Timothy

A Little Fish with a Big Purpose!

Vox Dei "Deep in his heart, Timothy believed everything that had just happened was some sort of miracle and that picking up the disk, simply to be obedient to his grandma, was part of a higher purpose. He wasn't sure what that purpose was, but what he did know was that he couldn't wait to tell his mom." Can God use the little things in our lives-our little acts of obedience-to serve a higher purpose? Can He do the same with "little people" who trust Him, too? Author and Pastor Brad Riley believes He can. As he shares with us, "The heritage of responding to the love of God was demonstrated to me by godly grandparents and parents and is an eternal value that all of us can pass to each succeeding generation." ENDORSEMENTS: "Put yourself and your children in the hands of the Master. You, too, may feel like a fish out of water, but the brave choice of obedience always takes you out of your comfort zone. Give this book to the kids in your life. They will be in the right place to change the world." -Dave Paord, Youth and Christian Education Director for Northern Missouri AG District "Timothy is an adorable character with whom children will immediately identify. This story explores a scripture that most children's Bible curricula fail to teach. I highly recommend this book for your Sunday school classroom, homeschool, and children's church." -Kristin Skebo, Director of Faith Academy and National Coordinator of Care Ministries Int'l. "I felt like a child, clapping my hands with delight at the story of a little fish with a very big tale. This is a "Max Lucado" type of story for children that will absolutely delight parent and child alike." -Dr. M. Ray Brewer, Superintendent for Northern Missouri AG District

Feynman Lectures On Computation

CRC Press When, in 1984-86, Richard P. Feynman gave his famous course on computation at the California Institute of Technology, he asked Tony Hey to adapt his lecture notes into a book. Although led by Feynman, the course also featured, as occasional guest speakers, some of the most brilliant men in science at that time, including Marvin Minsky, Charles Bennett, and John Hopfield. Although the lectures are now thirteen years old, most of the material is timeless and presents a Feynmanesque overview of many standard and some not-so-standard topics in computer science such as reversible logic gates and quantum computers.

London's Curse

Murder, Black Magic and Tutankhamun in the 1920s West End

The History Press Throughout the 1920s and 1930s, London was gripped by the supposed curse of Tutankhamun, whose tomb in the Luxor sands was uncovered in February 1923 by the British archaeologist Howard Carter. The site was plundered, and over the next few years more than twenty of those involved in the exhumation or in handling the contents of the tomb perished in strange and often terrifying circumstances, prompting the myth of the 'Curse of Tutankhamun'. Nowhere - particularly London's West End - appeared to be safe for those who had provoked the ire of the Egyptian death gods. A blend of meticulous research and educated conjecture, historian and screenwriter Mark Beynon turns armchair detective as he uncovers a wealth of hitherto unpublished material that lays bare the truth behind these fatalities. Could 'London's Curse' be attributed to the work of a macabre mastermind? It soon becomes apparent that these deaths were not only linked by the ominous presence of Tutankhamun himself, but also by a murderer hell-bent on retribution and dubbed by the press as 'The Wickedest Man in the World'.

Confronted by Shades, Samantha joins a secret underworld known only as the Elite, where a web of power and control is woven deep within governments worldwide. Their sights are set on the seat of domination behind the Resolute desk that is the powerhouse of nations - the presidency of the United States of America. Samantha becomes the Elite's unlikely key to infiltrating the White House at its most intimate levels. The Hippocratic Oath. All doctors swear by it. But the most despicable deeds must be avenged.
