Once you figure out what you want from dating, she shows you exactly how to get it. The Game of Desire empowers you to take the lead, learn your strengths, and identify and correct your weaknesses, all the while getting inspired watching a group of women learn how to succeed in today’s dating pool. WANTING

THE POWER OF MIMETIC DESIRE IN EVERYDAY LIFE

St. Martin's Press * Financial Times Business Book of the Month * Next Big Idea Club Nominee * A groundbreaking exploration of why we want what we want, and a toolkit for freeing ourselves from chasing unfulfilling desires. Gravity affects every aspect of our physical being, but there's a psychological force just as powerful—yet almost nobody has heard of it. It's responsible for bringing groups of people together and pulling them apart, making certain goals attractive to some and not to others, and fueling cycles of anxiety and conflict. In *Wanting*, Luke Burgis draws on the work of French polymath René Girard to bring this hidden force to light and reveals how it shapes our lives and societies. According to Girard, humans don't desire anything independently. Human desire is mimetic—we imitate what other people want. This affects the way we choose partners, friends, careers, clothes, and vacation destinations. Mimetic desire is responsible for the formation of our very identities. It explains the enduring relevancy of Shakespeare's plays, why Peter Thiel decided to be the first investor in Facebook, and why our world is growing more divided as it becomes more connected. *Wanting* also shows that conflict does not arise because of our differences—it comes from our sameness. Because we learn to want what other people want, we often end up competing for the same things. Ignoring our large similarities, we cling to our perceived differences. Drawing on his experience as an entrepreneur, teacher, and student of classical philosophy and theology, Burgis shares tactics that help turn blind wanting into intentional wanting—not by trying to rid ourselves of desire, but by desiring differently. It's possible to be more in control of the things we want, to achieve more independence from trends and bubbles, and to find more meaning in our work and lives. The future will be shaped by our desires. *Wanting* shows us how to desire a better one.

BEING HAPPY (EVEN WHEN YOU DON'T GET WHAT YOU WANT)

THE TRUTH ABOUT MANIFESTING AND DESIRES

Endless Satsang Foundation, Inc We expect that getting what we want will finally make us happy, but what we find is that it mostly just leads to wanting more or wanting something different. Our desires toss us to and fro until we tire of this and begin to question the value of following our desires. *Being Happy (Even When You Don't Get What You Want)* will help you understand desire and its purpose in your life. It will also help you discriminate between your Heart's desires and the ego's and to relate to the ego's desires in a way that reduces suffering and increases joy. By pointing out the myths about desire that keep us tied to our ego's desires and the suffering they cause, *Being Happy (Even When You Don't Get What You Want)* will help you be happy regardless of your desires and whether you are attaining them. So it is also about spiritual freedom, or liberation, which comes from following the Heart, our deepest desires, instead of the ego's desires. It is about becoming a lover of life rather than a desirer. A review from Neale Donald Walsch, author of *Conversations with God*: "Conversations with God says that happiness is not getting what you want, it is wanting what you get. Others have made the same observation, and in fact, this thought seems to be as old as time. Still, it is good to hear it again, to visit it once more, to connect with the wisdom yet one more time. And few books do as good a job, as quickly, of reconnecting us with that wisdom than this one by Gina Lake. This book had a lasting impact on me. I highly recommend it.... It offers a simple, accessible, articulate, and interesting take on the very human experience of desire and gives us the tools to make clear choices about how we want to live our lives. An excellent read." This book was formerly titled *Anatomy of*

WILD AT HEART

DISCOVERING THE SECRET OF A MAN'S SOUL

Harper Collins John Eldredge revises and updates his best-selling, renowned Christian classic. God designed men to be dangerous, says John Eldredge. Simply look at the dreams and desires written in the heart of every boy: To be a hero, to be a warrior, to live a life of adventure and risk. Sadly, most men abandon those dreams and desires-aided by a Christianity that feels like nothing more than pressure to be a "nice guy." It is no wonder that many men avoid church, and those who go are often passive and bored to death. In this provocative book, Eldredge gives women a look inside the true heart of a man and gives men permission to be what God designed them to be-dangerous, passionate, alive, and free.

Want Me is a gift." —Rebecca Traister, New York Times bestselling author of Good and Mad Tracy Clark-Flory grew up wedged between fizzy declarations of "girl power" and the sexualized mandates of pop culture. It was "broken glass ceilings" and Girls Gone Wild infomercials. With a vague aim toward sexual empowerment, she set out to become what men wanted--or, at least, understand it. In her moving, fresh, and darkly humorous memoir, she shares the thrilling and heartbreaking events that led to discovering conflicting truths about her own desire, first as a woman coming of age and then as a veteran journalist covering the sex beat. Tracing her experiences on adult film sets, at fetish conventions, and during an orgasmic meditation retreat (to name just a few), Clark-Flory weaves in statistics and expert voices to reckon with our views on sexual freedom. Want Me is about looking for love, sex, and power as a woman in a culture that is "freer" than ever, yet defined by unprecedented pressures and enduring constraints. This is a first-hand example of one woman who navigated the mixed messages of sexual expectation, only to discover the complexity of her own wants and our collective need to change the limitations of that journey.

WE WANT WHAT WE WANT

STORIES

Knopf An Esquire Best Book of Summer • A collection of glittering, surprising, darkly funny stories of people testing the boundaries of their lives—from the award-winning author of Dual Citizens, who is "spoken of in the same reverent breath as Lorrie Moore and Joy Williams" (Heidi Julavits, author of The Folded Clock). In the mordantly funny "Money, Geography, Youth," Vanessa arrives home from a gap year volunteering in Ghana to find that her father is engaged to her childhood best friend. Unable to reconcile the girl she went to dances with in the eighth grade and the woman in her father's bed, Vanessa turns to a different old friendship for her own, unique diversion. In the subversive "The Brooks Brothers Guru," Amanda drives to upstate New York to rescue her gawky cousin from a cult, only to discover clean-cut, well-dressed men living in a beautiful home, discussing the classics, and drinking sophisticated cocktails, moving her to wonder what freedoms she might willingly trade away for a life of such elegant comfort. And in "The Universal Particular," Tamar welcomes her husband's young stepcousin into their home, imagining they are saving this young woman from Somalia by way

of Stockholm, only to find their cool suburban life of potlucks and air-conditioning knocked askew in ways they cannot quite understand. Populated with imperfect families, burned potential, and inescapable old flames, the thirteen stories in *We Want What We Want* are, each one, diamond-sharp—sparkling with pain, humor, and beauty.

THE MAIDEN OF ALL OUR DESIRES

A NOVEL

Simon and Schuster For fans of Lauren Groff, Maggie O'Farrell, and Emma Donoghue, a devastating novel of love, intrigue, and community in a time of sickness that remade the world Fourteenth-century Europe. The Black Death has killed half the known world, and in an isolated convent, a small group of nuns spends their days in work, austerity, and devotion, chanting the Liturgy of the Hours. But their community is threatened. Rumors of heresy and a scandalous Book of Ursula, based on the teachings of the charismatic former abbess and founder of the order, have prompted the male church hierarchy to launch an investigation. The priest assigned to minister to the nuns, Father Francis, who is wracked by guilt for an unspeakable crime committed during the lawless plague years, was no friend of Ursula and can't be counted on to defend the order. Disrespect and rebellion infect some novices, and the youngest among them pines for the bishop's chief inquisitor. And Mother John, the convent's aging spiritual leader, fears she's losing her mind after experiencing a vision that brings back her own rebellious past. As events unfold over the course of a single day, a blizzard that has swept across Europe will break over the convent, endangering the women there and testing their faith. THE JOURNEY OF DESIRE

SEARCHING FOR THE LIFE WE ALWAYS DREAMED OF

Thomas Nelson Sometimes it seems we just can't get what we want. Circumstances thwart our best-laid plans. We struggle to live a heartfelt life. Worst of all, says Eldredge, the modern church mistakenly teaches its people to kill desire (calling it sin) and replace it with duty or obligation (calling it sanctification). As a result, at best Christians tend to live safe, boring lives of resignation. At worst, their desire eventually breaks out in destructive ways such as substance abuse, affairs, and pornography addictions. In *The Journey of Desire*, Eldredge invites readers to rediscover God-given desire and to search again for the life they once dreamed of.

ON DESIRE

WHY WE WANT WHAT WE WANT

Oxford University Press A married person falls deeply in love with someone else. A man of average income feels he cannot be truly happy unless he owns an expensive luxury car. A dieter has an irresistible craving for ice cream. Desires often come to us unbidden and unwanted, and they can have a dramatic impact, sometimes changing the course of our lives. In On Desire, William B. Irvine takes us on a wide-ranging tour of our impulses, wants, and needs, showing us where these feelings come from and how we can try to rein them in. Spicing his account with engaging observations by writers like Seneca, Tolstoy, and Freud, Irvine considers the teachings of Buddhists, Hindus, the Amish, Shakers, and Catholic saints, as well as those of ancient Greek and Roman and modern European philosophers. Irvine also looks at what modern science can tell us about desire--such as what happens in the brain when we desire something and how animals evolved particular desires--and he advances a new theory about how desire itself evolved. Irvine also suggests that at the same time that we gained the ability to desire, we were "programmed" to find some things more desirable than others. Irvine concludes that the best way to attain lasting happiness is not to change the world around us or our place in it, but to change ourselves. If we can convince ourselves to want what we already have, we can dramatically enhance our happiness. Brimming with wisdom and practical advice, On Desire offers a thoughtful approach to controlling unwanted passions and attaining a more meaningful life.

WORK WANT WORK

LABOUR AND DESIRE AT THE END OF CAPITALISM

Zed Books Ltd. Work Want Work considers in captivating detail how a logic of work has become integral to everything we do, even as the place of formal work has become increasingly precarious. With reference to sociological data, philosophy, political theory, legislation, the testimonies of workers and an eclectic mix of cultural texts - from Lucian Freud to Google, Anthony Giddens to selfies, Jean-Luc Nancy to Amy Winehouse - Pfannebecker and Smith lay out how the capitalism of globalized technologies has put our time, our subjectivities, our experiences and our desires to work in unprecedented ways. As every part of life is colonized by work without securing our livelihoods, new questions need to be asked: whether a nostalgia for work can save us, how ideas of work change conceptions of political community, how employment and unemployment alike have become malemployment, and whether the work of our desire online can be disentangled from capitalist exploitation. The biggest question, at a time when the end of work and a fully automated future are proclaimed by Silicon Valley idealists as well as by social democratic politicians and left-wing theorists, is this: how can we propose a post-work society and culture that we will actually want?
