This charming, informative, and accessible history examines the fascinating stories behind taxonomic nomenclature, from Linnaeus himself naming a small and unpleasant weed after a rival botanist to the recent influx of scientific names based on pop-culture icons—including David Bowie's spider, Frank Zappa's jellyfish, and Beyoncé's fly. Exploring the naming process as an opportunity for scientists to express themselves in creative ways, Stephen B. Heard's fresh approach shows how scientific names function as a window into both the passions and foibles of the scientific community and as a more general indicator of the ways in which humans relate to, and impose order on, the natural world. **MathLinks 7 Computerized Assessment Bank CD-ROM Rafael Viñoly Architects Prestel Pub** The definitive monograph highlighting the global works of the visionary hailed by the New York Times' Herbert Muschamp as 'the most elegant architect now practicing in the United States. For nearly half a century Rafael Vinoly has been driven by the belief that the responsibility of architecture is to elevate the public realm. While his early work in Argentina transformed the landscape of his native country, his first major international projects - the John Jay College of Criminal Justice in New York and the International Forum in Tokyo - established Vinoly as a global presence in architecture, whose buildings sustain a structural originality that transcends passing fads. This monograph features a chronological sampling of Vinoly's best work in the United States, Latin America, Europe, Asia, Africa and the Middle East. The large and small-scale projects encompass courthouses, private residences, athletic facilities, performing arts centres, museums and educational buildings. Illustrated with photographs, plans and drawings, and accented by Vinoly's personal reflection on his career, this volume brings together the achievements of one of today's most internationally acclaimed architects. **Kumba Africa iUniverse** 'KUMBA AFRICA', is a compilation of African Short Stories written as fiction by Sampson Ejiike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR. **The Official GNOME 2 Developer's Guide** Developers who write programs for GNOME use the GNOME API.
