Oversight of the DTV Transition

Hearing Before the Committee on Commerce, Science, and Transportation, United States Senate, One Hundred Tenth Congress, Second Session, April 8, 2008

My Stone of Hope

From Haitian Slave Child to Abolitionist

University of Texas Press There are 27 million slaves living in the world today—more than at any time in history. Three hundred thousand of them are impoverished children in Haiti, who "stay with" families as unpaid and uneducated domestic

workers, subject to physical, emotional, and sexual abuse. This practice, known locally as *restavek* ("staying with"), is so widespread that one in ten Haitian children is caught up in this form of slavery. Jean-Robert Cadet was a *restavek* in Haiti from the late 1950s until the early 1970s. He told the harrowing story of his youth in *Restavec: From Haitian Slave Child to Middle-Class American*—a landmark book that exposed ongoing child slavery in Haiti. Now in *My Stone of Hope*, Cadet continues his story from his early attempts to adjust to freedom in American society to his current life mission of eliminating child slavery through advocacy and education. As he recounts his own struggles to surmount the psychological wounds of slavery, Cadet puts a human face on the suffering that hundreds of thousands of Haitians still endure daily. He also builds a convincing case that child slavery is not just one among many problems that Haiti faces as the Western Hemisphere's poorest nation. Rather, he argues that the systematic abuse of so many of its children is Haiti's fundamental problem, because it creates damaged adults who seem incapable of governing the country justly or managing its economy productively. For everyone concerned about the fate of Haiti, the welfare of children, and the freedom of people around the globe, *My Stone of Hope* sounds an irresistible call to action.

Business Writing Today

A Practical Guide

SAGE Publications *Business Writing Today* prepares students to succeed in the business world by giving them the tools they need to write powerfully, no matter the challenge. In her highly-practical text, author Natalie Canavor shares step-by-step guidance and tips for success to help students write more clearly and strategically. Readers will learn what to say and how to say it in any medium from tweets and emails to proposals and formal reports. Every technique comes with concrete examples and practice opportunities, helping students transfer their writing skills to the workplace. New to This Edition Updated with new examples, success tips, resources, and expanded material on subjects that relate to students' most pressing interests and reflect current directions of professional communication. New and

expanded coverage of important topics like networking, storytelling, creating a positive online presence, and visually-based media. New and updated good and not-so-good writing samples throughout the book show readers where and what to revise. A reorganized and streamlined table of contents is now organized into four major parts, moving from basics into more advanced topics. Nine new “Views From the Field” include advice on networking, building rapport, and creating personal introduction videos. A new chapter on editing includes practical strategies for improving drafts and fixing common writing issues. A greater emphasis on strategic thinking and problem-solving helps students develop their insight into the perspectives of others so they are better able to represent their own interests and contribute more on the job. This edition more closely connects writing skills with oral communication, relationship-building, a strategic online presence, and students’ hopes to become valued employees, leaders, and entrepreneurs. A new appendix includes new writing activities, new assignments, and cheat sheets for students, making this the most applied edition yet.

Modern Project Finance

A Casebook

This cutting-edge financial casebook is divided into four modules: Structuring Projects, Valuing Projects, Managing Project Risk, and Financing Projects. The cases have been carefully selected to reflect actual use of project finance over the past five years in terms of geographic location (the cases come from 15 different countries) and industrial sectors. Benjamin Esty, of the Harvard Business School, is one of the leading scholars in project finance. Project finance is becoming the financing mechanism of choice for many private firms. Cases require the reader to integrate knowledge from multiple disciplines when making a single managerial decision. This integration of functional areas such as strategy, operations, ethics, and human resource management encourages the reader to adopt a more integrative perspective and understanding of the interconnectedness of managerial decision-making.

Transport Logistics

The Wheel of Commerce

Pentland Press (NC) In this much-anticipated second volume on transport logistics, industry veterans Issa Baluch and Charles Edwards make a compelling case for the starring role of transportation and logistics on the world's economic and social stage. In this far-reaching and authoritative look at transport logistics, Baluch and Edwards show how the complex systems of moving and delivering goods all over the

world-in all kinds of weather and over all types of obstacles-can boost the economies of countries large and small, fully developed or struggling to get there.

Laser-Driven Particle Acceleration Towards Radiobiology and Medicine

Springer This book deals with the new method of laser-driven acceleration for application to radiation biophysics and medicine. It provides multidisciplinary contributions from world leading scientist in order to assess the state of the art of innovative tools for radiation biology research and medical applications of ionizing radiation. The book contains insightful contributions on highly topical aspects of spatio-temporal radiation biophysics, evolving over several orders of magnitude, typically from femtosecond and sub-micrometer scales. Particular attention is devoted to the emerging technology of laser-driven particle accelerators and their application to spatio-temporal radiation biology and medical physics, customization of non-conventional and selective radiotherapy and optimized radioprotection protocols.

Learning-Driven Schools

A Practical Guide for Teachers and Principals

*ASCD Many teachers are trained to approach their work with a set of teaching strategies and lessons that changes little over time. Because they are focused on how they teach, rather than on how their students learn, they use the same techniques day after day, making no adjustments for students' different learning needs. In *Learning-Driven Schools: A Practical Guide for Teachers and Principals*, Barry Beers shows how teachers can plan, teach, and assess for student learning-- and how principals can support teachers in their efforts. The book includes * An overview of the research on knowledge retention; * Real-life samples of lesson plans that address state and local standards; * Strategies on accurately assessing student learning; * Advice for teachers on addressing the needs of struggling, intermediate, and advanced students at the same time; and * Advice for administrators on conducting effective classroom observations. A rallying cry and how-to guide rolled into one, this book is an invaluable resource for anyone passionate about learning. Having served as a veteran teacher and principal himself, Barry Beers brings his own experience and understanding to bear on the essential task of ensuring that student learning remains the clear focus of our schools.*

Markets for Schooling

An Economic Analysis

*Routledge Nick Adnett and Peter Davies develop an economic analysis of schooling markets, emphasizing both the strengths and weaknesses of orthodox analyses. They explain the economic and social contexts that have generated the widespread desire to reform state schooling and develop a systematic analysis of the key policy components examining both theory and international evidence. The authors employ a unique framework based upon economic analysis that is informed by research performed by educationalists and other social scientists. *Markets for Schooling* is*

designed to be accessible and of interest to all researchers, administrators and policy-makers concerned with education and economics.

Life and Labors of Miss Catherine S.

Lawrence (Abridged, Annotated)

"Slavery and intemperance: the two evils of this country." From an early age, Catherine Lawrence devoted her life to the relief of the suffering of others. Like many strong women of her time, she eventually embraced abolition, the temperance movement, and women's suffrage. A deeply religious woman, she felt a calling to help others. During the American Civil War, she worked as a nurse to wounded and dying soldiers.

Lippincott Williams and Wilkins' Comprehensive Medical Assisting

We're pleased to introduce the fourth edition of Lippincott Williams & Wilkins' Comprehensive Medical Assisting, the medical assisting text designed to meet your challenges. This dynamic package of text and resources represent more than just a textbook, instead providing a suite of learning resources. This is the one text aimed at making sure that every graduate can quickly change their cap and gown for a set of scrubs and immediately be a vital member of the medical office. We do this by: Providing the content in an engaging style that speaks to students. Putting pedagogy to work in the text through key features like patient education boxes, competency checklists, procedure boxes, etc. Placing students in the real environment in through our web-based EMR and PMS software package. Showing what we teach through skills videos that demonstrate the procedures and skills described. Constantly reinforcing the learning through additional online ancillaries including animations, ESL resources, etc. Helping instructors lessen planning time, with robust instructor resources. A competency spreadsheet helps faculty members and students track their progress through the material. New content in the fourth edition focuses on addressing crucial changes in policy and technology. Without changing the engaging writing style we're known for, we've made sure that the content is up-to-date and in-line with the needs of the market. We've added content on emergency preparedness, a crucial topic in today's medical office. In addition, instructors will be happy to find the latest CAAHEP and ABHES competencies clearly addressed throughout the text.

Manual of Immunopathological Techniques

Key points Practical guide to immunopathological techniques Covers different techniques for diagnosis and treatment of numerous disorders Presented in bullet point format for easy reference Highly illustrated with clinical photographs and tables

Manual of Common Ophthalmic Surgical Procedures

Living Outside Mental Illness

Qualitative Studies of Recovery in Schizophrenia

NYU Press Schizophrenia is widely considered the most severe and disabling of the mental illnesses. Yet recent research has demonstrated that many people afflicted with the disorder are able to recover to a significant degree. Living Outside Mental Illness demonstrates the importance of listening to what people diagnosed with schizophrenia themselves have to say about their struggle, and shows the dramatic effect this approach can have on clinical practice and social policy. It presents an in-depth investigation, based on a phenomenological perspective, of experiences of illness and recovery as illuminated by compelling first-person descriptions. This volume forcefully makes the case for the utility of qualitative methods in improving our understanding of the reasons for the success or failure of mental health services. The research has important clinical and policy implications, and will be of key interest to those in psychology and the helping professions as well as to people in recovery and their families.

Media Messages and Public Health

A Decisions Approach to Content Analysis

Routledge Media Messages and Public Health addresses the full range of methodological and conceptual issues involved in content analysis research, specifically focused on public health-related messages and behaviors. Uniquely tailored to the challenges faced by content researchers interested in the study of

public health topics, coverage includes: Conceptual and methodological foundations involved in the practice of content analysis research used to examine public health issues. Measurement challenges posed by the broad range of media. Use of content analysis across multiple media types. The potential for individual differences in audience interpretation of message content. Case studies that examine public health issues in the media to illustration the decisions that are made when developing content analysis studies. The volume concludes with a set of guidelines for optimal content analysis research, and suggests ways in which the field can accommodate new technologies and new ways of using media. Developed for researchers in communication, media, and public health, this unique resource demonstrates how the variety of decisions researchers make along the way allows the exploration of traditions, assumptions and implications for each varying alternative and ultimately advances the science of content analysis research.
