Classroom Habitudes Teaching Habits and Attitudes for 21st Century Learning *Solution Tree Press* You know students need to acquire 21st century skills. But how do you work those skills into the curriculum? Learn how to use the content you already teach to challenge students to think critically, collaborate with others, solve new problems, and adapt to change across new learning contexts. Help students build the seven habitudes—habits of disciplined decisions and specific attitudes—they need to succeed. Genius Hour Passion Projects That Ignite Innovation and Student Inquiry *Routledge* Genius Hour provides educators with the tools that they need to successfully implement Genius Hour, or passion projects, in the classroom. Presented through an easy-to-follow six-step strategy, teachers will utilize the 6 P's—passion, plan, pitch, project, product, and presentation—as a map for students to follow as they create, design, and carry out projects. Students will experience personalized learning through these self-driven projects, application of standards and real-world skills, and opportunities to learn through failure and reflection. The book includes handouts, suggested online resources, and tips and tricks to make the Genius Hour process meaningful for students and manageable for educators, as well as a discussion of Genius Hour's importance and impact on gifted students as they take ownership of their own learning. 2019 Teachers' Choice Award for Professional Development Winner Genius Hour Passion Projects That Ignite Innovation and Student Inquiry *Routledge* Genius Hour, Second Edition features newly revised handouts, up-to-date online resources, and fresh strategies for implementing Genius Hour, or passion projects, in your classroom. Genius Hour allows students to experience personalized learning through self-driven projects, application of standards and real-world skills, and opportunities to learn through productive struggle and reflection. Presented through an easy-to-follow six-step strategy, teachers will utilize the 6 P's—passion, plan, pitch, project, product, and presentation—as a map for students to follow as they create, design, and carry out projects. This second edition also features a new chapter on lessons learned from the author's early days implementing Genius Hour, helping readers get ahead of common pitfalls. This beloved guide will make the Genius Hour process not only meaningful for learners but manageable for educators. Genius Matters *Lulu.com* Self-Driven Learning Teaching Strategies for Student Motivation *Routledge* In this lively, research-based book, award-winning educator Larry Ferlazzo tackles everyday classroom challenges with creative instructional techniques to help middle- and high-school teachers develop self-motivated and high-achieving students. The practical tips, online resources, and mini-lessons in this book encourage students to take charge of their own learning, boosting their success in and outside of the classroom. Detailed lesson plans in every chapter align with the Common Core English Language Arts Standards and cover a variety of valuable skills, including: Personal responsibility and perseverance Social and emotional learning Standardized test-taking strategies And much more! Personalized Reading Digital Strategies and Tools to Support All Learners *International Society for Technology in Education* Get practical strategies and classroom-ready ideas to incorporate technology in the 6-12 curriculum to improve skills in reading, critical thinking and digital literacy. Due to the diversity of readers in today's classrooms, teachers are called upon to teach not reading, but readers. Personalized Reading highlights four different types of readers -- the struggling reader, the reluctant reader, English learners and advanced readers -- and presents ways to use technology tools to accommodate their different reading styles. With this book, you'll get answers to questions like: How can teachers meet the needs of all learners to help them think critically and communicate effectively? How can teachers approach reading of visual, print and digital text? This book will: • Help teachers empower students with the skills and strategies they need for reading success, and to find joy in reading. • Inspire teachers to think beyond the text to help meet students where they are and raise the level of thinking about teaching readers. • Provide activities and lessons to help support the diverse learners that enter the classroom, and highlight a variety of technology tools to tap into the multifaceted texts students can access. With this book, secondary teachers will develop the skills they need to help students select their own texts, conduct reading workshops and teach students to read both print and visual texts, while identifying what works best for each student to maximize learning and potential. Passionate Learners How to Engage and Empower Your Students *Routledge* Would you want to be a student in your own classroom? In Passionate Learners: How to Engage and Empower Your Students, author Pernille Ripp challenges both novice and seasoned teachers to create a positive, interactive learning environment where students drive their own academic achievement. You'll discover how to make fundamental changes to your classroom so learning becomes an exciting challenge rather than a frustrating ordeal. Based on the author's personal experience of transforming her approach to teaching, this book outlines how to: • Build a working relationship with your students based on mutual trust, respect, and appreciation • Be attentive to your students' needs and share ownership of the classroom with them • Break out of the vicious cycle of punishment and reward to control student behaviour • Use innovative and creative lesson plans to get your students to become more engaged and intellectually-invested learners, while still meeting your state standards • Limit homework and abandon traditional grading so that your students can make the most of their learning experiences without unnecessary stress • And much more! New to the second edition, you'll find practical tools, such as teacher and student reflection sheets, parent questionnaires, and parent conference tools, available in the book and as eResources on our website (<http://www.routledge.com/9781138916920>) to help you build your own classroom of passionate learners. Rigor in the K-5 Math and Science Classroom A Teacher Toolkit *CRC Press* Learn how to incorporate rigorous activities in your math or science classroom and help students reach higher levels of learning. Expert educators and consultants Barbara R. Blackburn and Abigail Armstrong offer a practical framework for understanding rigor and provide specialized examples for elementary math and science teachers. Making Classrooms Better: 50 Practical Applications of Mind, Brain, and Education Science *W. W. Norton & Company* A practical, classroom-oriented guide to best-practice teaching. Learning specialist Leslie Hart once wrote that designing educational experiences without knowledge of the brain is like designing a glove without knowledge of the hand. Making Classrooms Better takes this concept a step further, building from general knowledge of brain-based education science and current educational research to offer specific suggestions for how teachers can improve student learning outcomes. Covering a range of subjects, from creating an optimal classroom climate to maximizing metacognitive skill development, this well-researched, state-of-the-art guide is an essential resource for highly effective practices that teachers, administrators, and curriculum planners can easily use. The first half of the book provides a practical overview of teaching from a Mind, Brain, and Education perspective through an understanding of the intersection of the fields of neuroscience, psychology, and pedagogy. The second half shares 50 evidence-based classroom "best practices" that have a proven positive impact on student learning outcomes and explains why they work. Passionate Readers The Art of Reaching and Engaging Every Child *Routledge* How do we inspire students to love reading and discovery? In Passionate Readers: The Art of Reaching and Engaging Every Child, classroom teacher, author, and speaker Pernille Ripp reveals the five keys to creating a passionate reading environment. You'll learn how to... Use your own reading identity to create powerful reading experiences for all students Empower your students and their reading experience by focusing on your physical classroom environment Create and maintain an enticing, well-organized, easy-to-use classroom library; Build a learning community filled with choice and student ownership; and Guide students to further develop their own reading identity to cement them as life-long, invested readers. Throughout the book, Pernille opens up about her own trials and errors as a teacher and what she's learned along the way. She also shares a wide variety of practical tools that you can use in your own classroom, including a reader profile sheet, conferring sheet, classroom library letter to parents, and much more. These tools are available in the book and as eResources to help you build your own classroom of passionate readers. The Genius Hour Guidebook Fostering Passion, Wonder, and Inquiry in the Classroom *Routledge* Promote your students' creativity and get them excited about learning! In this practical new book, authors Denise Krebs and Gallit Zvi show you how to implement Genius Hour, a time when students can develop their own inquiry-based projects around their passions and take ownership of their work. Brought to you by MiddleWeb and Routledge Eye On Education, the book takes you step-by-step through planning and teaching Genius Hour. You'll learn how to guide your students as they: Develop inquiry questions based on their interests; Conduct research to learn more about their topic of choice; Create presentations to teach their fellow students in creative ways; and Present their finished product for a final assessment. At the end of the book, you'll find handy FAQs and ready-made lessons and resources. In addition, a companion website, [www.geniushourguide.org](http://www.geniushourguide.org), offers bonus materials and regular updates to support you as you implement Genius Hour in your own classroom. Inquiry and Innovation in the Classroom Using 20% Time, Genius Hour, and PBL to Drive Student Success *Routledge* Careers in

the 21st century are changing, but traditional education methods are not preparing students for these new jobs and demands. In this thought-provoking book, esteemed educator A.J. Juliani describes how we need to modify our classrooms to instill in students the drive for inquiry and innovation that they will need to succeed beyond school doors. Juliani reveals the ways that teachers can use Google's 20% Time, Genius Hour, and Project-Based Learning to make students more creative, inquisitive, engaged in learning, and self-motivated—the kind of people we need to move society forward! He offers easy ways to implement these ideas while meeting the Common Core and still allowing plenty of time for content instruction. Special Features: Research on the benefits of inquiry-based learning Connections to the Common Core State Standards Stories and examples from the field Exciting ideas for using 20% Time, Genius Hour, and PBL at various grade levels Tips for preparing parents and administration for your new instruction Ideas for expanding your knowledge and continually learning in this area Classroom applications for each chapter, including sample projects and resources Bonus content with reproducible materials that you can use in your classroom right now, such as student checklists, questions, lessons, and unit plans As Juliani emphasizes, if we want our students to change the world, we must change our classrooms to foster inquiry and innovation. **Rigor Is NOT a Four-Letter Word** *Routledge* Learn how to increase instructional rigor so that all students can reach higher levels of learning! In this new edition of a best seller, author Barbara R. Blackburn offers practical ideas for raising expectations, increasing complexity, integrating scaffolding into instruction, creating open-ended choices and projects, and much more. This timely new edition provides connections to rigorous standards, plus it features new sections on topics such as questioning models, student ownership, Genius Hour, summative assessments, becoming a teacher-leader, and increasing rigor in instructional technology. Appropriate for teachers of all grade levels and subject areas, the book is filled with helpful strategies and tools that you can implement immediately. In addition, full-sized templates are available as eResources on our website ([www.routledge.com/9781138569560](http://www.routledge.com/9781138569560)) so you can download and print them for classroom use. With its practical advice and helpful tools, **Rigor Is NOT a Four-Letter Word** will set you and your students on the fast track to higher learning and sustained success. **Transforming Teaching and Learning Through Data-Driven Decision Making** *Corwin Press* Connect data and instruction to improve practice This book helps bridge the gap between classroom practice and the best of what is known from educational psychology. Teachers will find cutting-edge advances in research and theory on human learning, teaching, and instruction in an easily understood and transferable format. The authors provide detailed guidance for using data to inform practice and tools to align teacher preparation and professional development with today's best practices and most current research. This resource will provide valuable tools for: In-service teachers Pre-service teachers Instructional leaders School and district administrators Improving Student Behavior The Success Diary Approach *Routledge* What if you could use a handpicked set of tools to help children redirect their classroom behavior from dysfunctional to positive? **Improving Student Behavior: The Success Diary Approach** is a step-by-step guide to promoting your students' personal development. This book introduces **The Success Diary**, a novel, easy-to-use method for involving students in their own behavior modification plans. Designed by an experienced school psychologist, this guide consolidates approaches from various schools of behavioral intervention and integrates them into a streamlined, adaptable framework for teachers looking to engage with children's unique personalities, skills, motivations, and support systems to create lasting behavioral change. Through these flexible, common-sense guidelines and activities, you can empower your students to participate in working towards better behaviors and healthy social-emotional development. **Maverick Teachers How Innovative Educators are Saving Public Schools** *Routledge* Despite dwindling resources and high-stakes testing, public school teachers all over the country are managing to breathe life, passion, and excitement into their classrooms. In this new book by bestselling author A.J. Juliani and lifelong educator David E. Baugh, you'll meet a diverse group of teachers—Mavericks—who are doing exactly that. You'll hear from teachers across the country and how they are shaking up the norm. Each story includes a powerful vignette and a breakdown of tactics used, so you can bring inspiration and strategies back to your own classroom. Together, these teachers and their stories will show you how to relate and respond to your students' most pressing needs, leaving you feeling reenergized in your role as a change-maker. **Intentional Innovation How to Guide Risk-Taking, Build Creative Capacity, and Lead Change** *Routledge* As the world changes, how do we educate differently so students, teachers, and staff are empowered to thrive in this environment? In this new book from bestselling author A.J. Juliani, you'll learn a clear process to guide risk-taking and lead change so you can be intentional about innovation in your classroom, school, and life. Juliani shows why we need intentional innovation and how to implement it effectively using the PLASMA framework: What to Praise, Look For, and Assess Support What is Different Make Time for Creative Work Allow for the New and Unknown You'll also gain insights on celebrating failing and learning, creating conditions for creativity, and leading the change. Whether you are a technology and innovation coach, a teacher, or an administrator, **Intentional Innovation** will motivate you to take risks, be up to date on the latest research, and manage strong working relationships designed to help students succeed beyond school doors. It's not just about technology for change, but about fostering relationships to motivate, inspire, and challenge us to step out and lead in a future that is exciting and unknown. **Education Write Now** *Routledge* In this innovative new series **Education Write Now**, ten of education's most inspiring thought-leaders meet for a three-day retreat to think and write collaboratively, and then bring you the top takeaways you need right now to improve your school or classroom. This first volume, edited by Jeff Zoul and Joe Mazza, focuses on the all-important but often uncomfortable concept of change. Each concise chapter addresses how teachers and leaders can do the hard work of enacting change so more students succeed—academically and emotionally. You'll gain practical insights and strategies for changing how we think about... **Embracing Change** (Jeff Zoul) **Learning** (Tony Sinanis) **Assessment** (Starr Sackstein) **Relationships** (Kayla Delzer) **Mental Health** (Joe Mazza) **Educational Technology** (Thomas Murray) **Teacher Engagement** (Sanée Bell) **Leadership** (Amber Teamann) **Partnerships** (Bob Dillon) **Communication** (Joe Sanfelippo) The royalties generated from this book will support the Will to Live Foundation, a nonprofit foundation working to prevent teen suicide. Dr. Jeffrey Zoul (@jeff\_zoul) is a lifelong teacher, learner, and leader. During Jeff's distinguished career in education he has served in a variety of roles, most recently as Assistant Superintendent for Teaching and Learning with Deerfield Public Schools District 109 in Illinois. Jeff also served as a teacher and coach in Georgia before moving into school administration. He has authored many books, including **What Connected Educators Do Differently**. Dr. Joe Mazza (@joe\_mazza) is Lecturer at The University of Pennsylvania's Graduate School of Education. He is the Founder/CEO of **MakerDads**, a new father and family engagement initiative bringing dads, grand-dads and other male role models together to support student learning through innovation. Joe's innovative work has been featured in 15 books dating back to 2005. Most recently, he co-authored **Lead Learners: Creating a Culture of Empathy, Innovation, and Empowerment** with Derek McCoy (Routledge, 2018). **Mindfulness for Students A Curriculum for Grades 3-8** *Routledge* What if you walked into your classroom to find a room full of students who were working cooperatively with one another, focusing on the day's lesson, and able to regulate their own thoughts and feelings? Learn how to teach mindfulness strategies to your elementary and middle school students to provide a foundation for social-emotional well-being and academic engagement. Based on research and designed to complement any school setting, no matter how busy, the practices in this book will create the groundwork for a positive and productive learning environment. The curriculum covers these five key mindfulness practices: **Breath awareness** **Body awareness** **Focusing on gratitude** **Kindness toward self and others** **Open awareness** Each chapter includes a detailed lesson plan with suggested wording, as well as support materials (e.g., journal templates, activity sheets, and infographics). These tools, as well as audio recordings of the practices, are also available on our website as free eResources for classroom use ([www.routledge.com/9781138586550](http://www.routledge.com/9781138586550)). **Connecting Your Students with the Virtual World Tools and Projects to Make Collaboration Come Alive** *Routledge* Make the most of today's technology to give your students a more interactive, authentic, global learning experience! **Connecting Your Students with the Virtual World** shows you how to plan themed projects for every season, embark on virtual field trips, and get students in touch with other classrooms worldwide. This updated edition includes a key new chapter on taking video conferencing to the next level for optimal student engagement and collaboration, as well as new chapters on connecting through games and esports and connecting with parents. The book includes a wide variety of standards-based, step-by-step activities you can implement immediately. **Authentic Learning Experiences A Real-World Approach to Project-Based Learning** *Routledge* Learn how to implement a real-world approach to project-based learning. Authentic learning experiences are created around genuine, outside audiences and meaningful purposes. They meet the Common Core, engage students in critical thinking and 21st Century learning, teach important skills such as research and collaboration, and improve student learning. This practical guide provides step-by-step instructions to make it easy for teachers to create their own authentic learning experiences. The book is loaded with a variety of examples from different grade levels and content areas. Bonus! Each example incorporates technology and addresses the Common Core State Standards. **Role Reversal Achieving Uncommonly Excellent Results in the Student-Centered Classroom** *ASCD* Want to make your students more responsible for their own learning? Want to create an academic environment in which students thrive and develop a genuine thirst for knowledge? Want to improve your students' standardized test results but avoid a "teach-to-the-test" mentality that throttles creativity and freedom? In this book, Mark Barnes introduces and outlines the **Results Only Learning Environment**—a place that embraces the final result of learning rather than the traditional methods for arriving at that result. A results-only classroom is rich with individual and cooperative learning activities that help students demonstrate mastery learning on their own terms, without being constrained by standards and pedagogy. By embracing results-only learning, you will be able to transform your classroom into a bustling community of learners in which? \* Students collaborate daily on a number of long-term, ongoing projects. \* Students receive constant narrative feedback. \* Yearlong projects target learning outcomes more meaningfully than worksheets, homework, tests, and quizzes. \* Freedom and independence are valued over punitive points, percentages, and letter grades. \* Students manage themselves and all but eliminate the need for traditional classroom management. Learn how your students can take charge of their own achievement in an enjoyable, project-based, workshop setting that challenges them with real-world learning scenarios—and helps them attain uncommonly excellent results. **Connecting Your Students with the World Tools and Projects to Make Global Collaboration Come Alive, K-8** *Routledge* Make the most of today's technology to give your students a more interactive, authentic learning experience! **Connecting Your Students with the World** shows you how to use web tools to get K-8 students in touch with other classrooms worldwide. This book is a valuable resource to help you find and communicate with other teachers and classrooms and even design your own collaborative online projects. You'll find out how to: Conduct videoconferencing calls to put your students in touch with classrooms around the world; Embark on Virtual Field Trips; Plan themed projects for every season, including fun holiday activities; And more! The book includes detailed instructions for each activity and connections to the Common Core, ISTE, and Next Generation Science Standards, so you can ensure that you are meeting your state's requirements as you prepare your students to become engaged, informed, and global citizens. Additionally, a comprehensive list of online resources is available as a free download from the Routledge website at [www.routledge.com/9781138902961](http://www.routledge.com/9781138902961). **Tween Crayons and Curfews Tips for Middle School Teachers** *Routledge* Teach well. Be happy. In this book, Heather Wolpert-Gawron, author of the popular education blog "Tweenteacher" shares ideas for teaching an age group that too often presents a challenge for educators. With sparkling humor and a unique, fundamental understanding of the middle children of education, the award-winning teacher offers tried-and-true strategies for: Creating a tween-centric classroom environment Building community in the middle school classroom Encouraging deeper thinking and curiosity among tweens Understanding and informing tweens about how they learn Conversational and practical, this book aims to motivate and inspire middle school teachers as they work to engage their students, instruct with rigor, and improve their own experiences as Tweenteachers! **Battling Boredom 99 Strategies to Spark Student Engagement** *Routledge* Drive boredom out of your classroom - and keep it out - with the student-engagement strategies in this book. You'll learn how to gain and sustain the attention of your students from the moment the bell rings. Perfect for teachers of all subjects and grade levels, these activities go head-to-head with student boredom and disengagement, resulting in class time that's more efficient, more educational, and loads more fun! Author Bryan Harris, an expert in student engagement and

classroom management, has extensive experience in K-12 motivation and brain-based learning. In this book, he brings together. **Disruptive Classroom Technologies A Framework for Innovation in Education** *Corwin Press* Ensure your technological integration is leading to deeper learning! Have we developed, at considerable cost and effort, classrooms that are digitally rich but innovation poor? Timely and powerful, this book offers a new framework to elevate instructional practices with technology and maximize student learning. The T3 Framework helps categorize students' learning as translational, transformational, or transcendent, sorting through the low-impact applications to reach high-impact usage. Teachers and leaders will find: Examples of technology use at the translational, transformational, and transcendent levels Activities, guides, and prompts for deeper learning Evaluative rubrics to self-assess current technology use, establish meaningful goals, and track progress This guide helps teachers and leaders realize the potential of modern teaching and learning tools to unleash students' passion for limitless learning. Check out this Bam! Radio interview with author Sonny Magana "We need to build collaborative communities of students using the social media aspects of technology to change classroom conversations from monologue to dialogue, increasing student impact questions, and allowing errors. This is the core of Magana's claims, and how we'll see technology really make the difference we're after!" —John Hattie, Laureate Professor, Deputy Dean of MGSE, Director of the Melbourne Education Research Institute "Fresh, innovative, and revolutionary, Magana's T3 Framework promises to challenge the status quo and invite disruptive practices in educational technology." —Yong Zhao Author, *World Class Learners* "The T3 Framework is a brilliant breakthrough in our understanding and use of technology for learning." —Michael Fullan, Professor Emeritus OISE/University of Toronto, Canada Driven by Data A Practical Guide to Improve Instruction *John Wiley & Sons* Offers a practical guide for improving schools dramatically that will enable all students from all backgrounds to achieve at high levels. Includes assessment forms, an index, and a DVD. The Leader in Me How Schools and Parents Around the World are Inspiring Greatness, One Child at a Time *Simon and Schuster* Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well. Learn Like a Pirate Empower Your Students to Collaborate, Lead, and Succeed "QR codes provide additional Pirate resources!"--Page 4 of cover. The Research-ready Classroom Differentiating Instruction Across Content Areas *Heinemann* Presents a comprehensive guide to managing independent research across the curriculum, and includes strategies and reproducibles that help to motivate students. Study Driven A Framework for Planning Units of Study in the Writing Workshop *Heinemann Educational Books* "In Study Driven, Ray shows you that encouraging students to read closely can improve the effectiveness of your writing instruction. Detailing her own method for utilizing the popular mentor-texts approach, Ray helps you immerse children in a close study of published texts that supports their learning, leads them to a better understanding of the traits of good writing, and motivates them to become more accomplished writers." 5 Principles of the Modern Mathematics Classroom Creating a Culture of Innovative Thinking *Corwin Press* Students pursue problems they're curious about, not problems they're told to solve. Creating a math classroom filled with confident problem solvers starts by introducing challenges discovered in the real world, not by presenting a sequence of prescribed problems, says Gerald Aungst. In this groundbreaking book, he offers a thoughtful approach for instilling a culture of learning in your classroom through five powerful, yet straightforward principles: Conjecture, Collaboration, Communication, Chaos, and Celebration. Aungst shows you how to Embrace collaboration and purposeful chaos to help students engage in productive struggle, using non-routine and unsolved problems Put each chapter's principles into practice through a variety of strategies, activities, and by incorporating technology tools Introduce substantive, lasting cultural changes in your classroom through a manageable, gradual shift in processes and behaviors Five Principles of the Modern Mathematics Classroom offers new ideas for inspiring math students by building a more engaging and collaborative learning environment. "Bravo! This book brings a conceptual framework for K-12 mathematics to life. As a parent and as the executive director of Edutopia, I commend Aungst for sharing his 5 principles. This is a perfect blend of inspiring and practical. Highly recommended!" Cindy Johanson, Executive Director, Edutopia George Lucas Educational Foundation "Aungst ignites the magic of mathematics by reminding us what makes mathematicians so passionate about their subject matter. Grounded in research, his work takes us on a journey into classrooms so that we may take away tips to put into practice today." Erin Klein, Teacher, Speaker, and Author of Redesigning Learning Spaces Take a look at Gerald describe why you need this book! Ditch That Textbook Free Your Teaching and Revolutionize Your Classroom Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting "by the textbook" implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In Ditch That Textbook, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. Ditch That Textbook is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms. Understanding by Design *ASCD* Presents a multifaceted model of understanding, which is based on the premise that people can demonstrate understanding in a variety of ways. Ready-to-Use Resources for Genius Hour in the Classroom Taking Passion Projects to the Next Level *Routledge* Ready-to-Use Resources for Genius Hour in the Classroom provides practical advice and a wealth of hands-on resources for teachers to implement Genius Hour, or passion projects, in the classroom. This book: Includes everything educators need to help students apply their learning and reach deep understanding. Engages the six P's of Genius Hour: passion, plan, pitch, project, product, and presentation. Features built-in opportunities to gamify the process. Helps increase students' critical thinking, creativity, and engagement. Is a valuable standalone resource and companion to Genius Hour. Students can "level up," earning badges and points, as they create, design, and carry out projects and develop ideas that impact their classroom, school, community, and world. Through the tools and tips provided, teachers will see Genius Hour as more than an hour, more than a strategy or activity separate from the regular curriculum. When implemented effectively, Genius Hour can be a more meaningful teaching and learning experience than any other. Culturally and Linguistically Responsive Teaching and Learning (Second Edition) Classroom Practices for Student Success *Teacher Created Materials* Written to address all grade levels, this K-12 classroom resource provides teachers with strategies to support their culturally and linguistically diverse students. This highly readable book by Dr. Sharroky Hollie explores the pedagogy of culturally responsive teaching, and includes tips, techniques, and activities that are easy to implement in today's classrooms. Both novice and seasoned educators will benefit from the helpful strategies described in this resource to improve on the following five key areas: classroom management, academic literacy, academic vocabulary, academic language, and learning environment. This updated 2nd edition is grounded in the latest research, and includes an updated reference section and resources for further reading. Grit The Power of Passion and Perseverance *Simon and Schuster* In this instant New York Times bestseller, Angela Duckworth shows anyone striving to succeed that the secret to outstanding achievement is not talent, but a special blend of passion and persistence she calls "grit." "Inspiration for non-genius everywhere" (People). The daughter of a scientist who frequently noted her lack of "genius," Angela Duckworth is now a celebrated researcher and professor. It was her early eye-opening stints in teaching, business consulting, and neuroscience that led to her hypothesis about what really drives success: not genius, but a unique combination of passion and long-term perseverance. In Grit, she takes us into the field to visit cadets struggling through their first days at West Point, teachers working in some of the toughest schools, and young finalists in the National Spelling Bee. She also mines fascinating insights from history and shows what can be gleaned from modern experiments in peak performance. Finally, she shares what she's learned from interviewing dozens of high achievers—from JP Morgan CEO Jamie Dimon to New Yorker cartoon editor Bob Mankoff to Seattle Seahawks Coach Pete Carroll. "Duckworth's ideas about the cultivation of tenacity have clearly changed some lives for the better" (The New York Times Book Review). Among Grit's most valuable insights: any effort you make ultimately counts twice toward your goal; grit can be learned, regardless of IQ or circumstances; when it comes to child-rearing, neither a warm embrace nor high standards will work by themselves; how to trigger lifelong interest; the magic of the Hard Thing Rule; and so much more. Wittingly personal, insightful, and even life-changing, Grit is a book about what goes through your head when you fall down, and how that—not talent or luck—makes all the difference. This is "a fascinating tour of the psychological research on success" (The Wall Street Journal).
