But there's a catch. She must assume command of a "squadron" of jury-rigged armed merchantmen with crew drawn from the dregs of her service and somehow stop the pirates who have taken advantage of the Havenite War to plunder the Star Kingdom's commerce. That would be hard enough, but some of the "pirates" aren't exactly what they seem . . . and neither are some of her "friends," For Honor has been carefully chosen for her mission¾by two implacable and powerful enemies. The way they see it, either she stops the raiders or the raiders kill her . . . and either way, they win. **At the publisher's request, this title is sold without DRM (Digital Rights Management). The Star Kingdom of Manticore is once again at war with the Republic of Haven after a stunning sneak attack. The graduating class from Saganami Island, the Royal Manticoran Navy's academy, are going straight from the classroom to the blazing reality of all-out war. Except for the midshipmen assigned to the heavy cruiser HMS Hexapuma, that is. They're being assigned to the Talbott Cluster, an out of the way backwater, far from the battle front. The most they can look forward to is the capture of the occasional pirate cruiser and the boring duty of supporting the Cluster's peaceful integration with the Star Kingdom at the freely expressed will of eighty percent of the Cluster's citizens. With a captain who may have seen too much of war and a station commander who isn't precisely noted for his brilliant and insightful command style, it isn't exactly what the students of Honor Harrington, the "Salamander," expected. But things aren't as simple $\frac{3}{4}$ or tranquil $\frac{3}{4}$ as they appear. The "pirates" they encounter aren't what they seem, and the "peaceful integration" they expected turns into something very different. A powerful alliance of corrupt Solarian League bureaucrats and ruthless interstellar corporations is determined to prevent the Cluster's annexation by the Star Kingdom . . . by any means necessary. Pirates, terrorists, genetic slavers, smuggled weapons, long-standing personal hatreds, and a vicious alliance of corporate greed, bureaucratic arrogance, and a corrupt local star nation with a powerful fleet, are all coming together, and only Hexapuma, her war-weary captain, and Honor Harrington's students stand in the path. They have only one thing to support and guide them: the tradition of Saganami. The tradition that sometimes a Queen's officer's duty is to face impossible odds . . . and die fighting. With the Earth in the path of the rapacious Posleen, the peaceful and friendly races of the Galactic Federation offer their resources to help the backward Terrans $\frac{3}{4}$ for a price. Humanity now has three worlds to defend. As Earth's armies rush into battle and special operations units scout alien worlds, the humans begin to learn a valuable lesson: You can protect yourself from your enemies, but may the Lord save you from your allies. At the publisher's request, this title is sold without DRM (Digital Rights Management). *The Shiva Option* *Baen Publishing Enterprises* **DEFEAT WAS NOT AN OPTION** The war wasn't going well. The mind-numbingly alien Arachnids were an enemy whose like no civilized race had ever confronted. Like some carnivorous cancer, the "Bugs" had overrun planet after planet . . . and they regarded any competing sentient species as only one more protein source. They couldn't be reasoned with, or even talked to, because no one had the least idea of how to communicate with a telepathic species with no recognizable language . . . and whose response to any communication attempt was a missile salvo. No one knew how large their civilization $\frac{3}{4}$ if it could be called a "civilization" $\frac{3}{4}$ actually was, or how it was organized, but the huge fleets they threw against their opponents suggested that it was enormous. The Grand Alliance of Humans, Orions, Ophiuchi, and Gorm, united in desperate self-defense, have been driven to the wall. Billions of their civilians have been slaughtered. Their most powerful offensive operation has ended in shattering defeat and the deaths of their most experienced and revered military commanders. The edge in technology with which they began the war is eroding out from under them and whatever they do, the Bugs just keep coming. But the warriors of the Grand Alliance know what stands behind them and they will surrender no more civilians to the oncoming juggernaut. They will die first . . . and they will also reactivate General Directive 18, however horrible it may be. Because when the only possible outcomes are victory or racial extermination, only one option is acceptable. *The Shiva Option* At the publisher's request, this title is sold without DRM (Digital Rights Management). *Jayne's Intelligence Review #1: The Royal Manticoran Navy* *Jayne's Intelligence Reviews* With material written by David Weber himself, this book is an official concordance of data on the Manticoran Navy. The pages cover topics ranging from the founding of Manticore to battle histories, from detailed class histories to size comparison charts of the ships, and from layouts of the pinnaces to rank insignia. *Uncompromising Honor* *Baen* **TOP TEN NEW YORK TIMES BESTSELLER!** Book #19 in the best-selling Honor Harrington series from New York Times, USA Today, Wall Street Journal and international best-selling phenomenon David Weber. **HONOR KEEPS HER PROMISE** The Solarian League—for hundreds of years they have borne the banner of human civilization. But the bureaucratic Mandarins who rule today's League are corrupt and looking for scapegoats. They've decided the upstart Star Kingdom of Manticore must be annihilated. **UNCOMPROMISING COURAGE** Honor Harrington has worn the Star Kingdom's uniform for half a century. Very few know war the way Honor Harrington does. So far, hers has been a voice of caution. But now the Mandarins have committed atrocities such as the galaxy has not known in a thousand years. They have finally killed too many of the people Honor Harrington loves. **UNCOMPROMISING VENGEANCE** Now Honor Harrington is coming for the Solarian League. And Hell is riding in her wake. Now the conspiracy stands exposed by spies Anton Zilwicki and Victor Cachat—one an agent of Honor Harrington’s Star Kingdom of Manticore, the other a Havenite operative. The outing of the Alignment has turned the galaxy’s political framework topsy-turvy. Old coalitions have disintegrated. New alliances have been born. For starters, the long and hard-fought war between the Republic of Haven and the Star Empire of Manticore is not only over, but these bitter enemies have formed a new pact. Their common foe: the Mesan Alignment itself. But more information is needed to bring the Alignment out of the shadows. Now, defying the odds and relying on genetic wizardry themselves for a disguise, Zilwicki and Cachat return to Mesa—only to discover that even they have underestimated the Alignment’s ruthlessness and savagery. Soon they are on the run in Mesa’s underworld, not only hunted by the Alignment but threatened by the exploding conflict on the planet between Mesa’s overlords and the brutalized slaves and descendants of slaves who have suffered under their rule for so long. First Time in Paperback. A New War for Honor Harrington’s Comrades on Manticore. Rear Admiral Michelle Henke was commanding one of the ships in a force led by Honor Harrington in all-out space battle. The odds were against the Star Kingdom forces, and they had to run. But Michelle's ship was crippled, and had to be destroyed to prevent superior Manticoran technology from falling into Havenite hands, and she and her surviving crew were taken prisoner. Much to her surprise, she was repatriated to Manticore, carrying a request for a summit conference between the leaders of the two sides which might end the war. But a condition of her return was that she gave her parole not to fight against the forces of the Republic of Haven until she had been officially exchanged for a Havenite prisoner of war, so she was given a command far away from the war's battle lines. What she didn't realize was that she would find herself on a collision course, not with a hostile government, but with the interstellar syndicate of criminals known as Manpower. And Manpower had its own plans for eliminating Manticore as a possible threat to its lucrative slave trade, deadly plans which remain hidden in the shadows. **Worlds of Honor** *Baen Publishing Enterprises* In just a few short years, David Weber has shot to the forefront of science fiction! More Than Honor *Baen* Combines the efforts of three of the genre's most popular authors in the newest installment in the series taking place in Honor's universe, following the adventures of the finest starship captain in the galaxy. **Original. Off Armageddon Reef A Novel in the Safehold Series (#1)** *Macmillan* Humanity pushed its way to the stars - and encountered the Gbaba, a ruthless alien race that nearly wiped us out. Earth and her colonies are now smoldering ruins, and the few survivors have fled to distant, Earth-like Safehold, to try to rebuild. But the Gbaba can detect the emissions of an industrial civilization, so the human rulers of Safehold have taken extraordinary measures: with mind control and hidden high technology, they've built a religion in which every Safeholdian believes, a religion designed to keep Safehold society medieval forever. 800 years pass. In a hidden chamber on Safehold, an android from the far human past awakens. This "rebirth" was set in motion centuries before, by a faction that opposed shackling humanity with a concocted religion. Via automated recordings, "Nimue" - or, rather, the android with the memories of Lieutenant Commander Nimue Alban - is told her fate: she will emerge into Safeholdian society, suitably disguised, and begin the process of provoking the technological progress which the Church of God Awaiting has worked for centuries to prevent. Nothing about this will be easy. To better deal with a medieval society, "Nimue" takes a new gender and a new name, "Merlin." His formidable powers and access to caches of hidden high technology will need to be carefully concealed. And he'll need to find a base of operations, a Safeholdian country that's just a little more freewheeling, a little less orthodox, a little more open to the new. And thus Merlin comes to Charis, a mid-sized kingdom with a talent for naval warfare. He plans to make the acquaintance of King Haarahld and Crown Prince Cayleb, and maybe, just maybe, kick off a new era of invention. Which is bound to draw the attention of the Church...and, inevitably, lead to war. It's going to be a long, long process. And David Weber's epic *Off Armageddon Reef* is can't-miss sci-fi. **Safehold Series 1. Off Armageddon Reef 2. By Schism Rent Asunder 3. By Heresies Distressed 4. A Mighty Fortress 5. ADVENTURE AND INTRIGUE IN HONOR HARRINGTON'S STAR KINGDOM FROM NEW YORK TIMES BEST-SELLING AUTHORS DAVID WEBER AND ERIC FLINT.** The Solarian League lies in defeat, crushed by the Grand Alliance of Manticore, Haven, and Grayson. Obedient to the Alliance's surrender demands, the League is writing a new Constitution, to prevent the reemergence of out-of-control bureaucrats, like the "Mandarins" who led it to disaster. Frontier Security has been disbanded, the outer worlds have regained control of their own economic destinies, and multiple star systems will soon secede from the League entirely. Yet the League is—and will remain—the largest, most economically powerful human star nation in existence, and despite the overwhelming evidence that their unelected political leaders were the driving force behind the war, many League citizens deeply resent the fashion in which their star nation—the Solarian League—has been humbled. And those who most resent the Grand Alliance continue to blame Manticore for the nuclear bombardment of the planet Mesa after its surrender. They refuse to accept that the League—and the members of the Grand Alliance—could have been manipulated by a deeply hidden interstellar conspiracy called the Mesan Alignment. The Alignment is only an invention of the Grand Alliance, no more than a mask, a cover, for its own horrific Eridani Violations. Those Solarians will never accept the war guilt of the League, because they know the Grand Alliance was just as bad. Because they deeply resent the way in which the Grand Alliance pretends to be the innocent "good guys." And in the fullness of time, those Solarians will seek vengeance upon their enemies. Not all Solarians feel that way, but even some of those who accept that there was an interstellar conspiracy cherish doubts about its origins. But it is still out there, and now defeated Solarians and agents of the victorious Alliance must join forces to find it. Even if they don't believe in it, it believes in them. They must find it and identify it, to prove to revanchist Solarians that there was a conspiracy. And they must find it and destroy it to end its evil once and for all. **The Crown of Slaves Honorverse Series: Crown of Slaves Torch of Freedom Cauldron of Ghosts** At the publisher's request, this title is sold without DRM (Digital Rights Management). **About the Crown of Slaves Saga: "Fans of Weber's Honor Harrington series . . . will be delighted with this offshoot in which he and coauthor Flint develop several situations and characters from other stories. . . . Along the way, she has become the legend known as "the Salamander" from her habit of always being where the fire is hottest . . . and also a national bestseller (*Ashes of Victory*: #7, *The Wall Street Journal*). But it's a big universe, and Honor's actions affect a lot of lives, not all of them human. And their actions affect her^{3/4}a lesson "Ms. Midshipwoman Harrington" learns years before rising to command rank when a desperate battle against "pirates" who aren't quite what they seem begins her brilliant career. Closer to home, in "Changer of Worlds," a secret that the alien treecats have kept from their human friends for hundreds of years is about to come out . . . and completely change the relationship between the two species forever. Meanwhile, Eric Flint weighs in with "From the Highlands." Honor can't be everywhere, so when the People's Republic of Haven tries to stage a political assassination on Earth, Anton Zilwicki^{3/4}husband of one of the Star Kingdom's most revered military martyrs, and father of a young woman who is clearly a chip off the old block^{3/4}steps into the breach . . . and takes the opportunity to settle some old scores along the way. The *Apocalypse Troll* *Baen Publishing Enterprises* There he was in his sailboat in the middle of the Atlantic, all alone and loving it. Well, there was a US Navy carrier group on his southern horizon, but he was a Navy guy himself, so he didn't mind. Then came the UFOs, hurtling in from the Outer Black to overfly the carriers at Mach 17. Their impossible aerobatics were bad enough^{3/4}but then they started shooting at each other. And at the Navy. With nukes. Little ones at first, but winding up with a 500 megatonner at 90 miles that fried every piece of electronics within line-of-sight. Richard Ashton thought he was just a ringside observer to these now over-the-horizon events. Until the crippled alien lifeboat came drifting down and homed in on his sailboat; suddenly he has his hands full of an unconscious, critically wounded and impossibly human alien warrior who also happens to be a gorgeous female. That's when things got interesting. At the publisher's request, this title is sold without DRM (Digital Rights Management). "... a particular delight, offering nonstop action that's both well executed and emotionally satisfying." ^{3/4}Publishers Weekly "It's a rollicking fun tale that's impossible to put down." ^{3/4}Philadelphia Weekly Press "... the best work (Weber] has done ... the rewards are ample ... recommended...." ^{3/4}Starlog *Mutineer's Moon* *Baen Publishing Enterprises* MUTINY For Lt. Commander Colin MacIntyre, it began as a routine training flight over the Moon. For *Dahak*, a self-aware Imperial battleship, it began millennia ago when that powerful artificial intelligence underwent a mutiny in the face of the enemy. The mutiny was never resolved—*Dahak* was forced to maroon not just the mutineers but the entire crew on prehistoric Earth. *Dahak* has been helplessly waiting as the descendants of the loyal crew regressed while the mutineers maintained control of

technology that kept them alive as the millennia passed. But now Dahak's sensors indicate that the enemy that devastated the Imperium so long ago has returned—and Earth is in their path. For the sake of the planet, Dahak must mobilize its defenses. And that it cannot do until the mutineers are put down. So Dahak has picked Colin MacIntyre to be its new captain. Now MacIntyre must mobilize humanity to destroy the mutineers once and for all—or Earth will become a cinder in the path of galactic conquest. At the publisher's request, this title is sold without DRM (Digital Rights Management). Out of the Dark *Macmillan* The launch of a new science fiction adventure series—by the New York Times-best selling author of the Safehold series and the Honor Harrington series The Galactic Hegemony has been around a long time, and it likes stability—the kind of stability that member species like the aggressive, carnivorous Shongairi tend to disturb. So when the Hegemony Survey Force encountered a world whose so-called "sentients"—"humans," they called themselves—were almost as bad as the Shongairi themselves, it seemed reasonable to use the Shongairi to neutralize them before they could become a second threat to galactic peace. And if the Shongairi took a few knocks in the process, all the better. Now, Earth is conquered. The Shongairi have arrived in force, and humanity's cities lie in radioactive ruins. In mere minutes, more than half the human race has died. Master Sergeant Stephen Buchevsky, who thought he was being rotated home from his latest tour in Afghanistan, finds himself instead prowling the back country of the Balkans, dodging alien patrols and trying to organize scattered survivors without getting killed. And in the southeastern US, firearms instructor and former Marine Dave Dvorak finds himself at the center of a growing network of resistance—putting his extended family at lethal risk, but what else can you do? On the face of it, Buchevsky's and Dvorak's chances look bleak, as do prospects for the rest of the surviving human race. But it may well be that Shongairi and the Hegemony alike have underestimated the inhabitants of that strange planet called Earth... in David Weber's Out of the Dark. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied. The Gordian Protocol *Baen Books* NEW STANDALONE NOVEL FROM NEW YORK TIMES BEST-SELLING AUTHOR OF THE HONOR HARRINGTON SERIES, DAVID WEBER A Man of Two Worlds Doctor Benjamin Schröder was far from a man of action. In fact, he was a history teacher—Chairman of the Castle Rock University history department—and if his life wasn't perfect, it was close. Until, that is the discussion of his star student Elzbieta Abramowski's dissertation on Operation Oz, the Pacific Allies' invasion of Vladivostok, staged through occupied Japan to meet their Imperial German allies, was brutally interrupted. The psychotic episode that turned his entire world upside down struck with absolutely no warning, and it was more terrifying than anything he should have been able to imagine, leaving him with a complete, incredibly detailed set of false, nightmare memories. Not just of his own life, but of an entire, ghastly world in which Operation Oz had never happened. In which millions of helpless civilians had been systematically slaughtered in extermination camps that were horrific beyond belief. In which there was still a Soviet Union. In which the Chinese Communists had succeeded, the Korean Peninsula had been permanently divided, thousands of nuclear warheads had spread their deadly threat across the entire Earth, and the Middle East was a festering sore of bloodshed, fanaticism, and terrorism. The knowledge that those false memories had come from somewhere inside his own psyche was terrible, but with the help of Commander Abramowski, a highly decorated Navy fighter pilot who'd been forced to deal with her own PTSD after crippling combat wounds invalidated her out of service, he's put his life back together. With Elzbieta's support, he's learned to deal with the nightmares, to recognize that they are only nightmares that can't—and won't—be permitted to rule his life. Until, that is, a lunatic named Raibert Kaminski knocks on his door one afternoon with an impossible and horrifying story about alternate realities, time travel, temporal knots, and more than a dozen doomed universes which must inevitably die if the temporal storm front rushing towards the distant future isn't stopped. He has to be lying, of course. Or completely insane. But what if he's not a madman after all? What if he's actually telling the truth? That possibility is the most terrifying thing of all. Because if he is, the false memories aren't false after all, and that other world is just as real as the one Schröder has always known. And if that's true, Benjamin Schröder is about to become the greatest mass murderer in human history, because he has to choose. Whether he acts or refuses to act, Benjamin Schröder is the one man who will decide which universe lives and which dies, along with every star system, every galaxy—and every single human being—in it. Including the woman he's discovered he loves more than life itself. At the publisher's request, this title is sold without DRM (Digital Rights Management).
