Harnessing Knowledge, Innovation and Competence in Engineering of Mission Critical Systems

BoD - Books on Demand This book explores the critical role of acquisition, application, enhancement, and management of knowledge and human competence in the context of the largely digital and data/information dominated modern world. Whilst humanity owes much of its achievements to the distinct capability to learn from observation, analyse data, gain insights, and perceive beyond original realities, the systematic treatment of knowledge as a core capability and driver of success has largely remained the forte of pedagogy. In an increasingly intertwined global community faced with existential challenges and risks, the significance of knowledge

creation, innovation, and systematic understanding and treatment of human competence is likely to be humanity's greatest weapon against adversity. This book was conceived to inform the decision makers and practitioners about the best practice pertinent to many disciplines and sectors. The chapters fall into three broad categories to guide the readers to gain insight from generic fundamentals to discipline-specific case studies and of the latest practice in knowledge and competence management.

Lockheed SR-71 Blackbird

Bloomsbury Publishing The SR-71 represents the very pinnacle of Cold War aircraft design and it has become an aviation icon. Together with its predecessor, the A-12, the Blackbird was a giant leap into the technical unknown and the design employed many forms of new technology made necessary by the excesses of speed, altitude and temperature to which the aircraft was subjected. Throughout its 34-year Air Force career, the SR-71 proved itself to be the world's fastest and highest flying operational manned aircraft. It set a number of world records for altitude and speed, including an absolute altitude record of 85,069ft on 28 July 1974, and an absolute speed record of 2,193.2mph the same day. This truly was a unique and ground-breaking aircraft, whose fascinating design history is explored here in full and illuminated with photographs and detailed technical illustrations.

Millionaire by Thirty

The Quickest Path to Early Financial Independence

Business Plus Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had

little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

We Fight Monsters

Wisdom and Inspiration That Speaks to the Warrior's Soul

Quotes, maxims, short stories to provoke thought and give tired warrior's purpose and direction. The author is the founder of the website Spotterup.com. Spotter Up has 35+ writers who are accomplished former or active duty members of the Special Operations community (Green Berets, Navy SEALs, Rangers, Marine Scout Snipers, S.W.A.T, etc.), master-level shooters, special agents, case officers, athletes, and outdoor enthusiasts who like to share their knowledge with anyone interested in learning more about subjects such as fitness, nutrition, shooting, martial arts, mindset, survival, and far more. The writers of Spotter Up have completed nearly 900+ gear reviews on subjects such as: footwear, body, tactical clothing, armor, optics, and firearms and is known as a credible site for its opinions by the tactical industry. Spotter Up is about "spotting" a problem and coming up with solutions. Spotter Up promotes the idea of the classical "whole" man found in ancient texts. For our modern day he is a person who aspires to be the GUNFIGHTER, WRITER, WILDMAN, MONK: Man of Action, Man of Intellect, Man of Emotion, Man of Spirit. Consider the Athenian ideal of a balanced education from the book Greek Realities: Life and Thought in Ancient Greece, By Finley Hooper "They could play some flute but should not neglect wrestling. They avoided the excesses of life. They might focus on music or philosophy but spent enough time so that their bodies did not become soft." Spotter Up is for anyone, whether they are military, law-enforcement, emergency response or not, that is searching for ways to become more well-rounded. We Fight Monsters is a collection of quotes, maxims, poems and more written and posted by the author originally on Instagram, over a four-year period of time, as a way to provoke thought, and simultaneously inspire

men and women. The author of *We Fight Monsters* hopes it helps readers transcend the ordinary world by relishing the unexpected. The book was written because many of the followers of Spotter Up's social media sites stated, "the writing got me through some very hard times." The cover illustration is based off the Greek Hydra and the Hercules myth. Man has an internal struggle after he's battled a beast, and sometimes he must battle the beast within himself. He isn't a demigod. He's just a regular Joe who is a hero to many, that lives to win against evil. Maybe he's a Marine who did several deployments and lost some friends, maybe she's a cop fighting crime on the streets. The illustration symbolizes the brotherhood of man, (men and women), that fight the good fight despite experiencing PTSD, physical injuries, loss of friends, lovers etc. "WE FIGHT MONSTERS. I'm not afraid of anything in this world that's been seen. I have scars on the inside. My badges of honor. There's a light inside my heart; it's for others to see. I live to show the way to those lost and in pain. And you? Walk with magnificence. Cock of the walk. Lead the way or follow those who use their pain to fight monsters and the injustices in this world" ~Michael Kurcina.

The Trade in Small Arms and Light Weapons on the Dark

Web

A Study

This document summarizes the main findings and implications of the first empirical study investigating the scale and scope of arms trafficking on the dark web, which was conducted by RAND Europe and the University of Manchester from September 2016 to July 2017. There is an ongoing debate over the extent to which online black markets on the so-called "dark web," the part of the Internet not searchable by traditional search engines and hidden behind anonymity software, facilitate arms trafficking. Details have emerged in the media following the Munich shooting in 2016 linking the weapons used by the attacker to vendors on dark web marketplaces (also known as cryptomarkets). Some media reports have also linked the Paris terrorist attacks in November 2015 to these platforms. While these reports appear to have raised concerns about the role of such dark web markets in arms trade, evidence on the subject is largely anecdotal, based on secondary data as reported after events such as terrorist attacks or successful law enforcement operations.

Guncrank Diaries

The complete collection of John Connor's original Guncrank Diaries is all right here including excuses, alibis, pithy observations and general ephus. John Connor is a soldier, cop, father, lover of dogs, protector of the defenseless, guardian of what's right - and a fierce foe of what's wrong. He's fought evil, brutality and tyranny in the jungles of Vietnam, as a cop on the city streets of a major Southern California city, and in a host of god-forsaken places around the world. His friends often have very unusual names, and all remain fiercely loyal - and for very good reasons. This book isn't about what you think, either. Not at all. It's not just simply a series of columns John wrote for the pages of American Handgunner Magazine. They're stories, yes, but each has a meaning stronger than the words on the paper convey. Each one will drag deep-rooted, powerful memories from deep within you about things that were, or might have been. The effect this modest book will have on you won't buff out easily. Be prepared to be changed. What readers say about Guncrank Diaries: "Darn it Connor, stop it-stop it-stop it... my old eyes are not as tough as they used to be. Your story of the custom colt was just wonderful. I forwarded it to my wife ... now her eyes are leaking too. so just stop it!" Gary M. "I don't give a damn if the writer of Guncrank is or was a super secret special forces tacti-cool bad ass or if he was a truck driver or a mess sergeant. I like what he writes. I enjoy it because it is entertaining. And its usually just plain funny. So whoever you are thanks, I appreciate what your do or did." Just an Army Guy "Like fine wine, Connor's insights age well and remain cogent. More please." Doc H
