COPING POWER

PARENT GROUP WORKBOOK 8-COPY SET

[Oxford University Press](#) The Coping Power Program is designed for use with preadolescent and early adolescent aggressive children and their parents and is often delivered near the time of children's transition to middle school. Aggression is one of the most stable problem behaviors in childhood. If not dealt with effectively, it can lead to negative outcomes in adolescence such as drug and alcohol use, truancy and dropout, delinquency, and violence. This program has proven effective in helping to avoid these types of problems. The parent component of the program consists of 16 group meetings also held during the 5th and 6th grade school years. Parents are taught ways of reinforcing their children's positive behaviors, as well as effective discipline techniques for eliminating negative behaviors. Skills for improving family communication, providing academic support in the home, and building family cohesion are also a focus. Parents also learn how to give effective instructions and establish age-appropriate rules and expectations for their children at home. In addition to these basic parenting skills, the program describes relaxation techniques that parents can use to deal with their own stress. Tips for taking care of personal needs and effective time management strategies also help to ease the challenges of parenting an aggressive child.

TRADITIONS & ENCOUNTERS: A GLOBAL PERSPECTIVE ON THE PAST

McGraw-Hill Education Traditions & Encounters offers an inclusive vision of the global past—one that is meaningful and appropriate for the interdependent world of contemporary times. Given the diversity of human societies, gathering and organizing the sheer mass of information in a meaningful way is a daunting challenge for any world history survey course. The seven-part chronological organization enables students to understand the development of the world through time, while also exploring broader, big-picture thematic issues in world history. Through new and revised chapter-level and part-level features, the hallmark twin themes of traditions and encounters emerge in greater clarity than ever before in this sixth edition. As a result, students have resources that enable them to move beyond the facts of history and examine the past critically, analyze causes and effects, and recognize similarities and differences across world regions and time periods. By digging deeper into the implications of world history's stories—not just the who, the what, and the where, but also the why and the how—students can make sense of the human past. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.
