VIRGIL, AENEID, 4.1-299

LATIN TEXT, STUDY QUESTIONS, COMMENTARY AND INTERPRETATIVE ESSAYS

Open Book Publishers Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both

A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.

A HISTORY

BECOMING CLITERATE

WHY ORGASM EQUALITY MATTERS--AND HOW TO GET IT

HarperOne We've been thinking about sex all wrong. Mainstream media, movies, and porn have taught us that sex = penis + vagina, and everything else is just secondary. Standard penetration is how men most reliably achieve orgasm. The problem is, women don't orgasm this way. We've separated our most reliable route to orgasm—clitoral stimulation—from how we feel we should orgasm—penetration. As a result, we've created a pleasure gap between women and men: 50% of 18-35-year-old women say they have trouble reaching orgasm with a partner 64% of women vs 91% of men said they had an orgasm at their last sexual encounter 55% of men vs. 4% of women say they usually reach orgasm during first-time hookup sex In *Becoming Cliterate*, psychology professor and human sexuality expert Dr. Laurie Mintz exposes the broader cultural problem that's perpetuating this gap, and what we can do about it. Pulling together evidence from biology, sociology, linguistics, and sex therapy into one comprehensive, accessible, and prescriptive book, *Becoming Cliterate* features: Cultural & historical analysis of female orgasm (spoiler: the problem's been going on for ages) An anatomy section (it's all custom under the hood) Proven techniques for cliterate sex (it starts with training the sex organ between your ears) A comprehensive final chapter for men (because you don't have to have a clitoris to be cliterate) By dispelling the lies, misunderstandings, and myths that have been holding us back, *Becoming Cliterate* tackles both personal and political problems and replaces them with updated outlooks and practical skills needed to change our collective perspective on sex. It's time to finally inform women and men on how to have satisfying experiences in bed that benefit both parties. The revolution is cuming—and *Becoming Cliterate* offers a radical, simple solution to progress and pleasure for all.

STRATEGEMATIA DE AQUIS URBIS ROMAE LL. II

Frontinus (Sextus Iulius, ca. AD 35-103) was a capable Roman civil officer and military commander. Praetor of the city in 70 and consul in 73 or 74, 98 and 100, he was, about the year 76, sent to Britain as governor. He quelled the Silures of Wales, and began to build a road through their territory; his place was taken by Agricola in 78. In 97 he was given the highly esteemed office of Manager of Aqueducts at Rome. He is known to have been an augur, being succeeded by his friend Pliny the Younger. The two sides of Frontinus' public career are reflected in his two surviving works. Stratagems, written after 84, gives examples of military stratagems from Greek and Roman history, for the instruction of Roman officers, in three books; the fourth book is concerned largely with military discipline. The Aqueducts of Rome, written in 97-98, gives some historical details and a description of the aqueducts for the water supply of the city, with laws relating to them. Frontinus aimed at being useful and writes in a rather popular style which is both simple and clear.

OLD LAWNMOWERS

Shire Publications First invented in 1830, the early lawn mower was hampered by the inadequacy of materials and machine tools available and its development and speed did not pick up until the introduction of chains and small lightweight petrol engines. This book traces the progress of the lawn mower from the early hand or animal powered mowers, through to steam, petrol and electric-powered modern machines.

URBAN DISASTERS AND THE ROMAN IMAGINATION

Walter de Gruyter GmbH & Co KG This book affords new perspectives on urban disasters in the ancient Roman context, attending not just to the material and historical realities of such events, but also to the imaginary and literary possibilities offered by urban disaster as a figure of thought. Existential threats to the ancient city took many forms, including military invasions, natural disasters, public health crises, and gradual systemic collapses brought on by political or economic factors. In Roman cities, the memory of such events left lasting imprints on the city in psychological as well as in material terms. Individual chapters explore historical disasters and their commemoration, but others also consider of the effect of anticipated and imagined catastrophes. They analyze the destruction of cities both as a threat to be forestalled, and as a potentially regenerative agent of change, and the ways in which destroyed cities are revisited – and in a sense, rebuilt— in literary and social memory. The contributors to this volume seek to explore the Roman conception of disaster in terms that are not exclusively literary or historical. Instead, they explore the connections between and among various elements in the assemblage of experiences, texts, and traditions touching upon the theme of urban disasters in the Roman world.

HOW I MET MYSELF LEVEL 3

Cambridge University Press "One icy winter's evening in Budapest, a man runs straight into John Taylor as he walks home through the narrow streets. John falls over into the snow and looks up at the man's face. 'I felt very afraid. Because what I saw was me. My face looking down at me. My mouth saying sorry.' Who is the man, and how will John's life change?"

VIRGIL, AENEID 11 (PALLAS & CAMILLA), 1-224, 498-521, 532-96, 648-89, 725-835. LATIN TEXT, STUDY AIDS WITH VOCABULARY, AND COMMENTARY

Saint Philip Street Press A dead boy (Pallas) and the death of a girl (Camilla) loom over the opening and the closing part of the eleventh book of the Aeneid. Following the savage slaughter in Aeneid 10, the book opens in a mournful mood as the warring parties revisit yesterday's killing fields to attend to their dead. One casualty in particular commands attention: Aeneas' protégé Pallas, killed and despoiled by Turnus in the previous book. His death plunges his father Evander and his surrogate father Aeneas into heart-rending despair - and helps set up the foundational act of sacrificial brutality that caps the poem, when Aeneas seeks to avenge Pallas by slaying Turnus in wrathful fury. Turnus' departure from the living is prefigured by that of his ally Camilla, a maiden schooled in the martial arts, who sets the mold for warrior princesses such as Xena and Wonder Woman. In the final third of Aeneid 11, she wreaks havoc not just on the battlefield but on gender stereotypes and the conventions of the epic genre, before she too succumbs to a premature death. In the portions of the book selected for discussion here, Virgil offers some of his most emotive (and disturbing) meditations on the tragic nature of human existence - but also knows how to lighten the mood with a bit of drag. This course book offers the original Latin text, vocabulary aids, study questions, and an extensive commentary. Designed to stretch and stimulate readers, Ingo Gildenhard's volume will be of particular interest to students of Latin studying for A-Level or on undergraduate courses. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and the most recent scholarly thought. King's College, Cambridge, has generously contributed to this publication. This work was published by Saint Philip Street Press pursuant to a Creative Commons license permitting commercial use.
