"THE PLACE IS TOO SMALL FOR US"

THE ISRAELITE PROPHETS IN RECENT SCHOLARSHIP

Eisenbrauns "The title of this volume is, of course, taken from 2 Kgs 6:1, where the prophetic group about Elisha point out that their accommodation is too cramped. It seemed an apt comment on the capacity of any proposed volume to house and adequate representation of the work that has recently been done on Israelite prophecy. To this I now have to add the all-too-ironic confession that the so-called pre-classical prophets (including Elisha and his colleagues) could not be accommodated in the present volume. Let no one complain about being misled by the subtitle when the title is so honest ... there are thirty-six items of varying length, and they divide almost equally between journal articles and excerpts from volumes (some of these of composite authorship). Naturally, they represent one individual's selection from within his personal reading, and this itself accounts for only a fraction of the vast scholarly output on the prophets, whether since 1875 or since 1975 ... It will be apparent at several places in the volume that I take with great seriousness the study of Near Eastern (non-Israelite) prophecy as background to the Israelite phenomenon, so that the first short section (The Near Eastern Background") was unavoidable."--Editor's preface.

MAINTENANCE AND DESIGN MANUAL

The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little

technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.
