Textual Interaction

An Introduction to Written Discourse Analysis

Routledge **Textual Interaction provides a clear and cogent account of written discourse analysis. Each chapter introduces key concepts and analytical techniques, describes important parallel work and major issues, and suggests how to apply the ideas to the teaching and learning of reading and writing. In this activity-based book, Hoey analyzes a wide variety of narrative texts and argues that, in the interaction between writer and reader, the reader has as much power as the writer.**

Aviation Investment

Economic Appraisal for Airports, Air Traffic Management,

Airlines and Aeronautics

Routledge Aviation Investment uniquely addresses investment appraisal methods across the key industries that make up the aviation sector, including the airports, air traffic management, airline and aircraft manufacturing - or aeronautic - industries. This practice-oriented book presents methods through realistic case studies. It covers both economic appraisal, or cost-benefit analysis, measuring the value of projects to society, and financial appraisal, valuing projects as cash generators. This substantially expanded second edition covers in greater detail the treatment of environmental emissions, paying particular attention to climate change. It addresses the treatment of Market-Based Mechanisms (MBMs), including cap and trade systems like ETS and offset systems like CORSIA, and compares them to environmental taxes. It also addresses the adjustments needed to measure the foreign exchange generating value of projects, relevant in the presence of trade barriers. The new edition includes two new project types. One is airport relocations, perhaps the most complex type of airport projects, where the economic case is often more nuanced than may be apparent. The second is the re-introduction of supersonic travel. *Aviation Investment* offers all aviation sub-sectors a single-source reference, bringing together the theoretical background of the economic appraisal literature and aviation investment in practice. It is written in a style that is accessible to non-academic professionals, using formulae only where strictly necessary to enable practical applications, and benefits from the substantial practical experience of the author.

Handbook of Discrete and Combinatorial Mathematics

CRC Press Handbook of Discrete and Combinatorial Mathematics provides a comprehensive reference volume for mathematicians, computer scientists, engineers, as well as students and reference librarians. The material is presented so that key information can be located and used quickly and easily. Each chapter includes a glossary. Individual topics are covered in sections and subsections within chapters, each of which is organized into clearly identifiable parts: definitions, facts, and examples. Examples are provided to illustrate some of the key definitions, facts, and algorithms. Some curious and entertaining facts and puzzles are also included. Readers will also find an extensive collection of biographies. This second edition is a major revision. It includes extensive additions and updates. Since the first edition appeared in 1999, many new discoveries have been made and new areas have grown in

importance, which are covered in this edition.

Romanesque Churches of France

A Traveller's Guide

Giles De LA Mare Pub Limited **The Romanesque churches to be found in every corner of France are among the wonders of Europe. Built between 1000 and 1200, their architectural styles vary from region to region, as do their sizes. This period also saw a revival of sculpture, and many of the churches, such as Moissac and Chauvigny, are home to outstanding examples of the art. Romanesque Churches of France, which highlights 100 churches in 10 geographical sections of France—from Normandy and Burgundy in the north to Provence, Roussilon, and Languedoc in the south—will inspire the traveler to explore these beautiful regions as well as those less known, such as Auverne and the Pyrenees. This lavish companion will also be welcomed by anyone with a general interest in the history of France's architecture and sculpture. Peter Strafford, a distinguished journalist, wrote for the Times of London for over three decades.**
