The Four

The Hidden DNA of Amazon, Apple, Facebook, and Google

Penguin NEW YORK TIMES BESTSELLER USA TODAY BESTSELLER Amazon, Apple, Facebook, and Google are the four most influential companies on the planet. Just about everyone thinks they know how they got there. Just about everyone is wrong. For all that's been written about the Four over the last two decades, no one has captured their power and staggering success as insightfully as Scott Galloway. Instead of buying the myths these companies broadcast, Galloway asks fundamental questions. How did the Four infiltrate our lives so completely that they're almost impossible to avoid (or boycott)? Why does the stock market forgive them for sins that would destroy other firms? And as they race to become the world's first trillion-dollar company, can anyone challenge them? In the same irreverent style that has made him one of the world's most celebrated business professors, Galloway deconstructs the strategies of the Four that lurk beneath their shiny veneers. He shows how they manipulate the fundamental emotional needs that have driven us since our ancestors lived in caves, at a speed and scope others can't match. And he reveals how you can apply the lessons of their ascent to your own business or career. Whether you want to compete with them, do business with them, or simply live in the world they dominate, you need to understand the Four.

NIPS XI

Lothian Children's Books If white boys can't jump, can Asian kids play cricket? Lan's fed up with being called a nip. He wants to be a true-blue Aussie. What better way than by playing the greatest Anglo game of all? Lan gathers a team together and defiantly gives it a name: NIPS XI. Now all they have to do is get some equipment, find a coach, get themselves a sponsor and learn the rules of the game. Then it's time to challenge the best cricket team in the district. A funny, empowering story of cricket and curry, spinners and leggies, that is about overcoming cultural barriers, in sport and in life. Also by Ruth Starke, NIPS GO NATIONAL is the sequel to the bestselling NIPS XI.

Readings in English history

Basho's Narrow Road

Spring and Autumn Passages

Stone Bridge Press, Inc. Matsuo Basho (1644-94) is considered Japan's greatest haiku poet. *Narrow Road to the Interior (Oku no Hosomichi)* is his masterpiece. Ostensibly a chronological account of the poet's five-month journey in 1689 into the deep country north and west of the old capital, Edo, the work is in fact artful and carefully sculpted, rich in literary and Zen allusion and filled with great insights and vital rhythms. In *Basho's Narrow Road: Spring and Autumn Passages*, poet and translator Hiroaki Sato presents the complete work in English and examines the threads of history, geography, philosophy, and literature that are woven into Basho's exposition. He details in particular the extent to which Basho relied on the community of writers with whom he traveled and joined in linked verse (renga) poetry sessions, an example of which, *A Farewell Gift to Sora*, is included in this volume. In explaining how and why Basho made the literary choices he did, Sato shows how the poet was able to transform his passing observations into words that resonate across time and culture.

NIPS Go National

Lothian Children's Books In this sequel to the bestselling NIPS XI, the cricket team, together with coach Spinner McGinty, are in Melbourne to compete for the Harmony Cup, and Lan has a lot on his mind: a new star batsman with something to hide, a mystery from Spinner's past, conflict with his best mate, Izzy, and his fast bowler laid low just before their biggest match ever. Will Lan resolve his problems? Will the Nips get it together in time? Is the Pop Catholic?

Withering-by-Sea

Simon and Schuster A stalwart orphan sets out on a spine-tingling adventure in this wildly imaginative and darkly funny Victorian middle grade novel. High on a cliff above the gloomy Victorian town of Withering-by-Sea stands the Hotel Majestic. Inside the walls of the damp, dull hotel, eleven-year-old orphan Stella Montgomery leads a miserable life with her three dreadful aunts. Stella dreams of adventuring on the Amazon—or anyplace, really, as long as it isn't this dreary town where nothing ever happens. Then one night Stella sees something she shouldn't have. Soon she finds herself on the run from terrifying Professor Stark and his gang of thugs. But how can one young girl outwit an evil magician, much less rescue his poor, mistreated assistant? With the help of a mysterious maestro, his musical cats, and a lively girl named Gert, Stella Montgomery sets out to do the impossible.

Embedded Programming with Microcontrollers and Python

"O'Reilly Media, Inc." It's an exciting time to get involved with MicroPython, the re-implementation of Python 3 for microcontrollers and embedded systems. This practical guide delivers the knowledge you need to roll up your sleeves and create exceptional embedded projects with this lean and efficient programming language. If you're familiar with Python as a programmer, educator, or maker, you're ready to learn—and have fun along the way. Author Nicholas Tollervey takes you on a journey from first steps to advanced projects. You'll explore the types of devices that run MicroPython, and examine how the language uses and interacts with hardware to process input, connect to the outside world, communicate wirelessly, make sounds and music, and drive robotics projects. Work with MicroPython on four typical devices: PyBoard, the micro:bit, Adafruit's Circuit Playground Express, and ESP8266/ESP32 boards Explore a framework that helps you generate, evaluate, and evolve embedded projects that solve real problems Dive into practical MicroPython examples: visual feedback, input and sensing, GPIO, networking, sound and music, and robotics Learn how idiomatic MicroPython helps you express a lot with the minimum of resources Take the next step by getting involved with the Python community

An Anzac Tale

With the outbreak of war in 1914, best friends Wally and Roy, and new mate Tom, are among the first to enlist. But their great adventure soon turns to disaster. The day after the landing at Anzac Cove on 25 April 1915, more than 2000 of their fellow Anzacs are dead and the bold attempt by the Allied commanders to knock the Turks out of the war becomes a stalemate. As the Gallipoli campaign drags on, Wally, Roy and Tom find themselves locked in combat with a formidable enemy, a ferocious landscape, flies, fleas, cold and disease. An Anzac Tale is a beautiful and thought-provoking graphic novel that skilfully introduces the events of the

Gallipoli campaign.

How to Write an Exceptional Thesis Or Dissertation

A Step-by-step Guide from Proposal to Successful Defense

Atlantic Publishing Company According to the Council of Graduate Schools, only 57 percent of students who start their Ph.D.s complete them within ten years, and many times it's the thesis or dissertation that is holding them back. In this book, you will gain insight regarding the entire research process, from organizing your literature and materials most effectively to analyzing and evaluating the big picture for defense. You will learn how to locate and recognize a topic that is appropriate for your thesis or dissertation, and you will discover how to expand on the subject matter to ensure it's unique and distinct from any other research out there. This book will ensure that your argument is strong, sound, and persuasive throughout your entire thesis or dissertation, from the introductory chapter through the summarizing conclusive statements, and you will learn how to do so without plagiarizing or cutting corners. You will master how to write ethically, objectively, and properly according to your academic subject's standards. With this book as your guide, you will even find out how your research can take you from a proposal to a published writing career. With this book, you will learn everything from the ground-level basics to the more detailed breakdown of the research process. You will gain a strong understanding of the difference between a thesis and dissertation, and you will grasp the components expected of your work regardless of the subject matter of your research. This book will walk you through the entire process step-by-step, teaching you how to structure a planning and writing schedule that will keep the process manageable and not overwhelming. Atlantic Publishing is a small, independent publishing company based in Ocala, Florida. Introduction to Programming with Visual Basic .NET

Jones & Bartlett Learning Introduction to Programming with Visual Basic .NET introduces the major concepts and applications of this important language within the context of sound programming principles, in a manner that is accessible to students and beginning programmers. Coverage includes the new visual objects required in creating a Windows-based graphical user interface, event-based programming, and the integration of traditional procedural programming techniques with VB .NET's object-oriented framework. The text places a strong emphasis on real-world business applications, case studies, and rapid application development to help engage students with discussion of practical programming issues. A full range of supplements for students and instructors accompany the text.

Heinz Kohut and the Psychology of the Self

Routledge Heinz Kohut's work represents an important departure from the Freudian tradition of psychoanalysis. A founder of the Self Psychology movement in America, he based his practice on the belief that narcissistic vulnerabilities play a significant part in the suffering that brings people for treatment. Written predominantly for a psychoanalytic audience Kohut's work is often difficult to interpret. Siegel uses examples from his own practice to show how Kohut's innovative theories can be applied to other forms of treatment.

Invitation to Classical Analysis

American Mathematical Soc. This book gives a rigorous treatment of selected topics in classical analysis, with many applications and examples. The exposition is at the undergraduate level, building on basic principles of

advanced calculus without appeal to more sophisticated techniques of complex analysis and Lebesgue integration. Among the topics covered are Fourier series and integrals, approximation theory, Stirling's formula, the gamma function, Bernoulli numbers and polynomials, the Riemann zeta function, Tauberian theorems, elliptic integrals, ramifications of the Cantor set, and a theoretical discussion of differential equations including power series solutions at regular singular points, Bessel functions, hypergeometric functions, and Sturm comparison theory. Preliminary chapters offer rapid reviews of basic principles and further background material such as infinite products and commonly applied inequalities. This book is designed for individual study but can also serve as a text for second-semester courses in advanced calculus. Each chapter concludes with an abundance of exercises. Historical notes discuss the evolution of mathematical ideas and their relevance to physical applications. Special features are capsule scientific biographies of the major players and a gallery of portraits. Although this book is designed for undergraduate students, others may find it an accessible source of information on classical topics that underlie modern developments in pure and applied mathematics.

My Gallipoli

Working Title Press From the shores of Anzac Cove to the heights of Chunuk Bair, from Cape Helles to Gurkha Bluff, the Gallipoli Peninsula was the place where thousands of men from sixteen nations fought, suffered, endured or died during the eight months of occupation in 1915. For each of them, their families and their nurses, Gallipoli meant something different. Their voices emerge from the landscape and across the decades with stories of courage, valour, despair and loss.

Cold Light

Random House Australia Winner of the Queensland Literary Award. Shortlisted for the Miles Franklin Award and the Barbara Jefferis Prize. It is 1950, the League of Nations has collapsed and the newly formed United Nations has rejected all those who worked and fought for the League. Edith Campbell Berry, who joined the League in Geneva before the war, is out of a job, her vision shattered. With her sexually unconventional husband, Ambrose, she comes back to Australia to live in Canberra. Edith now has ambitions to become Australia's first female ambassador, but while she waits for a Call from On High, she finds herself caught up in the planning of the national capital and the dream that it should be 'a city like no other'. When her communist brother, Frederick, turns up out of the blue after many years of absence, she becomes concerned that he may jeopardise her chances of becoming a diplomat. It is not a safe time to be a communist in Australia or to be related to one, but she refuses to be cowed by the anti-communist sentiment sweeping the country. It is also not a safe time or place to be 'a wife with a lavender husband'. After pursuing the Bloomsbury life for many years, Edith finds herself fearful of being exposed. Unexpectedly, in mid-life she also realises that she yearns for children. When she meets a man who could offer not only security but a ready-made family, she consults the Book of Crossroads and the answer changes the course of her life. Intelligent, poignant and absorbing, *Cold Light* is a remarkable stand-alone novel, which can also be read as a companion to the earlier Edith novels *Grand Days* and *Dark Palace*.
