by the AQA's Chief Examiner for GCSE Sociology as establishing 'the standard for textbooks at this level' - this new edition builds on the book's existing achievements. New material is found throughout the book, including substantive new sections on gender, identity, citizenship, education, new social movements, poverty and the welfare state, religion, the mass media, work and leisure, and population. The book has been carefully designed to support and extend students' learning. Each chapter begins with a summary of the key issues to be covered, and goes on to highlight important terms, which are then explained in a clear glossary. Summaries at the end of each chapter, a lively range of new activities and discussion points, the use of websites, as well as helpful suggestions for coursework, all add to the book's value as a learning and teaching resource. Student-friendly cartoons, tables, diagrams, and photographs - and the re-designed internal lay-out - also enliven the text, making sociology seem exciting and relevant to students of all interests and abilities. The new edition of this highly successful textbook will prove invaluable to anyone taking an introductory sociology course, especially at GCSE and related levels. Students taking AS and A-level - as well as Access, nursing, and health and social care courses - will also find the book provides an easy and fun introduction to studying sociology.**

## Essentials of Sociology

**SAGE Publications *Essentials of Sociology*, adapted from George Ritzer's *Introduction to Sociology*, provides the same rock-solid foundation from one of sociology's best-known thinkers in a shorter and more streamlined format. With new co-author Wendy Wiedenhof Murphy, the Third Edition continues to illuminate traditional sociological concepts and theories and focuses on some of the most compelling features of contemporary social life: globalization, consumer culture, the internet, and the "McDonaldization" of society. New to this Edition New "Trending" boxes focus on influential books by sociologists that have become part of the public conversation about important issues. Replacing "Public Sociology" boxes, this feature demonstrates the diversity of sociology's practitioners, methods, and subject matter, featuring such authors as o Michelle Alexander (*The New Jim Crow*) o Elizabeth Armstrong and Laura Hamilton (*Paying for the Party*) o Matthew Desmond (*Evicted*) o Arlie Hochschild (*Strangers in Their Own Land*) o Eric Klinenberg (*Going Solo*) o C.J. Pascoe (*Dude, You're a Fag*) o Lori Peek and Alice Fothergill (*Children of Katrina*) o Allison Pugh (*The Tumbleweed Society*) Updated examples in the text and "Digital Living" boxes keep pace with changes in digital technology and online practices, including Uber, Bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change further segmentation of wealthy Americans as the "super rich" transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism**

## Theories of the Information Society

Psychology Press Popular opinion suggests that information has become a distinguishing feature of the modern world. Where once economies were built on industry and conquest, we are now instead said to be part of a global information economy. In this new and thoroughly revised edition of his popular book, author Webster brings his work up-to-date both with new theoretical work and with social and technological changes - such as the rapid growth of the internet and accelerated globalization - and reassesses the work of key theorists in light of these changes. This book is essential reading for students of contemporary social theory and anybody interested in social and technological change in the post-war era.

## Sociology

Polity This fully revised and updated version of Anthony Giddens's *Sociology*, now in its fifth edition, offers an unrivalled introduction for students new to the subject - lucid, lively, authoritative and original. Written by one of the world's leading sociologists, this comprehensive textbook manages to be clear, accessible and jargon-free, but without oversimplifying complex debates. Earlier editions of *Sociology* broke new ground by incorporating cutting-edge debates, such as the impact of globalisation, into an introductory text. This fifth edition remains a state of the art textbook, with fresh and engaging new material added throughout. While covering all of the core topics of sociology, the fifth edition also includes a great deal of substantive new material, ensuring that students are introduced to the most recent sociological debates. Throughout, the book weaves together classical and contemporary theory and data, and provides a wide range of everyday examples to which students can easily relate. The fifth edition also benefits from: \* New discussions of global inequality, disability, ageing and the life course, risk, the network society, and terrorism, as well as many other additional and up-to-date topics. \* Numerous learning aids in every chapter, such as summary points, questions for further thought, and additional reading suggestions, which help to reinforce students' knowledge. \* Lots of extra photographs, diagrams, case studies and cartoons, to bring ideas to life and fire students' imaginations. \* High-quality supplementary resources on a dedicated website, including a full instructors' manual and additional student aids, all specially designed to stimulate students' learning and critical thinking. The fifth edition of this classic textbook is an ideal teaching text for first-year university and college courses, and will be essential reading for all students who are looking for an exciting, authoritative and easy-to-follow introduction to sociology. Please visit the accompanying website at: <http://www.polity.co.uk/giddens5/>

## The Sociology of Health and Illness

Polity Thoroughly revised and fully updated, the second edition of Sarah Nettleton's book will prove invaluable to anyone looking for a clear and accessible introduction to key contemporary debates within the sociology of health and illness. The book builds on the first edition's success, integrating the core tenets of traditional medical sociology with some fresh insights from the current literature. New material is found throughout, including discussions of the new genetics, food and eating, e-health, the MMR debate, embryo stem cell research, recent approaches to health inequalities, and the health implications of the information age. Carefully annotated suggested further readings have been added to each chapter, to help extend students' learning and thinking. The book aims to provide students with a thorough grounding in the area of the sociology of health and illness. As such it covers a diversity of topics and draws on a wide range of analytic approaches. The text spans issues such as the social construction of medical knowledge, the analysis of lay health knowledge and beliefs, concepts of lifestyles and risk, the experience of illness and the sociology of the body. It also explores matters which are central to health policy, such as professional-patient relationships, health inequalities and the changing nature of health care work. A central theme which runs throughout the book is that we are moving towards a new paradigm of health and health care, one in which people are no longer passive recipients of treatment when they are ill, but are active participants in the maintenance of their own health. This is reflected in contemporary health policy which emphasizes health promotion, community health care and consumerism. The book is written primarily for students of the social sciences who opt to study the field of health and illness in greater depth, but will also appeal to students taking vocational degrees requiring a sociological grounding in the area.

## Essential Concepts in Sociology

**John Wiley & Sons** Social life is in a constant process of change, and sociology can never stand still. As a result, sociology today is a theoretically diverse enterprise, covering a huge range of subjects and drawing on a broad array of research methods. Central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies, though our understanding of these concepts necessarily evolves and changes. This clear and jargon-free book introduces a careful selection of essential concepts that have helped to shape sociology and others that continue to do so. Going beyond brief, dictionary-style definitions, Anthony Giddens and Philip W. Sutton provide an extended discussion of each concept which sets it in historical and theoretical context, explores its main meanings in use, introduces relevant criticisms, and points readers to its ongoing development in contemporary research and theorizing. Organized in ten thematic sections, the book offers a portrait of sociology through its essential concepts, ranging from capitalism, identity and deviance to globalization, the environment and intersectionality. It will be essential reading for all those new to sociology as well as anyone seeking a reliable route map for a rapidly changing world.

## Central Problems in Social Theory

### Action, Structure, and Contradiction in Social Analysis

**Univ of California Press** "One of the most creative among the younger generation of critical social theorists, Giddens stands alone in his concern for the classical tradition on sociology; but he also makes brilliant use of the latest philosophical and theoretical work of several contemporary schools and disciplines. A very important book for all of social science."—Jeffrey C. Alexander

## Classical and Contemporary Sociological Theory

### Text and Readings

**SAGE Publications** The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. Now available for the first time in print and e-book formats *Classical and Contemporary Sociological Theory: Text and Readings* offers students with the best of both worlds—carefully-edited excerpts from the original works of sociology's key thinkers accompanied by an analytical framework that discusses the lives, ideas, and historical circumstances of each theorist. This unique format enables students to examine, compare, and contrast each theorist's major themes and concepts. In the Fourth Edition of this bestseller, examples from contemporary life and a rich variety of updated pedagogical tools (tables, figures, discussion questions, and photographs) come together to illuminate complex ideas for today's readers. Attention Instructors! Free digital resources are included with this text. Learn more.

## Sociological Theory in the Classical Era

### Text and Readings

**SAGE Publications** Now available for the first time in both print and e-book formats *Sociological Theory in the Classical Era, Fourth Edition* is an innovative text/reader for courses in classical theory. It introduces students to important original works by sociology's key classical theorists while providing a thorough framework for understanding these challenging readings. For each theorist, the editors supply a biographical sketch, discuss intellectual influences and core ideas, and offer contemporary applications of those ideas. In addition to the seven major theorists covered, the book also connects their work to "Significant Others"—writers and thinkers who may have derived much of their own perspectives from Marx,

Durkheim, Weber, Gilman, Simmel, Du Bois, and Mead. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides. Learn more.

## Sociolinguistics / Soziolinguistik

Walter de Gruyter The series Handbooks of Linguistics and Communication Science is designed to illuminate a field which not only includes general linguistics and the study of linguistics as applied to specific languages, but also covers those more recent areas which have developed from the increasing body of research into the manifold forms of communicative action and interaction.

## The Third Way

## The Renewal of Social Democracy

John Wiley & Sons The idea of finding a 'third way' in politics has been widely discussed over recent months - not only in the UK, but in the US, Continental Europe and Latin America. But what is the third way? Supporters of the notion haven't been able to agree, and critics deny the possibility altogether. Anthony Giddens shows that developing a third way is not only a possibility but a necessity in modern politics.

## Sociology, a Brief But Critical Introduction

Houghton Mifflin Harcourt P

## Critical Globalization Studies

Psychology Press First Published in 2005. Routledge is an imprint of Taylor & Francis, an informa company.

## The Far Right Today

John Wiley & Sons The far right is back with a vengeance. After several decades at the political margins, far-right politics has again taken center stage. Three of the world's largest democracies - Brazil, India, and the United States - now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape. Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key political challenges of our time.

## The Consequences of Modernity

John Wiley & Sons In this major theoretical statement, the author offers a new and provocative interpretation of the institutional transformations associated with modernity. We do not as yet, he argues, live in a post-modern world. Rather the distinctive characteristics of our major social institutions in the closing period of the twentieth century express the emergence of a period of 'high modernity,' in which prior trends are radicalised rather than undermined. A post-modern social universe may eventually come into being, but this as yet lies 'on the other side' of the forms of social and cultural organization which currently dominate world history. In developing an account of the nature of modernity, Giddens concentrates upon analyzing the intersections between trust and risk, and security and danger, in the modern world. Both the trust mechanisms associated with modernity and the

distinctive 'risk profile' it produces, he argues, are distinctively different from those characteristic of pre-modern social orders. This book build upon the author's previous theoretical writings, and will be of fundamental interest to anyone concerned with Giddens's overall project. However, the work covers issues which the author has not previously analyzed and extends the scope of his work into areas of pressing practical concern. This book will be essential reading for second year undergraduates and above in sociology, politics, philosophy, and cultural studies.

## Liquid Love

### On the Frailty of Human Bonds

**John Wiley & Sons** This book is about the central figure of our contemporary, 'liquid modern' times - the man or woman with no bonds, and particularly with none of the fixed or durable bonds that would allow the effort of self-definition and self-assertion to come to a rest. Having no permanent bonds, the denizen of our liquid modern society must tie whatever bonds they can to engage with others, using their own wits, skill and dedication. But none of these bonds are guaranteed to last. Moreover, they must be tied loosely so that they can be untied again, quickly and as effortlessly as possible, when circumstances change - as they surely will in our liquid modern society, over and over again. The uncanny frailty of human bonds, the feeling of insecurity that frailty inspires, and the conflicting desires to tighten the bonds yet keep them loose, are the principal themes of this important new book by Zygmunt Bauman, one of the most original and influential social thinkers of our time. It will be of great interest to students and scholars in sociology and in the social sciences and humanities generally, and it will appeal to anyone interested in the changing nature of human relationships.

## Understanding the Sociology of Health

### An Introduction

**SAGE** Understanding the Sociology of Health continues to offer an easy to read introduction to sociological theories essential to understanding the current health climate. Up-to-date with key policy and research, and including case studies and exercises to critically engage the reader, this book shows how sociology can answer complex questions about health and illness, such as why health inequalities exist. To better help with your studies this book contains: · a global perspective with international examples; · a new chapter on health technologies; · online access to videos of the author discussing key topics as well as recommended further readings; · a glossary, chapter summaries and reflective questions to help you engage with the subject. Though aimed primarily at students on health and social care courses and professions allied to medicine, this textbook provides valuable insights for anyone interested in the social aspects of health.

## Axel Honneth

**John Wiley & Sons** With his insightful and wide-ranging theory of recognition, Axel Honneth has decisively reshaped the Frankfurt School tradition of critical social theory. Combining insights from philosophy, sociology, psychology, history, political economy, and cultural critique, Honneth's work proposes nothing less than an account of the moral infrastructure of human sociality and its relation to the perils and promise of contemporary social life. This book provides an accessible overview of Honneth's main contributions across a variety of fields, assessing the strengths and weaknesses of his thought. Christopher Zurn clearly explains Honneth's multi-faceted theory of recognition and its relation to diverse topics: individual identity, morality, activist movements, progress, social pathologies, capitalism, justice, freedom, and critique. In so doing, he places Honneth's theory in a broad intellectual context, encompassing classic social theorists such as Kant, Hegel, Marx, Freud, Dewey, Adorno and Habermas, as well as contemporary trends in social theory and political philosophy. Treating the full range of Honneth's corpus, including his major new work on social freedom and democratic ethical life, this book is the most up-to-date guide available. Axel Honneth will be invaluable to students and scholars working across the humanities and social sciences, as well as anyone seeking a clear guide to the work of one of the most influential theorists writing today.

# Sociology

## 8th Edition

Now in its eighth edition, this continues to be the indispensable guide to understanding the world we make and the lives we lead. Revised and updated throughout, it remains unrivalled in its vibrant, engaging and authoritative introduction to sociology. The authors provide a commanding overview of recent global developments and new ideas in sociology. Classic debates are also given careful coverage, with even the most complex ideas explained in an engaging way. Written in a fluent, easy-to-follow style, the book manages to be intellectually rigorous but still very accessible. With a strong focus on interactive pedagogy, it aims to engage and excite readers, helping them to see the enduring value of thinking sociologically. The eighth edition includes: a solid foundation in the basics of sociology: its purpose, methodology and theories; up-to-the-minute overviews of key topics in social life, from gender, personal life and poverty, to globalization, the media and politics; stimulating examples of what sociology has to say about key issues in our contemporary world, such as growing inequality, climate change and the rise of terrorism; a strong focus on global sociology and the ways that digital technologies are radically transforming our world; quality pedagogical features, such as Classic Studies and Global Society boxes, and Thinking Critically reflection points, as well as end-of-chapter activities inviting readers to engage with popular culture and original research articles to gather sociological insights. The eighth edition sets the standard for introductory sociology. Complete with extensive supporting resources at [www.politybooks.com/giddens](http://www.politybooks.com/giddens), it is the ideal teaching text for first-year university and college courses, and will help to inspire a new generation of sociologists.

## Introduction to Sociology

**SAGE Publications** This Fourth Edition of George Ritzer's Introduction to Sociology shows students the relevance of sociology to their lives. While providing a rock-solid foundation, Ritzer illuminates traditional sociological concepts and theories, as well as some of the most compelling contemporary social phenomena: globalization, consumer culture, the digital world, and the "McDonaldization" of society. With examples on every page from current events and contemporary research, and stories about "public" sociologists who are engaging with the critical issues of today, the text demonstrates the power of sociology to explain the world, and the diversity of questions that sociologists seek to answer. New to this Edition New "Trending" boxes focus on influential books written by sociologists that have become part of the public conversation about important issues. Replacing "Public Sociology" boxes, these boxes demonstrate the diversity of sociology's practitioners, methods, and subject matter, and feature such authors as: Michelle Alexander (The New Jim Crow) Elizabeth Armstrong and Laura Hamilton (Paying for the Party) Randol Contreras (The Stick-Up Kids) Matthew Desmond (Evicted) Kimberly Hoang (Dealing in Desire) Arlie Hochschild (Strangers in Their Own Land) Eric Klinenberg (Going Solo) C.J. Pascoe (Dude, You're a Fag) Lori Peek and Alice Fothergill (Children of Katrina) Allison Pugh (The Tumbleweed Society) Updated examples in the text and "Digital Living" boxes keep pace with changes in digital technology and online practices, including Uber, bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change President Trump's proposed Mexican border wall further segmentation of wealthy Americans in the "super rich" transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism

## Sociology

**Page Publishing Inc** The book features real-life examples and amazing diversity focusing on sociology's unique ability to personally resonate well with students' experiences. Throughout the text, the author carefully balances coverage of core topics and contemporary changes in society. Every chapter explores unique topics, such as same-sex marriage, Boko Haram, mob justice, Sharia law, as well as issues of inequality related to race, ethnicity, gender, social class, and urbanization. The text empowers students to use the lenses of sociological imagination to see sociology in everyday life. Using sociological imagination, theory, and sociological perspectives, the text helps students move beyond individual perspective to gain a sociological perspective.

## Rethinking Society in the 21st Century, Fourth Edition

### Critical Readings in Sociology

Canadian Scholars' Press *Rethinking Society in the 21st Century* is a critical collection of readings that provides students with a foundational knowledge base in sociology. The fourth edition has been thoroughly updated to include significant Canadian content, with a greater focus on indigeneity, gender, and sexuality and a new section dedicated to social movements, social change, and emerging fields. This anthology introduces students to the fundamental elements of sociology with a balance of classical theory—Marx, Weber, Durkheim, Mills—and more contemporary approaches found in the works of Michel Foucault and Dorothy Smith. Building on this theoretical grounding, the text outlines core concepts in sociology as well as major social institutions such as families, the economy and labour, education, health care, and media. Covering a wide breadth of topics, including chapters on animals, the environment, crime, trans issues, class, ethnicity, and race, this new edition explores critical debates in Canadian society with an emphasis on intersectional approaches to social inequalities. This volume is rich with pedagogical features that promote critical understanding, including detailed introductions that speak to the contextual history of the source material and discussion questions for each section. Uniquely designed for introductory courses, *Rethinking Society in the 21st Century* is the ideal reader for Canadian students of sociology.

### Sociology

### Sociology

### Introductory Readings

Polity Press From gender theories to the emergence of an underclass, Anthony Giddens' selection of contributions maintains a distinctive approach to sociology with its readable and lively style.

### The Comfort of Things

John Wiley & Sons What do we know about ordinary people in our towns and cities, about what really matters to them and how they organize their lives today? This book visits an ordinary street and looks into thirty households. It reveals the aspirations and frustrations, the tragedies and accomplishments that are played out behind the doors. It focuses on the things that matter to these people, which quite often turn out to be material things - their house, the dog, their music, the Christmas decorations. These are the means by which they express who they have become, and relationships to objects turn out to be central to their relationships with other people - children, lovers, brothers and friends. If this is a typical street in a modern city like London, then what kind of society is this? It's not a community, nor a neighbourhood, nor is it a collection of isolated individuals. It isn't dominated by the family. We assume that social life is corrupted by materialism, made superficial and individualistic by a surfeit of consumer goods, but this is misleading. If the street isn't any of these things, then what is it? This brilliant and revealing portrayal of a street in modern London, written by one of the most prominent anthropologists, shows how much is to be gained when we stop lamenting what we think we used to be and focus instead on what we are now becoming. It reveals the forms by which ordinary people make sense of their lives, and the ways in which objects become our companions in the daily struggle to make life meaningful.

## Culture Counts

### A Concise Introduction to Cultural Anthropology

**SAGE Publications Now with SAGE Publishing!** Culture Counts is a concise introduction to anthropology that illustrates why culture matters in our understanding of humanity and the world around us. Serena Nanda and Richard L. Warms draw students in with engaging ethnographic stories and a conversational writing style that encourages them to interact cross-culturally, solve problems, and effect positive change. The brief format gives majors and non-majors the essentials they need and frees up the instructor to teach the course the way they want to teach it. The Fifth Edition includes new examples and vignettes that are important to the study of cultural anthropology. Issues of gender, identity, globalization, intersectionality, inequality, and public health have been incorporated throughout the book, as well as a new chapter on race and ethnicity that brings the book in step with recent conversations about power, race, and history. This title is accompanied by a complete teaching and learning package. Contact your SAGE representative to request a demo. Digital Option / Courseware SAGE Vantage is an intuitive digital platform that delivers this text's content and course materials in a learning experience that offers auto-graded assignments and interactive multimedia tools, all carefully designed to ignite student engagement and drive critical thinking. Built with you and your students in mind, it offers simple course set-up and enables students to better prepare for class. Assignable Video with Assessment Assignable video (available with SAGE Vantage) is tied to learning objectives and curated exclusively for this text to bring concepts to life. Watch a sample video now. LMS Cartridge: Import this title's instructor resources into your school's learning management system (LMS) and save time. Don't use an LMS? You can still access all of the same online resources for this title via the password-protected Instructor Resource Site.

## The Eagle and the Dragon

### Globalization and European Dreams of Conquest in China and America in the Sixteenth Century

**John Wiley & Sons** In this important new book the renowned historian Serge Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders - after first seizing their cannon. For the first time, people from three continents encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the Renaissance, less Eurocentric and more in tune with our age.

## Democracy Revisited

**Literatureslight Publishing** Democracy Revisited is a critical as well as uncritical approach to the study and review of democracy today. The objective of the first chapter is to deal with some theoretical reasons of the decline of democracy such as lack of holistic approach, omission of civil society and varied forms of democracy. Out of many theoretical defects the book especially highlights the problem of precision regarding the meaning and nature of democracy and omission of civil society in democracy. Omission of civil society in democratic discourses has been a direct cause of the decline of democracy. That the people are ignored in practical democracy is due to the fact that civil society is absolutely

omitted from the democratic narratives. The book also highlights some of major practical problems that are downgrading the importance, implication and relevance of democracy today in reality. Such practical problems are corruption, rule of the elites in lieu of rule of the people, inequality of race, gender and religion and lack of leadership. Under this perspective, it is necessary to have an open look towards the positive points of democracy. Since, there is no much better alternative than democracy we must have to highlight its strong points such as scope of debate, discussion, participation and formation of opinion by which democracy can be a people-friendly political system as well as an ideology and a cultural practice. Thus, this book is not only a criticism of democracy, but also a call for revisiting its strength by which democracy can still claim to be a suitable alternative of all types of statecraft, political systems and social and cultural pattern of life.

## Statebuilding

John Wiley & Sons After civil wars end, what can sustain peace in the long-term? In particular, how can outsiders facilitate durable conflict-managing institutions through statebuilding - a process that historically has been the outcome of bloody struggles to establish the state's authority over warlords, traditional authorities, and lawless territories? In this book, Timothy Sisk explores international efforts to help the world's most fragile post-civil war countries today build viable states that can provide for security and deliver the basic services essential for development. Tracing the historical roots of statebuilding to the present day, he demonstrates how the United Nations, leading powers, and well-meaning donors have engaged in statebuilding as a strategic approach to peacebuilding after war. Their efforts are informed by three key objectives: to enhance security by preventing war recurrence and fostering community and human security; to promote development through state provision of essential services such as water, sanitation, and education; to enhance human rights and democracy, reflecting the liberal international order that reaffirms the principles of democracy and human rights. Improving governance, alongside the state's ability to integrate social differences and manage conflicts over resources, identity, and national priorities, is essential for long-term peace. Whether the global statebuilding enterprise can succeed in creating a world of peaceful, well-governed, development-focused states is unclear. But the book concludes with a road map toward a better global regime to enable peacebuilding and development-oriented statebuilding into the 21st century.

## Essentials of Sociology

Cengage Learning Extremely reader friendly and packed with vivid examples, ESSENTIALS OF SOCIOLOGY, 9e takes real-world scenarios and shows you how to use sociology to analyze them. It combines comprehensive coverage, socially relevant analysis, and cutting-edge research into a concise 15 chapters. Hands-on exercises help sharpen critical thinking and problem solving skills as readers put sociological theory into practice. More visually engaging than ever, the Ninth Edition also maintains the book's signature emphasis on global issues. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

## Sociology, Work and Industry

### Fifth edition

Routledge First published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

## The Changing Consumer Cultures of Modern Egypt

### Cairo's Urban Reshaping

BRILL In a collage of images the author attempts to convey the transformation of consumer culture and how it is related to the urban reshaping of the city of Cairo to meet with the demands of globalisation. Evidently Cairo's urban reshaping is taking place by pushing away the unwanted slums residents, which constitute the majority of the city's population.

## Foundational sociology: Sociological thinkers, perspectives and imagination

**Clever Fox Publishing** The book offers a deep dive into the range of societal issues, ranging from government and gender identity to inequalities, globalisation and even the "Disneyfication" of today's world ...The book is an academic type and provides self guide to final year BA students as well as for civil services and other competitive examinations . The book covers fundamental aspects, perspectives and outlook to sociology....readers may find it very helpful in understanding the fundamentals of sociology.
