TRADOC PAMPHLET TP 600-4 THE SOLDIER'S BLUE BOOK

THE GUIDE FOR INITIAL ENTRY SOLDIERS AUGUST 2019

This manual, TRADOC Pamphlet TP 600-4 The Soldier's Blue Book: The Guide for Initial Entry Soldiers August 2019, is the guide for all Initial Entry Training (IET) Soldiers who join our Army Profession. It provides an introduction to being a Soldier and Trusted Army Professional, certified in character, competence, and commitment to the Army. The pamphlet introduces Solders to the Army Ethic, Values, Culture of Trust, History, Organizations, and Training. It provides information on pay, leave, Thrift Saving Plans (TSPs), and organizations that will be available to assist you and your Families. The Soldier's Blue Book is mandated reading and will be maintained and available during BCT/OSUT and AIT. This pamphlet applies to all active Army, U.S. Army Reserve, and the Army National Guard enlisted IET conducted at service schools, Army Training Centers, and other training activities under the control of Headquarters, TRADOC.

ARMY LEADERSHIP AND THE PROFESSION (ADP 6-22)

[Lulu.com](#) **ADP 6-22 describes enduring concepts of leadership through the core competencies and attributes required of**

leaders of all cohorts and all organizations, regardless of mission or setting. These principles reflect decades of experience and validated scientific knowledge. An ideal Army leader serves as a role model through strong intellect, physical presence, professional competence, and moral character. An Army leader is able and willing to act decisively, within superior leaders' intent and purpose, and in the organization's best interests. Army leaders recognize that organizations, built on mutual trust and confidence, accomplish missions. Every member of the Army, military or civilian, is part of a team and functions in the role of leader and subordinate. Being a good subordinate is part of being an effective leader. Leaders do not just lead subordinates—they also lead other leaders. Leaders are not limited to just those designated by position, rank, or authority.

CYBERSPACE AND ELECTRONIC WARFARE OPERATIONS (FM 3-12)

Field Manual FM 3-12 (FM 3-38) Cyberspace and Electronic Warfare Operations April 2017 Over the past decade of conflict, the U.S. Army has deployed the most capable communications systems in its history. U.S. forces dominated cyberspace and the electromagnetic spectrum (EMS) in Afghanistan and Iraq against enemies and adversaries lacking the technical capabilities to challenge our superiority in cyberspace. However, regional peers have since demonstrated impressive capabilities in a hybrid operational environment that threaten the Army's dominance in cyberspace and the EMS. The Department of Defense information network-Army (DODIN-A) is an essential warfighting platform foundational to the success of all unified land operations. Effectively operating, securing, and defending this network and associated data is essential to the success of commanders at all echelons. We must anticipate that future enemies and adversaries will persistently attempt to infiltrate, exploit, and degrade access to our networks...

COMBAT SERVICE SUPPORT: U.S. ARMY BATTLE DYNAMIC CONCEPT

This concept serves as the basis for developing doctrine, leader development, organizations, and materiel changes focused on soldiers (DTLOMS) requirements and solutions for logistical operations in Support of a power projection

Army. Under this concept, logistics capabilities are projected to meet mission requirements over the full range of the operational continuum. This concept links the strategic to the operational level of logistics, which provides logistical power at the tactical level in the form of arming, fueling, fixing, moving, and sustaining the soldier. This concept applies to all TRADOC activities which develop DTLOMS requirements and products. The proponent of this pamphlet is the Deputy Chief of Staff for Combat Developments. Send comments and suggested improvements on DA Form 2028 (Recommended Changes to Publications and Blank Forms) through channels to Commander, TRADOC, ATTN.

ARMY FOOD PROGRAM

Createspace Independent Publishing Platform **This regulation encompasses garrison, field, and subsistence supply operations. Specifically, this regulation comprises Army Staff and major Army command responsibilities and includes responsibilities for the Installation Management Command and subordinate regions. It also establishes policy for the adoption of an à la carte dining facility and for watercraft to provide subsistence when underway or in dock. Additionally, the regulation identifies DOD 7000.14-R as the source of meal rates for reimbursement purposes; delegates the approval authority for catered meals and host nation meals from Headquarters, Department of the Army to the Army commands; and authorizes the use of the Government purchase card for subsistence purchases when in the best interest of the Government. This regulation allows prime vendors as the source of garrison supply and pricing and provides garrison menu standards in accordance with The Surgeon General's nutrition standards for feeding military personnel. Also, included is guidance for the implementation of the U.S. Department of Agriculture Food Recovery Program.**

UNITED STATES CODE

TRADOC REGULATION 25-31, ARMYWIDE DOCTRINAL AND TRAINING LITERATURE PROGRAM DEPARTMENT OF THE ARMY, 30 MARCH 1990

This regulation prescribes policies, procedures, and responsibilities for the TRADOC Armywide Doctrinal and Training Literature Program (ADTLP). The goal of the ADTLP is to produce warfighting doctrinal and training literature, together with the necessary Department of Army (DA) and Department of Defense (DD) forms and selected DA pamphlets and posters, to enhance the Army ability to fight across the full spectrum of conflict.

KREMLIN KONTROL

RUSSIA'S POLITICAL MILITARY REALITY

Kremlin Kontrol by Timothy L. Thomas The Asymmetric Warfare Group (AWG) serves as the United States Army's global scouts. We leverage direct observations of the operational environment, emerging threat capabilities, and friendly gaps to advise the operational force. Our observations inform doctrine, organization, training, materiel, leader development, personnel, facilities, and policy solutions. Since our establishment in 2006, part of our mission has been anticipating asymmetric threats and "seeing over the next hilltop." One of the threats we see on the horizon is that posed by Private Military Companies (PMCs). PMCs are proliferating worldwide and play an increasingly important role in competition and conflict. Specifically, PMCs based in the Russian Federation have been active in Europe, the Middle East, and Africa. They are of increasing concern to commanders worldwide, from the tactical to the strategic level. Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com We include a Table of Contents on the back cover for quick reference. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB. <https://usgovpub.com>

MUSCULOSKELETAL INJURIES IN MILITARY WOMEN

Government Printing Office Print Product Only NOTE: NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT -- OVERSTOCK SALE -- Significantly reduced list price This monograph discusses the most common musculoskeletal injuries in military women. Prevention and management of these injuries are very important to sustain the fighting force and maintain military readiness. Information about the incidence, risk factors, prevention, diagnosis, evaluation, treatment, and rehabilitation of common musculoskeletal overuse and traumatic injuries sustained by women in the military is included. Sections topics cover an overview of musculoskeletal injuries in military women; common lower extremity

overuse injuries; common traumatic injuries; an overview of general injury prevention, treatment, and rehabilitation techniques; and specific injury prevention, treatment, and rehabilitation techniques in the military.

TRAINING CIRCULAR TC 7-100. 2 OPPOSING FORCE TACTICS

Training Circular TC 7-100.2 Opposing Force Tactics December 2011. This training circular (TC) is one of a series that describes an opposing force (OPFOR) for training U.S. Army commanders, staffs, and units. See the References section for a list of other TCs in this series. (Other publications in the former Field Manual [FM] 7-100 series will be converted to TCs as well.) Together, these TCs outline an OPFOR that can cover the entire spectrum of military and paramilitary capabilities against which the Army must train to ensure success in any future conflict. Applications for this series of TCs include field training, training simulations, and classroom instruction throughout the Army. All Army training venues should use an OPFOR based on these TCs, except when mission rehearsal or contingency training requires maximum fidelity to a specific country-based threat or enemy. Even in the latter case, trainers should use appropriate parts of the OPFOR TCs to fill information gaps in a manner consistent with what they do know about a specific threat or enemy. This publication applies to the Active Army, the Army National Guard (ARNG) /Army National Guard of the United States (ARNGUS), and the United States Army Reserve (USAR) unless otherwise stated. Headquarters, U.S. Army Training and Doctrine Command (TRADOC) is the proponent for this publication. The preparing agency is the Contemporary Operational Environment and Threat Integration Directorate (CTID), TRADOC G-2 Intelligence Support Activity (TRISA)-Threats. Send comments and suggested improvements on DA Form 2028 (Recommended Changes to Publications and Blank Forms) directly to CTID at the following address: Director, CTID, TRISA-Threats, ATTN: ATIN-T (Bldg 53), 700 Scott Avenue, Fort Leavenworth, KS 66027-1323. This publication is available at Army Knowledge Online (AKO) at <http://www.us.army.mil> and on the General Dennis J. Reimer Training and Doctrine Digital Library (RDL) at <http://www.adtdl.army.mil>. Readers should monitor those sites and also the TRADOC G2-TRISA Web sites listed below for the status of this TC and information regarding updates. The TC is also available (after AKO login) in AKO files under Organizations/DoD Organizations/Army/Army Command/TRADOC/HQ Staff/DCS, G-2 (Intelligence)/TRISA/TRISA-CTID/Hybrid Threat Doctrine at <https://www.us.army.mil/suite/files/11318389> (for TRISA-CTID folder) or <https://www.us.army.mil/suite/files/30837459> (for Hybrid Threat Doctrine folder). Periodic updates, subject to the normal approval process, will occur as a result of the normal production cycle. The date on the cover and title page of the electronic version will reflect the latest update. Unless this publication states otherwise, masculine nouns or pronouns do not refer exclusively to men. Notice: Full version, All Chapters included. This publication (current update)

is available (Electronic version) in the official website of the United States HEADQUARTERS, DEPARTMENT OF THE ARMY. This document is properly formatted and printed as a perfect sized copy 8.5x11". * The version of this publication is as described above (this article is updated after each new edition). Disclaimer: "The use or appearance of United States Department of Army publications on a non-Federal Government website does not imply or constitute Department of Army endorsement of the distribution service."

MILITARY POLICE SOLDIER'S MANUAL, SKILL LEVEL 3

HUMAN PERFORMANCE OPTIMIZATION

THE SCIENCE AND ETHICS OF ENHANCING HUMAN CAPABILITIES

Oxford University Press, USA The content of Human Performance Optimization is unique in terms of the focus, breadth, and scope of the individual chapter contributions. Moreover, this book was developed in response to a pressing need, first directed by the Chief of Staff of the Army, to examine current and future developments in behavioral, cognitive,

and social neuroscience that may allow organizations to enhance individual worker and team performance. This volume captures a wide range of approaches, both with an eye to describing state of the art knowledge, and projecting what may become applicable in the near future. The variety of social, technological, and scientific issues make this book indispensable in our time. Organizations of all sorts, but especially those who operate in "in extremis" or high-stakes settings, are seeking to improve the performance of their workers. The chapters' breadth and accessibility will allow strategic leaders of organizations to evaluate breaking news in HPO, and will also serve as an up-to-date review of the field for scientists involved in human performance research.

INFANTRY

UNRESTRICTED WARFARE

CHINA'S MASTER PLAN TO DESTROY AMERICA

NewsMax Media, Inc. **Three years before the September 11 bombing of the World Trade Center-a Chinese military manual called Unrestricted Warfare touted such an attack-suggesting it would be difficult for the U.S. military to cope with. The events of September 11 were not a random act perpetrated by independent agents. The doctrine of total war outlined in Unrestricted Warfare clearly demonstrates that the People's Republic of China is preparing to confront the United States and our allies by conducting "asymmetrical" or multidimensional attack on almost every aspect of our social, economic and political life.**

INSTRUCTOR COMPETENCIES

STANDARDS FOR FACE-TO-FACE, ONLINE, AND BLENDED SETTINGS

IAP **This edition is not just a rehash of old, albeit classic and still important, stuff. Instead, it provides a fresh perspective on a topic of perennial interest for those working in the field that has been variously called training and development, human resource development, performance technology, and workplace learning and performance. The fresh perspective takes into consideration two additional instructor settings to the traditional face-to-face environments that most instructors and trainers know -- that is, online and blended settings. These settings are, of course, becoming more critical as instruction moves beyond classroom settings to include virtual and combinations of**

classroom and other media delivery methods. The ibstpi instructor competencies match up well to Mapping the Future (Bernthal, Colteryahn, Davis, Naughton, Rothwell, & Wellins 2004), the current ASTD competency study of the field now known as Workplace Learning and Performance (WLP) and previously known as Training and Development (T&D). WLP is more than a new name for an old subject and represents a fundamental paradigm shift in what it means to be a professional in the field formerly known as training. WLP is all about getting improved performance -- and therefore improved results -- in organizational settings through planned and unplanned learning interventions. Instruction is thus a means to an end and not an end in itself. The ibstpi instructor competencies dovetail well with that philosophy.

U.S. ARMY FORMAL SCHOOLS CATALOG

TRAIN TO WIN IN A COMPLEX WORLD (FM 7-0)

[Lulu.com](https://www.lulu.com/en-us/product/field-manual-fm-7-0-train-to-win-in-a-complex-world-october-2016-fm-7-0-train-to-win-in-a-complex-world) Field Manual FM 7-0 Train to Win in a Complex World October 2016 FM 7-0, Train to Win in a Complex World, expands on the fundamental concepts of the Army's training doctrine introduced in ADRP 7-0. The Army's operations process is the foundation for how leaders conduct unit training. It also places the commander firmly at the center of the process and as the lead of every facet of unit training. FM 7-0 supports the idea that training a unit does not fundamentally differ from preparing a unit for an operation. Reinforcing the concepts, ideas, and terminology of the operations process while training as a unit makes a more seamless transition from training to operations. This publication focuses on training leaders, Soldiers, and Army Civilians as effectively and efficiently as possible given limitations in time and resources.

MAP READING AND LAND NAVIGATION

FM 3-25. 26

The field manual provides a standardized source document for Army-wide reference on map reading and land navigation. It applies to every soldier in the army regardless of service branch, MOS, or rank. This manual also contains both doctrine and training guidance on map reading and land navigation. Part One addresses map reading and Part Two, land navigation. The appendices include an introduction to orienteering and a discussion of several devices that can assist the soldier in land navigation. For soldiers, hunters, climbers, and hikers alike, this is the definitive guide to map reading and navigation.

THE U.S. ARMY OPERATING CONCEPT

WIN IN A COMPLEX WORLD

[CreateSpace](#) This book describes how future Army forces, as part of joint, interorganizational, and multinational efforts, operate to accomplish campaign objectives and protect U.S. national interests. It describes the Army's contribution to globally integrated operations, and addresses the need for Army forces to provide foundational capabilities for the Joint Force and to project power onto land and from land across the air, maritime, space, and cyberspace domains. The Army Operating Concept guides future force development through the identification of first order capabilities that the Army must possess to accomplish missions in support of policy goals and objectives.

DEEP MANEUVER

HISTORICAL CASE STUDIES OF MANEUVER IN LARGE-SCALE COMBAT OPERATIONS

Deep Maneuver: Historical Case Studies of Maneuver in Large-Scale Combat Operations, presents eleven case studies from World War II through Operation Iraqi Freedom focusing on deep maneuver in terms of time, space and purpose. Deep operations require boldness and audacity, and yet carry an element of risk of overextension - especially in light of the independent factors of geography and weather that are ever-present. As a result, the case studies address not only successes, but also failure and shortfalls that result when conducting deep operations. The final two chapters address these considerations for future Deep Maneuver.

COMBATING TOBACCO USE IN MILITARY AND VETERAN POPULATIONS

[National Academies Press](#) The health and economic costs of tobacco use in military and veteran populations are high. In 2007, the Department of Veterans Affairs (VA) and the Department of Defense (DoD) requested that the Institute of Medicine (IOM) make recommendations on how to reduce tobacco initiation and encourage cessation in both military and veteran populations. In its 2009 report, Combating Tobacco in Military and Veteran Populations, the authoring committee concludes that to prevent tobacco initiation and encourage cessation, both DoD and VA should implement comprehensive tobacco-control programs.

FIELD ARTILLERY MANUAL CANNON GUNNERY

Training Circular (TC) 3-09.81, "Field Artillery Manual Cannon Gunnery," sets forth the doctrine pertaining to the employment of artillery fires. It explains all aspects of the manual cannon gunnery problem and presents a practical application of the science of ballistics. It includes step-by-step instructions for manually solving the gunnery problem which can be applied within the framework of decisive action or unified land operations. It is applicable to any Army personnel at the battalion or battery responsible to delivered field artillery fires. The principal audience for ATP 3-09.42 is all members of the Profession of Arms. This includes field artillery Soldiers and combined arms chain of command field and company grade officers, middle-grade and senior noncommissioned officers (NCO), and battalion and squadron command groups and staffs. This manual also provides guidance for division and corps leaders and staffs in training for and employment of the BCT in decisive action. This publication may also be used by other Army organizations to assist in their planning for support of battalions. This manual builds on the collective knowledge and experience gained through recent operations, numerous exercises, and the deliberate process of informed reasoning. It is rooted in time-tested principles and fundamentals, while accommodating new technologies and diverse threats to national security.
