## Bossypants (Enhanced Edition)

Reagan Arthur Books **This enhanced edition features excerpts from the audio edition of Bossypants, recently named Audio Book of the Year! Before Liz Lemon, before "Weekend Update," before "Sarah Palin," Tina Fey was just a young girl with a dream: a recurring stress dream that she was being chased through a local airport by her middle-school gym teacher. She also had a dream that one day she would be a comedian on TV. She has seen both these dreams come true. At last, Tina Fey's story can be told. From her youthful days as a vicious nerd to her tour of duty on Saturday Night Live; from her passionately halfhearted pursuit of physical beauty to her life as a mother eating things off the floor; from her one-sided college romance to her nearly fatal honeymoon -- from the beginning of this paragraph to this**

final sentence. Tina Fey reveals all, and proves what we've all suspected: you're no one until someone calls you bossy. ## Red Dynamite

# Creationism, Culture Wars, and Anticommunism in America

Cornell University Press In **Red Dynamite**, Carl R. Weinberg argues that creationism's tenacious hold on American public life depended on culture-war politics inextricably embedded in religion. Many Christian conservatives were convinced that evolutionary thought promoted immoral and even bestial social, sexual, and political behavior. The "fruits" of subscribing to Darwinism were, in their minds, a dangerous rearrangement of God-given standards and the unsettling of traditional hierarchies of power. Despite claiming to focus exclusively on science and religion, creationists were practicing politics. Their anticommunist campaign, often infused with conspiracy theory, gained power from the fact that the Marxist founders, the early Bolshevik leaders, and their American allies were staunch evolutionists. Using the Scopes "Monkey" Trial as a starting point, **Red Dynamite** traces the politically explosive union of Darwinism and communism over the next century. Across those years, social evolution was the primary target of creationists, and their "ideas have consequences" strategy instilled fear that shaped the contours of America's culture wars. By taking the anticommunist arguments of creationists seriously, Weinberg reveals a neglected dimension of antievolutionism and illuminates a source of the creationist movement's continuing strength. Thanks to generous funding from Indiana University and its participation in TOME (Toward an Open Monograph Ecosystem), the ebook editions of this book are available as Open Access volumes from Cornell Open ([cornellopen.org](http://cornellopen.org)) and other repositories.

# Hunting for Silence

**British business mogul Rikkard Ambrose has departed London to face his arch-rival in a deadly game of espionage and intrigue at the Royal Court of France, leaving his lady love behind to knit socks and twiddle her thumbs. Left behind alone? That is not something Lilly Linton is willing to put up with! Determined to show her boss who's boss, she embarks on her most dangerous adventure yet, armed with the most powerful weapon of all: love-and, just in case, her trusted revolver. The 5th volume of Robert Thier's award-winning Storm and Silence series.**

# Brandwashed

Random House Australia **A shocking insider's look at how global giants conspire to obscure the truth and manipulate our minds. Marketing visionary Martin Lindstrom has been on the front lines of the branding wars for over twenty years. Here, he turns the spotlight on his own industry, drawing on all he has witnessed behind closed doors, exposing for the first time the full extent of the psychological tricks and traps that companies devise to win our hard-earned dollars. Picking up from where Vance Packard's bestselling classic, The Hidden Persuaders, left off more than half-a-century ago, Lindstrom reveals: New findings that reveal how advertisers and marketers intentionally target children at an alarmingly young age - starting when they are still in the womb! Shocking results of an fMRI study which uncovered what heterosexual men really think about when they see sexually provocative advertising (hint: it isn't their girlfriends). How marketers and retailers stoke the flames of public panic and capitalize on paranoia over global contagions, extreme weather events, and food contamination scares. The first ever neuroscientific evidence proving how addicted we all are to our iPhones and our Blackberry's (and the shocking reality of cell phone addiction - it can be harder to shake than addictions to drugs and alcohol). How companies of all stripes are secretly mining our digital footprints to uncover some of the most intimate details of our private lives, then using that information to target us with ads and offers 'perfectly tailored' to our psychological profiles. How certain companies, like the maker of one popular lip balm, purposely adjust their formulas in order to make their products chemically addictive. What a 3-month long guerrilla marketing experiment, conducted specifically for this book, tells us about the most powerful hidden persuader of them all. And much, much more. This searing expose introduces a new class of tricks, techniques, and seductions - the Hidden Persuaders of the 21st century- and shows why they are more insidious and pervasive than**

ever.

## Profiling Machines

## Mapping the Personal Information Economy

[MIT Press](#) The cultural and media studies perspectives on the technology of electronic consumer profiling. In this book Greg Elmer brings the perspectives of cultural and media studies to the subject of consumer profiling and feedback technology in the digital economy. He examines the multiplicity of processes that monitor consumers and automatically collect, store, and cross-reference personal information. When we buy a book at Amazon.com or a kayak from L.L. Bean, our transactions are recorded, stored, and deployed to forecast our future behavior—thus we may receive solicitations to buy another book by the same author or the latest in kayaking gear. Elmer charts this process,

explaining the technologies that make it possible and examining the social and political implications. Elmer begins by establishing a theoretical framework for his discussion, proposing a "diagrammatic approach" that draws on but questions Foucault's theory of surveillance. In the second part of the book, he presents the historical background of the technology of consumer profiling, including such pre-electronic tools as the census and the warranty card, and describes the software and technology in use today for demographic mapping. In the third part, he looks at two case studies—a marketing event sponsored by Molson that was held in the Canadian Arctic (contrasting the attendees and the indigenous inhabitants) and the use of "cookies" to collect personal information on the World Wide Web, which (along with other similar technologies) automate the process of information collection and cross-referencing. Elmer concludes by considering the politics of profiling, arguing that we must begin to question our everyday electronic routines.

# Dancing in Red Shoes Will Kill You

Inanna Poetry and Fiction Series **Through the braided narratives of three spirited characters, this novel bears witness to the infamous crime that metastasized uber-civilized Montreal, the "Montreal Massacre," when on December 6, 1989, fourteen female engineering students were murdered in their classrooms. The novel focuses on the lives of Deirdre, a first-year female engineering student at Aquitaine, who takes a Women's Studies course as an elective and Marin, a student at Cantech who ponders what it means to be a female engineering student in such a chilly gendered climate. Everyone wants Marin at her party. Bohemian and beautiful, she is as passionate about constructing sets for theater and opera as she is about Trey, the one man she can finally trust. Deirdre is earnest and perceptive, but too naïve to know that frat boys can be dangerous, and she is drugged and raped at a party in an infamous men's residence. Jenean, a francophone female journalist working in both languages, is feisty and urbane, a feminist who longs for peace between the sexes even as she ponders splitting from her live-in partner. She finds herself on the killer's list of 19 women he would have liked to kill. Set in that tragic historic moment, on two college campuses fraught with gendered antagonisms, this novel tells the story of the victims, following the imagined lives of these women as they happen headlong into the December 6 tragedy -- a story disarmingly accurate that explores the profundity of deepest love and unimaginable loss. It follows them through a semester of college, from the crisp autumnal beginnings to that tragic winter. It does not end there. It then takes up with the families and survivors, examining the enduring effects of the massacre's 24 minutes of inarticulate inhumanity.**

# Project Based Teaching

## How to Create Rigorous and Engaging Learning Experiences

**ASCD** It's no secret that in today's complex world, students face unparalleled demands as they prepare for college, careers, and active citizenship. However, those demands won't be met without a fundamental shift from traditional, teacher-centered instruction toward innovative, student-centered teaching and learning. For schools ready to make such a shift, project-based learning (PBL) offers a proven framework to help students be better equipped to tackle future challenges. Project Based Teachers encourage active questioning, curiosity, and peer learning; create learning environments in which every student has a voice; and have a mastery of content but are also comfortable responding to students' questions by saying, "I don't know. Let's find out together." In this book, Suzie Boss and John Larmer build on the framework for Gold Standard PBL originally presented in *Setting the Standard for Project Based Learning* and explore the seven practices integral to Project Based Teaching: Build the Culture Design and Plan Align to Standards Manage Activities Assess Student Learning Scaffold Student Learning Engage and Coach For each practice, the authors present a wide range of practical strategies and include teachers' reflections about and suggestions from their classroom experiences. This book and a related series of free videos provide a detailed look at what's happening in PBL classrooms from the perspective of the Project Based Teacher. Let's find out together. ## Rum and Notes

Elise Faber **My life was boring until I met him. Painfully tedious, pathetically lonely, and I absolutely hated it. But I was too scared to do anything about it. Too scared to change . . . at least until I met Kace. I should have been terrified of him—scared of his size (he towered over my short, curvy self), freaked out by the fierce tats covering his arms and torso (they even crawled up his neck), and definitely frightened by the angry scowl he unleashed on anyone who dared to disrupt him (though this happened rarely, it still did happen). Except, Kace seemed to like me—shy, boring, socially inept me. He couldn't change the tats or the towering, but he rarely unleashed his trademark scowl on me. Okay, so maybe it was more like he tolerated me, but regardless, Kace didn't seem to care that I hung around the bar he worked at, putting my night owl tendencies to work as I wrote. See, my work was the only place I explored. My safe place to write as dirty and steamy and kinky of books as I wanted. My readers loved them—loved the hot sex, the tough alphas,**

the guaranteed happy endings. As thus, I made good money, only somewhat because I was a decent writer, but mostly because my imagination was very active, beyond active . . . some might even say too active. As for me personally? I'd never experienced anything close to the types of things I wrote. But I'd decided it was time to change that. With scowly, sexy, terrifying Kace.

## The Beast

Wicked Villains Once upon a time, I fell in love with two men. Their feelings for me were matched only by their hatred for each other. Gaeton, with his brash charm and casual cruelty. Now, my sisters have tasked me with securing our power base, no matter the cost. I will do anything for my family—even if it means agreeing to the terms set by Gaeton and Beast. The three of us.
