BIOFUELS PRODUCTION AND PROCESSING TECHNOLOGY

CRC Press The importance of biofuels in greening the transport sector in the future is unquestionable, given the limited available fossil energy resources, the environmental issues associated to the utilization of fossil fuels, and the increasing attention to security of supply. This comprehensive reference presents the latest technology in all aspects of biofuels production, processing, properties, raw materials, and related economic and environmental aspects. Presenting the application of methods and technology with minimum math and theory, it compiles a wide range of topics not usually covered in one single book. It discusses development of new catalysts, reactors, controllers, simulators, online analyzers, and waste minimization as well as design and operational aspects of processing units and financial and economic aspects. The book rounds out by describing properties, specifications, and quality of various biofuel products and new advances and trends towards future technology.

REPORT OF THE SECRETARY OF THE SENATE FROM ...

CAPITALIST NIGGER

THE ROAD TO SUCCESS - A SPIDER WEB DOCTRINE

Jonathan Ball Publishers Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' – discipline, self-reliance, ruthlessness – to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

DRAWDOWN

THE MOST COMPREHENSIVE PLAN EVER PROPOSED TO REVERSE GLOBAL WARMING

Penguin • New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world “At this point in time, the Drawdown book is exactly what is needed; a credible, conservative solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of doom that humanity cannot and will not solve the climate crisis. Reported-by-effects include increased determination and a sense of grounded hope.” —Per Espen Stoknes, Author, What We Think About When We Try Not To Think About Global Warming “There’s been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable compendium of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom.” —David Roberts, Vox “This is the ideal environmental sciences textbook—only it is too interesting and inspiring to be called a textbook.” —Peter Kareiva, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of researchers, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred techniques and practices are described here—some are well known; some you may have never heard of. They range from clean energy to educating girls in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and communities throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next thirty years, they represent a credible path forward, not just to slow the earth’s warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, prosperity, and well-being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

DIRECTORY OF UNITED STATES IMPORTERS

A list of U.S. importers and the products they import. The main company listing is geographic by state while products are listed by Harmonized Commodity Codes. There are also alphabetical company and product indexes.

DIGITAL TRANSFORMATION OF THE LABORATORY

A PRACTICAL GUIDE TO THE CONNECTED LAB

John Wiley & Sons This practical book in instrumental analytics conveys an overview of important methods of analysis and enables the reader to realistically learn the (principally technology-independent) working techniques the analytical chemist uses to develop methods and conduct validation. What is to be conveyed to the student is the fact that analysts in their capacity as problem-solvers perform services for certain groups of customers, i.e., the solution to the problem should in any case be processed in such a way as to be "fit for purpose". The book presents sixteen experiments in analytical chemistry laboratory courses. They consist of the classical curriculum used at universities and universities of applied sciences with chromatographic procedures, atom spectrometric methods, sensors and special methods (e.g. field flow fractionation, flow injection analysis and N-determination according to Kjeldahl). The carefully chosen combination of theoretical description of the methods of analysis and the detailed instructions given are what characterizes this book. The instructions to the experiments are so detailed that the measurements can, for the most part, be taken without the help of additional literature. The book is complemented with tips for effective literature and database research on the topics of organization and the practical workflow of experiments in analytical laboratory, on the topic of the use of laboratory logs as well as on writing technical reports and grading them (Evaluation Guidelines for Laboratory Experiments). A small introduction to Quality Management, a brief glance at the history of analytical chemistry as well as a detailed appendix on the topic of safety in analytical laboratories and a short introduction to the new system of grading and marking chemicals using the "Globally Harmonized System of Classification and Labelling of Chemicals (GHS)", round off this book. This book is therefore an indispensable workbook for students, internship assistants and lecturers (in the area of chemistry, biotechnology, food technology and environmental technology) in the basic training program of analytics at universities and universities of applied sciences.

VALUATION FOR FINANCIAL REPORTING

FAIR VALUE MEASUREMENTS AND REPORTING, INTANGIBLE ASSETS, GOODWILL AND IMPAIRMENT

John Wiley & Sons Essential procedures for the measurement and reporting of fair value in Financial statements Trusted specialists Michael Mard, James Hitchner, and Steven Hyden present reliable and thorough guidelines, case studies, implementation aids, and sample reports for managers, auditors, and valuers who must comply with the Financial Accounting Standards Board Statement of Financial Accounting Standards Nos. 141, Business Combinations; 142, Goodwill and Other Intangible Assets; 144, Accounting for the Impairment or Disposal of Long-Lived Assets; and the new 157, Fair Value Measurements. This important guide: * Explains the new valuation aspects now required by SFAS No. 157 * Presents the new definition of fair value and certain empirical research * Distinguishes fair value from fair market value * Provides a case study that measures the fair values of intangible assets and goodwill under SFAS Nos. 141 and 157 * Includes a detailed case study that tests the impairment of goodwill and long-lived assets and measures the financial impact of such impairment under SFAS Nos. 142 and 144 * Cross-references and reconciles the valuation industry's reporting standards among all of the valuation organizations * Includes two sample valuation reports, one of which is a new USPAP-compliant PowerPoint presentation format * Includes implementation aids for controlling the gathering of data necessary for analyses and for guiding the valuation work program

ENCYCLOPEDIA OF INFORMATION SYSTEMS AND TECHNOLOGY - TWO VOLUME SET

CRC Press Spanning the multi-disciplinary scope of information technology, the Encyclopedia of Information Systems and Technology draws together comprehensive coverage of the inter-related aspects of information systems and technology. The topics covered in this encyclopedia encompass internationally recognized bodies of knowledge, including those of The IT BOK, the Chartered Information Technology Professionals Program, the International IT Professional Practice Program (British Computer Society), the Core Body of Knowledge for IT Professionals (Australian Computer Society), the International Computer Driving License Foundation (European Computer Driving License Foundation), and the Guide to the Software Engineering Body of Knowledge. Using the universally recognized definitions of IT and information systems from these recognized bodies of knowledge, the encyclopedia brings together the information that students, practicing professionals, researchers, and

academicians need to keep their knowledge up to date. Also Available Online This Taylor & Francis encyclopedia is also available through online subscription, offering a variety of extra benefits for researchers, students, and librarians, including: □ Citation tracking and alerts □ Active reference linking □ Saved searches and marked lists □ HTML and PDF format options Contact Taylor and Francis for more information or to inquire about subscription options and print/online combination packages. US: (Tel) 1.888.318.2367; (E-mail) e-reference@taylorandfrancis.com International: (Tel) +44 (0) 20 7017 6062; (E-mail) online.sales@tandf.co.uk

TECHNOLOGY FOR INNOVATION

HOW TO CREATE NEW SYSTEMS, DEVELOP EXISTING SYSTEMS AND SOLVE RELATED PROBLEMS

Springer Nature This book offers readers a simple, attractive, detailed knowledge of TRIZ and applied TRIZ, Technology for Innovation. The genius of Genrich Altshuller and his many followers created TRIZ by using the best practices of thousands of most talented engineers and scientists, which made our technological civilization. TRIZ is a science and philosophy for new system creation and existing systems development, and related problem-solving. TRIZ helps to create the best possible solutions for even the most critical problems. TRIZ is the best we have today on our Planet for industry, technology, business, and education development. As a life philosophy, TRIZ helps realize every human being's privilege and obligation to be a creative person and live a creative and successful life. Applied TRIZ, Technology for Innovation is the process of using all parts of TRIZ combined with other proven design development methods and best practices of effective project teams for a system (products, devices, technologies, services) development and problem-solving. Technology for Innovation is applying through individual innovation Roadmaps for project creation and problem-solving. The structure and content of the book follow the standards and requirements of the curriculum for Universities. This book is a textbook for students and teachers at the university and high school level and a practical handbook for any manager, engineer, and specialist involved in product and technology development. Of course, the author believes it will also be beneficial and enjoyable to anyone with an inquiring mind, irrespective of age, and specialty.

SINGLE-USE TECHNOLOGY IN BIOPHARMACEUTICAL MANUFACTURE

John Wiley & Sons This book gives an overview of commonly-used disposables in the manufacture of biopharmaceuticals, their working principles, characteristics, engineering aspects, economics, and applications. With this information, readers will be able to come to an easier decision for or against disposable alternatives and to choose the appropriate system. The book is divided into two parts - the first is related to basic knowledge about disposable equipment; and the second discusses applications through case studies that illustrate manufacturing, quality assurance, and environmental influence.

RACING TO KEEP UP

TALKING WITH YOUR KIDS ABOUT TECHNOLOGY USE AND STRATEGIES TO PROTECT THE HOME COMPUTER

Dog Ear Publishing Racing to Keep Up is a unique and informative book offering parents and educators real life solutions to better understand and guide children's use of technology. By providing specific strategies, and up-to-date technological information within a framework of understanding the developmental stages of children and teens, Racing to Keep Up is a must-read book. It helps parents set up rules for technology use that are developmentally appropriate for children and teens and that are designed to better protect children from the risks and issues that arise online and through the use of cell phones. Racing to Keep Up educates parents about the many scams and fraudulent ads that target children, teens and adults through email, text messages and web sites. This book teaches you to protect the family computer, your online privacy and yourself, while giving you the words and language to help your children negotiate technology safely. Marje Monroe is a Clinical Social Worker and educator with more than 20 years of counseling, programming and teaching experience in schools. Marje's professional experience includes: Dean of Students at Stoneleigh Burnham School in Greenfield, Massachusetts; Upper School Counselor at Buckingham Browne and Nichols School in Cambridge, Massachusetts; Upper School Counselor at Garrison Forest School in Maryland; Director of Counseling at St. Andrew's School in Boca Raton, FL; Counselor and Substance Abuse Coordinator at Wittenberg University; and Executive Director of the Winnetka, Illinois Youth Organization. Throughout her career, Marje has taught Advanced Placement Psychology, English and developed curricula on sex education, substance abuse, ethics and decision-making. Coordinating schools, families and community agencies on behalf of the well-being of children and adolescents, Marje is proactive and helps schools and families work together to promote the qualities of school and home life that nurture the healthy, social and emotional development of children. Doug Fodeman has been the Director of Technology at the Brookwood School in Manchester, Massachusetts since 1997. He has also given workshops on a wide variety of Internet related topics such as "Using Search Engines Effectively," "Protecting Your Privacy Online," "Telecollaboration" and "Recognizing and Avoiding Online Scams." Doug has made appearances on the ABC Nightly News and CBS Evening News on the topic of cell phone scams targeting children. He also has been a guest speaker with Deborah Rowe of the ABC affiliate WLSAM Radio in Chicago on the topic of cell phone scams targeting children and issues effecting children online. Together with Marje Monroe, they have appeared twice on The Jordan Rich Show on WBZ in Boston. In addition, Doug has taught high school science for more than 18 years, served as Director of Technology at the Pingree School in S. Hamilton, Massachusetts and served as a technology consultant to the architectural firm Olson, Lewis, Dioli & Doktor, focusing on the integration of computer technology into architectural design.

THE ADVENTURES OF PAULA AND TECH PAULA MEETS TECH JUST FOR KIDS

Paula and Tech's adventures feature a young girl, her computer Tech, the mouse, and other friends along her life's journey. Each creative story concept, Paula and Tech, takes you on an adventure of learning technology. The Adventures of Paula and Tech, Just for Kids, provides a way for young children to learn technology, leadership skills, communication skills, reading skills, language skills, and solving real-life problems along the adventure. The book Paula meets Tech created for kids between the ages of 5 - 9. It will help impact young lives toward Science, Technology, Engineer, and Mathematics (STEM) awareness.

MEGACITY SEOUL

URBANIZATION AND THE DEVELOPMENT OF MODERN SOUTH KOREA

Routledge In Asia, there are a growing number of gigantic megacities, accompanied by a series of speculative and extravagant megaprojects. Amid the fast-paced urban and development challenges, many Asian governments have been searching for replicable and inspirational cases in Asia. South Korea and its capital city, Seoul, are among frequently referenced models. However, South Korea's "economic miracle" in the late twentieth century has been mostly studied through an economic policy lens. This book revisits the development of South Korea by looking at its urban dimension and exploring the city of Seoul as a developmental megaproject. Offering an alternative to the focus on economic policies when it comes to explaining South Korea's development successes, Joo looks at the urbanization that took place under the guidance of the strong developmental state. She provides empirical evidence of the "property state" at work, both complementing and supporting the developmental state. She also analyzes why and how Seoul was able to emerge as an important Asian global city and a global front-runner in terms of ambitious and pioneering urban investments, despite its relatively recent history marked by massive slums and urban poverty. This book provides an analytical framework for studying South Korea's modern development under capitalism as a precursor to East Asian urbanism and development. It paints a comprehensive story of how cities have been politically and economically important to Korea's development experience and are increasingly becoming a new mode of development.

PLUNKETT'S INSURANCE INDUSTRY ALMANAC

THE ONLY COMPREHENSIVE GUIDE TO THE INSURANCE INDUSTRY

Plunkett Research, Ltd. Covers the business of insurance and risk management, and is a tool for market research, strategic planning, competitive intelligence or employment searches. This book contains trends, statistical tables and an industry glossary. It also provides profiles of more than 300 of the world's leading insurance companies.

This book, featuring projects drawn from previous issues of Make: and Craft:, features projects you can build with little or no technology. Whether it's making your own cider or starting a fire with a bow drill, the projects in this book will let you keep making even when you're away from civilization. Whether you're on a camping trip or fortifying the last human settlement against hordes of zombies, you'll find something in this book that will keep you happy, engaged, and most important of all... alive! Projects include: Making fire with a bow drill Old-school bookbinding Kitchen table cider making Hogwash bacon soap Da Vinci reciprocating mechanism The Rok-Bak chair Olive oil lamp

HUMAN ASPECTS OF IT FOR THE AGED POPULATION. DESIGN FOR THE ELDERLY AND TECHNOLOGY ACCEPTANCE

5TH INTERNATIONAL CONFERENCE, ITAP 2019, HELD AS PART OF THE 21ST HCI INTERNATIONAL CONFERENCE, HCII 2019, ORLANDO, FL, USA, JULY 26-31, 2019, PROCEEDINGS, PART I

Springer This two-volume set LNCS 11592 and 11593 constitutes the refereed proceedings of the 5th International Conference on Human Aspects of IT for the Aged Population, ITAP 2019, held in July 2019 as part of HCI International 2019 in Orlando, FL, USA. HCII 2019 received a total of 5029 submissions, of which 1275 papers and 209 posters were accepted for publication after a careful reviewing process. The 86 papers presented in these two volumes are organized in topical sections named: Design with and for the Elderly, Aging and Technology Acceptance, Aging and the User Experience, Elderly-Specific Web Design, Aging and Social Media, Games and Exergames for the Elderly, Ambient Assisted Living, Aging, Motion, Cognition, Emotion and Learning.

HANDBOOK OF CHLOR-ALKALI TECHNOLOGY

VOLUME I: FUNDAMENTALS, VOLUME II: BRINE TREATMENT AND CELL OPERATION, VOLUME III: FACILITY DESIGN AND PRODUCT HANDLING, VOLUME IV: OPERATIONS, VOLUME V: CORROSION, ENVIRONMENTAL ISSUES, AND FUTURE DEVELOPMENTS

Springer Science & Business Media Concentrated treatment of all aspects of technology and handling directly related to the products of electrolysis. Thoroughly up to date and should become the standard reference in its field.

PLUNKETT'S INSURANCE INDUSTRY ALMANAC 2008

INSURANCE INDUSTRY MARKET RESEARCH, STATISTICS, TRENDS AND LEADING COMPANIES

Plunkett Research, Ltd. Insurance and risk management make up an immense, complex global industry, one which is constantly changing. Competition continues to heat up, as mergers and acquisitions create financial services mega-firms. As the insurance industry grows more global, underwriters see huge potential in China, the world's fastest-growing business market. Meanwhile, technology is making back-office tasks easier and more efficient, while direct selling and e-commerce are changing the shape of the insurance industry. This carefully-researched book (which includes a database of leading companies on CD-ROM) is a complete insurance market research and business intelligence tool-- everything you need to know about the business of insurance and risk management. The book includes our analysis of insurance and risk management industry trends, dozens of statistical tables, an industry glossary, a database of industry associations and professional organizations, and our in-depth profiles of more than 300 of the world's leading insurance companies, both in the U.S. and abroad.

PLUNKETT'S INSURANCE INDUSTRY ALMANAC 2006

THE ONLY COMPLETE REFERENCE TO THE INSURANCE AND RISK MANAGEMENT INDUSTRY

Plunkett Research, Ltd. The insurance industry is rebounding from its poor financial results of a few years ago. Better risk management, higher premiums and increased use of underwriting information systems have led the way. Meanwhile, the insurance industry is increasingly globalized as cross-border investments and acquisitions continue at a rapid pace. Risk analysis has become more sophisticated. In addition, a large number of related services and technologies have a major influence on the insurance and risk management business. These services include e-commerce, call centers and information technologies. This carefully-researched book (which includes a database of leading companies on CD-ROM) is a complete insurance market research and business intelligence tool-- everything you need to know about the business of insurance and risk management, including Property & Casualty insurers; Life insurers; Personal Lines and Specialty Lines underwriters; Annuities; Reinsurance underwriters; Health Insurance; Globalization of the insurance industry; Insurance brokers; Consulting; and Online insurance trends. The book includes dozens of statistical tables, an industry glossary, a database of industry associations and professional organizations, and our in-depth profiles of more than 300 of the world's leading insurance companies, both in the U.S. and abroad.

LIFE-CYCLE OF ENGINEERING SYSTEMS: EMPHASIS ON SUSTAINABLE CIVIL INFRASTRUCTURE

PROCEEDINGS OF THE FIFTH INTERNATIONAL SYMPOSIUM ON LIFE-CYCLE CIVIL ENGINEERING (IALCCE 2016), 16-19 OCTOBER 2016, DELFT, THE NETHERLANDS

CRC Press This volume contains the papers presented at IALCCE2016, the fifth International Symposium on Life-Cycle Civil Engineering (IALCCE2016), to be held in Delft, The Netherlands, October 16-19, 2016. It consists of a book of extended abstracts and a DVD with full papers including the Fazlur R. Khan lecture, keynote lectures, and technical papers from all over the world. All major aspects of life-cycle engineering are addressed, with special focus on structural damage processes, life-cycle design, inspection, monitoring, assessment, maintenance and rehabilitation, life-cycle cost of structures and infrastructures, life-cycle performance of special structures, and life-cycle oriented computational tools. The aim of the editors is to provide a valuable source for anyone interested in life-cycle of civil infrastructure systems, including students, researchers and practitioners from all areas of engineering and industry.

UNDERSTAND DIGITAL WELLNESS IN THE OVERWHELMING DIGITAL AGE

LEARN HOW TO IMPROVE DIGITAL HABITS IN ORDER TO NAVIGATE THE MANY MENTAL HEALTH CHALLENGES CAUSED BY TECH

Independently Published Is creating a tech healthy family important to you? Are you worried about the amount of digital screen time your children are getting? Maybe you are wondering how to break up with your phone? If any of the above is true, it might be time to start thinking outside the cell and develop better digital habits in today's always on society. Unfortunately, the same tech life tools making life so much easier are also competing for our attention and resulting in new mental health challenges from tech. But you're not the only one struggling to understand how your phone is changing you and seeking to improve your tech-life balance... millions are in the same boat as you, struggling to improve relationship with tech and trying their best to become the tech wise family. According to a report published by the Pew Research Center, 1 in every 5 Americans rely on social media for their daily news feed, most of which is negative. One of the main drivers of this rising epidemic of technostress and digital burnout stems from the sense of digital overwhelm, as we try to filter out the tremendous volume of information provided by the Internet and social media. But the damage isn't beyond repair - there's some silver lining amidst all this chaos. Experts claim that understanding social media's and tech's effect on mental health and limiting their use could help you control symptoms that contribute to depression. In Understand Digital Wellness in the Overwhelming Digital Age, you'll discover: The troubling reality of mental health issues from tech - and its effect on users What Facebook Depression is, and why negative Facebook experiences are 3x more likely to lead to depression The #1 reason why remote working may not be as rewarding as it was believed to be Shocking real-life incidents that debug the myth of multitasking Detailed insight into the concepts of techno anxiety and digital burnout - and why it's so common in our burnout society FOMO - and its impact on the new generation 8 digital detox strategies to improve digital wellness and mental health for a simpler and happier life 7 research-based solutions for handling issues with decision fatigue 12 factors - dubbed as the Digital Dozen by psychologists - that together make smartphones the most addictive devices. That is possibly 12 ways your phone is changing you! And so much more! The use of digital devices has transformed our lives...though we have been warned about the mental health risks for years! Not only are lonely people more likely to turn to social media to form social connections, but time spent on social media can also increase loneliness. Fighting for your attention has become a multi-billion-dollar industry for the attention merchants. Billions of websites and countless spammers are targeting you whenever you turn on your digital devices, all trying to pull you in and grab your attention - and possibly your money! So how can we escape the attention factory and stay undistractable? Is the only solution to lower screen time for our family and, in fact, lower screen time for everyone? Fortunately not. You don't have to go on a 40 day social media fast, find ten arguments for deleting your social media accounts right now, or be on a constant outlook for social media dangers in today's always-on society. You can change your life by making a few simple yet realistic changes in order to find better tech habits, one step at a time. If you're struggling to limit your amount of digital screen time and want to build great tech habits, then scroll up and grab your copy of Understand Digital Wellness in the Overwhelming Digital Age today.

DIRECTORY OF CORPORATE COUNSEL, FALL 2020 EDITION (2 VOLS)

Wolters Kluwer The Directory of Corporate Counsel, Fall 2020 Edition remains the only comprehensive source for information on the corporate law departments and practitioners of the companies of the United States and Canada. Profiling over 30,000 attorneys and more than 12,000 companies, it supplies complete, uniform listings compiled through a major research effort, including information on company organization, department structure and hierarchy, and the background and specialties of the attorneys. This newly revised two volume edition is easier to use than ever before and includes five quick-search indexes to simplify your search: Corporations and Organizations Index Geographic Index Attorney Index Law School Alumni Index Nonprofit Organizations Index Former 2016 -2017 Edition: ISBN 9781454871798 Former 2015 - 2016 Edition: ISBN 9781454856535 Former 2014 - 2015 Edition: ISBN 9781454843474 Former 2013 -2014 Edition: ISBN #9781454825913 Former 2012 -2013 Edition: ISBN #9781454809593 Former 2017-2018 Edition: ISBN #9781454884460 Former 2018 Mid-Year Edition: ISBN #9781454889250 Former 2019 Edition ISBN #9781543803488 Former 2020 Edition: ISBN #9781543810295

PLUNKETT'S INSURANCE INDUSTRY ALMANAC 2009: INSURANCE INDUSTRY MARKET RESEARCH, STATISTICS, TRENDS & LEADING COMPANIES

Plunkett Research, Ltd. Everything you need to know about the business of insurance and risk management--a powerful tool for market research, strategic planning, competitive intelligence or employment searches. Contains trends, statistical tables and an industry glossary. Also provides profiles of more than 300 of the world's leading insurance companies--includes addresses, phone numbers, and executive names.

NETWORK WORLD

For more than 20 years, Network World has been the premier provider of information, intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations. Readers are responsible for designing, implementing and managing the voice, data and video systems their companies use to support everything from business critical applications to employee collaboration and electronic commerce.

COMPOSITES INNOVATION

PERSPECTIVES ON ADVANCING THE INDUSTRY

CRC Press Composites Innovation: Perspectives on Advancing the Industry provides a panoramic view of innovations in the composites industry, including discussions from business leaders and the university research community on advanced applications in North America, advances in recycling of composites, the use of artificial intelligence, nanocomposites, and emerging smart composites technology. The book is arranged in five key segments including: how composites fit into our world; the basics of the technology; customer insights; pushing the boundaries with concepts from outside the world of composites and emerging composites technologies; and paths forward to find competitive and effective solutions in a timely manner. Key Features Considers sustainability and innovation as driving forces for the growth of composites Explores materials and process development, including chopped and continuous fiber systems Provides a landscape of the status of intellectual property and patents Discusses use of artificial intelligence to improve business systems with case studies and a new disciplined approach to ideation and innovation Features chapters by an accomplished group of global business and technology leaders With contributing authors spanning 15 time zones to pioneer new solutions with composite materials, this book provides an excellent resource for composites business leaders, researchers and educators, and industry professionals, as well as new entrants to this vibrant community.

THE CHICAGO HANDBOOK OF UNIVERSITY TECHNOLOGY TRANSFER AND ACADEMIC ENTREPRENEURSHIP

University of Chicago Press Universities are now in the business of managing intellectual property portfolios and commercializing discoveries from their laboratories. Much of the money universities make from this is in the form of licensing revenue and IPO-related wealth. However, managing intellectual-property portfolios is still a very new business for universities, and administrators and policymakers are still uncertain about how best to navigate the many practical and fundamental issues that arise. Written for both practitioners and academics, The Chicago Handbook of University Technology Transfer and Academic Entrepreneurship provides a clear outline of the broad set of new practices and institutions that have sprung up to manage and sell intellectual property, from university technology-transfer offices and cooperative-engineering research centers to vast research parks. To determine what makes technology transfer work, the question is approached from a variety of perspectives: historically, internationally, and from the perspectives of professors, entrepreneurs, administrators, and regulators. Some chapters offer guidelines and examples of how to foster and maintain successful research ventures from various perspectives. Others explore how developments in university technology transfer affect the public interest and inform the notion of open innovation and science.

ADVICE ON THE DEPARTMENT OF ENERGY'S CLEANUP TECHNOLOGY ROADMAP

GAPS AND BRIDGES

National Academies Press Beginning with the Manhattan Project and continuing through the Cold War, the United States government constructed and operated a massive industrial complex to produce and test nuclear weapons and related technologies. When the Cold War ended, most of this complex was shut down permanently or placed on standby, and the United States government began a costly, long-term effort to clean up the materials, wastes, and environmental contamination resulting from its nuclear materials production. In 1989, Congress created the Office of Environmental Management (EM) within the Department of Energy (DOE) to manage this cleanup effort. Although EM has already made substantial progress, the scope of EM's future cleanup work is enormous. Advice on the Department of Energy's Cleanup Technology Roadmap: Gaps and Bridges provides advice to support the development of a cleanup technology roadmap for EM. The book identifies existing technology gaps and their priorities, strategic opportunities to leverage needed research and development programs with other organizations, needed core capabilities, and infrastructure at national laboratories and EM sites that should be maintained, all of which are necessary to accomplish EM's mission.

TROUBLED ASSET RELIEF PROGRAM: STATUS OF GOVERNMENT ASSISTANCE PROVIDED TO AIG

DIANE Publishing The 7th report on TARP focuses on the initial assistance the gov't. provided to Amer. International Group, Inc. (AIG) ; an org. with over 200 co. operating in over 130 countries and jurisdictions and \$830 billion in assets ; in Sept. 2008 and the restructuring of that assistance in Nov. 2008 and March 2009. The unfolding crisis threatened the stability of the U.S. banking system and the solvency of a number of financial institutions, including AIG. This report describes: (1) the basis for the fed. assistance; (2) the nature and type of assistance and steps intended to protect the government's interest; and (3) selected indicators of the status of fed. assistance and AIG's financial condition. Charts and tables. This is a print on demand edition of an important report.

INFORMATION TECHNOLOGY PROJECT MANAGEMENT

Cengage Learning Develop a strong understanding of IT project management as you learn to apply today's most effective project management tools and techniques with the unique approach found in Schwalbe's INFORMATION TECHNOLOGY PROJECT MANAGEMENT, 9E. Examine the latest developments and skills as you prepare for the Project Management Professional (PMP) or Certified Associate in Project Management (CAPM) exams. This edition reflects content from the latest PMBOK Guide, 6E and the Agile Practice Guide while providing a meaningful context for understanding project management. Hundreds of timely examples highlight IT projects, while discussion, exercises and cases reinforce learning. Examples from familiar companies featured in today's news, and a guide to using Microsoft Project 2016 help you master IT project management skills that are marketable across the globe. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

KINDLE FORMATTING

THE COMPLETE GUIDE TO FORMATTING BOOKS FOR THE AMAZON KINDLE

Publishers and independent authors everywhere are excited-and somewhat anxious-about the move toward digital publishing. eBooks are revolutionizing the publishing world, and eBook reading devices like the Amazon Kindle are on the forefront of this revolution. However, the text formatting the Kindle requires can be hard to decipher and even harder to implement. This book serves as a guide to the process of formatting eBooks that look great on the Kindle every time. Each step is explained in detail, with examples and formatting tips found nowhere else. In addition to instructions for the conversion and formatting process, this book contains detailed explanations of all the HTML and CSS markup supported by the Kindle, instructions for achieving optimal image display quality on the E Ink screen, and other details about the Kindle's formatting requirements previously left to chance or speculation. Beautiful eBooks are at your fingertips. The Kindle and its readers await.

INFOWORLD

InfoWorld is targeted to Senior IT professionals. Content is segmented into Channels and Topic Centers. InfoWorld also celebrates people, companies, and projects.

MIND AND MUSCLE

CHANGE YOUR MIND, CHANGE YOUR BODY, CHANGE YOUR LIFE

AuthorHouse One of the remarkable accomplishments a human can ever achieve in a lifetime is to be able to connect the body and mind into one dimension. The body works best when in alliance with the mind. Mind and Muscle is a book that demonstrates the physical aspects of fitness and exercise, it then explores deeper into the psychological and spiritual practices of a nourishing way of life. This book is a balanced display of discovery showcased in an examination of the early development of our upbringing, as well as where we are in our current state; it then investigates what long-term changes can be made and demonstrates unique techniques that can be followed to accomplish a healthy wholesome lifestyle assisting with those targeted changes. All aspects of life are discussed to assist people with different backgrounds and unique circumstances in life. Whether you are a young adult looking to start your life and establish a family with kids, or you are in the second half of your life, post family, or you are just getting started in adulthood, this book can be beneficial. The unique approach and topics discussed in this journey go beyond the normal fitness book and can benefit and assist people with advanced level of knowledge in health and fitness, as well as people with minimal fitness background. The message in Mind and Muscle is that fitness and exercise go beyond just challenging the body; they must challenge and connect the mind with human inner dimensions to enable highest potentials. Fitness is a spiritual secrete, and if exercise is capable of changing your mind, body, feelings, and attitude, then it has the power to change your entire life.

PRINCIPAL

THE EMERGING DOMAIN OF COOPERATING OBJECTS

Springer Science & Business Media There are a number of different system concepts that have gained much relevance in the area of embedded systems over the past couple of years. First, there is the classic concept of embedded systems where the focus is on control systems for physical processes. Secondly, the notion of pervasive computing has evolved, where the vision foresees everyday objects having some form of computation capacity and, in most cases, sensing and communication facilities. Thirdly, the notion of wireless sensor networks has arisen, where small computing devices are able to sense their environment and cooperate in order to achieve a well-defined goal. These three types of quite diverse systems share a lot of commonalities on the one hand and, on the other hand, have some complementary aspects in common that make a combination of these systems into a coherent system vision promising. In particular, the important notions of control, heterogeneity, wireless communication, dynamic and ad-hoc nature and cost are prevalent to various degrees in each of these systems. A future system concept needs to combine the strong points of all three system concepts in at least these functional aspects. It has to provide support for the control of physical processes like today's embedded systems do, have as good support for device heterogeneity and spontaneity of usage as required by pervasive and ubiquitous computing approaches, and has to be as cost efficient and wirelessly agile as wireless sensor networks are. These new systems consist, therefore, of individual entities or objects that jointly strive to reach a common goal, which will typically be a goal in sensing or control, and are dynamically and loosely federating themselves for cooperation, taking care not to overtax their available resources. This book presents a roadmap to these concepts which are summarized as cooperating objects.
