Understanding Multimodal Discourses in English Language Teaching Textbooks

Implications for Students and Practitioners

Bloomsbury Publishing Textbooks are indispensable components and in some case the cornerstones of the mission of English Language Teaching (ELT). However, they are artefacts of a pedagogical culture that rarely echo the concerns of their most prolific consumers: teachers and students. This book offers a useful framework for evaluating ELT textbooks from a critical discourse perspective; one that is based on sound current research but also offers practical guidance to teachers. Building from a foundational understanding of ELT textbooks, the author presents a systematic procedure to critically analyze their multimodal discourse, examine how those discourses are negotiated between teachers and students in class, and measure how those consumers privately value the lessons. The book provides teachers with the tools they need to select and adapt materials based on critical multimodal discourse analysis, where not only the text but the pictures, websites, audio, visual elements too are subjected to a process which can reveal underlying ideologies, assumptions, omissions and reifications. The triangulated approach, demonstrated in a series of vignettes featuring Korean university students and native-English-speaking instructors, can inform textbook choice, instigate change, and inspire lesson re-contextualization to best suit the needs of its primary consumers.

The Alienist (TNT Tie-in Edition)

A Novel

Random House Trade Paperbacks NEW YORK TIMES BESTSELLER • NOW A TNT ORIGINAL SERIES • "A first-rate tale of crime and punishment that will keep readers guessing until the final pages."—*Entertainment Weekly* "Caleb Carr's rich period thriller takes us back to the moment in history when the modern idea of the serial killer became available to us."—*The Detroit News* When *The Alienist* was first published in 1994, it was a major phenomenon, spending six months on the *New York Times* bestseller list, receiving critical acclaim, and selling millions of copies. This modern classic continues to be a touchstone of historical suspense fiction for readers everywhere. The year is 1896. The city is New York. Newspaper reporter John Schuyler Moore is summoned by his friend Dr. Laszlo Kreizler—a psychologist, or "alienist"—to view the horribly mutilated body of an adolescent boy abandoned on the unfinished Williamsburg Bridge. From there the two embark on a revolutionary effort in criminology: creating a psychological profile of the perpetrator based on the details of his crimes. Their dangerous quest takes them into the tortured past and twisted mind of a murderer who will kill again before their hunt is over. Fast-paced and riveting, infused with historical detail, *The Alienist* conjures up Gilded Age New York, with its tenements and mansions, corrupt cops and flamboyant gangsters, shining opera houses and seamy gin mills. It is an age in which questioning society's belief that all killers are born, not made, could have unexpected and fatal consequences. Praise for *The Alienist* "[A] delicious premise . . . Its settings and characterizations are much more sophisticated than the run-of-the-mill thrillers that line the shelves in bookstores."—*The Washington Post Book World* "Mesmerizing."—*Detroit Free Press* "The method of the hunt and the disparate team of hunters lift the tale beyond the level of a good thriller—way beyond. . . . A remarkable combination of historical novel and psychological thriller."—*The Buffalo News* "Engrossing."—*Newsweek* "Gripping, atmospheric . . . intelligent and entertaining."—*USA Today* "A high-spirited, charged-up and unflinchingly smart thriller."—*Los Angeles Times* "Keeps readers turning pages well past their bedtime."—*San Francisco Chronicle*

Issues in Materials Development

Springer *Issues in Materials Development* provides readers with theoretical foundations and practical aspects of designing materials for EFL/ESL contexts. It starts with discussing some basic and preliminary principles of materials design followed by scrutinizing critical issues in materials development in an objective and systematic way. This ranges from considering learners’ needs, adopting, adapting, selection, and gradation of materials to the specific focus of the book on developing various types of materials for the four language skills, pronunciation, ESP vocabulary, and computer assisted language learning materials. Authenticity of materials to be designed and the inclusion of affective factors to develop motivating materials to engage language learners, in addition to features of materials design at a universal level are other areas to read about. This book finally tries to open new horizons and possible futuristic approaches to improve today’s ELT materials.
