health and the increase in birth defects, malnutrition, and disease following the implementation of the agricultural lifestyle, Nora Gedgaudas shows how our modern grain- and carbohydrate-heavy low-fat diets are a far cry from the high-fat, moderate-protein hunter-gatherer diets we are genetically programmed for, leading not only to lifelong weight gain but also to cravings, mood disorders, cognitive problems, and “diseases of civilization”—such as cancer, osteoporosis, metabolic syndrome (insulin resistance), heart disease, and mental illness. Applying modern discoveries to the basic hunter-gatherer diet, she culls from vast research in evolutionary physiology, biochemistry, metabolism, nutrition, and chronic and degenerative disease to unveil a holistic lifestyle for true mind-body health and longevity. Revealing the primal origins and physiological basis for a high-fat, moderate-protein, starch-free diet and the importance of adequate omega-3 intake—critical to our brain and nervous system but sorely lacking in most people’s diets—she explains the nutritional problems of grains, gluten, soy, dairy, and starchy vegetables; which natural fats promote health and which (such as canola oil) harm it; the crucial role of vitamin D in cancer and disease prevention; the importance of saturated fat and cholesterol; and how diet affects mental health, memory, cognitive function, hormonal balance, and cellular aging. With step-by-step guidelines, recipes, and meal recommendations, this book offers sustainable strategies for a primally based, yet modern approach to diet and exercise to reduce stress and anxiety, lose weight, improve sleep and mood, increase energy and immunity, enhance brain function, save money on groceries, and live longer and happier.

The DASH Diet Action Plan Proven to Lower Blood Pressure and Cholesterol Without Medication Amidon Press The DASH Diet Action Plan is the user-friendly teaching guide to the DASH diet. Initially, many people find it difficult to follow the DASH diet. This book makes it simple to understand and put into practice. The book makes it easy to lose weight with the DASH diet, and it has realistic ways to add exercise. Although the book was not intended to be an aggressive weight loss book, people are writing to say that they have surprised themselves by finding it easy to lose weight following the plan! Many people find the DASH diet to be hard to implement and sustain in a hectic lifestyle. The average American gets 2 - 3 servings of fruits and vegetables combined each day, so following the DASH diet may seem daunting. The DASH Diet Action Plan book is designed to help you with more than just “what” is involved with the DASH diet, it also shows you “how.” How to follow the DASH diet in restaurants, how to lose weight, how to make over your kitchen to make it easy to follow your plan, how to fit in exercise, how to reduce salt intake, how to add vegetables even if you “hate” vegetables. And the book helps you make your own personal plan with specific steps you will take to fit the DASH diet into your daily routine. Our readers say that this is the best DASH diet book! Your step-by-step plan will include: setting your goals for blood pressure and cholesterol, determining the calorie-level you need for maintenance or weight loss, developing meal plans, developing a realistic exercise plan, adjusting the DASH diet to accommodate other health problems, choosing the key DASH diet foods, reading food labels, and learning how to incorporate more vegetables in your diet, and setting up your kitchen to make it easy to stay on track. This book was written by a registered dietitian who is experienced in helping people make sustainable behavior changes, and make healthy eating part of their real lives. She knows that people need flexibility and options to choose different approaches, since not everyone has the time or the interest in cooking or making drastic changes in how they eat. The book incorporates tools that will help you plan the specific steps you will take to adopt the DASH diet. Research shows that people who make concrete plans are more likely to be successful with adopting new health behavior. This should improve your ability to lower your blood pressure (and cholesterol), without medication.

What began as temporary limitations to restrict the virus's spread turned into a year-long struggle to fight the disease. Health leaders and public officials imposed restrictions that impacted nearly every aspect of life. These restrictions included canceling in-person activities, working from home, completing school online, and losing livelihood through massive unemployment and businesses closing. The Church was not exempt from the impact of COVID-19 either. In many places, in-person gatherings were prohibited or severely limited. Pastors and church leaders learned new skills in providing online worship services and discipleship programs. Likely the most significant impact was the challenge to faith as people wrestled with facing life and death issues due to a microscopic organism. What people needed during this time was the wisdom and experience of a veteran follower of God. Someone who learned how to walk by faith during the most challenging seasons of life. That veteran of faith was David, the shepherd-king of ancient Israel. In *Living the Psalms 23 Faith in a COVID-19 World*, pastor Michael Black shares a series of messages from Psalms 23 that draw from King David's wisdom. David describes how his faith in God as his Divine Shepherd empowered him to face circumstances just as destructive as the pandemic. Take a journey with David through this familiar Psalm and learn from his wisdom. He will be our mentor-guide, modeling for us what it means to live a Psalms 23 faith even in the most dire circumstances we might face. Michael Black is a semi-retired pastor, teacher, husband, and father of three daughters who are married and grandfather to four grandchildren. His hobbies include writing, walking, woodworking, outdoor activities, and mystery movies. Mike has earned degrees from Indiana Wesleyan Seminary, Pittsburgh Theological Seminary, and Asbury Theological Seminary. Mike and his wife Ruth live in Williamston, Michigan. bolster one's metabolism for permanent weight loss, and provides over thirty recipes to help with this process. **Straight Random House** From his days as a club face alongside Philip Sallon, Marilyn and Steve Strange, through the years of global pop superstardom with Culture Club, his rebirth as a world-class DJ, as a leading light of musical theatre with the award-winning Taboo, a cutting edge photographer and a confrontational and acclaimed fashion designer, one of the many things you can say about George is: he's never stood still. It's been one hell of a trip. A decade and a half ago, George was coming to terms with the fall-out from serious drug addiction, the failure of his relationship with Jon Moss and the collapse of Culture Club. For lesser men this would have been the end but for George it became the start of a period of remarkable reinvention. Told with George's trademark biting wit, brutal honesty and sparkling insight, this book reveals the whole story, reappraising his rise to stardom and all the madness that followed. He talks about his solo singing career, his initiation into the dance music scene, and his role as the driving force behind theatrical sensation Taboo. George also discusses the achievement of the apparently impossible task of reuniting the famously fractious Culture Club. It is only now, many years on from the glittering, glossy Eighties, that George makes an insightful and often hilarious assessment of the impact of that extraordinary era. **Lose Weight by Eating 130 Amazing Clean-Eating Makeovers for Guilt-Free Comfort Food** HarperCollins Lose weight by eating guilt-free, low-calorie, unprocessed versions of all your favorite foods, with this helpful, accessible diet and cookbook—featuring more than 130 clean eating recipes and gorgeous full-color photos—from the popular weight loss blogger who lost 150 pounds in eleven months.
