THE COMPLETE BOOK OF PONTIAC GTO

EVERY MODEL SINCE 1964

Motorbooks *The Complete Book of Pontiac GTO gives you a year-by-year, model-by-model exploration of the world's first muscle car, all in full color photography, most of which has never been published. When Pontiac created the original muscle car—the GTO—it reshaped the automotive world like a four-inch piston going through a three-inch cylinder bore. Everything changed the moment John Zachery DeLorean and his crew of hot-rodding miscreants bolted a big engine into a smaller car and created the 1964 GTO. Make no mistake: DeLorean and his partners in crime were genuine outlaws. The GTO broke so many of General Motors' corporate rules that the people responsible should have been fired. And they would have been, except the car was a hit. The Complete Book of Pontiac GTO explores every iteration of the first car created specifically for baby boomers. With rare photography from the archives of Hot Rod and Motor Trend magazines, this book is the complete resource for fans of of the world's first muscle car.*

Allen & Unwin *The FJ Holden. It's an unmistakable, much loved and unique symbol of Australia - right up there with the pavlova, Don Bradman's baggy green, or Christmas on the beach. But how did it get this way? Exactly how did an American car company so accurately grasp Australia's automotive pulse to create a car which is now an Australian motoring icon? Right from the beginning, Holden understood the importance of brand, the need to create a car 'for every purse and purpose'. The advent of the FJ Holden, seen as 'Australia's Own Car', revolutionised Australian automobility. Australians clamoured for the Holden not just because it was a (relatively) affordable car but because it was seen as symbolic of the new post-war era of increasing prosperity. Holden now enjoys a unique, iconic status in the automotive culture of Australia. In this fascinating book - part social history, part corporate history, part biography of a car - Wright tracks the elements that made General Motors Holden such a successful company, from its beginnings in the 1920s and the boom in car ownership in the 1950s right through to the present day, when a Holden car - an artistic re-invention of the much-loved 1953 FJ Holden - was the star car at the 2005 Australian International Motor Show. This is a must-read story of opportunity, inspiration, and business genius for all motoring enthusiasts, Holden fans and car buffs.*
