## FAIRIES AFIELD

Book Excerpt: ... But she said nothing of the sort of mystery connected with the powder; some instinct prevented her doing so. Nor did she tell that but a little of it remained, or that their stock of rose-leaves would soon be exhausted."Who knows what may happen before that?" she reflected, and the words of Linde's dream-visitor recurred to her, "Three times, and then ask the robin." Dame Barbara was quite satisfied and greatly delighted."Here," she said, fumbling for her substantial purse, "a groat for two ounces of it, did you say? No, a half-groat only? My dear, you'll have to raise your prices if the perfume is so excellent! Well to begin with, give me the four ounces straight away, and here's a half-groat over and above what it all comes to--dried leaves and fresh ones and flowers, all together--just the tiny silver piece for luck, you know."...

## **TEN DRUGS**

---

### **HOW PLANTS, POWDERS, AND PILLS HAVE SHAPED THE HISTORY OF**

---

## MEDICINE

---

**Abrams** “The stories are skillfully told and entirely entertaining . . . An expert, mostly feel-good book about modern medicine” from the award-winning author (Kirkus Reviews, starred review). Behind every landmark drug is a story. It could be an oddball researcher’s genius insight, a catalyzing moment in geopolitical history, a new breakthrough technology, or an unexpected but welcome side effect discovered during clinical trials. Piece together these stories, as Thomas Hager does in this remarkable, century-spanning history, and you can trace the evolution of our culture and the practice of medicine. Beginning with opium, the “joy plant,” which has been used for 10,000 years, Hager tells a captivating story of medicine. His subjects include the largely forgotten female pioneer who introduced smallpox inoculation to Britain, the infamous knockout drops, the first antibiotic, which saved countless lives, the first antipsychotic, which helped empty public mental hospitals, Viagra, statins, and the new frontier of monoclonal antibodies. This is a deep, wide-ranging, and wildly entertaining book. “[An] absorbing new book.” —The New York Times Book Review “[A] well-written and engaging chronicle.” —The Wall Street Journal “Lucidly informative and compulsively readable.” —Publishers Weekly “Entertaining [and] insightful.” —Booklist “Well-written, well-researched and fascinating to read *Ten Drugs* provides an insightful look at how drugs have shaped modern medical practices. Towards the end of the book Hager writes that he ‘came away surprised by some of the things he had learned.’ I had the very same reaction.” —Penny Le Couteur, coauthor of *Napoleon’s Buttons: How 17 Molecules Changed History*

## JAMES BALDWIN NOW

---

**NYU Press** Since 1989, there have been over 200 post-conviction DNA exonerations in the United States. On the surface, the release of innocent people from prison could be seen as a victory for the criminal justice system: the wrong person went to jail, but the mistake was fixed and the accused set free. A closer look at miscarriages of justice, however, reveals that such errors are not aberrations but deeply revealing, common features of our legal system. The ten original essays in *When Law Fails* view wrongful convictions not as random mistakes but as organic outcomes of a misshaped larger system that is rife with faulty eyewitness identifications, false confessions, biased juries, and racial discrimination. Distinguished legal thinkers Charles J. Ogletree, Jr., and Austin Sarat have assembled a stellar group of contributors who try to make sense of justice gone wrong and to answer urgent questions. Are miscarriages of justice systemic or symptomatic, or are they mostly idiosyncratic? What are the broader implications of justice gone awry for the ways we think about law? Are there ways of reconceptualizing legal missteps that are particularly useful or illuminating? These instructive essays both address the questions and point the way toward further discussion. *When Law Fails* reveals the dramatic consequences as well as the daily realities of breakdowns in the law’s ability to deliver justice swiftly and fairly, and calls on us to look beyond headline-grabbing exonerations to see how failure is embedded in the legal system itself. Once we are able to recognize miscarriages of justice we will be able to begin to fix our broken legal system. Contributors: Douglas A. Berman, Markus D. Dubber, Mary

L. Dudziak, Patricia Ewick, Daniel Givelber, Linda Ross Meyer, Charles J. Ogletree, Jr., Austin Sarat, Jonathan Simon, and Robert Weisberg.

## VIOLENCE AND MENTAL HEALTH

---

### ITS MANIFOLD FACES

---

**Springer** Violence is one of the most important challenges, not only for public health systems, but also for public mental health. Violence can have immediate as well as long-term and even transgenerational effects on the mental health of its victims. This book provides a comprehensive and wide-ranging assessment of the mental health legacy left by violence. It addresses the issues as they affect states, communities and families, in other words at macro-, meso- and microlevels, beginning by describing the impact of violence on neurobiology and mental health, as well as the spectrum of syndromes and disorders associated with different forms of violence. The work moves on to tackle violence at the international—and intranational—level before zeroing in on the nature of violence in communities such as villages or city districts. It also examines the results of violence in the family. Each type of violence has distinct effects on mental health and in each chapter specific groups are explored in depth to demonstrate the heterogeneity of violence as well as the diversity of its outcomes in the realm of public mental health. Finally, the book addresses the notion of ‘undoing violence’ by detailing case studies of effective interventions and prevention occurring in countries, communities and families. These cases give us pause to reflect on the nature of resilience and dignity in the context of violence and mental health. All the chapters have been written by leading authors in the field and provide a state-of-the-art perspective. The authors, from different fields of expertise, facilitate interdisciplinary and international insights into the impact of violence on mental health.

## **A VELVET ANTHOLOGY**

---

From the heart of The Velvet a writing community built around the fervent love of neo-noir fiction comes an original anthology. Stacked with brilliant emerging writers alongside some of the strongest established voices in contemporary literature, **WARMED AND BOUND** crosses literary boundaries on all sides, to deliver an altogether unique reading experience. Through seemingly opposed conventions, beautiful prose makes a hard impression on the short story form. From a scary love story to a nostalgic thriller, a hardboiled pursuit of salvation to the black humor that is existentialism, **WARMED AND BOUND** is rogue humility and lovesick noir, where humanity is a dirty puzzle. It 's Velvet Noir. Welcome. Matt Bell Tim Beverstock Blake Butler Vincent Louis Carrella Craig Clevenger Craig Davidson Chris Deal DeLeon DeMicoli Christopher J Dwyer Brian Evenson Sean P Ferguson Amanda Gowin JR Harlan Gordon Highland Anthony David Jacques Mark Jaskowski Jeremy Robert Johnson Stephen Graham Jones Nik Korpon Gary Paul Libero Kyle Minor Doc O Donnell J David Osborne Rob Parker Bob Pastorella Gavin Pate Cameron Pierce Edward J Rathke Caleb J Ross Bradley Sands Axel Taiari Richard Thomas Brandon Tietz Gayle Towell Paul Tremblay Pela Via Craig Wallwork Nic Young "The writers of the Velvet are contemporary fiction 's most effective and least self-conscious aesthetic guerrillas . . . The result is fiction at once conceived from high artistic intent and executed with depraved populist energy." Steve Erickson author of *Zeroville* and *The Sea Came in at Midnight*
