Stress-Free Navigation

Electronic and Traditional

**Bloomsbury Publishing** *You might think stress-free navigation sounds like an impossible paradox. But it need not be. All boaters, whether under sail or under power, need to be able to navigate safely on the water - both to keep themselves and their crew out of trouble and to avoid endangering others. Yet navigation has often been presented almost as a black art - complicated, full of tricky maths, and with alien concepts to get your head around. Step in 'Mr Stress-Free': having in his previous books presented techniques for sailing and motorboating in an accessible, manageable fashion, Duncan Wells now turns his attention to navigation. He makes concepts easy to understand and the practice of navigation perfectly achievable for all - with minimum stress. The book covers the basic introductory elements clearly and simply for novices, and progresses through more advanced techniques for experienced navigators, so that there is something for everyone, whatever their skill level. Diagrams, quick-*

reference tables and flowcharts, explanatory step-by-step photographs, box features, top tips and QR codes – giving access to explanatory videos – are all features that have been much appreciated by readers of Duncan's other top-selling titles.

## Rail Transport—Systems Approach

**Springer** This book shows how the systems approach is employed by scientists in various countries to solve specific problems concerning railway transport. In particular, the book describes the experiences of scientists from Romania, Germany, the Czech Republic, the UK, Russia, Ukraine, Lithuania and Poland. For many of these countries there is a problem with the historical differences between the railways. In particular, there are railways with different rail gauges, with different signaling and communication systems, with different energy supplies and, finally, with different political systems, which are reflected in the different approaches to the management of railway economies. The book's content is divided into two main parts, the first of which provides a systematic analysis of individual means of providing and maintaining rail transport. In turn, the second part addresses infrastructure and management development, with particular attention to security issues. Though primarily written for professionals involved in various problems concerning railway transport, the book will also benefit manufacturers, railway technical staff, managers, and students with transport specialties, as well as a wide range of readers interested in learning more about the current state of transport in different countries.

## Shadows in the Light

## DREAM CRUISES

## THE INSIDER'S GUIDE TO PRIVATE YACHT CHARTER VACATIONS

**iUniverse** *Tips for Booking Trips on All Budgets-from \$1,000 to \$1,000,000 "Kavin compares cruise ships and yacht charters to showcase the biggest advantage of the latter: personalized comfort." - Soundings "Charter cruising comes in many flavors, from fully crewed luxury megayachts to pilot-your-own bareboats, and Kim Kavin has sampled just about all of them." -Offshore Say good-bye to lengthy security lines, overpriced piña colodas, and jam-packed shore excursions. Never again will your cruise vacation include jostling with crowds, squishing into a kiddie-filled swimming pool, or rushing back from a land tour in time for a pre-assigned dinner seating on a massive, impersonal ship. Dream Cruises introduces you to the joys of private yacht charter vacations, a fast-growing and often surprisingly affordable alternative to cruise ships. With charters, you get the whole boat for your family and friends, with a crew catering only to you, and you go wherever you choose-from Alaska to the South Pacific. Based on first-hand experience as well as advice and information from sixty charter-industry experts worldwide, Dream Cruises explains which kinds of yachts are available, where to book them, how to find a trustworthy broker, what you can expect to pay, and much more. Why book another cabin when you can have the whole boat for yourself?*
