Seven Games: A Human History

W. W. Norton & Company A group biography of seven enduring and beloved games, and the story of why—and how—we play them. Checkers, backgammon, chess, and Go. Poker, Scrabble, and bridge. These seven games, ancient and modern, fascinate millions of people worldwide. In *Seven Games*, Oliver Roeder charts their origins and historical importance, the delightful arcana of their rules, and the ways their design makes them pleasurable. Roeder introduces thrilling competitors, such as evangelical minister Marion Tinsley, who across forty years lost only three games of checkers; Shusai, the Master, the last Go champion of imperial Japan, defending tradition against “modern rationalism”; and an IBM engineer who created a backgammon program so capable at self-learning that NASA used it on the space shuttle. He delves into the history and lore of each game: backgammon boards in ancient Egypt, the Indian origins of chess, how certain shells from a particular beach in Japan make the finest white Go stones. Beyond the cultural and personal stories, Roeder explores why games, seemingly trivial pastimes, speak so deeply to the human soul. He introduces an early philosopher of games, the aptly named Bernard Suits, and visits an Oxford cosmologist who has perfected a computer that can effectively play bridge, a game as complicated as human language itself. Throughout, Roeder tells the compelling story of how humans, pursuing scientific glory and competitive advantage, have invented AI programs better than any human player, and what that means for the games—and for us. Funny, fascinating, and profound, *Seven Games* is a story of obsession, psychology, history, and how play makes us human.

Index, a History of The

A Bookish Adventure from Medieval Manuscripts to the Digital Age

W. W. Norton A playful history of the humble index and its outsized effect on our reading lives. Most of us give little thought to the back of the book--it's

just where you go to look things up. But as Dennis Duncan reveals in this delightful and witty history, hiding in plain sight is an unlikely realm of ambition and obsession, sparring and politicking, pleasure and play. In the pages of the index, we might find Butchers, to be avoided, or Cows that sh-te Fire, or even catch Calvin in his chamber with a Nonne. Here, for the first time, is the secret world of the index: an unsung but extraordinary everyday tool, with an illustrious but little-known past. Charting its curious path from the monasteries and universities of thirteenth-century Europe to Silicon Valley in the twenty-first, Duncan uncovers how it has saved heretics from the stake, kept politicians from high office, and made us all into the readers we are today. We follow it through German print shops and Enlightenment coffee houses, novelists' living rooms and university laboratories, encountering emperors and popes, philosophers and prime ministers, poets, librarians and--of course--indexers along the way. Revealing its vast role in our evolving literary and intellectual culture, Duncan shows that, for all our anxieties about the Age of Search, we are all index-rakers at heart--and we have been for eight hundred years.

The Wall Street Journal Guide to Business Schools

Simon and Schuster Most people return to business school for an M.B.A. degree to increase their marketability in a highly competitive business environment. How well they achieve their goal depends in large measure on how the business world views the schools they attended. For the first time ever, The Wall Street Journal, the world's most respected business publication, along with Harris Interactive, the organization that created the well-known Harris poll, tells you what corporate recruiters from a wide variety of fields think about the M.B.A. programs they know so intimately. Nearly two years in the making, this is the only major survey that focuses exclusively on the opinions of recruiters -- the buyers of M.B.A. talent. Twenty-seven variables for each school were evaluated, variables that drive a recruiter to hire a particular graduate, such as their company's long-term success with a school's M.B.A. graduates and the students' communication and interpersonal skills, analytical and problem-solving abilities and leadership potential. This groundbreaking volume used the evaluations of more than sixteen hundred recruiters, appraising twenty-seven variables for more than two hundred schools in order to arrive at statistically valid ratings for fifty U.S. and international M.B.A. programs, as well as recruiters' observations on thirty-five more business schools and brief profiles on an additional seventy schools. In addition to the overall rankings, The Wall Street Journal Guide to Business Schools ranks the best public and private schools, the top schools by region, the top large and small schools, the top schools on top attributes, schools that are "hidden gems" and business schools by industry. Also evaluated are schools'

academic excellence, the collegiality (and competitiveness) of each school and the most important school attributes. The corporate recruiters even list their personal favorites...and go on the record with extremely candid observations about both the business schools and their graduates. The first guide to business schools published exclusively as an e-book, *The Wall Street Journal Guide to Business Schools* will prove to be an invaluable resource for prospective students, school faculty and administrators -- and recruiters themselves.

The Goodbye Coast

A Philip Marlowe Novel

Mulholland Books In this colorful reinvention of a classic, Philip Marlowe finds himself tangled in two missing persons cases; “Ide has chiseled off the rust while keeping the soul of one of American fiction’s icons.” (Dennis Lehane) The seductive and relentless figure of Raymond Chandler’s detective, Philip Marlowe, is vividly re-imagined in present-day Los Angeles. Here is a city of scheming Malibu actresses, ruthless gang members, virulent inequality, and washed-out police. Acclaimed and award-winning novelist Joe Ide imagines a Marlowe very much of our time: he’s a quiet, lonely, and remarkably capable and confident private detective, though he lives beneath the shadow of his father, a once-decorated LAPD homicide detective, famous throughout the city, who’s given in to drink after the death of Marlowe’s mother. Marlowe, against his better judgement, accepts two missing person cases, the first a daughter of a faded, tyrannical Hollywood starlet, and the second, a British child stolen from his mother by his father. At the center of *The Goodbye Coast* is Marlowe’s troubled and confounding relationship with his father, a son who despises yet respects his dad, and a dad who’s unable to hide his bitter disappointment with his grown boy. Steeped in the richly detailed ethnic neighborhoods of modern LA, Ide’s *The Goodbye Coast* is a bold recreation that is viciously funny, ingeniously plotted, and surprisingly tender.

Buster Keaton

A Filmmaker's Life

Knopf From acclaimed cultural and film historian James Curtis—a major biography, the first in more than two decades, of the legendary comedian and filmmaker who elevated physical comedy to the highest of arts and whose ingenious films remain as startling, innovative, modern—and irresistible—today as they were when they beguiled audiences almost a century ago. "It is brilliant—I was totally absorbed, couldn't stop reading it and was very sorry when it ended."—Kevin Brownlow It was James Agee who christened Buster Keaton "The Great Stone Face." Keaton's face, Agee wrote, "ranked almost with Lincoln's as an early American archetype; it was haunting, handsome, almost beautiful, yet it was also irreducibly funny. Keaton was the only major comedian who kept sentiment almost entirely out of his work and . . . he brought pure physical comedy to its greatest heights." Mel Brooks: "A lot of my daring came from Keaton." Martin Scorsese, influenced by Keaton's pictures in the making of *Raging Bull*: "The only person who had the right attitude about boxing in the

movies for me," Scorsese said, "was Buster Keaton." Keaton's deadpan stare in a porkpie hat was as recognizable as Charlie Chaplin's tramp and Harold Lloyd's straw boater and spectacles, and, with W. C. Fields, the four were each considered a comedy king--but Keaton was, and still is, considered to be the greatest of them all. His iconic look and acrobatic brilliance obscured the fact that behind the camera Keaton was one of our most gifted filmmakers. Through nineteen short comedies and twelve magnificent features, he distinguished himself with such seminal works as *Sherlock Jr.*, *The Navigator*, *Steamboat Bill, Jr.*, *The Cameraman*, and his masterpiece, *The General*. Now James Curtis, admired biographer of Preston Sturges ("definitive"—*Variety*), W. C. Fields ("by far the fullest, fairest and most touching account we have yet had. Or are likely to have"—Richard Schickel, front page of *The New York Times Book Review*), and Spencer Tracy ("monumental; definitive"—*Kirkus Reviews*), gives us the richest, most comprehensive life to date of the legendary actor, stunt artist, screenwriter, director—master.

Why the Subscription Model Will Be Your Company's Future - and What to Do About It

Penguin A USA Today bestseller! Companies like Netflix, Spotify, and Salesforce are just the tip of the iceberg for the subscription model. The real transformation--and the real opportunity--is just beginning. Subscription companies are growing nine times faster than the S&P 500. Why? Because unlike product companies, subscription companies know their customers. A happy subscriber base is the ultimate economic moat. Today's consumers prefer the advantages of access over the hassles of maintenance, from transportation (Uber, Surf Air), to clothing (Stitch Fix, Eleven James), to razor blades and makeup (Dollar Shave Club, Birchbox). Companies are similarly demanding easier, long-term solutions, trading their server rooms for cloud storage solutions like Box. Simply put, the world is shifting from products to services. But how do you turn customers into subscribers? As the CEO of the world's largest subscription management platform, Tien Tzuo has helped hundreds of companies transition from relying on individual sales to building customer-centric, recurring-revenue businesses. His core message in *Subscribed* is simple: Ready or not, excited or terrified, you need to adapt to the Subscription Economy -- or risk being left behind. Tzuo shows how to use subscriptions to build lucrative, ongoing one-on-one relationships with your customers. This may require reinventing substantial parts of your company, from your accounting practices to your entire IT architecture, but the payoff can be enormous. Just look at the case studies: * Adobe transitions from selling enterprise software licenses to offering cloud-based solutions for a flat monthly fee, and quadruples its valuation. * Fender evolves from selling guitars one at a time to creating lifelong musicians by teaching beginners to play, and keeping them inspired for life. * Caterpillar uses subscriptions to help solve problems -- it's not about how many tractors you can rent, but how much dirt you need to move. In *Subscribed*, you'll learn how these companies made the shift, and how you can transform your own product into a valuable service with a practical, step-by-step framework. Find out how you can prepare and prosper now, rather than trying to catch up later.

War At The Wall Street Journal

Inside the Struggle To Control an American Business Empire

HarperCollins **A tale about big business, an imploding dynasty, a mogul at war, and a deal that epitomized an era of change** While working at the Wall Street Journal, Sarah Ellison won praise for covering the \$5 billion acquisition that transformed the pride of Dow Jones and the estimable but eccentric Bancroft family into the jewel of Rupert Murdoch's kingdom. Here she expands that story, using her knowledge of the paper and its people to go deep inside the landmark transaction, as no outsider has or can, and also far beyond it, into the rocky transition when Murdoch's crew tussled with old Journal hands and geared up for battle with the New York Times. With access to all the players, Ellison moves from newsrooms to estates and shows Murdoch, finally, for who he is—maneuvering, firing, undoing all that the Bancrofts had protected. Her superlative account transforms news of the deal into a timeless chronicle of American life and power.

Mr. Humble and Dr. Butcher

A Monkey's Head, the Pope's Neuroscientist, and the Quest to Transplant the Soul

Simon and Schuster The “delightfully macabre” (The New York Times) true tale of a brilliant and eccentric surgeon...and his quest to transplant the human soul. In the early days of the Cold War, a spirit of desperate scientific rivalry birthed a different kind of space race: not the race to outer space that we all know, but a race to master the inner space of the human body. While surgeons on either side of the Iron Curtain competed to become the first to transplant organs like the kidney and heart, a young American neurosurgeon had an even more ambitious thought: Why not transplant the brain? Dr. Robert White was a friend to two popes and a founder of the Vatican’s Commission on Bioethics. He developed lifesaving neurosurgical techniques still used in hospitals today and was nominated for the Nobel Prize. But like Dr. Jekyll before him, Dr. White had another identity. In his lab, he was waging a battle against the limits of science and against mortality itself—working to perfect a surgery that would allow the soul to live on after the human body had died. This “fascinating” (The Wall Street Journal), “provocative” (The Washington Post) tale follows his decades-long quest into tangled matters of science, Cold War politics, and faith, revealing the complex (and often murky) ethics of experimentation and remarkable innovations that today save patients from certain death. It’s a “masterful” (Science) look at our greatest fears and our greatest hopes—and the long, strange journey from science fiction to science fact.

Molly

A compelling story of characters enduring various hardships in rural New Mexico. This debut novel tells the story of nine-year-old Raymond, nicknamed "Ray Moon" by Molly, his adoptive caretaker, a waitress, and the former partner of his recently deceased uncle. These two outcasts rely

on one another for survival, and their bond forms the heart of this book. Living in a trailer atop a mesa in the high desert of New Mexico in 1968, Raymond ages quickly amid hostile circumstances. With the help of a keen imagination that Molly inspires, he navigates various forms of loss and exploitation amid enduring hardship. Kevin Honold's deft and trance-like prose is interspersed with sharp insights and brings attention to the displacement of Native Americans, the hardships of capitalism, the ills of misogyny, and the raw hurt of living a displaced or marginalized life. This is a story of endurance, memory, and unceasing change. Molly was selected by Dan Chaon as the winner of the 2020 Autumn House Fiction Prize.
