### Uprooting Racism - 4th Edition

### How White People Can Work for Racial Justice

*New Society Publishers Over 50,000 copies sold of earlier editions! Powerful strategies and practical tools for white people committed to racial justice Completely revised and updated, this fourth edition of Uprooting Racism offers a framework around neoliberalism and interpersonal, institutional, and cultural racism, along with stories of resistance and white solidarity. It provides practical tools and advice on how white people can work as allies for racial justice, engaging the reader through questions, exercises, and suggestions for action, and includes a wealth of information about specific cultural groups such as Muslims, people with mixed heritage, Native Americans, Jews, recent immigrants, Asian Americans, and Latino/as. Inequalities in education, housing, health care, and the job market continue to prevail, while increased insecurity and fear have led to an epidemic of scapegoating and harassment of people of color. Yet, recent polls show that only thirty-one percent of white people in the United States believe racism is a major societal problem; at the same time, resistance is strong, as highlighted by indigenous struggles for land and sovereignty and the Movement for Black Lives. Previous editions of Uprooting Racism have sold more than 50,000 copies. This accessible, personal, supportive, and practical guide is ideal for students, community activists, teachers, youth workers, and anyone interested in issues of diversity, multiculturalism, and social justice. Paul Kivel is an award-winning author and an accomplished trainer and speaker. He has been a social justice activist, a nationally and internationally recognized anti-racism educator, and an innovative leader in violence prevention for over forty years.*

### How White People Can Work for Racial Justice 3rd Edition

*New Society Publishers In 2008 the United States elected its first black president, and recent polls show that only twenty-two percent of white people in the United States believe that racism is a major societal problem. On the surface, it may seem to be in decline. However, the evidence of discrimination persists throughout our society. Segregation and inequalities in education, housing, health care, and the job market continue to be the norm. Post 9/11, increased insecurity and fear have led to an epidemic of the scapegoating and harassment of people of color. Uprooting Racism offers a framework for understanding institutional racism. It provides practical suggestions, tools, examples, and advice on how white people can intervene in interpersonal and organizational situations to work as allies for racial justice. Completely revised and updated, this expanded third edition directly engages the reader through questions, exercises, and suggestions for action, and takes a detailed look at current issues such as affirmative action, immigration, and health care. It also includes a wealth of information about specific cultural groups such as Muslims, people with mixed-heritage, Native Americans, Jews, recent immigrants, Asian Americans, and Latinos. Previous editions of Uprooting Racism have sold more than fifty thousand copies. Accessible, personal, supportive, and practical, this book is ideal for students, community activists, teachers, youth workers, and anyone interested in issues of diversity, multiculturalism, and social justice. ### Men's Work

### How to Stop the Violence That Tears Our Lives Apart

*Ballantine Books* In a world that thrives on aggression and physical force, male violence has become an all-too-frequent response to the frustrations and anxieties that fill men's lives. As a result, the lives of women and children have suffered dramatically, as society has come to tolerate their victimization. Using the unique program at the Oakland Men's Project in California as a basis, Paul Kivel, one of its founding members, shares an extraordinary approach to stopping male violence. The key is understanding and evading the cultural forces that box men in and often reward them for violent behavior. Through exercises, thought-provoking questions, and intense self-examination, *Men's Work* helps men learn new rules and new roles in personal relationships and in the world at large. *Men's Work* gives back to men the power and responsibility they need to unlearn the lessons of control and aggression. Going beyond the mythology of the current men's movement, this revolutionary work identifies and develops the social and political framework on which to place men's individual efforts to recover their humanity. From the Paperback edition.

### The First R

### How Children Learn Race and Racism

*Rowman & Littlefield Publishers* This study looks into how children learn about the 'first R'—race—and challenges the current assumptions with case-study examples from three child-care centers. Parents and teachers will find this remarkable study reveals that the answer to how children learn about race might be more startling than could be imagined.

### Making the Peace

*Hunter House* "The Making the Peace curriculum is a complete program offering you everything you need to address violence prevention in your classroom, after-school or residential programme, or juvenile justice setting."--p. 3.

### White Supremacy and Racism in the Post-civil Rights Era

*Lynne Rienner Publishers* Is a racial structure still firmly in place in the United States? *White Supremacy and Racism* answers that question with an unequivocal yes, describing a contemporary system that operates in a covert, subtle, institutional, and superficially nonracial fashion. Assessing the major perspectives that social analysts have relied on to explain race and racial relations, Bonilla-Silva labels the post-civil rights ideology as color-blind racism: a system of social arrangements that maintain white privilege at all levels. His analysis of racial politics in the United States makes a compelling argument for a new civil rights movement rooted in the race-class needs of minority masses, multiracial in character - and focused on attaining substantive rather than formal equality.

### Witnessing Whiteness

### The Need to Talk About Race and How to Do It

*R&L Education* *Witnessing Whiteness* invites readers to consider what it means to be white, describes and critiques strategies used to avoid race issues, and identifies the detrimental effect of avoiding race on cross-race collaborations. The author illustrates how racial discomfort leads white people toward poor relationships with people of color. Questioning the implications our history has for personal lives and social institutions, the book considers political, economic, socio-cultural, and legal histories that shaped the meanings associated with whiteness. Drawing on dialogue with well-known figures within education, race, and multicultural work, the book offers intimate, personal stories of cross-race friendships that address both how a deep understanding of whiteness supports cross-race collaboration and the long-term nature of the work of excising racism from the deep psyche. Concluding chapters offer practical information on building knowledge, skills, capacities, and communities that support anti-racism practices, a hopeful look at our collective future, and a discussion of how to create a culture of witnesses who support allies for social and racial justice. ### You Call this a Democracy?

### Who Benefits, who Pays and who Really Decides?

*Arguing that the United States has always had a ruling class, this book does not focus on the current administration or rogue corporations, but presents a deeper, longer-term analysis of how the ruling class has created and uses the Constitution, corporations and the courts, as well as a host of other mechanisms such as tax laws, wars, buffer zones, and distractions, to dominate our society and accumulate wealth. ## Student Power, Democracy and Revolution in the Sixties

Cambridge Scholars Publishing This book uses humour and personal insight to weave tales, analysis, and history in this insider account of an enlightened populist student movement. The students involved took their citizenship seriously by asking the authorities who they were benefiting and who they were ignoring. They altered the prevailing culture by asking, "why not do something different"? Unlike other books on the Sixties, this book shows how predominantly working middle-class white students in a very conservative region initiated radical changes. They ushered in a new era of protecting women and minorities from discriminatory practices. This vivid account of bringing conservative students around to support social justice projects illustrates how step-by-step democratic change results in reshaping a nation's character. Across the globe, students are seeking change. In the US, over 80 percent believe they have the power to change the country, and 60 percent think they're part of that movement. This book's portrayal of such efforts in the Sixties will inspire and guide those students.

## Farming While Black

## Soul Fire Farm's Practical Guide to Liberation on the Land

Chelsea Green Publishing "Farming While Black is the first comprehensive "how to" guide for aspiring African-heritage growers to reclaim their dignity as agriculturists and for all farmers to understand the distinct, technical contributions of African-heritage people to sustainable agriculture. At Soul Fire Farm, author Leah Penniman co-created the Black and Latino Farmers Immersion (BLFI) program as a container for new farmers to share growing skills in a culturally relevant and supportive environment led by people of color. Farming While Black organizes and expands upon the curriculum of the BLFI to provide readers with a concise guide to all aspects of small-scale farming, from business planning to preserving the harvest. Throughout the chapters Penniman uplifts the wisdom of the African diasporic farmers and activists whose work informs the techniques described--from whole farm planning, soil fertility, seed selection, and agroecology, to using whole foods in culturally appropriate recipes, sharing stories of ancestors, and tools for healing from the trauma associated with slavery and economic exploitation on the land. Woven throughout the book is the story of Soul Fire Farm, a national leader in the food justice movement." --

## Race Talk and the Conspiracy of Silence

## Understanding and Facilitating Difficult Dialogues on Race

John Wiley & Sons Turn Uncomfortable Conversations into Meaningful Dialogue If you believe that talking about race is impolite, or that "colorblindness" is the preferred approach, you must read this book. Race Talk and the Conspiracy of Silence debunks the most pervasive myths using evidence, easy-to-understand examples, and practical tools. This significant work answers all your questions about discussing race by covering: Characteristics of typical, unproductive conversations on race Tacit and explicit social rules related to talking about racial issues Race-specific difficulties and misconceptions regarding race talk Concrete advice for educators and parents on approaching race in a new way "His insistence on the need to press through resistance to have difficult conversations about race is a helpful corrective for a society that prefers to remain silent about these issues." —Christopher Wells, Vice President for Student Life at DePauw University "In a Canadian context, the work of Dr. Derald Wing Sue in Race Talk: and the Conspiracy of Silence is the type of material needed to engage a populace that is often described as 'Too Polite.' The accessible material lets individuals engage in difficult conversations about race and racism in ways that make the uncomfortable topics less threatening, resulting in a true 'dialogue' rather than a debate." —Darrell Bowden, M Ed. Education and Awareness Coordinator, Ryerson University "He offers those of us who work in the Diversity and Inclusion space practical tools for generating productive dialogues that transcend the limiting constraints of assumptions about race and identity." —Rania Sanford, Ed.D. Associate Chancellor for Strategic Affairs and Diversity, Stanford University "Sue's book is a must-read for any parent, teacher, professor, practitioner, trainer, and facilitator who seeks to learn, understand, and advance difficult dialogues about issues of race in classrooms, workplaces, and boardrooms. It is a book of empowerment for activists, allies, or advocates who want to be instruments of change and to help move America from silence and inaction to discussion, engagement, and action on issues of difference and diversity. Integrating real life examples of difficult dialogues that incorporate the range of human emotions, Sue provides a masterful illustration of the complexities of dialogues about race in America. More importantly, he provides a toolkit for those who seek to undertake the courageous journey of understanding and facilitating difficult conversations about race." —Menah Pratt-Clarke, JD, PhD, Associate Provost for Diversity, University of Illinois Urbana-Champaign

## We Gon' Be Alright

## Notes on Race and Resegregation

Macmillan In these provocative, powerful essays acclaimed writer/journalist Jeff Chang (Can't Stop Won't Stop, Who We Be) takes an incisive and wide-ranging look at the recent tragedies and widespread protests that have shaken the country. Through deep reporting with key activists and thinkers, passionately personal writing, and distinguished cultural criticism, We Gon' Be Alright links #BlackLivesMatter to #OscarsSoWhite, Ferguson to Washington D.C., the Great Migration to resurgent nativism. Chang explores the rise and fall of the idea of "diversity," the roots of student protest, changing ideas about Asian Americanness, and the impact of a century of racial separation in housing. He argues that resegregation is the unexamined condition of our time, the undoing of which is key to moving the nation forward to racial justice and cultural equity.

## Overcoming Heterosexism and Homophobia

## Strategies that Work

Columbia University Press Few aspects of American military history have been as vigorously debated as Harry Truman's decision to use atomic bombs against Japan. In this carefully crafted volume, Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons, surveys the major debates related to that decision, and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II. Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945. He then provides a historical overview of these events in question, beginning with the decision and program to build the atomic bomb. Detailing the sequence of events leading to Japan's surrender, he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders. Finally, Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents, scholarly books, and articles.

## Waking Up White, and Finding Myself in the Story of Race

*For twenty-five years, Debby Irving sensed inexplicable racial tensions in her personal and professional relationships. As a colleague and neighbor, she worried about offending people she dearly wanted to befriend. As an arts administrator, she didn't understand why her diversity efforts lacked traction. As a teacher, she found her best efforts to reach out to students and families of color left her wondering what she was missing. Then, in 2009, one "aha!" moment launched an adventure of discovery and insight that drastically shifted her worldview and upended her life plan. In Waking Up White, Irving tells her often cringe-worthy story with such openness that readers will turn every page rooting for her-and ultimately for all of us.*

## Towards the "Other America": Anti-Racist Resources for White People Taking Action for Black Lives Matter

*Chalice Press Chris Crass calls on all of us to join our values to the power of love and act with courage for a world where Black lives truly matter. A world where the death culture of white supremacy no longer devours the lives of Black people and no longer deforms the hearts and souls of white people. In addition to his own soul-searching essays and practical organizing advice in his "notes to activists," Chris Crass lifts up the voices of longtime white anti-racist leaders organizing in white communities for Black Lives Matter. Crass has collected lessons and vibrant examples of this work from rural working class communities in Kentucky and Maine, mass direct action in Wisconsin and New York, faith-based efforts among Jewish communities, Unitarian Universalists, and the United Church of Christ, and national efforts like Showing Up for Racial Justice (SURJ) and Jewish Voice for Peace. ## Racism and Gender in the 1920s

*Univ of California Press Ignorant. Brutal. Male. One of these stereotypes of the Ku Klux Klan offers a misleading picture. In Women of the Klan, sociologist Kathleen M. Blee dismantles the popular notion that politically involved women are always inspired by pacifism, equality, and justice. In her new preface, Blee reflects on how recent scholarship on gender and right-wing extremism suggests new ways to understand women's place in the 1920s Klan's crusade for white and Christian supremacy.*

## Teaching/Learning Anti-racism

### A Developmental Approach

*Teachers College Press Louise Derman-Sparks and Carol Brunson Phillips have been teaching anti-racism to adults for over 20 years. Based on their real classroom experience, Teaching/Learning Anti-Racism offers us a guide to the development of anti-racist identity, awareness, and behaviour. By integrating methodology and course content descriptions with student writings and analyses of students' growth, the book highlights the interaction between teaching and learning. Organized chronologically from the first to the last class, the text describes how each session contributed to the students' fascinating journey from pro-racist consciousness to active anti-racism. This volume is much more than a curriculum guide for implementing anti-racism education with adults. Here, the authors, one White and one African American, also share their experiences, the successes, the failures, the difficulties, and, most important, what they learned from their students.*

### Let's Talk Race

## A Guide for White People

*New Society Publishers Real conversations about racism need to start now Let's Talk Race confronts why white people struggle to talk about race, why we need to own this problem, and how we can learn to do the work ourselves and stop expecting Black people to do it for us. Written by two specialists in race relations and parents of two adopted African American sons, the book provides unique insights and practical guidance, richly illustrated with personal examples, anecdotes, research findings, and prompts for personal reflection and conversations about race. Coverage includes: Seeing the varied forms of racism How we normalize and privilege whiteness Essential and often unknown elements of Black history that inform the present Racial disparities in education, health, criminal justice, and wealth Understanding racially-linked cultural differences How to find conversational partners and create safe spaces for conversations Conversational do's and don'ts. Let's Talk Race is for all white people who want to face the challenges of talking about race and working towards justice and equity.*

## The Price of Whiteness

## Jews, Race, and American Identity

*Princeton University Press* What has it meant to be Jewish in a nation preoccupied with the categories of black and white? *The Price of Whiteness* documents the uneasy place Jews have held in America's racial culture since the late nineteenth century. The book traces Jews' often tumultuous encounter with race from the 1870s through World War II, when they became vested as part of America's white mainstream and abandoned the practice of describing themselves in racial terms. American Jewish history is often told as a story of quick and successful adaptation, but Goldstein demonstrates how the process of identifying as white Americans was an ambivalent one, filled with hard choices and conflicting emotions for Jewish immigrants and their children. Jews enjoyed a much greater level of social inclusion than African Americans, but their membership in white America was frequently made contingent on their conformity to prevailing racial mores and on the eradication of their perceived racial distinctiveness. While Jews consistently sought acceptance as whites, their tendency to express their own group bonds through the language of "race" led to deep misgivings about what was required of them. Today, despite the great success Jews enjoy in the United States, they still struggle with the constraints of America's black-white dichotomy. *The Price of Whiteness* concludes that while Jews' status as white has opened many doors for them, it has also placed limits on their ability to assert themselves as a group apart.

## I Can Make My World a Safer Place

## A Kid's Book about Stopping Violence

*Hunter House* Through simple text, eye-catching drawings, and activities such as mazes, crosswords, and word searches, this book encourages kids to think about and act to promote peace at home, in their communities, and in the world. Harriet Tubman, Cesar Chavez, and Julia Butterfly are among those profiled as positive activists. The book differentiates public danger (gangs, drug-related violence) from private (sexual assault, domestic violence) and provides ways to stay safe and get help when necessary.

## Fire in the Heart

## How White Activists Embrace Racial Justice

*Oxford University Press* *Fire in the Heart* uncovers the dynamic processes through which some white Americans become activists for racial justice. The book reports powerful accounts of the development of racial awareness drawn from in-depth interviews with fifty white activists in the fields of community organizing, education, and criminal justice reform. Drawing extensively on the rich interview material, Mark Warren shows how white Americans can develop a commitment to racial justice, not just because it is the right thing to do, but because they embrace the cause as their own. Contrary to much contemporary thinking on racial issues focused on altruism or interests, Warren finds that cognitive and rational processes alone do little to move whites to action. Rather, the motivation to take and sustain action for racial justice is profoundly moral and relational. Warren shows how white activists come to find common cause with people of color when their core values are engaged, as they build relationships with people of color that lead to caring, and when they develop a vision of a racially just future that they understand to benefit everyone--themselves, other whites, and people of color. Warren also considers the complex dynamics and dilemmas white people face in working in multiracial organizations committed to systemic change in America's racial order, and provides a deeper understanding and appreciation of the role that white people can play in efforts to promote racial justice. The first study of its kind, *Fire in the Heart* brings to light the perspectives of white people who are working day-to-day to build not a post-racial America but the foundations for a truly multiracial America rooted in a caring, human community with equity and justice at its core.

## Transcending the Racial Past

*Univ of California Press* "In this splendid book, David Roediger shows the need for political activism aimed at transforming the social and political meaning of race.... No other writer on whiteness can match Roediger's historical breadth and depth: his grasp of the formative role played by race in the making of the nineteenth century working class, in defining the contours of twentieth-century U.S. citizenship and social membership, and in shaping the meaning of emerging social identities and cultural practices in the twenty-first century."—George Lipsitz, author of *The Possessive Investment in Whiteness* "David Roediger has been showing us all for years how whiteness is a marked and not a neutral color in the history of the United States. *Colored White*, with its synthetic sweep and new historical investigations, marks yet another advance. In the burgeoning literature on whiteness, this book stands out for its lucid, unjargonridden, lively prose, its groundedness, its analytic clarity, and its scope."—Michael Rogin, author of *Blackface, White Noise*

## Understanding and Dismantling Racism

*Fortress Press More than 15 years have passed since Joe Barndt wrote his influential and widely acclaimed Dismantling Racism (1991, Augsburg Books). He has now written a replacement volume — powerful, personal, and practical — that reframes the whole issue for the new context of the twenty-first century. With great clarity Barndt traces the history of racism, especially in white America, revealing its various personal, institutional, and cultural forms. Without demonizing anyone or any race, he offers specific, positive ways in which people in all walks, including churches, can work to bring racism to an end. He includes the newest data on continuing conditions of People of Color, including their progress relative to the minimal standards of equality in housing, income and wealth, education, and health. He discusses current dimensions of race as they appear in controversies over 9/11, New Orleans, and undocumented workers. Includes analytical charts, definitions, bibliography, and exercises for readers.*

## Boys Will be Men

## Raising Our Sons for Courage, Caring, and Community

*Gabriola Island, B.C. : New Society Publishers While the women's liberation movement produced dynamic changes in society's assumptions about girls' roles, little has changed about our attitude toward the role of boys. Yet the cycle of violence and oppression will not stop until boys are raised to become part of the struggle to end it. Boys will Be Men is for all parents who have a vision of a society where peace and justice exist; for parents raising their sons in economically disadvantaged communities; for feminists who feel confused about raising their sons, and for parents of color who need to add their sons' strength to their communities.*

## Letters to My White Male Friends

*St. Martin's Press In Letters to My White Male Friends, Dax-Devlon Ross speaks directly to the millions of middle-aged white men who are suddenly awakening to race and racism. White men are finally realizing that simply not being racist isn't enough to end racism. These men want deeper insight not only into how racism has harmed Black people, but, for the first time, into how it has harmed them. They are beginning to see that racism warps us all. Letters to My White Male Friends promises to help men who have said they are committed to change and to develop the capacity to see, feel and sustain that commitment so they can help secure racial justice for us all. Ross helps readers understand what it meant to be America's first generation raised after the civil rights era. He explains how we were all educated with colorblind narratives and symbols that typically, albeit implicitly, privileged whiteness and denigrated Blackness. He provides the context and color of his own experiences in white schools so that white men can revisit moments in their lives where racism was in the room even when they didn't see it enter. Ross shows how learning to see the harm that racism did to him, and forgiving himself, gave him the empathy to see the harm it does to white people as well. Ultimately, Ross offers white men direction so that they can take just action in their workplace, community, family, and, most importantly, in themselves, especially in the future when race is no longer in the spotlight.*

## Birth of a White Nation

## The Invention of White People and Its Relevance Today

*Routledge Birth of a White Nation, Second Edition examines the social construction of race through the invention of white people. Surveying colonial North American law and history, the book interrogates the origins of racial inequality and injustice in American society, and details how the invention still serves to protect the ruling elite to the present day. This second edition documents the proliferation of ideas imposed and claimed throughout history that have conspired to give content, form, and social meaning to one's racial classification. Beginning its expanded narrative with the development of diverse Native American societies through contact with European colonizers in the Tidewater region, and progressing to the emigration of Mexicans, Irish, and other "non-whites", this new edition addresses the ongoing production and reproduction of whiteness as a distinct and dominant social category. It also looks to the future by developing a new, applied framework for countering racial inequality and promoting greater awareness of anti-racist policies and practices. Birth of a White Nation will be of great interest to students, scholars, and general readers seeking to make sense of the dramatic racial inequities of our time and to forge an antiracist path forward.*

## Men's Work

## How to Stop the Violence That Tears Our Lives Apart

*Simon and Schuster In his ground-breaking work, author Paul Kivel helps men confront the political, social, and personal forces that generate and reward misogyny, hatred, anger, and violent behavior. Sexual harassment, child abuse, incest, rape, murder, war--it's impossible today to hear a news report and not be informed of violent acts perpetrated by men. Acknowledging that there are no easy answers to the problem of male violence--particularly in a world that seems to thrive on aggression and physical force--Men's Work reaches straight to its root causes. In his ground-breaking work, author Paul Kivel helps men confront the political, social, and personal forces that generate and reward misogyny, hatred, anger, and violent behavior. Combining years of personal study and reflection with his work with men in the Oakland Men's Project, Men's Work presents an innovative and workable approach to stopping male violence. Kivel shows men how to reclaim the power and responsibility needed to unlearn the lessons of control and aggression. Paul Kivel is a nationally known expert on men's issues. Through his work at the Oakland Men's Project, he helps men confront and change violent behaviors and teaches alternatives to violence in their relationships. He also trains teachers, therapists, probation officers, and agency staff who work with men, exploring such topics as male/female relationships, alternatives to violence, family violence, and sexual assault. Kivel resides in Oakland, California.*

## Disrupting Whiteness in Social Work

*Routledge Focussing on the epistemic – the way in which knowledge is understood, constructed, transmitted and used – this book shows the way social work knowledge has been constructed from within a white western paradigm, and the need for a critique of whiteness within social work at this epistemic level. Social work, emerging from the western Enlightenment world, has privileged white western knowledge in ways that have been, until recently, largely unexamined within its professional discourse. This imposition of white western ways of knowing has led to a corresponding marginalisation of other forms of knowledge. Drawing on views from social workers from Asia, the Pacific region, Africa, Australia and Latin America, this book also includes a glossary of over 40 commonly used social work terms, which are listed with their epistemological assumptions identified. Opening up a debate about the received wisdom of much social work language as well as challenging the epistemological assumptions behind conventional social work practice, this book will be of interest to all scholars and students of social work as well as practitioners seeking to develop genuinely decolonised forms of practice.*
