Seeking the Lost, Keeping Them, Making Them Disciples

Transforming New Converts from Members to Disciples Through a Christ-Based Discipleship Program

Dorrance Publishing Seeking the Lost, Keeping Them, Making Them Disciples By: Dr. Benoit Petit-Homme God bless Dr. Benoit Petit-Homme for all the work he has done in putting this book together. I believe that any church or leader who will follow these biblically-grounded principles will see beautiful results in changed lives for the kingdom. Teresa L. Reeve, PhD, Associate Dean, Seventh-day Adventist Theological Seminary, Associate Professor of New Testament Contexts, Andrews University, United States of America Dr. Benoit Petit-Homme's contribution to the discipleship crisis is a compelling re-examination of scripture, church history, and 21st century pastoral experience. Practical and convincing, his straightforward style brings real solutions to the evangelistic Achilles' heels of attrition. He reminds us of what has been forgotten and calls us back to our relational roots. Pr. Ron Kelly, Senior Pastor, Village Seventh-day Adventist Church, Berrien Springs, Michigan, United States of America Seeking the Lost, Keeping Them, Making Them Disciples by Dr. Benoit Petit-Homme is a handy Christ-based discipleship resource that will contribute to the mission of training and equipping church ministry leaders in the evangelistic work of reaping, retaining, and nurturing new believing Christians. This is a must-read for church officers, pastors, and ministry directors in the Christian church. Ron C. Smith, PhD., D.Min, President, Southern Union Conference of SDA Every year, many thousands of people hear the Good News of Jesus Christ and choose to be baptized and join a church community. Unfortunately, it is also true that every year many new converts leave a church relatively shortly after joining. The specific reasons that each person leaves the church could fill a book by themselves, but they all boil down to one thing: a lack of focus on the part of the church community on turning converts into disciples of our Savior. A disciple of Christ does more than attend church services. A disciple is an active member of the church community. A disciple is a witness to others. A disciple seeks to grow the church by seeking to lead everyone they meet to Christ. Dr. Benoit Petit-Homme is a committed disciple of Christ, and after extensive study of exactly why new converts leave the church, he has developed a process by which any church can make disciples. All it takes is a little extra work, a bit of encouragement, and an unwavering faith in the Lord.

Study Guide to Preventive Medical Care in Psychiatry

A Case Approach

*American Psychiatric Pub Study Guide to Preventive Medical Care in Psychiatry: A Case Approach is an indispensable companion to Preventive Medical Care in Psychiatry: A Practical Guide for Clinicians. Like the primary text, the study guide was written by experts in the field -- many with dual training in psychiatry and medicine -- and it reflects the text's focus on clinical care for psychiatrists and other mental health care providers who work in outpatient mental health and integrated clinics. It is critical that mental health providers and trainees learn how to prevent and detect common medical conditions in their patients, who typically have higher rates of adverse health risk behaviors and may lack a primary care physician. Through the deft use of clinical cases, the study guide helps providers and trainees acquire the knowledge and skills necessary to view the patient holistically and improve outcomes. The study guide's authors employ effective organizational strategies and pedagogic features to achieve these objectives: * The study guide's structure mirrors that of the primary text, with eight, multi-chapter sections authored by a team of leading experts in the respective areas. Chapter content is embodied in a series of clinical cases, each of which is followed by several multiple-choice questions, allowing readers to test their knowledge of the material. * In the answer guide, the correct answer to each question is presented, along with an explanation and the corresponding page numbers from the primary text where more complete coverage can be found. This cross-referencing allows readers to contextualize the question and answer and provides them with the opportunity to consolidate their learning of important information.* The original cases are well written and compelling, offering readers a level of detail and complexity that is both realistic and illustrative of key concepts in prevention, assessment, and treatment.* In all, the study guide offers 93 cases and 290 multiple-choice questions covering every chapter in the text. In addition, more than 50 tables and figures are included to summarize vital information and illustrate important ideas. Mental health clinicians in practice or training will find Study Guide to Preventive Medical Care in Psychiatry: A Case Approach an essential, evidence-based tool for learning and translating a holistic, integrated model of care into the clinical arena.◆*

Fieldwork in Humanities Education in Singapore

Springer Nature This book addresses the topic of humanities education fieldwork using the Singapore context as its primary focus. It explores how the thought processes behind and techniques of various humanities and social sciences subjects can be applied to fieldwork in a variety of school and training settings. In addition, it discusses how humanities students and educators could stand to benefit from utilizing fieldwork techniques and skills used in archaeology and anthropology, beyond undergraduates majoring in that discipline. Finally, the adoption of multidisciplinary approaches in fieldwork incorporating history, geography, literature and social studies demonstrate how these subjects can collaborate together in actual case studies to facilitate participants' learning in the field.

Using the National Gifted Education Standards for Teacher Preparation

Routledge Standards have benefits particular to the field of gifted education. In order to ensure equity and systematic talent search and programming, it is essential that current and future teachers are educated in the relevant theory, research, pedagogy, and management techniques important for developing and sustaining classroom-based opportunities specifically designed for gifted learners. By incorporating the 2013 NAGC/CEC Teacher Preparation Standards in Gifted and Talented Education, this guidebook helps university faculty at the undergraduate and graduate levels design or revise gifted education programs and partner with other educators in developing gifted education teachers.

Terraced Landscapes

Založba ZRC Terraced landscapes with agricultural terraces are cultural landscapes with a special value. They provide food and also have priceless scientific, cultural, historical, ecological, aesthetic, and even psychological, philosophical, and religious value. They form a unique agricultural and ecological system that can be found throughout the world. In some developed civilizations they were created in an organized manner over millennia, and in others they arose completely spontaneously as people adapted to natural conditions and improved their opportunities to make a living. They therefore reflect a harmony between man and nature, and in many cases also between people themselves. This volume presents them in pictures and words in all their diversity and attractiveness. After discussing the global and European dimensions of terraced landscapes and their agricultural terraces, the volume focuses on Slovenian terraced landscapes; they are discussed separately by landscape types and sample cases in the territory of selected settlements (pilot areas). The conclusion also draws attention to the exceptional value and appeal of non-agricultural terraced landscapes that have been shaped by nature and man. _____ Terasirane pokrajine, sestavljene iz kmetijskih teras, so kulturne pokrajine s posebno vrednostjo. Zagotavljajo hrano, imajo pa tudi neprecenljivo znanstveno, kulturno, zgodovinsko, ekološko, estetsko, celo psihološko, filozofsko in religiozno vrednost. So svojstven kmetijski in ekološki sistem po celem svetu. Ponekod so v razvitih civilizacijah organizirano nastajale skozi tisočletja, drugje pa povsem spontano, ko se je človek prilagajal naravnim razmeram in izboljševal svoje možnosti za preživetje. Zato se v njih zrcali sožitje med človekom in naravo, marsikje pa tudi med ljudmi. Knjiga jih v sliki in besedi predstavlja v vsej njihovi pestrosti in privlačnosti. Najprej so izpostavljene svetovne in evropske razsežnosti terasiranih pokrajin in njihovih kmetijskih teras, precej prostora pa namenja tudi slovenskim terasiranim pokrajinam, in sicer ločeno po pokrajinskih tipih in po vzorčnih primerih, ki obsegajo območja izbranih naselij. V sklepnem delu opozarja tudi na izjemnost in privlačnost nekmetijskih terasiranih pokrajin, ki sta jih oblikovala narava in človek.

An Indigenous Peoples' History of the United States for Young People

Beacon Press 2020 American Indian Youth Literature Young Adult Honor Book 2020 Notable Social Studies Trade Books for Young People, selected by National Council for the Social Studies (NCSS) and the Children's Book Council 2019 Best-Of Lists: Best YA Nonfiction of 2019 (Kirkus Reviews) · Best Nonfiction of 2019 (School Library Journal) · Best Books for Teens (New York Public Library) · Best Informational Books for Older Readers (Chicago Public Library) Spanning more than 400 years, this classic bottom-up history examines the legacy of Indigenous peoples' resistance, resilience, and steadfast fight against imperialism. Going beyond the story of America as a country "discovered" by a few brave men in the "New World," Indigenous human rights advocate Roxanne Dunbar-Ortiz reveals the roles that settler colonialism and policies of American Indian genocide played in forming our national identity. The original academic text is fully adapted by renowned curriculum experts Debbie Reese and Jean Mendoza, for middle-grade and young adult readers to include discussion topics, archival images, original maps, recommendations for further reading, and other materials to encourage students, teachers, and general readers to think critically about their own place in history.

An Indigenous Peoples' History of the United States

Beacon Press Now part of the HBO docuseries "Exterminate All the Brutes," written and directed by Raoul Peck 2015 Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples' Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, An Indigenous Peoples' History of the United States is an essential resource providing historical threads that are crucial for understanding the present. In An Indigenous Peoples' History of the United States, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative. An Indigenous Peoples' History of the United States is a 2015 PEN Oakland-Josephine Miles Award for Excellence in Literature.

BRICS and International Tax Law

Kluwer Law International B.V. With the ongoing expansion of outbound foreign direct investment (FDI) in the countries representing the BRICS economic bloc (Brazil, Russia, India, China, and South Africa) – and with all of them at the same time listed among the top seven countries plagued by tax evasion and avoidance in the guise of illicit outflows – the governments, both individually and through cooperative initiatives, have devised new international tax strategies that are proving to be of great interest and value to other countries, both developing and developed. The core of these strategies addresses the necessity of stemming the outflow of revenue while strongly supporting FDI, both inbound and outbound while complying with international obligations including those arising from human rights laws. This book is the first in-depth commentary on this new and evolving area of international tax law. The detailed analysis covers the entire field of BRICS international tax law, considering topics such as the following: – information exchange procedures and pitfalls; – response to the OECD's Base Erosion and Profit-Sharing (BEPS) initiative; – role of bilateral and multilateral double taxation conventions including the Multilateral Instrument and the Bilateral Investment Treaties; – thin capitalization; – transfer pricing; – controlled foreign corporation rules; – shortcomings related to authorities' limited manpower; – international audit and investigation procedures; – the BRICS approach to residence and mandatory and binding arbitration; and – the BRICS approach to shaping the developing world's international tax system. Notably, the author personally conducted interviews with senior international representatives of the BRICS tax authorities, as well as with leading BRICS academics and practitioners. Tax cases, together with human rights and investment cases and administrative guidelines in all five countries are also included in the analysis. The study concludes with recommendations for improving each of the five countries' tax law and procedures, especially in the area of dispute resolution. The author's goal is to extend the existing body of knowledge of the BRICS' international tax laws in order to assist in developing an understanding of the BRICS approach to dealing with evasion and avoidance: an approach which facilitates both outbound and inbound FDI, simplifies tax authority administration and establishes a basis for resolving international disputes which is compatible with sovereignty. In achieving this objective, the author has produced a major work that is of immeasurable value to tax advisers, government and governance officials, academics and researchers both in developing international taxation strategies and in helping to resolve disputes with tax authorities.

Guide to the Software Engineering Body of Knowledge (Swebok(r))

Version 3.0

In the Guide to the Software Engineering Body of Knowledge (SWEBOK(R) Guide), the IEEE Computer Society establishes a baseline for the body of knowledge for the field of software engineering, and the work supports the Society's responsibility to promote the advancement of both theory and practice in this field. It should be noted that the Guide does not purport to define the body of knowledge but rather to serve as a compendium and guide to the knowledge that has been developing and evolving over the past four decades. Now in Version 3.0, the Guide's 15 knowledge areas summarize generally accepted topics and list references for detailed information. The editors for Version 3.0 of the SWEBOK(R) Guide are Pierre Bourque (Ecole de technologie supérieure (ETS), Université du Québec) and Richard E. (Dick) Fairley (Software and Systems Engineering Associates (S2EA)).

Achieving Sustainable E-Government in Pacific Island States

Springer This book analyzes the common set of obstacles to the development and integration of government Information and Communication Technology (ICT) projects and effective e-government initiatives in developing countries. It draws on the expertise and experience of more developed states in the Pacific, notably Australia and New Zealand, both highly rated in global rankings for e-government and active in a variety of e-government development projects across the region. There has been a general failure to identify priorities and align projects with local needs in ICT/e-government projects. Small Island Developing States (or SIDS) present a unique problem in terms of e-government. Not only do they suffer from a common set of barriers to ICT development such as their remoteness, geographical dispersion, moist tropical climates, largely rural populations, and lack of ICT capacity and infrastructure, but are also dependent on external agencies for investment, and must negotiate with powerful donors who have conflicting agendas. E-government is widely regarded as 'transformational', increasing efficiency, productivity, accountability, economic growth, and citizen involvement. But

while the governments of SIDS are committed to harnessing ICTs for effective government and economic development, they face major challenges in establishing successful e-government initiatives, due to the problems outlined above, coupled with a lack of HR capacities and appropriate strategies and policies. Drawing on the experience of the states mentioned above, as well as regional quasi-governmental bodies, nongovernmental organizations (NGOs), aid agencies, and the private sector, the book will be of interest to researchers and students in the fields of e-government, public administration, political science, communication, information science, and social media.

Social and Emotional Learning in Australia and the Asia-Pacific Perspectives, Programs and Approaches

Springer Around the globe, there is a growing awareness of the importance of addressing students' social and emotional development and wellbeing during schooling. Although the bulk of the work in this area has been conducted in North America and Europe, there is now a burgeoning interest in this topic in Australia and the wider Asia Pacific. This book is the first ever to provide a timely and important collection of diverse perspectives on and approaches to social and emotional learning in the Australian and Asia Pacific context. Adopting a broad view of social and emotional learning, the book explores positive psychology, belonging, teachers' professional development, pre-service training and post-initial training in Australia and in neighbouring communities such as China, Hong Kong, Korea, Singapore, New Zealand, Fiji, and other Pacific nations. "Frydenberg, Martin, and Collie have provided an incredible service by bringing together in a single well planned scholarly volume an incredible and well balanced group of senior and early career cutting edge researchers from Australia, Asia and the Asia Pacific area tackling approaches and key issues of social and emotional learning. Their much needed volume links research on key factors, such as differing perspectives, measurement issues, the identification of at-risk children, teachers' social and emotional development, and these and other across the cultures of an increasingly vibrant and developing geographic region. It is indeed encouraging to gain the sense of depth and breadth of ongoing research that the volume gives." John Roodenburg PhD FAPS MCEDP MCCOUNSP, Monash University Melbourne "Social and Emotional Learning is understood to be a crucial part of the school curriculum. This book covers the field, with a refreshing focus on work being done in Australia and in neighbouring countries. For school psychologists, the book helps us to understand how SEL can help at every level – from working with individuals, small groups, whole classes, or with the entire school. Our work with vulnerable students, individually or in small groups, is always more effective when embedded in the broader context of Social and Emotional Learning." Paul Bertoia FAPS MCEDP, Senior School Psychologist "This collected volume of researchers from Australia and the Asia-Pacific provides a thorough review of important educational, social, and emotional development issues for practitioners and researchers around the world. Readers will greatly benefit from the breadth and depth of treatment in each of the topics covered." Kit-Tai Hau, PhD, Choh-Ming Li Professor of Educational Psychology, The Chinese University of Hong Kong.

Project Management and BIM for Sustainable Modern Cities

Proceedings of the 2nd GeoMEast International Congress and Exhibition on Sustainable Civil Infrastructures, Egypt 2018 – The Official International Congress of the Soil-Structure Interaction Group in Egypt (SSIGE)

Springer This volume presents innovative work on innovative methods, tools and practices aimed at supporting the transition of Asian and Middle Eastern cities and regions towards a more smart and sustainable dimension. The role of the built and urban environment are becoming more pronounced in Asia and Middle East as the regions continue to experience rapid increase in population and urbanisation, which have only led to an increase in environmental degradation but also rise in energy consumption and emissions. Individual chapters covers timely topics such as sustainable infrastructure, transportation, renewable energy, water and methods supporting an innovative and sustainable development of urban areas. Real-world examples are presented to highlight recent developments and advancements in design, construction and transportation infrastructures. The volume is based on the best contributions to the 2nd GeoMEast International Congress and Exhibition on Sustainable Civil Infrastructures, Egypt 2018 – The official international congress of the Soil-Structure Interaction Group in Egypt (SSIGE).

Knowledge Society and Education in the Asia-Pacific

Recent Trends and Future Challenges

Springer Nature This book explores recent trends in the knowledge-based society and education field in Asia-Pacific and discusses future challenges in the region. It presents studies on the development of scientific thought in the field on the knowledge-based society in the Pacific Circle. This book explores the theoretical framework of the knowledge-based society framed by the borders imposed by the Pacific Ocean, particularly from the perspective of the Pacific Circle Consortium (PCC), in the face of a paradigm shift to satisfy the human needs that must be preserved to guarantee economic and human conditions that future development requires. It analyzes how education relates to the knowledge society in the Asia Pacific region, and considers global issues such as environmental degradation, climate change, pollution, soil erosion, growth of the population. It discusses how these issues concerns parents, educators, civil societies and governments of the countries around the Pacific Circle. This book explores the necessity of changing the current transformative paradigm to one that ensures environmental sustainability, with the support of scientific education and research, as an issue that must be integrated into the curricula in schools at all educational levels.

Wild

From Lost to Found on the Pacific Crest Trail

Vintage Traces the personal crisis the author endured after the death of her mother and a painful divorce, which prompted her ambition to undertake a dangerous 1,100-mile solo hike that both drove her to rock bottom and helped her to heal.

Minerals Yearbook

Area Reports: International Review 2014 Asia and the Pacific

Minerals Yearbook: Volume 3: A - Minerals Yearbook, 2014, V. 3: Area Reports: International: Asia and the Pacific. Volume III, Area Reports: International, is published as four separate reports. These regional reports contain the latest available minerals data on more than 180 foreign countries and discuss the importance of minerals to the economies of these nations and the United States. Each report begins with an overview of the region's mineral industries during the year. It continues with individual country chapters that examine the mining, refining, processing, and use of minerals in each country of the region and how each country's mineral industry relates to U.S. industry. Most chapters include production tables and industry structure tables, information about Government policies and programs that affect the country's mineral industry, and an outlook section.
