Honest to Greatness How Today's Greatest Leaders Use Brutal Honesty to Achieve Massive Success** [BenBella Books](#) In today's hyper-transparent world, consumers have enormous power to decide which brands are worth their time and money—so how do you make sure they choose yours? Unfortunately, most leaders and organizations are stuck following archaic, detrimental business practices. Meanwhile, savvy consumers and employees across every generation are making their stance perfectly clear: They are not interested in supporting organizations that seem inauthentic, soulless, or untrustworthy. In this environment, only the honest will survive. In **Honest to Greatness**, serial Inc. 5000 entrepreneur Peter Kozodoy shows how today's greatest business leaders use honesty—not as a touchy-feely core value, but as a business strategy that produces game-changing, industry-dominating success. Through case studies and interviews with leaders at Bridgewater Associates, Sprint, Quicken Loans, Domino's, The Ritz-Carlton, and more, Kozodoy presents fresh business concepts that anyone in the workplace can implement in order to: • Reach, engage, and retain your best customers • Attract and inspire the best talent in any industry • Create an unbeatable culture of innovation that dominates your competitors • Earn your team's respect and loyalty • Unlock deep personal fulfillment by setting the "right" goals Filled with powerful lessons for current and future leaders, this timely book demonstrates how to use honesty at both the organizational and individual level to achieve true greatness in business and in life. **Consultants and Consulting Organizations Directory Indexes** are arranged by geographic area, activities, personal name, and consulting firm name. **Regional Accountability** [The Stationery Office](#) This report from the Select Committee on Modernisation of the House of Commons (HCP 282, session 2007-08, ISBN 9780215521675), focuses on regional accountability. The **Governance of Britain Green Paper** (Cm. 7170, ISBN 9780101717021) put forward proposals for improved democratic accountability and scrutiny of the delivery of public services in the English regions. The Committee, in this report, has concluded that there is clear evidence of an accountability gap at regional level. **Regional Development Agencies (RDAs)**, although accountable to ministers, still conduct many activities that are not subject to a regular, robust scrutiny, and the Committee believes more should be done to monitor the delivery of services. With this in mind, the Committee recommends the establishment of a system of regional select committees, with one select committee for each of the administrative regions in England, with the exception of London. Further, the Committee recommends that up to two regional grand committee meeting should take place in each session for each of the 8 regions. To avoid an adverse impact on House Members' other commitments, membership of regional committees should consist of 10 Members in total. This report therefore sets out a desirability of establishing new structures within the House of Commons to improve regional accountability and Parliamentary scrutiny. **Innovation and Entrepreneurship A Competency Framework** [Routledge](#) This book presents a new model, the competency framework, for students, innovators, entrepreneurs, managers, and anyone who wants to better understand the dynamic world of innovation and entrepreneurship. The first real legislation focused on reducing health disparities was signed into law, creating the National Center for Minority Health and Health Disparities within the NIH. In 2001, the IOM released its landmark report, Crossing the Quality Chasm: A New Health System for the 21st Century, highlighting the importance of a focus on health care quality rather than a focus on only access and cost issues. Building upon these reports and events, the IOM held a workshop on April 8, 2010, that discussed progress to address health disparities and focused on the success of various federal initiatives to reduce health disparities. How Far Have We Come in Reducing Health Disparities? summarizes the workshop and explains the progress in the field since 2000.
